

SOUTH GEORGIA TECHNICAL COLLEGE

**STUDENT HANDBOOK
AND CATALOG
2015-2016**

Welcome to

As president of South Georgia Technical College, it is my pleasure to welcome you to our college and to our family.

As a long-standing technical education institution, we are committed to providing our local communities with services and programs that best fit the needs of our area. This includes expanding educational opportunities with new programs and spurring economic development through workforce development programs and continuing education.

This Handbook/Catalog will give you the information you need for a successful experience at South Georgia Tech. Be sure to thoroughly explore this informational booklet to find options available to you while you are a student at SGTC. Not only do we offer courses for degree and diploma programs, but we also offer an abundance of student activities, awards, and recognition programs which provide an exciting campus life!

The faculty and staff of South Georgia Technical College are ready to assist you in accomplishing the goals that you have set for your future. We look forward to having you as a student at South Georgia Tech, and I extend my best wishes to you for a rewarding future.

Sincerely,

A handwritten signature in black ink that reads "S Reeves". The signature is written in a cursive, flowing style.

Sparky Reeves
President

SCHOOL CALENDAR

Crisp County Center

402 North Midway Road, Cordele, Georgia 31015
229.271.4040

Instructional Service Center

South Georgia Tech has an agreement with the Department of Juvenile Justice to operate an Instructional Service Center at the Sumter County Youth Development Center (SCYDC), 300 McMath Mill Road, Americus, GA 31719
229.931.5800

While the provisions of this document will ordinarily be applied as stated, South Georgia Technical College reserves the right to change any provisions listed without actual notice to individual students. This includes, but is not limited to, entrance requirements and admissions procedures, courses and programs of study, academic requirements for graduation, fees and charges, financial aid, rules and regulations, and the College's calendar.

It is especially important that students know it is their responsibility to keep informed of all changes, including academic requirements for graduation. The current catalog is on SGTC's website, www.southgatech.edu.

South Georgia Technical College is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award associate degrees, diplomas, and technical certificates of credit. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of South Georgia Technical College.

The three-fold purpose for publishing the Commission's address and contact numbers is to enable interested constituents (1) to learn about the accreditation status of the institution, (2) to file a third-party comment at the time of the institution's decennial review, or (3) to file a complaint against the institution for alleged non-compliance with a standard or requirement. Normal inquiries about the institution, such as admission requirements, financial aid, educational programs, etc., should be addressed directly to the institution and not to the Commission's office.

GENERAL INFORMATION

Location

South Georgia Technical College's main campus is located in Sumter County. Located six miles northeast of Americus, the College is 135 miles south of Atlanta, between Highways 19 and 49 on South Georgia Tech Parkway. The campus includes 18 buildings on a 225-acre site and offers residential accommodations to students.

Mission Statement

As a member of the Technical College System of Georgia and a residential institution of higher education, it is the mission of South Georgia Technical College to prepare individuals for success in the workforce by providing accessible, high-quality associate of applied science degrees, diplomas, technical certificates of credit, and non-credit programs and services that support the needs of citizens, businesses, and industries within our service delivery area in Southwest Georgia.

Statement of Purpose

To realize the distinctiveness of its mission, SGTC is committed to:

- Providing a broad range of campus based and on-line instructional credit and non-credit programs that lead to an associate of applied science degree, diploma, or technical certificate of credit as well as non-credit course offerings and services which support workforce development
- Supporting learner success through quality student services
- Promoting economic development through partnerships with business, industry, government and local communities
- Providing accessible educational facilities and state-of-the-art equipment and technology
- Providing a qualified faculty and staff
- Providing administrative support through analysis, planning & budgeting

History

South Georgia Technical College was established in 1948 on 55 acres of land granted by the Federal Government. It was one of the first vocational schools established in the state of Georgia. Authorization for the school was set forth by the state legislature and the State Board of Education in 1944. The purpose of the school, then known as South Georgia Trade and Vocational School, was to provide vocational opportunities to citizens that would enable them to repay the state's investment in the school.

In February of 1948, the school began operation with six programs, ranging in length from six months to one year. Eventually, 300 additional acres were added to the campus. In 1962, with the addition of technically-oriented programs, the name of the school was changed to South Georgia Technical and Vocational School.

Prior to 1958, most of the buildings and facilities on campus were

those constructed when the land was used as a military aviation field. The hangars which housed the Aircraft, Diesel, and Welding programs, were among those buildings. From 1958 to 1977, construction projects included four dormitories, a cafeteria, a gym, an administration building, and two classroom buildings. In 2000, the name of the institution was changed from South Georgia Technical Institute to South Georgia Technical College.

South Georgia Technical College is a unique residential facility, one of only two technical colleges in Georgia offering on-campus living accommodations. Campus life also includes a gymnasium, tennis courts, baseball/softball field, and a student center complete with recreational and exercise equipment. The College also has men's and women's basketball teams that are members of the National Junior College Athletic Association (NJCAA).

South Georgia Technical College offers a variety of associate of applied science degrees, diploma programs, and technical certificates of credit. In addition, continuing education classes, industry specific training, Quick Start, GED Classes, Adult Education programs, and other programs are offered to business and industry clients.

Crisp County Center

SGTC classes were first offered in Cordele at Crisp County High School in 1987. As interest grew among citizens and members of the business community, a concerted effort was made to expand the College's presence. As a result, Crisp County gained its first post-secondary educational institution. Completed in 1999, the existing 75,000 square foot facility in Crisp County provides students access to modern classrooms and high-tech training labs. In October of 2010, the Crisp County Center cut the ribbon on a new \$5.9 million, 21,000 square foot expansion to the original building. The expansion included: general core classrooms as well as labs and classrooms for the Culinary Arts, Practical Nursing, Medical Assisting, Early Childhood Care and Education, and Emergency Medical Technician programs. In addition, the Crisp County Center houses a library, bookstore, auditorium and student center. Along with associate degree, diploma, and certificate programs, other offerings include Learning Support, General Core, Adult Education, dual enrollment classes with Crisp County High School, and non-credit continuing education classes.

Accreditation/Licensure

South Georgia Technical College is accredited by the Southern Accreditation of Colleges and Schools—Commission on Colleges (SACS-COC). Aviation Maintenance, Avionics Maintenance, Practical Nursing, Cosmetology, and Barbering have achieved special professional certification as listed below.

Program

Aviation Maintenance Technology
Avionics Maintenance Technology

Barbering

Certification Agency

Federal Aviation Administration (FAA)
Federal Communication Commission (FCC)
State Board of Barbers

Cosmetology Practical Nursing

State Board of Cosmetology
State Board of Examiners of
Licensed Practical Nurses

Certain criminal offenses will prohibit a student from acquiring a license to become employed in field. For additional information, contact the Career Counselor in Hicks Hall on the main campus.

Affiliations

The South Georgia Tech chapters of Skills USA, Phi Beta Lambda, Distributive Education Clubs of America (DECA), and the National Technical Honor Society (NTHS) are affiliated with both the Georgia and National chapters of those organizations.

The curricula in all programs at the College operate under standards developed by the Technical College System of Georgia.

Advisory Committees

Each academic program of the College maintains contact with private industry through program advisory committees. A program advisory committee is a group of competent and respected business men and women of a specific craft who are interested in the school's efforts to produce quality graduates.

Program advisory committees contribute substantially as consultants in meeting business and industry needs as they relate to job skills, job placement, and follow-up surveys of school graduates.

Campus Safety

Students and Faculty/Staff should have their South Georgia Tech identification cards available for verification at all times.

South Georgia Tech employs Campus Safety officers to enforce security rules and regulations including the Code of Conduct, Traffic, and Parking Regulations. The special duty officers are employees of South Georgia Tech. The officers can issue traffic citations. Students and Faculty/Staff shall not interfere with the Campus Safety officers in the performance of their duties.

All emergencies, thefts, vehicle accidents, injuries, suspicious persons, suspicious activities, and solicitors should be reported to Campus Safety.

In concurrence with public law 101.542, annual crime statistics are compiled and distributed to currently enrolled students and employees each term in the Flight Plan publication.

Class Schedule

Classes are generally scheduled between 8 a.m. and 10 p.m. Monday to Thursday and 8 a.m. to 4 p.m. on Friday. Day classes typically meet on a flexible basis from 8 a.m. to 4 p.m. Evening classes are generally scheduled from 5:00 p.m. to 10 p.m. These classes are held from one to five hours per day. Each term consists of a minimum of 75 class days or the equivalent.

Classes do not necessarily have to meet in the classroom or lab area that is assigned to the program. Instructors may schedule field trips or live work projects that will benefit the student. All students are expected to participate

in projects as assigned by the instructor. Classes may include theory, laboratory, clinical, or field trips as part of instruction.

Curriculum

The curriculum of South Georgia Technical College is designed to meet the demands of business and industry locally, statewide and nationally in light of present and future job needs and trends.

Faculty & Staff

Faculty members of South Georgia Technical College are subject to certification standards which are equivalent to those required in other schools supported by public funds. Each faculty member is experienced in his/her respective field and maintains high standards of instruction.

GED Testing/Classes

GED preparation in all content areas is also available for those students desiring to obtain a GED diploma. All classes are free of charge. GED testing is available in Sumter and Crisp counties for a \$160 fee for the entire test or \$32 per section. For more information, call 229.931.2566 in Americus or 229.271.4040 in Cordele.

Student Insurance

Accident insurance is included for all students who pay an Accident Insurance Fee. In case of an accident, the student is responsible for any expenses not paid by this accident insurance. Accident insurance provides partial (supplemental) coverage for medical expenses related to accidents (accidental injury or death) as specified as follows:

- College: Coverage protects students while engaged in College activities during the entire term.
- Traveling: Traveling in a College furnished vehicle or chartered transportation going to or from a College sponsored activity.
- On the College premises: During the hours of the days when the College is in session or any other time while the student is required to participate in a College-sponsored activity (not as a spectator); and
- Away from the College premises: As a member of a supervised group participating in a College-sponsored activity requiring the attendance of the student (not as a spectator).

Student Handbook/Catalog

During orientation each student is advised that the student handbook/catalog is located on the SGTC website. The student handbook/catalog has detailed information on school objectives, services, policies, and regulations. It is revised as the need arises. The most current version of the handbook is posted on the web site, www.southgatech.edu.

Student Status

The normal rate of progress through a program is established by the program length in the program specific standard and program guide. Full-

time student status is obtained by registering for a minimum of twelve (12) or more credits for a program per term. However, more credits may be necessary each term to graduate on time according to the established program length. Further, taking fewer than the recommended number of credits per term may enhance scheduling difficulties and further delay graduation. It is strongly recommended that students adhere closely to their advisors' recommended course load per term.

Technical Education Guarantee (Warranty Statement)

The Technical College System of Georgia (TCSG) has developed curriculum standards with the direct involvement of business and industry. These standards will serve as the industry-validated specifications for each occupational program. These standards allow Georgia's technical colleges to offer their business partners this guarantee:

"If one of our graduates, who was educated under a standard program, and his or her employer agree that the employee is deficient in one or more competencies as defined in the standards, South Georgia Technical College will retrain that employee at no instructional cost to the employee or employer."

This guarantee applies to all graduates of SGTC who are employed in the field of their training. It is in effect for a period of two years after graduation.

Visits and Tours

South Georgia Technical College encourages citizens to visit our campuses. Prospective students are invited to visit the campuses individually, with parents or friends, or in groups. It is requested that sponsors of large (12 or more) groups coordinate their visits with the Student Affairs staff. All visitors must report to the Student Affairs office in the Odom Center, or to the front desk when visiting the Crisp County Campus.

Non-Credit Courses

Non-credit courses, such as workshops and seminars, are designed to meet the needs of residents, businesses, industries, and agencies that are not met through diploma, degree, or certificate programs. The courses vary in length, depending upon the objectives of the course. A course can be started whenever the need arises, but many are offered on a term basis. Bulletins are published and distributed on a term basis. Fees are charged on a cost-recovery basis. Please see the Economic Development section for more information.

Main Campus

900 South Georgia Tech Parkway
Americus, GA 31709-8167
229.931.2394

Crisp County Center

402 N. Midway Road
Cordele, GA 31035
229.271.4040

Course Numbering

Courses numbered 0090-0099 are Learning Support courses and do not carry credit toward graduation. General Core courses numbered 1000-1099

are diploma courses and carry credit toward graduation, as do courses numbered 1100-2999 which are associate degree courses. Occupational courses are numbered 1000-2999 (advanced level courses may begin with a 2000 number code).

Statement of Understanding

South Georgia Technical College makes no guarantee of transferability of degree, diploma program, or Technical Certificates of Credit to other institutions.

ASSURANCES

SOUTH GEORGIA TECHNICAL COLLEGE

South Georgia Technical College is operated under the supervision of the Technical College System of Georgia.

Gretchen Corbin, Commissioner

Technical College System of Georgia

Joe Yarbrough, Chairperson

Department of Technical and Adult Education State Board

STATEMENT OF NON-DISCRIMINATION AND COMPLIANCE

The Technical College System of Georgia and its constituent Technical Colleges do not discriminate on the basis of race, color, creed, national or ethnic origin, gender, religion, disability, age, political affiliation or belief, genetic information, disabled veteran, veteran of the Vietnam Era, spouse of military member or citizenship status (except in those special circumstances permitted or mandated by law). This nondiscrimination policy encompasses the operation of all technical college-administered programs, programs financed by the federal government including any Workforce Investment Act of 1998 (WIA) Title I financed programs, educational programs and activities, including admissions, scholarships and loans, student life, and athletics. It also encompasses the recruitment and employment of personnel and contracting for goods and services.

The Technical College System and Technical Colleges shall promote the realization of equal opportunity through a positive continuing program of specific practices designed to ensure the full realization of equal opportunity. The following person(s) have been designated to handle inquiries regarding the nondiscrimination policies:

Title IX—Janice W. Davis, Odom Center, Room 120, 229.931.2132
(Hearing Impaired) 229.931.2854

Section 504—LaKenya Johnson, Odom Center, Room 200,
229.931.2595, (Hearing Impaired) 229.931.2854

ADA—LaKenya Johnson, Odom Center, Room 200, 931.2595
(Hearing Impaired) 229.931.2854

Sexual Harassment—Janice W. Davis, Odom Center, Room 120,
229.931.2132, (Hearing Impaired) 229.931.2854

Confidentiality of Student Records

This College is covered by the Family Educational Rights and Privacy Act (FERPA) of 1974, which is designed to protect the student's rights with regard to educational records maintained by the College. Under this Act, a student has the right to inspect and review education records maintained by the College that pertain to the student, the right to challenge the content of records on the grounds that they are inaccurate, misleading or a violation

of privacy or other rights, and the right to control disclosures from the education record with certain exceptions. A written policy detailing how South Georgia Technical College complies with the provisions of the Act may be found on page 32 in the Student Handbook/Catalog.

Drug-Free School Statement

The possession or transfer of marijuana, crack and other mind-altering drugs is illegal under both federal and state laws. Most first offenses are felonies and punishable by incarceration from two to ten years, fines up to \$2,000 and the loss of certain civil rights. The penalty for subsequent offenses is a felony punishable by imprisonment for a period of not less than ten years, with a possible life sentence at the discretion of the judge.

Agents of the federal and state government are engaged in investigations on a continuing basis throughout Georgia. The law requires that when a felony is committed, the civil authorities shall handle the situation rather than the College's authorities. The College will cooperate with the civil authorities.

Therefore, it is the policy of South Georgia Technical College to create a drug-free campus. State and Federal legislation mandate this action. Students will be suspended if drug laws and/or school policies are violated.

There are extremely dangerous health risks associated with the use of illicit drugs and from abuse of alcohol. The Office of Student Affairs at South Georgia Technical College is prepared to offer information, assistance, and referral to other agencies to students needing assistance with any drug or alcohol-related problems.

ADMISSIONS

ADMISSIONS

Anyone desiring an Application for Admission or information concerning programs offered by South Georgia Tech should contact:

Office of Student Affairs

SGTC—Main Campus

Or, visit www.southgatech.edu.

Admissions Policy

The admissions policy and procedures of the State Board of the Technical College System of Georgia and South Georgia Technical College assure the citizens of Georgia equal access to the opportunity to develop the knowledge, skills, and attitudes necessary for them to secure personally satisfying and socially productive employment. By design and implementation, the policy and procedures governing admissions to South Georgia Technical College will:

- Be nondiscriminatory to any eligible applicant regardless of race, color, national origin, sex, disability, religion, age or marital status;
- Increase the prospective student's opportunities;
- Guide the implementation of all activities related to admission to South Georgia Tech and its programs, to student financial aid, and to the recruitment, placement and retention of students; and
- Complement the instructional programs of SGTC.

Admissions Procedures

1. Complete an application.
2. Pay a one-time non-refundable application fee of \$20.
3. Submit official high school/GED/college transcript(s).
4. Provide proof of residency and picture ID.*
5. Receive an appointment to take the placement test if needed.**
6. Take the placement test as scheduled (contact the Admissions Office if there is a conflict and reschedule testing).
7. Receive results from admissions personnel.
8. Applicant is accepted for admission when all requirements are met.
9. Apply for Financial Aid.
10. Report for orientation and registration.

* Effective January 1, 2012, all students applying for in-state tuition must provide validation of lawful presence in the United States. The following documents will serve as proof of lawful presence in the United States and documentation will be required before you are eligible for consideration of in-state tuition:

- A current Driver's License issued by the State of Georgia after January 1, 2008.
- A current ID issued by the State of Georgia after January 1, 2008.

- A current Driver's License or ID issued by a state that verifies immigration status and only issues to persons lawfully present in the United States.

The Technical College System of Georgia (TCSG) will accept the following:

- Alabama: Issued after August 1, 2000
- Florida: Issued after January 1, 2010 AND have a gold star in the upper right hand corner.
- South Carolina: Issued after November 1, 2008
- Tennessee: Issued after May 29, 2004.
- A certified U.S. Birth Certificate showing the student was born in the U.S. or a U.S. territory. A photocopy is not acceptable.
- An approved completed FAFSA for the current financial aid year.
- A current, valid Permanent Resident Card (USCIS form 1-151 or 1-551).
- A current, valid military identification card for active duty soldiers or veterans.
- A U.S. Certificate of Birth Abroad issued by the Department of State (DS-1350) or a Consular Report of Birth Abroad (FS-240).
- A current U.S. Passport.
- A U.S. Certificate of Citizenship (USCIS form N-560 or N-561).
- A U.S. Certificate of Naturalization (USCIS form N-550 or N-570).

Any student who cannot be verified as lawfully present in the United States is not eligible to be considered for in-state tuition, regardless of how long he or she has lived in Georgia. In addition to being lawfully present in the United States, students must meet the in-state tuition requirements as outlined in TCSG Board Policy and Procedure V.B.3 to warrant an in-state classification. Students that are initially classified as out-of-state and successfully petition to have their residency changed to in-state also have to meet the verification requirement.

****The placement exam may be waived if the student has completed acceptable college or technical college credit with grades of "C" in English and math courses or has SAT scores of 400 Math and 430 Critical Reading for diploma, or 440 Math and 450 Critical Reading for degree; or ACT scores of 13 Reading, 12 English, and 17 Math for diploma, or 17 Reading, 16 English, and 19 Math for degree; or has acceptable ASSET/COMPASS scores taken within the last five years.**

Admissions Requirements

- **AGE:** Students applying for admission must be 16 years or older. Practical Nursing and Medical Assisting applicants must be 17 years or older. Students must be 21 or older to enroll in Commercial Truck Driving.
- **EDUCATION:** A high school diploma or its equivalent is required for entry into most programs. Applicants having less than a high school diploma may be admitted on a conditional basis into certain programs provided they demonstrate an ability to benefit from training. All students, however, must earn a high school diploma or GED prior to receiving a diploma from South Georgia Tech. All persons will be offered the opportunity to receive remedial instruction, if required.
- **DOCUMENTATION OF HIGH SCHOOL DIPLOMA OR GED:** An official transcript from the last high school attended and all postsecondary schools is required of all students. Certificates of Attendance or Special Education diplomas are not recognized for admissions purposes. Evidence of high school graduation or its equivalent (GED)

is mandatory for enrollment in most programs at SGTC. For details, please call the Admissions office for individual program specifics.

- **HOMESCHOOLED STUDENTS:** Applicants from home schools located in Georgia who did not attend a recognized accredited program must adhere to the following alternative path for admission:
 - Submit a letter from the local superintendent's office verifying that (1) the parent or legal guardian notified the superintendent of intent to home school and (2) that the parent or legal guardian submitted the required attendance reports to the superintendent's office on a monthly basis as required by O.C.G.A. § 20-2-690.
 - Submit annual progress reports or a final transcript for the equivalent of the home-schooled student's junior and senior years. The final progress report should include the graduation date.
 - Regular admission scores on COMPASS or ASSET for the program in which the student wishes to enroll.
- **PLACEMENT TEST:** The applicant must make qualifying scores on the placement test for the course of training that he/she has chosen. Students may also be admitted on the basis of acceptable SAT or ACT scores. Reasonable accommodations are made during testing for those who need them. The examiner should be notified prior to testing if special accommodations are needed.
- **HEALTH:** Applicants must be physically able to attend college. In some programs, a student who has a physical condition that would limit participation in a class/lab should provide the instructor(s) and the Special Services and Disabilities Coordinator with a written statement indicating the student's ability to perform all class/lab requirements.
- **APPLICATIONS AND ACCEPTANCE:** Applications are processed and the names of applicants are placed on a list for programs on a first-come, first-served basis, except in competitive admissions programs. Because of the increasing demand for technical training, the chances of being accepted in the desired program are better if a student applies early.

The student's name is placed on the list for programs for the next available term when these items are in the student's file:

1. Signed application
2. Acceptable placement test scores
3. Transcript(s) from last high school attended and any post-secondary school(s) attended or GED documentation.

Types of Program Admission

Regular Admission

1. Regular admission of students to a diploma or degree program is contingent upon their meeting college admissions requirements

established for that specific program and upon their proper completion of application, assessment, and placement procedures.

2. Regular admission of transfer students to a diploma or degree program is contingent upon proper completion of application and related procedures.

Regular admission of a student to a Technical Certificate of Credit Program is based upon the admission requirements for that particular program.

Provisional Admission

Provisional admission of students to a degree program or a diploma program is based on an evaluation of test scores and other admissions file data by admission officers and upon proper completion of application procedures. Provisionally-admitted students will take Learning Support courses as designated in the program-specific standards.

All degree or diploma program students initially admitted on a provisional basis must meet regular admissions requirements for that program within twelve (12) months. Students who drop provisional classes will be withdrawn from school.

Students are not admitted on a provisional basis into Practical Nursing, Medical Assisting, Barbering, Cosmetology, Commercial Truck Driving, Heavy Equipment Dealer Service Technology, Agricultural Technology, or any technical certificate of credit program.

Learning Support Admission

A student is granted Learning Support status when he/she does not meet the regular or provisional admissions requirements. Students classified in this category are eligible to enroll in Learning Support classes only. The amount of time spent in Learning Support depends on the individual student's needs and progress made.

Special Student Admission

The Special Student admissions category is designed to be an admissions method for non-diploma seeking students who desire credit for the coursework which they may complete. Special admission status must be approved by the Director of Admissions.

A student may obtain a maximum of 15 credit hours while in this status. Special status students may request that their status be changed to regular diploma seeking before or upon reaching the maximum 15 credit hours permitted in the special category. The student must pass the placement test to become a regular student or successfully complete the designated English or math class for his/her desired program.

Transient Admission

A student may be permitted to enroll as a transient student on a space available basis in order to complete work to be transferred to a home college. A student from another college wishing to take a traditional class at SGTC should apply for transient status at his/her home school. An application marked "Transient" should be sent to SGTC along with the application fee.

The home school approves or disapproves the transient status and will forward a transient agreement for those students approved. A transient student should be advised by his or her home college advisor concerning recommended courses.

An SGTC student wishing to take a traditional class at another college is required to complete a Transient Request form located in the admissions office. A student must be in good standing, must have regular admitted status, must not have holds place on their account, and the courses they are applying for must be in their curriculum. Once approved by the Registrar and Financial Aid Director, a transient agreement will be sent to the host school. The student is responsible for applying and paying all application fees to the host school. Student may not be a beginning (first term) student. Transient students may not take classes at another institution that are currently offered at their home school.

An SGTC student wishing to take an online class at another college should apply for transient status through GVTC and follow the online procedures. Students must meet the same requirements as stated above. Please see the paragraph below for SGTC online procedures for more information.

Online (GVTC) Admission

SGTC offers courses online through the Georgia Virtual Technical Connection. Persons interested in enrolling in online classes should go to www.southgatech.edu and click on Online Learning to review the Student Information Page for online learning. Students who have completed admissions requirements may register for an online course through their program advisor after verifying the hardware/software requirements and viewing all the information under online learning on the SGTC website. Contact the Admissions Office for an application or you may apply online. For more information regarding online courses, contact the Distance Education Coordinator at (229) 931-2705.

International Students

Applicants to South Georgia Technical College from foreign countries who need issuance of an I-20M or I-20F to obtain a student VISA must:

1. Submit an application for admissions with the one-time, non-refundable \$20 (US dollars) application fee.
2. Submit an official English translated high school transcript which has been evaluated by an outside agency showing that the requirements of the secondary institution have been met.
3. Have acceptable scores on SAT, ACT, or Compass Exam and/or TOEFL (Test of English as a Foreign Language). Proficiency in English is required for acceptance.
4. Submit a certified statement that finances are available to cover the year's educational expenses. For more information regarding F-1 and/or M-1 I-20's, please refer to <http://www.ice.gov/sevis>.

Admission of Special Needs Students

Within a framework of personal guidance and evaluation, special services

are provided for the disadvantaged and/or disabled student. These services include aiding students in setting realistic goals, placement assistance, and suggesting community service agencies for additional assistance.

Rehabilitation Services

Rehabilitation Services provides assistance to qualified students who have physical, mental, or emotional disabilities. Application is made through the local office of the Department of Labor Vocational Rehabilitation Program.

Competitive Admission

Due to the large number of applicants for the Practical Nursing Program, effective May 4, 1994, South Georgia Tech implemented a competitive admissions process for entrance into the Practical Nursing program.

In order to compete for the LPN program, students must complete the following four courses: college-level English, college-level math, Psychology, and Structure and Function of the Human Body. Students must then take TEAS V test and score a minimum of 50% (Basic Level). The students with the highest GPAs of the four courses are the ones accepted to the program. In the event of a GPA tie, the student with the highest TEAS V score will be accepted.

Effective June 20, 1995, SGTC implemented a competitive admissions process for 2nd-5th terms entrance in the Practical Nursing program. An individual is evaluated based upon his/her numeric score (100 possible points) on a competency-based written examination. The individuals with the highest scores will be accepted to fill the available places for the next program entrance date.

Other programs which have a large number of applicants may consider a competitive admissions process for the future.

HIGH SCHOOL INITIATIVES

SGTC's high school programs provide an opportunity for high school students to receive postsecondary instruction and possible advanced placement into their program of choice. High school students in SGTC's service area have five opportunities to participate in seamless education with the ACCEL Program, Dual Enrollment HOPE Program, Joint Enrollment Program, Move On When Ready (MOWR) program, and Technical Advanced Placement (TAP).

ACCEL Program

ACCEL gives Georgia high school juniors and seniors an opportunity to enroll in college and take college coursework. Credit for the coursework, if completed satisfactorily, is applied toward the student's high school course requirements and toward a college degree program. To be eligible for ACCEL, a student must meet all Georgia and U.S. citizenship requirements for HOPE Program eligibility. Residency and citizenship eligibility will be determined by South Georgia Technical College.

Courses must be in one of the five College Preparatory Course areas: English/Language Arts, Mathematics, Science, Social Science, and Foreign

Language. A complete, approved course listing can be found on the Georgia Student Finance Commission website at www.gsfc.org, or call 1-800-505-GSFC.

ACCEL is not available during the summer term. The ACCEL Program is administered by the Georgia Student Finance Commission.

Dual Enrollment Hope Program

Through the Dual Enrollment Hope Program (for diplomas and/or technical certificates of credit) postsecondary educational opportunities are provided to Georgia students who are still in high school. A student must first meet the requirements of his/her local school system to establish eligibility for participation in any dual enrollment program with South Georgia Technical College. A student who successfully completes courses through this program can earn both high school Carnegie unit credit and South Georgia Technical College credit hours. Students should be on track for graduation and must meet all South Georgia Technical College admission requirements for the selected program of entry.

Joint Enrollment Program

The Joint Enrollment Program is available to Georgia high school juniors or seniors who wish to enroll in South Georgia Technical College courses for postsecondary credit only. The Georgia Student Finance Commission only provides funding for joint enrollment diploma or certificate courses taken at public postsecondary institutions.

Students should be on track for graduation and must meet all South Georgia Technical College admissions requirements for the selected program of entry.

Move On When Ready (MOWR)

This dual enrollment program allows eligible high school juniors and seniors to work toward the completion of their Georgia High School diploma by enrolling full time in an eligible college or university or public technical college—like South Georgia Technical College—to earn both high school and college credit simultaneously.

MOWR students will not be required to pay tuition and fees out of pocket or through the state's HOPE grants and scholarships. Instead, Georgia Department of Education funding will cover these costs. Books, transportation, and other incidental costs will be the responsibility of the student and his or her parent/guardian.

To be eligible for MOWR, students must meet entrance requirements for South Georgia Technical College, and must complete advisement with his or her high school counselor and a college advisor.

Technical Advanced Placement (TAP)

TAP allows students the opportunity to receive technical college credits for selected courses taken while in high school. TAP status can be earned at South Georgia Technical College by transferring high school coursework into a selected career major at South Georgia Technical College.

To receive credit a student must:

- Complete the eligible high school course(s) with a passing grade
- Submit high school transcript to SGTC
- Meet the admissions requirements at SGTC
- Request to take a SGTC exemption test(s) and score a 70 or above
- Enroll at SGTC within two years of high school graduation

Americus Sumter High School, Crisp County High School, Macon County High School, Schley County High School, Marion County High School, and Webster County High School participate in the TAP Program at SGTC. Students entering SGTC from other Georgia high schools can submit high school transcripts to be reviewed for TAP credits as well. For more information on the programs above, call (229) 931-5161.

ACADEMIC REGULATIONS

The Semester System

The Technical College year is divided into two periods of approximately 15 weeks each, known as the Fall and Spring Semester, and a Summer term of approximately 10 weeks. New courses are begun each term; hence, it is possible for students to enter the Technical College at the beginning of any semester or term.

Semester Hours Of Credit

Credit in courses is expressed in semester hours. A semester hour of credit represents not less than:

1. One hour of classroom or direct faculty instruction and a minimum of two hours out of class student work each week for approximately fifteen weeks for one semester or
2. At least an equivalent amount of work as required outline in item 1 above for other academic activities as established by the institution including laboratory work, internships, practica, studio work, and other academic work leading to the award of credit hours.

Registration

Registration for classes is held before the beginning of each term. Students are notified of these dates. During the registration period, students must see their advisors for assistance in completing class schedules and must go to the Business Office/Financial Aid Office to pay tuition and fees. New students are notified by mail to register on specific dates.

Academic Advisement

Academic advisors are assigned to new students. Advisors assist students in making course selections and planning their overall programs of study.

Change of Program (Diploma to Degree)

A student who desires to change from diploma status to degree status should consult with his or her program advisor. The Change of Program form, which can be obtained in the Student Affairs office, must be completed and the student must meet degree admissions requirements. Changes must be made prior to the effective term. The student must also consult with the Financial Aid Office about the change.

Program Transfer

Students who transfer from one diploma/degree/certificate program to another diploma/degree/certificate program within the College will be given full credit for all courses common to both programs. The procedure for a transfer to another program is as follows:

1. **Complete a Change of Program form in the Student Affairs Office.**
2. **Meet all admission requirements for the new program.**
3. **Have change approved by the Director of Admissions.**
4. **The student must inform the Financial Aid Office of the change.**

Full-Time

Students must register for 12 or more credit hours to be considered full-time and to receive financial aid as a full-time student.

Grade Reporting

Grade reporting will be completed immediately following the end of each term. Students may view their grades through the Banner Web system.

The following grading system is in effect at South Georgia Tech.

A	=	90 - 100	=	4 Quality Points
B	=	80 - 89	=	3 Quality Points
C	=	70 - 79	=	2 Quality Points
D	=	60 - 69	=	1 Quality Point
F	=	0 - 59	=	0 Quality Points
I	=	Incomplete		
EX	=	Exempt (Not Computed in Quality Point Average)		
IP	=	In Progress		
TR	=	Transfer Credit (Not Computed in Quality Point Average)		
WF	=	Withdrew Failing = 0 Quality Points (Computed in Quality Point Average)		
WP	=	Withdrew Passing (Not Computed in Quality Point Average)		
W	=	Withdrew Class (Not Computed in Quality Point Average)		
AU	=	Audited		
AC	=	Articulation		

Learning Support courses are graded on an A* through F* scale. These grades are not used in calculating a student's grade point average.

An "I" assigned at the end of the semester must be removed by mid-term (38th class day) of the following term. If the "I" is not removed, the grade will be changed to an "F".

The grade point average is computed by multiplying the credit hours assigned a course by the quality points earned. The sum of the quality points divided by the total number of credit hours attempted produces the grade point average. This average is printed at the bottom of each term grade report. Only grades of C (70) or higher will count toward graduation. A grade of D (60-69) is not passing and the course must be repeated in order to receive credit.

Graduation Grade Point Average

The graduation grade point average is calculated using only those courses required for graduation. (For example, if a student took classes in Welding, but is graduating in Cosmetology, then the Welding classes are not calculated in the GPA for graduation.) A 2.00 GPA is needed for graduation.

The Semester Grade Point Average

The semester GPA is that average calculated based on all credit courses taken each term. The semester grade point average is used for determining the President's List.

The Cumulative Grade Point Average

The cumulative GPA is that grade point average calculated on all attempts at all credit courses taken at the institution. It is recalculated after each term to include the current term's grade(s).

Neither transfer credit (from another institution) nor Exemption credit (earned at SGTC) are calculated in the GPA. Work ethics grades are not used in calculating GPA.

Academic Probation and Suspension

Academic probation is a warning to the student that an improvement in grades must be made to remain as a student of SGTC.

A student who does not maintain a 2.00 Grade Point Average (GPA) for all courses taken during a term will be placed on academic probation. A student placed on academic probation must earn a 2.00 GPA the following term to remain enrolled. A student who does not meet the GPA of 2.00 at the end of the term while on academic probation will be terminated from school for one term. When the student returns after the term of academic suspension, he/she remains on probation and must successfully complete that term with a 2.00 GPA.

Students are notified of the academic status by their grade reports on Banner Web each term.

Work Ethics

A Work Ethics grade (0,1,2 or 3) will be given each term for all credit courses. The term's Work Ethics grades, which remain separate from academic grades, will not affect the academic grade point average (GPA) of a student. The Work Ethics grade(s) can be viewed on the grade report through the BannerWeb system.

Evaluation of student work ethics uses a rating scale based upon a definition of the expected behavior of a good employee. Points are assigned to evaluate work ethics traits as follows:

Exceeds Expectations = 3 points

Meets Expectations = 2 points

Needs Improvement = 1 point

Unacceptable = 0 points

The Work Ethics grade is designed to evaluate and encourage good work habits. Performance factors and indicators include, but are not limited to, quality of work, ability to follow instructions, productivity, dependability, honesty, reliability, attendance and punctuality, attitude, integrity, enthusiasm, interpersonal skills, and initiative.

Academic Honesty

SGTC is strongly committed to maintaining and developing a high standard of work ethic. For this reason, the College condemns academic dishonesty, including, but not limited to the following: cheating, plagiarism or other appropriation of other's work as your own, and falsifying records or assignments.

Discipline for academic dishonesty involving work in a specific course shall be determined by the instructor of that course. The discipline may include failure of the assignment or project, or it may include failure of the course.

Academic Freedom Policy and Procedure

- A. Policy:** South Georgia Technical College supports the concept of academic freedom. In the development of knowledge, research endeavors, and creative activities, faculty and students must be free to cultivate a spirit of inquiry and scholarly criticism. Faculty members are entitled to freedom in the classroom regarding discussion of their course information. Caution must be used not to introduce ideas and materials unrelated to the course. Faculty and students must be able to examine ideas in an atmosphere of freedom and confidence and to participate as responsible citizens in community affairs. Faculty members must fulfill their responsibilities to society and to their profession by manifesting competence, professional discretion, and good citizenship. They will be free from institutional censorship or discipline, when speaking or writing as citizens. As professional educators, faculty members must be accurate, exercise appropriate restraint, show respect for the opinions of others, and make every effort to indicate they are not speaking for the institution. The principles of academic freedom shall not prevent the institution from making proper efforts to ensure the best possible instruction for all students in accordance with the objectives of the institution.
- B. Procedure:** South Georgia Technical College supports the concept of academic freedom. Faculty and students are free to cultivate a spirit of inquiry and scholarly criticism in the classroom. Faculty and students are able to examine ideas in a learning atmosphere of freedom and confidence. To ensure academic freedom, any faculty member who believes his/her academic freedom has been violated may follow the Employee Grievance Procedure outlined in the Employee Handbook. Any student who believes his/her academic freedom has been violated may follow the Grievance Appeal Procedure for students outlined in the Student Handbook and Catalog.

Grade Appeal Procedure

Students have the right to question any grade he/she feels is unjust. All questions must be directed to the instructor involved. The instructor should provide an adequate explanation and documentation (if applicable) for the grade received. A conference form (or other proper documentation) should be completed, signed by the student and the instructor, and placed in the student's file in the instructor's office.

If a student is not satisfied with the results reached in the above procedure, he/she may appeal as follows no later than the last day of class of the following term:

1. Submit, in writing, a complete description of the complaint to the Dean for Academic Affairs, Room 104, Odom Center. Within fifteen (15) working days, the Dean for Academic Affairs shall investigate the grievance. The results and recommendations of the investigation will be reported, in writing, to the student, the instructor, and the Vice President for Academic Affairs; a copy of the results will also be filed in the student's folder in the instructor's office and in the Registrar's Office. Crisp County Center (CCC) students will submit appeals to the Vice President for Academic Affairs.
2. If satisfactory results are not reached when the above steps have been taken, the student may submit, in writing within five working days, a complete description of the complaint to the Vice President for Academic Affairs, Room 104, Odom Center. Within fifteen (15) working days, the Vice President for Academic Affairs shall investigate the grievance. The results and recommendations of the investigation will be reported, in writing, to the student, the instructor, and the Dean for Academic Affairs; a copy of the results will also be filed in the student's folder in the instructor's office and in the Registrar's office.
3. If the student does not agree with the decision of the Vice President for Academic Affairs, the decision may be appealed within five working days to the President, Pope Center Room 116. The President has 15 working days to respond. The decision of the President is final.

President's List

To qualify for the President's List, a student must be enrolled for 12 or more credit hours, be a regular-admitted student, be in a diploma or degree program, and have a 4.00 GPA for that term's work. The President's List will be published in the SGTC Flight Plan.

Attendance Policy

Students enrolled in technical programs are preparing themselves for direct entry into the workforce. Employers state that the main quality sought in potential employees is dependability and punctuality. Because of the importance of student attendance records, students are expected to be present and prompt for all class sessions.

As adults, at times students may have reasons for being absent. However, attendance standards must be set in order for the student to meet the objectives of the training program in which the student is enrolled. Therefore, students may be subject to dismissal from a class for excessive absences.

All classes will begin and end at the scheduled time. Students will be marked tardy for any class time missed up to 15 minutes. Three tardies will count as one hour's absence. All class time missed longer than 15 minutes will be counted as a full hour.

A student who is absent ten percent of consecutive class meetings without approval from the instructor may be dropped from the roll. Absences beyond 10 percent of the scheduled class time per semester are considered to be excessive.

Any class work missed due to student absence without documentation may be made up at the discretion of the instructor; any disputes related to missed work should be directed to the Dean for Academic Affairs. With valid documentation, the student may make up all class work or tests missed. Each program has a specific attendance policy that will be explained to the students on the first day of class. Students may be requested to furnish documentation for absences.

Student dismissal for excessive absences will be based on recommendation from the instructor and will be the decision of the Dean for Academic Affairs.

Dropping or Adding Courses/Withdrawal from School

A change in a student's schedule is not official until the drop/add form has been processed by the Registrar's Office.

Classes dropped during the first three (3) instructional days of the term will not appear on the student's official academic record and will receive a 100% refund. This is only for the first three instructional days of the term, not necessarily the first three days of the student's individual class.

Students who withdraw or drop classes after the third instructional day will receive an appropriate W grade and shall receive no refund of tuition and fees. If a student receives a WF, that grade is averaged in the GPA as the equivalent of an F.

If the student should decide to withdraw from the College, the student should contact the program instructor to initiate withdrawal from college. The form is obtained from the Student Affairs Office. Following this procedure protects the student's privileges of re-admission and transferring credits to another institution. Any student who withdraws from class(es) or from the College without submitting an official withdrawal form does so at the risk of having future registration privileges withdrawn and also forfeits any refunds that may be due. Students who officially withdraw from class(es) or the College may be entitled to a refund based on the refund policy.

Auditing

Students may be permitted to audit selected classes provided space is available (program enrolled students receive priority). Fees for auditing courses are the same as those required for credit class. Students are not permitted to change from audit to credit or from credit to audit after 10% of scheduled class time has elapsed. Students auditing classes are not required to take exams; however, the instructor may request that students demonstrate required knowledge before being allowed to perform certain tasks or to operate equipment. A grade of "AU" will be assigned to an audited class.

Re-Admission

Students dismissed or suspended from the College because of administrative action, absenteeism, or academic reasons may apply to re-enter at the beginning of any term following the dismissal or suspension period if appropriate classes can be arranged. Application to re-enter must be made through the Admissions office. Re-application does not guarantee

acceptance. If any student who has previously been enrolled in a program at SGTC and interrupts his/her attendance for one term then re-enrolls at the College, he/she will be required to complete the curriculum requirements in place at the time of re-enrollment.

Advanced Placement/Prior Learning Assessment

South Georgia Technical College supports the concept of advanced placement and assessment of prior learning. SGTC is aware that the equivalent to technical level learning may occur in a variety of settings. Advanced placement allows a student to receive course credit based on previous experience, formal or informal, and results in advanced standing within a diploma area.

Credit will be awarded when training experience corresponds closely with courses offered at South Georgia Technical College. The Registrar and Dean for Academic Affairs will evaluate each request and award credit when appropriate. A grade of "EX" will be posted on the student's transcript to denote when credit is awarded. Exemption credit is not calculated in the grade point average.

Institutional Exemption Exam

South Georgia Technical College allows students to exempt classes by demonstrating thorough mastery of written and/or performance exams that have been developed by each program and adequately demonstrates achievement of the necessary competency level.

Each program has a published list of courses that can be exempted. These lists are available in the Academic Affairs Office.

A student may apply for exemption by completing the Institutional Exemption Exam form (see instructor or advisor). There is a per credit hour fee of 25% of tuition for the course to take the exemption exam, payable with the Institutional Exemption Exam Form. (Fee subject to change without notice.) No fee shall be charged to students taking an exam to validate articulated credit from high school.

The exemption exam for a particular class can be taken only once. A student must score an 80% or above for successful completion of the exam.

A student who enrolls in a course and receives a WF or a failing grade may not take the exemption exam for that specific course.

A grade of "EX" is assigned to an exempted course.

Transfer Credit

Transfer credit may be awarded for courses completed with a "C" or better from a college, university, or other postsecondary institution accredited by a regional or national accrediting agency recognized by the U.S. Department of Education. Transfer credit may be awarded for military training or corporate courses where appropriate. There is no charge for transfer credit.

Students desiring transfer of credit must (1) furnish the Registrar with an official transcript from a college, university, or other postsecondary institution accredited by a regional or national accrediting agency recognized by the U.S. Department of Education; (2) furnish a catalog or official course

description and/or syllabus if required; and (3) make a request to the Registrar for transfer credit.

The Registrar, in conjunction with the appropriate Dean for Academic Affairs, the Curriculum Committee, and involved program faculty member(s) when necessary, will evaluate all pertinent course information and award transfer credit when appropriate. SGTC reserves the right to test proficiency to verify mastery of current competencies for all coursework that is being considered for transfer. Transfer credit will be posted to the student's transcript which is on file in the Student Affairs Office. Transfer credit will be indicated by the use of the letters "TR" and is not calculated in the grade point average.

Military Training Credit Policy

Credit may be awarded to students who have received training in the Armed Forces. Students requesting credit for Armed Forces' training should submit a training certificate to the Registrar.

This training should be certified by the Guide to the Evaluation of Education Experience in the Armed Services, published by the American Council on Education or by the official Catalog of the Community College of the Air Force.

All students receiving educational benefits from the Veterans Administration must furnish a training certificate from any Armed Forces' training and will be given credit for any class(es) which is required in their program of study at SGTC.

Transcript Request

Students desiring transcripts must direct their request, in writing, to the Registrar's Office. All transcripts will include the entire academic record, and no partial or incomplete record will be issued as a transcript. Though transcripts are normally issued promptly, requests should be made several days before the document is required, particularly at the beginning or end of a term. The first transcript is free. Additional transcripts are \$5 each, payable at the time of request. A transcript will not be issued when the record shows indebtedness to the College. This indebtedness may include, but is not limited to, fees for unreturned library books, parking fines, dorm damage, etc.

Forfeiture Of Credit

By registering for a course for which the student has already received credit, a student forfeits the previous credit in that course for graduation purposes. The student's official grade in the class will be the one earned on repetition. Although both grades remain on the record and are computed in the cumulative Grade Point Average, only the final attempt will be calculated for the purpose of graduation requirements.

Graduation and Diploma Policy

All diploma or degree program students must achieve regular program admission status prior to applying for graduation. All students eligible for

graduation are encouraged to participate in the ceremony. This includes all students who have completed programs of study since the previous graduation. Graduates with a cumulative GPA of 3.90 or higher will be recognized at presidential honor graduates. Those graduates with a cumulative GPA of 3.70-3.89 will be recognized as honor graduates. Both presidential honor graduates and honor graduates will be recognized as honor graduates and will be given an honor stole to wear with their cap and gown at graduation exercises. Students with any incomplete graduation requirements will not be eligible to receive honors recognition.

Effective April 1992, a GED or high school diploma is required for graduation from any degree or diploma program at South Georgia Tech. In addition to a GED or high school diploma, to be eligible for graduation, each student must satisfactorily complete the program of study as outlined by each department. A graduation grade point average of at least 2.00 is required for graduation. The graduation grade point average is calculated only on those courses required for graduation. When a class is taken more than once, the most recent grade will be used in calculating the grade point average for graduation.

It is the student's responsibility to complete an Application for Graduation and make payment of the graduation fee. It must be submitted to the Student Affairs Office 45 class days prior to the date of expected graduation. The application must be signed by the student's advisor. The student's records will be evaluated as to successful completion of the program.

Effective Fall Quarter, 1991, the following policy concerning class requirements for graduation was implemented:

Any student enrolling in programs at South Georgia Technical College will be allowed to graduate under the terms of the curriculum in place at the time of registration. This policy will remain in effect provided the student does not interrupt attendance at the College for one term or is enrolled in an approved co-op program with the College.

If any student who has been previously enrolled in a program at South Georgia Technical College does interrupt attendance for one term and re-enrolls at the College, the student will be required to complete the curriculum requirements in place at the time of re-enrollment. Co-op students will be allowed two consecutive terms before being required to complete curriculum requirements from the time of re-enrollment.

Residence Requirements for Degree/Diploma

South Georgia Technical College requires that a minimum of twenty-five percent (25%) of the course work of a particular program of study be completed at South Georgia Technical College.

Student Privacy Rights

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. They are as follows:

- 1. The right to inspect and review the student's education records within 45 days of the day SGTC receives a request for access.**

Students should submit to the Registrar a written request that

identifies the record(s) they wish to inspect. The SGTC official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the school official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2. **The right to request the amendment of the student's education records that the student believes are inaccurate or misleading.** Students may ask the college to amend a record that they believe is inaccurate or misleading. They should write the SGTC official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If SGTC decides not to amend the record as requested by the student, the college will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
3. **The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.** One exception which permits disclosure without consent is disclosure to college officials with legitimate educational interests. A college official is a person employed by SGTC in an administrative, supervisory, academic, research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom SGTC has contracted (such as an attorney, auditor, or collection agent); a person serving on a school board; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.
4. **The right to file a complaint with the U.S. Department of Education concerning alleged failures by SGTC to comply with the requirements of FERPA.**

The name and address of the office that administers FERPA is:

**Family Policy Compliance Office
U.S. Department of Education
600 Independence Avenue, SW
Washington, DC 20202-4605**

In accordance with the federal law outlined above, SGTC will release the following information as directory information:

- **Full name of student**
- **Address(es)**
- **E-mail address(es)**

- **Major and field(s) of study**
- **Degrees and awards including nature and date received**
- **Dates of attendance**
- **School or division of enrollment**
- **Enrollment status** (i.e., full or part-time, undergraduate, graduate)
- **Name of institution last attended** (if available)
- **Participation in official sports and activities**
- **Height and weight of athletic team members**
- **Photograph(s)**

FERPA Objection

Any adult student or minor student's parent who objects to the release of this directory information under the Family and Educational Rights and Privacy Act should file an objection in writing clearly stating what directory information should not be released to third parties. Forms are available in the Registrar's office for filing a FERPA Objection.

Another federal law, known as the Solomon Amendment, requires South Georgia Technical College to release student recruitment information to military recruiters. Student recruitment information is defined as: name, address, telephone number, age, major, date(s) of attendance (quarter of enrollment), degree awarded.

If you do not wish to have student recruitment information released to third parties, you may file a FERPA Objection in the office of the Registrar.

FINANCIAL INFORMATION

Student Fees–Credit Courses

South Georgia Technical College is a tax-supported state institution. Therefore, the cost of attendance is minimal. All fees are payable at registration for each term/course except as noted.

FEES ARE SUBJECT TO CHANGE AT THE BEGINNING OF ANY TERM OR COURSE. Most credit cards are accepted.

Fee Information:

Diploma & Degree

Program Tuition:

\$89 per credit hour, up to a maximum of 15 credit hours plus fees (except for specified certificates listed below).

Law Enforcement Academy

Tuition:

\$105 per credit hour plus fees

Commercial Truck Driving

Certificate Program Tuition:

\$132 per credit hour plus fees

Fuel Surcharge Fee:

\$185 per student per term
(Applies to Commercial Truck Driving Students only.)

Instructional Fee:

\$50 per student per term

Activity Fee:

\$50 per student per term

Accident Insurance Fee:

\$4 per student per term

Registration Fee:

\$50 per student per term

Technology Fee:

\$105 per student per term

Athletic Fee:

\$35 per student per term

***ROOM AND BOARD FEE** (If applicable): The cost of a semi-private dorm room is \$2,400 per bed per term for James Hall and Martin Hall. This includes meals at the SGTC cafeteria.

Important Notes Regarding Fees

1. Fees listed above are for legal residents of Georgia. They include tuition, registration, activity, accident insurance, dormitory, instructional/ technology fee, athletic fee, instructional fee, and cafeteria fees. The tuition for out-of-state students is twice the tuition rate (\$178) per credit hour paid by legal Georgia residents. International students pay four times the tuition (\$356) per credit hour required for legal Georgia residents. This applies to non-immigrant aliens, those on I-20 Foreign Student Visas, and foreign residents to include diplomatic, consular, mission, and other non-immigrant personnel. Foreign immigrants who are permanent residents shall pay the same tuition as citizens of Georgia**.
2. ****Legal resident of Georgia for last twelve months.** Liability Insurance is required for all Practical Nursing, EMT, Early Childhood Care and Education, Barbering, Medical Assisting,

Cosmetology and related health occupation students. The annual fee for this insurance is determined by the SGTC insurance carrier's policy in effect.

3. Any student who wants to take more than 25 credit hours per term MUST have prior authorization from the Dean for Academic Affairs or from the Vice President for Academic Affairs. This approval must be obtained during the advisement process.

Application Fee

An individual's first application for admission must be accompanied by a nonrefundable \$20 application fee. Former SGTC students are not required to pay a second application fee.

Graduation Fee

The graduation fee is non-refundable, and is \$35.

Testing Fee

An admissions retest fee of \$15 per test is charged for retesting any of the admissions entrance tests.

FAA Testing Fee

FAA Testing Fee for each part is \$200 for a total of \$600 for the three tests.

Diploma and Certificate Replacement Fee

A diploma replacement fee of \$25 is charged for replacement of each diploma.

Late Registration Fee

A late registration fee of \$45 is charged for late registration of classes once the term's classes have begun.

Transcript Fee

A transcript fee of \$5 is charged for each official transcript from SGTC.

Books, Tools, and Uniforms

Every student is required to have books, tools, uniforms, and other equipment appropriate for his or her program of study. Some programs require students to purchase tools which are also useful in the student's employment following graduation. All books required may be purchased from the College's Bookstores.

Senior Citizens

Residents of Georgia who are 62 years of age or older may request a waiver of tuition. If tuition is waived under this policy, admission will be granted only on a space available basis. Proof of age must be presented at registration to receive a waiver. This policy applies to regular and institutional credit courses only. It does not apply to continuing education courses, non-credit courses, or seminars. Fees will still be due at time of registration.

Delinquency in Payment

A student who is delinquent in the payment of any financial obligation(s) may be withdrawn from his or her course(s) and/or the dormitory at the College and will not be allowed to register for another term until the delinquency is removed. The student will not be issued any grades, transcripts, diplomas, or other student records until all financial obligations are paid.

Personal Checks

Check writing is a privilege extended for payment of fees. Abuse of this privilege will result in fees being paid by cash, money order, or cashier's check. Proper identification is required.

Charges for Returned Checks

A charge of \$30 will be assessed for any check returned to SGTC for insufficient funds, accounts closed, or stop-payment on the account. This charge must be paid in cash when the check is picked up at the Business Office.

REFUND POLICIES

Refunds, when due, are made within 45 days (1) of the last day of attendance if written notification has been provided to SGTC by the student, or (2) from the date SGTC terminates the student or determines withdrawal by the student.

Tuition and Fees

Students withdrawing from a course before the end of the third instructional day of the term shall receive a 100% tuition refund of the applicable tuition (hours below the 15-hour tuition cap) and applicable refundable fees, excluding the application fee. Exceptions may be allowed for customized courses that do not follow the college's standard academic calendar.

Students who withdraw from a course after the third instructional day of the term shall receive no refund.

For those students receiving federal financial aid, the College shall make available consumer information that may be found at www.ifap.ed.gov. Although there will be no refund of tuition and fees after the third instructional day, withdrawing students receiving Federal Pell Grant will have awards adjusted in compliance with the Return to Title IV process (R2T4) outlined in the Federal Student Aid Handbook.

Refunds of Books and Supplies

No refunds shall be made for used supplies and equipment such as cosmetology kits, diskettes, tools, and uniforms.

Refunds shall be made for books that are returned in new condition and accompanied by a receipt in accordance with the College's book

refund policy. The book refund policy is prominently posted in the college bookstores.

Room and Board

Room and board charges for students who properly check out of the dorm before the close of the term are calculated on a weekly basis with Sunday as the first day of the week. Refunds will be mailed to the student's address on file or distributed within 45 days after withdrawal.

FINANCIAL AID

Below is a brief description of the types of financial aid available at SGTC. If you need further assistance, please contact the Financial Aid office, which is located in Room 101 of the Odom Center on the Americus Campus at 800.928.0283 or 229.931.2319 or in Room A43 at the Crisp County Campus at 229.271.4043.

Non-Repayable Grants

South Georgia Technical College offers non-repayable grants to help cover the cost of attendance. SGTC does not participate in Title IV student or parent loans.

FEDERAL STUDENT AID PROGRAMS

Federal Pell Grant (Title IV Recipients)

Federal Pell Grants are awarded based upon financial need as determined by the information provided by the student when completing the Free Application for Federal Student Aid (FAFSA). This application is required annually (July 1 to June 30) to determine eligibility for the Federal Pell Grant. The amount awarded depends upon the student's financial need index, combined with the number of credit hours taken.

To receive the Pell grant, a student must be enrolled with a regular or provisional status in a Pell-eligible program. Pell Grants are not available to anyone who has received a bachelor's degree (or higher) has received an overpayment of Title IV funds, or is in default of any form of Student Loan. Must have received your High School Diploma or GED, or have passed the Ability to Benefit test to be eligible for federal aid.

South Georgia Technical College's Title IV Institution Code is 005617

- Go to www.fafsa.ed.gov to apply for the Federal Pell grant
- Go to www.pin.ed.gov to register for your PIN in order to sign your application electronically
- To view Financial Aid online:
 - Go to www.southgatech.edu and click the link for "Banner Web"
 - Click "enter secure area"
 - Social Security Number is the User ID
 - Date of birth is the PIN (MMDDYY)
 - Click "Student Services and Financial Aid"
 - Click "Student Records"
 - Click "Account Summary by Term"
 - Any financial aid on your account will be reflected on this screen

Federal Work Study Program

Students who are eligible for the Federal Pell Grant may be eligible for Work Study positions. These are minimum wage jobs relating to the student's area of training and are available on a limited scale for students who apply and are selected. A student that is hired for a work study position must complete all required employment forms as well as submit to a criminal

background check before beginning work. For further information, contact the Financial Aid office on your campus.

Federal Supplemental Educational Opportunity Grant (FSEOG)

The Federal Supplemental Educational Opportunity Grants are available for students with exceptional need. Students must be undergraduates enrolled in an eligible program leading to a degree or diploma at an eligible College. Students must be enrolled at least one quarter to receive FSEOG. Students must meet citizenship requirements as required for all Title IV programs, as well as all other eligibility requirements listed in the Federal Student Financial Aid Handbook. Priority for supplemental grants will be given to students with the lowest EFC, the greatest need, and the highest cumulative grade point average. These students must receive a Federal Pell Grant to be considered. The Financial Aid office will use the results from the student's FAFSA to determine eligibility. The maximum FSEOG a student may receive per academic year will depend on the availability of funds.

STATE STUDENT AID PROGRAMS

ZELL MILLER SCHOLARSHIP

Overview

Georgia's Zell Miller Scholarship is available to Georgia residents who have demonstrated academic achievement. The scholarship provides money to assist students with their educational costs of attending a HOPE-eligible college in Georgia.

Eligibility

To receive Zell Miller Scholarship funding, students must meet all HOPE Scholarship eligibility requirements and:

1. Meet **one** of the following academic requirements:
 - Graduate from an eligible high school as the valedictorian or the salutatorian.
 - Graduate from an eligible high school with a minimum 3.7 grade point average combined with a minimum score of 1200 on the math and reading portions of the SAT test or a minimum composite score of 26 on the ACT test in a single national test administration.
 - Complete an eligible home study program with a 3.7 grade point average combined with a minimum score of 1200 on the math and reading portions of the SAT or a minimum composite score of 26 on the ACT in a single national test administration.
 - Complete an ineligible home study program with a minimum score of 1200 on the math and reading portions of the SAT test or a minimum composite score of 26 on the ACT test in a single national test administration, and then earn a 3.3 grade point average on 30 semester hours or 45 quarter hours of college degree-level coursework taken after home study completion. This option allows retroactive payment of the first 30 semester hours or 45 quarter hours after they are taken.

- Enroll in an eligible post-secondary institution in 2007 or later, as a freshman, meeting one of the academic qualifications listed above and earn a 3.3 cumulative grade point average at the most recent HOPE Scholarship checkpoint
- 2. Meet HOPE's U.S. citizenship or eligible non-citizen requirement.
- 3. Meet HOPE's Georgia residency requirement.
- 4. Be enrolled as a degree-seeking student at an eligible public or private college or university or technical college in Georgia
- 5. Be in compliance with Selective Service registration requirements.
- 6. Maintain satisfactory academic progress as defined by the college.
- 7. Not be in default or owe a refund on a student financial aid program.
- 8. Be in compliance with the Georgia Drug-Free Postsecondary Education Act of 1990. A student may be ineligible for Zell Miller Scholarship payment if he or she has been convicted for committing certain felony offenses involving marijuana, controlled substances, or dangerous drugs.
- 9. Meet additional rigor requirements. beginning with students graduating from high school n or after May 1. 2015.

Award Amounts

Students attending public colleges or universities receive the current academic year standard undergraduate tuition, up to a maximum of 15 hours, for the specific number of hours enrolled, whether full time or part time.

Award Limits

A college degree-seeking student is ineligible for the Zell Miller Scholarship if the student has:

- Received payment from any combination of HOPE Scholarship, Zell Miller Scholarship, HOPE Grant, Zell Miller Grant, and Accel (through spring term 2011) Program funds totaling 127 semester (190 quarter) hours of credit; **or**
- Attempted 127 semester (190 quarter) hours of college degree credit, regardless of whether or not Zell Miller funds were received while attempting the hours; **or**
- Earned a baccalaureate (four-year) degree, regardless of whether or not Zell Miller funds were received while earning the degree, **or**
- Graduated from high school more than seven years ago and did not receive a HOPE Scholarship payment prior to summer term 2011.

ZELL MILLER GRANT

Award Amounts

The Zell Miller HOPE Grant will cover \$89 per semester hour for eligible students, \$125 per semester credit hour for Commercial Truck Driving, and \$100 per semester credit hour for Basic Law Enforcement.

Eligibility

In addition to meeting all HOPE Grant requirements, student must have a minimum of 3.5 cumulative GPA in postsecondary classes. There is no high school GPA requirement. Students who earn a 3.5 or better at the end of their first semester will be eligible for the Zell Miller Grant their second

semester. Students must maintain a minimum 3.5 GPA at the end of each subsequent semester to continue to qualify.

GEORGIA HOPE SCHOLARSHIP

Overview

Georgia's HOPE Scholarship is available to Georgia residents who have demonstrated academic achievement. The scholarship provides money to assist students with their educational costs of attending a HOPE-eligible college in Georgia.

Eligibility

To receive HOPE Scholarship funding, students must:

1. Meet **one** of the following academic requirements:
 - Graduate from a HOPE-eligible high school with a 3.0 grade point average.
 - Complete a HOPE-eligible home study program with a 3.0 grade point average.
 - Graduate from an ineligible high school, complete an ineligible home study program, or earn a GED **and** score in the national composite 85th percentile or higher on the SAT or ACT.
 - Graduate from an ineligible high school or complete an ineligible home study program, and then earn a 3.0 grade point average on 30 semester hours or 45 quarter hours of college degree-level coursework. This option allows for payment of the first 30 semester hours or 45 quarter hours after they are taken.
 - Earn a 3.0 grade point average at the college level on degree coursework after attempting 30, 60, or 90 semester hours or 45, 90, or 135 quarter hours, regardless of high school graduation status.
2. Meet HOPE's U.S. citizenship or eligible non-citizen requirements.
3. Meet HOPE's Georgia residency requirements.
4. Be enrolled as a degree-seeking student at an eligible public or private college or university or technical college in Georgia.
5. Be in compliance with Selective Service registration requirements.
6. Maintain satisfactory academic progress as defined by the college.
7. Not be in default or owe a refund on a student financial aid program.
8. Be in compliance with the Georgia Drug-Free Postsecondary Education Act of 1990. A student may be ineligible for HOPE payment if he or she has been convicted for committing certain felony offenses involving marijuana, controlled substances, or dangerous drugs.
9. Meet additional rigor requirements, beginning with students graduating from high school on or after May 1, 2015.

Award Amounts

The HOPE Scholarship award amount will cover a portion of a student's tuition.

Award Limits

A college degree-seeking student is ineligible for the HOPE Scholarship if the student has:

- Received payment from any combination of HOPE Scholarship, Zell

Miller Scholarship, Zell Miller Grant, HOPE Grant, and Accel (through Spring term 2011) Program funds totaling 127 semester (190 quarter) hours of credit; **or**

- Attempted 127 semester (190 quarter) hours of college degree credit, regardless of whether or not HOPE funds were received while attempting the hours; **or**
- Earned a baccalaureate (four-year) degree, regardless of whether or not HOPE funds were received while earning the degree, **or**
- Reached the seven year expiration of eligibility date.

GEORGIA HOPE GRANT

Overview

Georgia's HOPE Grant (a separate program from the HOPE Scholarship) is available to Georgia residents who are working towards a certificate or diploma (continuing education programs are not eligible) at an eligible college or university in Georgia.

Full-time enrollment is not required and students are not required to graduate from high school with a specific GPA, however, they are required to have a postsecondary cumulative 2.0 GPA, at certain checkpoints, in order to maintain eligibility.

Beginning with the 2013-2014 Award Year, students enrolled in a Georgia Student Finance Commission approved, designated program of study who are eligible for, and receiving, HOPE Grant funding, may also be eligible for funding from the Strategic Industries Workforce Development Grant (SIWDG).

A student's SIWDG award is a fixed amount per term based upon the student's program of study and number of hours of enrollment:

Program of Study	Enrolled Hours	Award Amount
Commercial Truck Driving	9 or more	\$1000
Diesel Equipment Technology	9 or more	\$500
Early Childhood Care/Education	9 or more	\$500
Networking Specialist	9 or more	\$500
Phlebotomy Technician	9 or more	\$500
Practical Nursing	9 or more	\$500
Welding and Joining Technology	9 or more	\$500

Award Amounts

The HOPE Grant award amount will cover a portion of a student's tuition.

Award Limits

A HOPE Grant recipient is ineligible for the grant if the student has:

- Earned a baccalaureate degree; or
- Received HOPE Grant payment for more than 63 semester or 95 quarter hours; or
- Received payment from any combination of HOPE Scholarship, Zell Miller Scholarship, HOPE Grant, Zell Miller Grant, and, through Summer term 2011, Accel Program funds totaling 127 semester (190 quarter) hours of credit,
 - Dual Credit Enrollment hours for which a high school student

received HOPE Grant payment are not included in these totals.

HOPE GED Voucher

Eligible Georgia residents who pass the GED (General Education Development) Test will receive a \$500 voucher from the Georgia Student Finance Commission. This one time only voucher can be used for educational expenses during the first term of enrollment at any Georgia post-secondary institution. After attending the first day of classes the GED voucher should be signed and brought to the Financial Aid Office in Room 101 of the Odom Center on the Americus Campus or in Room A43 at the Crisp County Campus. A student who is deemed eligible will be issued a check by the end of the semester.

SAL and SALT Loans

South Georgia Technical College participates in the Student Access Loan (SAL) and Student Access Loan—Technical (SALT) loan programs administered by the Georgia Student Finance Commission (GSFC). Details can be found on the GSFC's website at www.gacollege411.org.

Foundation Scholarships

Scholarships may be available as funds permit through the South Georgia Technical College Foundation, Inc. and external school, civic and private organizations. Applications are distributed to qualifying students when scholarships are available.

Georgia HERO Scholarship

The Georgia HERO Scholarship program was created to provide financial aid to students and the dependents of students who are current members of the Georgia National Guard and United States Military Reserves who were deployed overseas on active service, on or after February 1, 2003 to a location designated as a combat zone. The maximum amount awarded to an eligible student is \$2,000 per award year, for no more than four award years. The award amount is subject to change during the award year.

Transient Students (enrolled at more than one school at the same term)

To take classes at South Georgia Tech (host school), the student should contact the Financial Aid office of the home school to ensure that all financial aid paperwork is in order as the home school will verify eligibility. A student is eligible to receive the HOPE Grant or Scholarship at the host school if the student is otherwise eligible.

If the student is a transient student from South Georgia Tech to another school, then SGTC will notify the host school of eligibility for HOPE or Pell. If eligible for HOPE, that can be received at the host school. The Pell Grant will be awarded from South Georgia Tech (home school) at the end of the first four weeks of the semester as long as the host school has provided enrollment verification to SGTC.

Transfer Students (leaving one school and enrolling at another)

If the student has completed a FAFSA for the current school year, the student should go online at www.fafsa.ed.gov and add the Institution Code for the school the student intends to enroll in.

South Georgia Technical College's Title IV Institution Code is 005617

Contact the financial aid office of the new school to inquire if an Institution Application is needed.

Nelnet Payment Plan

NelNet is a contracted payment plan for students to pay the balance they owe (after HOPE and PELL) out of pocket on their tuition, fees, and dorm where applicable during the term. The student can sign up for this payment plan each term with FACTS–NelNet on the SGTC website (www.southgatech.edu) in the Financial Aid section. Enrollment deadlines are predetermined each term.

This allows the approved student to pay a 25% or 50% down payment by debit or credit card or bank draft to FACTS–NelNet and the balance spread over designated 3 monthly dates in each term. The cost to participate is a \$30-\$35 fee per term and no interest charges.

Unofficial Withdrawal Policy

Federal Title IV funding regulations require that any student who begins attendance but fails to earn a passing grade in at least one course during a semester and who does not officially withdraw shall be considered as having unofficially withdrawn from the College unless it can be documented that the student completed the period of enrollment and earned the grade of “F”.

A student who does not earn at least one passing grade during a semester for which Title IV funds were disbursed will have a Return to Title IV calculation performed to determine how much of the Title IV funds were earned. At the completion of each term, the financial aid office will, after review of academic records, identify Title IV recipients who have received all grades of “F” or a combination of “F”, “W”, “WF”, “WP” for the semester. The financial aid office will contact the registrar's office to determine the student's last date of attendance or academic activity for each student identified if such information is not noted on the class roster.

South Georgia Technical College requires that instructors provide a last date in class or academically related activity for every drop that is processed through 100% of the term. The registrar will not process any student withdrawal without a last date of attendance. A student may only be assigned the grade of “F” if the instructor can provide a class roster to document the student's attendance through the last 7 days of the course. If attendance or academically related activity can be verified in at least one class and the student began attendance in all classes the student will have earned 100% of the Title IV aid disbursed for the semester. Any refund owed to a federal financial aid program is the student's responsibility and will appear as a charge on the student's Banner Web student account. Students

will receive notification of this action via an email and an updated billing statement.

The college will return “unearned” funds in accordance with the College’s Return to Title IV policy. These funds will be returned to the source through G5. Portions of unearned funds that are the responsibility of the student will be reported to NSLDS as an overpayment.

STUDENT RESPONSIBILITIES

Satisfactory Academic Progress Policy

Students who wish to receive financial aid from South Georgia Technical College must be making satisfactory academic progress, as outlined below.

Students are responsible for maintaining an acceptable level of progress regarding quality and quantity of work. Progress will be reviewed no less than once each term. Records are reviewed after grades are posted at the end of each semester.

GPA Requirements

In order to receive financial aid, students must maintain a minimum cumulative grade point average (GPA) of 2.0.

All periods of enrollment at SGTC are included when calculating GPA for SAP purposes, even terms in which the student did not receive financial aid. Grades for all attempts of repeated courses are included in the GPA. Grades for Learning Support courses are not included in the GPA calculation for financial aid purposes. Incomplete grades, transfer credit, exemption exam credit, credit for previous experience, grades for audited courses, and articulated credit are NOT included in the financial aid GPA. Grades included in the GPA calculation for SAP purposes are: A, B, C, D, F, WF. WF is counted as an F. Grades that are NOT included are: I, W, WP. The financial aid GPA for SAP purposes is calculated in Banner after final grades have been posted by the Registrar at the end of each term.

Pace of Progression (Completion Rate)

In order to receive financial aid, students must successfully complete 67% of all credit hours attempted at SGTC to maintain satisfactory progress.

The completion rate is calculated by dividing the cumulative number of credit hours the student has successfully completed by the cumulative number of credit hours the student has attempted. This calculation is performed in Banner by the Financial Aid Office after final grades are posted by the Registrar at the end of each term.

All periods of enrollment at SGTC are included when calculating completion rate, even terms in which the student did not receive financial aid. All attempts of repeated courses are included in the completion rate calculation. Credit hours for which a student earns a grade of "I", "IP", "W", "WP", and "WF", as well as all Learning Support credit hours are counted as hours attempted for SAP purposes. Incomplete grades, withdrawals, and failures are considered unsuccessful completions. Transfers of credit from other institutions are counted as credit hours attempted and earned in the calculation of completion rate. Exemption exam credit, credit for previous experience, grades for audited courses, and articulated credit are NOT included in the completion rate calculation. Grades which are considered successful completions for financial aid SAP purposes are: A, B, C, TR. Grades which are considered unsuccessful completions for financial aid SAP purposes are: D, F, W, WP, WF, I, IP, F*, W*, WF*, I*, IP*. Grades of EX, AU, and AC are not included in the calculation of completion rate.

Maximum Time Frame for Federal Pell Grant and Title IV Aid Programs

The purpose of the Federal Title IV financial aid programs is to assist students in meeting their educational expenses while they progress toward timely completion of their educational objectives. For that reason, federal regulations require that students must complete their educational objective within a maximum time frame of one and one-half times the length of the program in which they are enrolled. Program length is measured in credit hours and is determined by the number of credit hours required for completion of the program. For example, students enrolled in a diploma program that requires 90 credit hours to complete will be allowed no more than 135 attempted hours. Students in programs requiring 126 credit hours will be allowed no more than 189 attempted hours, etc. If it is determined that a student cannot mathematically complete his/her program of study within 150% of the program's length, then he/she will become ineligible for federal financial aid. Students who consistently meet the 67% completion rate requirement should also meet this requirement. Students who fail to meet the 67% completion rate requirement at any time risk exceeding the maximum time frame before completing their program.

All periods of enrollment are included when calculating maximum time frame, even terms in which the student did not receive financial aid. All attempts of repeated courses are included. Credit hours for which a student receives an Incomplete grade (I, I*, IP, IP*) are considered attempted hours. Transfer credit hours (TR) which are counted toward a student's program of study are included in this calculation. Exemption exam credit (EX) and credit for previous work or life experience that is counted toward a student's program of study is also included in this calculation.

Once a student is found to have exceeded the maximum time frame allowed, he or she will be ineligible for all types of Title IV federal financial aid. HOPE eligible students who become ineligible for Title IV financial aid may still receive HOPE Grant and/or Scholarship until they reach the Paid or Attempted Hour Limits for the HOPE Programs, outlined below.

If a student graduates from one program and re-enrolls in another program, the maximum time frame will be reset. However, all previous credit hours attempted that count toward the new program will be included in the new time frame calculation. (For example, if a student graduates from the Accounting diploma program, and re-enrolls in the Accounting degree program, all previously taken Accounting courses that are counted toward both programs will be counted in the time frame calculation for the new program.)

Financial Aid Warning

Students who fail to maintain either a 2.0 cumulative GPA or 67% cumulative completion rate will be placed on financial aid warning. Students on financial aid warning will continue to be eligible to receive financial aid

for one term only. Students on financial aid warning must meet all SAP requirements by the end of their warning period in order to receive financial aid in subsequent terms. Students placed on financial aid warning who fail to raise their cumulative GPA to a 2.0 or higher and their completion rate to 67% or higher by the end of their next term of enrollment will be placed on financial aid suspension and will be ineligible for all forms of financial aid.

Financial Aid Suspension

Students who fail to meet one or more SAP requirements for at least two consecutive terms of enrollment are placed on financial aid suspension and are not eligible for any form of financial aid. Students have the right to appeal a financial aid suspension if there are extenuating circumstances that have prevented them from meeting the SAP requirements.

Financial Aid Probation

Students who have failed to make SAP and have been placed on suspension may appeal the suspension if they believe they had extenuating circumstances that prevented them from meeting the SAP requirements. Students whose appeals are approved are placed on financial aid probation and are eligible to receive financial aid for one term only. In order to receive financial aid after the probation period, a student must meet all SAP requirements or meet all requirements of an Academic Plan that has been established for him/ her by the Financial Aid Appeals Committee. Failure to meet SAP requirements or the requirements of an Academic Plan after one term on probation will result in the student being placed on financial aid suspension and losing eligibility for all forms of financial aid.

Reinstatement of Aid

A student who has been placed on financial aid suspension due to unsatisfactory progress will regain eligibility for financial aid when he/she has met the minimum cumulative requirements for Satisfactory Academic Progress.

Notification of SAP Status

All students who fail to meet SAP requirements will be notified of their SAP status at the end of the term in which they failed to make SAP. SAP is evaluated each term after final grades have been posted by the Registrar. Students who appeal a financial aid suspension will be notified as soon as a decision is reached by the Financial Aid Appeals Committee regarding their status.

Appeals

Students have the right to appeal a finding that they are not making satisfactory progress if there are extenuating circumstances that have prevented them from meeting one or more of the SAP requirements, including GPA, completion rate, and maximum time frame. Appeals must be signed by the student and must be submitted in writing to the Financial Aid Office within two business days of the beginning of the term following the

term in which the student failed to make satisfactory academic progress.

The SAP Appeals Committee will review all appeals and their decision is FINAL. The Financial Aid Director will determine if appeals submitted after the deadline will be considered for the current term or held for the next term.

Appeals will be considered for extenuating circumstances only, which may include, but are not limited to, the death of a family member, an injury or illness of the student or their immediate family member, or other special circumstances that are generally outside of the control of the student. The appeal MUST include information explaining why the student failed to make SAP and what has changed in the student's situation that will allow him/her to make SAP within the next term of enrollment. All appeals should also include documentation of the extenuating circumstances that led to the student's suspension. Acceptable documentation may include, but is not limited to the following: medical records, birth or death certificates, obituaries, letters on official letterhead from third party sources not related to the student with signatures, etc. The Financial Aid Director may reject and refuse to consider any appeals submitted without sufficient documentation.

If the SAP Appeals Committee approves a student's appeal and determines that the student should be able to meet SAP requirements by the end of the next term, they may place the student on financial aid probation and reinstate the student's financial aid for one term only. If the director determines that it is not possible for the student to meet SAP by the end of the next term, and the director approves the student's appeal, the director will develop an Academic Plan for the student, that if followed, will ensure that the student is able to meet SAP requirements by a specific point in time, as determined by the director. The student will be placed on financial aid probation and have his/her aid reinstated for one term only. The Financial Aid Director may require a student on probation to fulfill any terms and conditions they choose, including but not limited to, taking a reduced course load, enrolling in specific courses, taking classes in a specific format, etc. The Director may also deny an appeal, require that a student pay for classes and re-appeal after successful completion of one term, or make any other decision regarding an appeal that they feel is appropriate. The director may limit the number of times a student is allowed to appeal or set limits on how often a student may appeal. All appeals will be considered on a case by case basis. A student paying for his/her own tuition and fees or sitting out for one or more terms does not automatically reinstate the student's financial aid eligibility.

Academic Plans

Students who successfully appeal a financial aid suspension and are placed on probation may be required to follow an Academic Plan as determined by the Financial Aid Director in order to continue receiving financial aid. Students on an Academic Plan are required to meet all requirements of the Plan each term. The fulfillment of these requirements will be evaluated at the end of each term. Failure to meet all requirements of the Academic Plan will result in the student being placed on financial aid

suspension.

Academic Plans will be developed for each student on an individual basis, but at a minimum will include the requirement that the student successfully complete all attempted courses with a grade of C or better. Other components of an Academic Plan may include any combination of the following, but are not limited to, a requirement to meet with the student's academic advisor and/or a member of Student Affairs Retention staff each term, a requirement not to take online classes, to enroll only part-time, to repeat a specific course, to take a particular course, to participate in a specific workshop on campus, or any other activity or requirement that the director believes will enable the student to meet SAP requirements by a specific point in time and ultimately enable the student to successfully complete his/her program of study in a timely manner. A student on probation and required to follow an Academic Plan who changes his/her program of study may have the Academic Plan revoked and be placed back on suspension until he/she re-submits an appeal explaining how he/she will make SAP in the next term of enrollment with the new program of study. The Financial Aid Office will verify that all requirements of the Academic Plan have been met prior to posting aid for the next term.

SERVICES AND PROGRAMS

Veteran's Programs

South Georgia Tech is approved for veteran's training under various programs. These programs are briefly described below.

Chapter 30	Montgomery GI Bill — Active duty
Chapter 31	Vocational Rehabilitation Program
Chapter 32	Veterans Educational Assistance Program (VEAP)
Chapter 33	Post-9/11 GI Bill
Chapter 35	Survivors' and Dependents' Educational Assistance Program
Chapter 1606	Montgomery GI Bill — Selective Service
Chapter 1607	Reserve Educational Assistance Program (REAP)

The area Veterans Service Offices will assist veterans and eligible dependents in applying for VA educational benefits. Veterans may obtain further information regarding Veterans Services by contacting the Director of Financial Aid, Room 101, in the Odom Center.

Adult Education Services

South Georgia Tech is the fiscal agent for the Adult Education Program serving SDA 15 which includes six counties: Sumter, Webster, Macon, Marion, Crisp, and Schley. Classes are offered days and nights in Sumter, Webster, Marion, Crisp, and Schley counties. Programs include Adult Basic Education, Adult General Education and Adult Specialized Education. These three areas prepare adults age 16 and older to perform on grade levels 1 through 12. For further information, call 229.931.2565, in Americus or 229.271.4058 in Cordele.

GED Testing/Classes

GED preparation in all content areas is also available for those students desiring to obtain a GED diploma. All classes are free of charge. GED testing is available in Macon, Sumter and Crisp counties for a \$160 fee for the entire test. Parts of the test can be re-taken for a fee of \$32 per part. For further information, call 229.931.2563, in Americus or 229.271.4058 in Cordele.

Workforce Investment Act (WIA)

WIA is a federally funded program designed to assist qualified students with training related costs such as tuition, books, and supplies while enrolled at SGTC. In some cases, a daily allowance is provided to those who qualify. The primary goal of WIA is to train qualified students to become employed and self-sufficient. To qualify for the WIA program, a student must be economically disadvantaged or be laid off, be a resident of the Middle Flint counties, be a full time student, have good academic standing,

and be enrolled in a demand occupation. For more information, please contact the WIA Office located in Room 110 in the Odom Center on the Americus Campus or call (229) 931-2172. (Openings are limited and certain restrictions do apply).

GENERAL STUDENT INFORMATION

Medical and Health Services

First aid supplies and personnel trained in safety, as well as first aid, are available at South Georgia Tech. In the event of injury or other medical emergencies, the nearest instructor, staff member, or supervisor should be notified. Professional emergency care, if needed, will be secured by the appropriate instructor or supervisor. In case of a serious accident or illness, the College will refer the student to the nearest hospital for emergency care and will notify the student's relatives. It is to be understood that the student or the student's family will be responsible for the cost of such emergency care, including ambulance service if, in the opinion of College authorities, such service is necessary. Student accident insurance fee may cover partial costs of medical bills pertaining to an accident.

Eye, Ear, And Respiratory Procedure

The procedure on eye, ear, and respiratory protection is on file in the Academic Affairs office as well as each laboratory area. Protective devices will be worn at all times in designated laboratory areas. The instructor responsible for a given laboratory/shop area assumes the responsibility for enforcing the eye, ear, and respiratory protection program. The instructor or person in charge of a given area will deny access to the hazardous areas for all persons not having the proper protective devices. The instructor will teach each student the correct and safe method to perform laboratory and shop practices.

South Georgia Technical College will provide the first protective device. The student will be responsible for the care and maintenance of the protective device. In the event that the protective device is damaged from improper use or carelessness or loss on the part of the student as determined by the instructor, then the student will be responsible for replacing the device prior to being allowed to continue class(es).

In the event that a student, instructor or staff has prescription glasses and can supply the instructor or person in charge of a given area with a doctor's prescription, then the instructor or person in charge of the area will aid the individual in acquiring the proper side shields for their glasses. Eyeglasses will be properly stamped. The instructor will check to see that these glasses are so stamped and meet requirements.

The student will be required to sign a protective device policy statement during the first day of class. Students that are in noncompliance with the policy will not be allowed to attend class until the instructor determines that they are in full compliance with the safety procedure. In the event that a student either refuses to comply with the procedure or has violated the procedure twice, then the student will be removed from class.

Emergency Action Plan

IN CASE OF FIRE:

1. Upon detection in classroom areas, call the nearest instructor to the

scene, if possible.

NOTE: Instructor will follow through with procedure. If an instructor is not available, the student detecting the fire or student appointed by the instructor to handle fire hazards will follow the listed procedure.

2. Determine severity and type of fire.
3. Begin immediately to control the fire with available and appropriate extinguishers.
4. Report location, type and severity of fire to Campus Safety Officer by runner or telephone– (229) 938.2992, (229) 931.2599, (229) 931.2381, or (229) 931.2130. At the Crisp County Center call (229) 271.4060 or (229) 271.4040.
5. If, in the judgment of the person in charge at the scene of the fire, and the seriousness warrants, the fire alarm should be sounded.
6. Evacuate the building upon sounding the alarm.

IN CASE OF PERSONAL INJURY:

NOTE: If at all possible in classroom situations, the instructor should be summoned to the scene immediately and would follow through with the procedures.

1. Administer immediate first aid (start breathing-stop bleeding).
2. Notify the Campus Safety Office of location of and type of injury via runner or by telephone– (229) 938.2992 in Americus or (229) 271.4040 in Cordele.
3. If necessary, an administrator will arrange for transporting injured to receive medical attention, subject to permission of the individual or family member. Emergency contact information can be updated in the Admissions Office.
4. An accident report should be completed as soon as the injured person is able.

IN CASE OF SUDDEN ILLNESS:

In case of sudden illness of a student, the instructor should arrange for emergency care depending upon the severity of illness and/or arrange transportation to the student's home, if possible. If further assistance is needed, contact the Campus Safety Office at 938.2992 in Americus or 271.4040 in Cordele for assistance in caring for a student.

Telephones

A "Pay" telephone is located in the Student Center for student use during breaks between classes.

NOTE: Students will not be paged from classes except in case of extreme emergencies. Students should advise their friends, family, and employers of this limitation.

Visitors on Campus

All visitors must have permission to be on campus. Students and visitors are prohibited from visiting classes during class time, unless previous

permission has been obtained from an administrator. In case of an emergency, visitors needing to see a student should make their request in the Student Affairs Office. The student will then be notified of the visitor's need to see him/her.

Children are not allowed on campus due to liability issues.

New and Returning Student Orientation

All students must attend an orientation session. Orientation sessions are held during first registration and during open orientation at different times in the day. Students will check in with appropriate personnel. Once the orientation session is completed, students are directed to their academic advisor for registration.

All topics covered in orientation are found in the handbook/catalog on SGTC's website.

Identification Cards

Student IDs are made at the time of registration and must be presented to college officials whenever requested. If an ID is lost, a student must go to the Student Affairs Office to obtain a new card. The fee for the new card is \$5. All Student IDs must be turned in to the Student Affairs Office when students graduate or withdraw from the college.

Dorm Identification Cards

Dorm students will be charged a fee for deactivated, damaged, or lost ID cards. If a dorm student's ID card is deactivated or damaged, the fee will be \$1 each for the access card and the ID card for a total of \$2. If a dorm student loses the ID/access card, there is a charge of \$5 each to replace the ID card and the access card for a total charge of \$10.

Student Activities

Student activities are available for all students who pay a student activity fee. Activities for the term including recreation, intramural sports, and special events are coordinated by the Director of Campus Life. A student must be in good standing and have a currently valid student ID card to participate in any of these activities.

Library

The South Georgia Tech Libraries serve students at both the Americus and Cordele campuses by providing them with an excellent collection of resources for education, information, and recreation. The Library on the Americus campus is located in Hicks Hall and it contains a collection of over 15,000 printed volumes, 100 periodicals, and 4 newspapers. The Library at the Crisp County Center has a collection of over 3,400 printed volumes, 26 periodicals, and 1 newspaper.

All currently enrolled students may check out books. A reasonable number of books may be checked out for a period of two weeks and renewed with the permission of the Library staff. Reference books, magazines, and newspapers do not circulate and can only be used in the Library.

Computers have been placed in the Library for students to use in completing class assignments or accessing the Internet. GALILEO, a service available on the Internet, provides students with access to a growing number of electronic databases. The SGTC Library catalog has also been placed online and is accessible for all library users on campus or off at <http://library.southgatech.edu>.

The Library is open during the day and the evening in order to accommodate the needs of all students. In Americus, students can use the Library Monday through Thursday from 8:00 a.m. to 8:00 p.m., and Friday from 8:00 a.m. to 4:00 p.m. Library hours at the Crisp County Center are Monday through Thursday from 8:00 a.m. to 7:30 p.m. and on Friday from 8:00 a.m. to 4:00 p.m.

Student Mail

Each dormitory student is assigned a campus post office box located in Hicks Hall by the Director of Campus Safety. Commuting students may also rent a mailbox on the Americus campus at a rate of \$30 per term, non-refundable.

The student's address on incoming mail should be as follows:

Student's Name
South Georgia Technical College
Box TXXX (box number will be assigned)
900 South Georgia Tech Parkway
Americus, GA 31709-8167

Students should notify all people corresponding with them to place the capital "T" in front of the box number. This will help the Americus Post Office to send student mail to the college with no delays.

Letters brought to the Business Office Room 120 in the Odom Center will go out with the college's daily mail. If placed in the box in Hicks Hall, all mail will leave with the following day's mail.

Upon exiting a program, the student should get a change of address form from the local Post Office so that all of his/her mail can be forwarded to his/her new address. Stamps may be purchased at the Business Office, Room 120 in the Odom Center.

To View Grades Online

- Go to www.southgatech.edu and click the link for "Banner Web"
- Click "Enter Secure Area"
 - Social Security number is the User ID
 - Date of birth is the PIN (MMDDYY)
- Click "Student Services and Financial Aid"
- Click "Student Records"
- Click "View Grades"

Bookstores

The South Georgia Tech Bookstores have books available for purchase along with a variety of supplies needed by students. Bookstore hours are

scheduled to accommodate both day and evening students. Bookstore hours are published in each term's Flight Plan class schedule newspaper and also posted at the entrance of the bookstore. Locations are Hicks Hall on the Americus campus and room A22 of the Crisp County Center.

South Georgia Technical College Foundation

The South Georgia Technical College Foundation was established in 1991. The purpose of the Foundation Board of Trustees is to serve as ambassadors, friend raisers, and fundraisers for the College. All tax-exempt donations to South Georgia Technical College are received through the Foundation. The Resource Development Office is located in room 106 of the Odom Center. Please call 229.931.2248 for more information.

CAMPUS HOUSING

Residential Housing

Campus housing (Martin Hall and James Hall) is available on the Americus campus for men and women. Requests for dormitory rooms should be made in the appropriate section of the Residential Housing Application. There is a \$150 housing deposit required at the time of application. Or, students may contact the Student Affairs Office, located in the Odom Center, or Director of Campus Safety located in Hicks Hall. All dormitories provide cable TV, a TV room, wireless internet access, and laundry facilities for student use.

Dormitory Closure Housing Request

Dormitories are closed between terms. If a residential student needs to reside in a dormitory room between terms, he or she must complete the Closure Request Form which can be obtained from and subject to approval by the Director of Campus Safety and/or the Vice President of Administrative Services. There is a nightly charge of \$10, and no meals available.

Requests are considered and judged upon the following situations:

1. **Enrolled as a student the following term.**
2. **Extreme long distance to travel home in between terms.**
3. **Student's need for local lodging in order to retain local employment (must furnish proof of job) in between terms.**
4. **Emergency situations which may relate to students needing a place to reside in order to remain in school in between terms.**

Americus Campus Cafeteria

Students, faculty, and staff are always welcome to eat in the cafeteria. The cafeteria offers three, well-balanced meals Monday-Friday, and two meals on Saturday and Sunday, except holidays.

The cafeteria schedule and prices are as follows:

Monday through Friday (All you care to eat)

Breakfast:	7:30 a.m. to 8:30 a.m.	\$6.00
Lunch:	11:30 a.m. to 1:30 p.m.	\$7.00
Dinner:	<i>Monday through Thursday</i> 5:30 p.m. to 7:00 p.m.	\$7.50
	<i>Friday</i> 5:30 p.m. to 6:30 p.m.	

Saturday and Sunday

Brunch:	11 a.m. to 12 noon	\$7.00
Dinner:	4:30 p.m. to 5:30 p.m.	\$7.50

Prices are subject to change at the beginning of any term.

Residential Students

Residential students' meals are included in their room and board fees. All dormitory students are required to present their current ID cards to the cashier at the time of the meal.

Commuting Students

Commuting students are welcome to eat in the cafeteria. They can pay at the door or they can obtain a special ten meal ticket. A student meal ticket may be purchased from the Business Office, Odom Center, room 120, for \$67.28 for ten meals.

Crisp County Student Center

While the Crisp County Center does not offer a full-service cafeteria, vending machines are located in the Student Center in the building. Soft drinks and snacks of different types are offered, as well as a microwave.

STUDENT ACTIVITIES & ORGANIZATIONS

GOAL Program

The statewide technical college GOAL (Georgia Occupational Award of Leadership) program began at South Georgia Tech in 1972. GOAL is co-sponsored statewide by the Chamber of Commerce and the Technical College System of Georgia. The GOAL program seeks to give recognition annually to the State's outstanding post-secondary technical education students.

The main objectives of the GOAL program are:

1. To spotlight the importance of technical education in modern society.
2. To reward students who excel in learning a skill.
3. To encourage pride in workmanship.
4. To generate greater respect and appreciation for the working person.
5. To emphasize the dignity of work in today's society.

All full-time diploma and degree program students are eligible to compete in the GOAL program. Program instructors select and nominate their outstanding student. From these nominations, a committee chooses four outstanding students from the College. Finally, the College's winner, chosen from the four finalists, is selected to compete in the annual statewide GOAL competition in Atlanta.

SkillsUSA (VICA)

SkillsUSA is a national organization serving more than 264,500 high school and college students and professional members enrolled in training programs in technical, skilled, and service occupations, including health occupations.

In high schools and technical colleges, SkillsUSA has more than a quarter million student members annually, organized into 13,000 chapters in 54 state and territorial associations, including the District of Columbia, Puerto Rico, Guam, and the U.S. Virgin Islands.

By participating in various SkillsUSA functions and competitions, students can develop leadership abilities, foster a deep respect for the dignity of work, establish realistic vocational goals, attain a purposeful life, and promote high standards in all phases of occupational endeavors including ethics, workmanship, scholarship, and safety.

Phi Beta Lambda

Phi Beta Lambda is an organization which provides opportunities to post-secondary students to develop vocational competencies for business and office occupations or business teacher education. PBL is an integral part of the instructional program and promotes a sense of civic and personal responsibility. Membership also gives the student hands-on experience and the chance to demonstrate his/her skills at competition, including local, state, and national levels.

National Technical Honor Society

The South Georgia Tech chapter of the National Technical Honor Society

was established in 1991 for the purpose of promoting service, leadership, honesty, and skilled workmanship. Students who excel in these areas may be nominated for membership by their instructors and enjoy the reward and prestige of participating in this honor society.

Student of Excellence

The Student of Excellence program gives recognition to students representing all program areas on campus. Students are selected by their instructors for the honor and compete with other students selected from related program areas for SGTC Student of Excellence. Instructors select the program Student of Excellence based on the following criteria:

- Good Scholar (85 or above average and completion of at least one quarter at SGTC)
- Exemplary Work Ethics
- Positive Attitude
- Not on Disciplinary Probation
- Good Representative of Program and College

Alumni Association

The Alumni Association is an organization that provides former SGTC students the opportunity to give input into ways in which SGTC can effectively promote technical education to the surrounding communities. An application for Alumni membership may be obtained from the Resource Development Office. Address all inquiries to:

**Resource Development Office–Alumni Affairs
South Georgia Technical College
900 South GA Tech Parkway
Americus, Georgia 31709-8167
229.931.2248**

Student Leadership Council

The Student Leadership Council (SLC) is a body of officers and representatives from each program area that oversee the student activity funds of the college and decide how the funds will be used and distributed for the betterment of the student body.

SLC arranges activities for students to promote networking, career preparation, and enjoyment of school life. Its purpose is to promote better student involvement in the programs and activities of SGTC.

Distributive Education Clubs of America (DECA)

Distributive Education Clubs of America (DECA) is a student driven organization that values competence, innovation, integrity, and teamwork. The mission of DECA is to prepare emerging leaders and entrepreneurs for careers in marketing, finance, hospitality, and management in high schools and colleges across the globe. DECA prepares students for careers by integrating skills learned in the classroom into real world experiences. Collegiate DECA programs assist in developing academically prepared, community oriented, professionally responsible, experienced leaders.

Intramural Sports

Intramural Sports are offered to students at SGTC. Students are given the opportunity to participate in campus sports such as flag football, basketball, softball, and volleyball. For more information, contact the Director of Campus Life by calling 229.931.2545 or 229.931.4253.

Intercollegiate Basketball–JETS and Lady JETS

The SGTC Basketball program was revived in 2001 after a long absence from the college. Named the JETS, the program recruits student athletes worldwide to play basketball as part of intercollegiate athletics. This program was also designed as an avenue for students, instructors, and community members to show their support of the college.

Since its reinstatement, the JETS program has operated under the motto of “Character . . . Discipline . . . Hard Work . . . Relentless Will to Win.” Through this motto, the program has been able to accomplish amazing things in the brief 13 year history, including five conference championship games, two conference championships, three National All-American athletes, and one Elite 8 in the National Tournament. For more information concerning the program, contact the Men’s Basketball office at 229.931.2025.

The SGTC Lady JETS Basketball program was launched in the fall of 2004 and has followed the program’s motto of “Better Person, Better Student, Better Athlete.” In the ten year tenure of the program, the Lady JETS have experienced an enormous amount of success. That success includes three conference championship games, one conference championship, three National All-American athletes, three conference Players of the Year, and one National Tournament appearance. For more information concerning the Lady JETS program, contact the Women’s Basketball office at 229.931.2039.

All home games for both basketball programs are played on the Americus campus in The Hangar, the James S. Peters gymnasium. SGTC Athletics are members of the National Junior College Athletic Association (NJCAA) and the Georgia College Athletic Association (GCAA).

Equity in Athletics Reporting

The Annual Report on Athletic Program Participation Rates and Financial Support Data can be obtained upon request from the Athletic Director and Vice President of Administrative Services, Room 120, Odom Center Building, South Georgia Technical College, 900 South GA Tech Parkway, Americus, GA 31719-8167. This is in accordance with 34 CFT 668.47 of federal regulations.

ECONOMIC DEVELOPMENT PROGRAMS

The Economic Development Services Department at South Georgia Technical College serves as an umbrella for all custom designed training programs, which include Business and Industry Services, Continuous Career Learning, and Quick Start. The focus of Economic Development Services is to stay abreast of new technology and to implement innovative training that meets diverse and rapidly changing needs in the communities served by the College.

Custom Designed Training

Economic Development Services promotes and supports economic development in South Georgia Tech's six county service area by providing comprehensive, custom-designed training and consulting services. A company's needs are identified through consultation, then programs are customized to meet the organization's specific needs and goals. South Georgia Tech helps a company create and implement programs to meet the company's specific needs.

Continuous Career Learning

Through Continuous Career Learning, Economic Development services offers short-term courses, workshops, and seminars to individuals as well as businesses. Courses are tailored to meet a group's particular needs, provide an opportunity for individuals to receive general instruction on a specific subject, update professional licensing, or meet personal enrichment needs. Courses are added to or deleted from the schedule according to customer demand.

Quick Start

The Georgia Quick Start program is administered by Economic Development Services. Training is offered through the Quick Start program as an incentive to bring in new businesses to the area or to expand existing ones. Offering these quality services at no cost to companies is an incentive for new businesses to locate in the SGTC service area and assists companies with developing strategies to achieve success.

Quick Start services include pre-employment and post-employment training as well as job specific training and material development. A wide variety of productivity enhancement and employee involvement training is also offered based on the philosophy of each company served.

Business Expansion Center (BEC)

The Business Expansion Center, located in the John M. Pope Industrial Technology Center, provides assistance to entrepreneurs and future entrepreneurs in the six-county service area by helping them build a strong foundation to be successful. The program develops a business environment that supports new companies, jobs and community economic wealth. Through evaluations, mentors, and training, the BEC helps entrepreneurs with the start-up process, including providing temporary office space equipped with everything needed to get started.

GENERAL RULES & REGULATIONS

Student Conduct

South Georgia Tech expects its students who are preparing to enter the world of work to assume professional attitudes in their conduct, appearance, and academic performance. Students enrolling at South Georgia Tech are considered to be mature individuals. It is assumed all students enrolled come for a serious purpose and will conform to all regulations deemed necessary by the school administration.

The college reserves the right to decline admission to, to suspend, or to require withdrawal of any student for any reason deemed to be in the best interest of all the students and of the College. Should a student fail to show that he or she is able to adjust to campus life and to the discipline of group living, he or she will be asked to withdraw from college. If college officials believe a student's conduct on or off campus is detrimental to the college, the student will be excluded from further attendance.

The following behavior is prohibited on campus or at college-sponsored events:

- Possession, consumption or furnishing of alcoholic beverages or illegal drugs.
- Possession of fireworks or any type of explosives.
- Possession of firearms or any other devices considered weapons by school officials.
- Malicious damage or destruction of property belonging to the College or to a member of, or visitor to, the College.

Due to State Fire Marshall procedures for state buildings, the State Board of Technical and Adult Education and SGTC have developed a NO SMOKING policy for all school classrooms, buildings, state vehicles, and student dormitories.

The following actions are prohibited on campus:

- Car stereos should not be heard 50 feet from vehicles on campus.
- Sounding a vehicle horn for an unreasonable time, except as a warning.
- Operating a radio, stereo or similar device in a vehicle to create excessive noise that disturbs others.
- Operating a radio, musical instrument or other device louder than necessary for convenient hearing.
- Operating any vehicle to produce unreasonably loud noise.
- Making any unreasonably loud noise in connection with loading or unloading a vehicle.
- Using any loud speaker or sound system on a vehicle for advertising or other purpose so as to make unreasonably loud noises.

Disorderly Assembly

No person shall assemble on campus for the purpose of creating a riot or destructive or disorderly diversion which interferes with the normal educational process of the College. This section shall not be construed so as

to deny any students the right of peaceful assembly.

No person or group of persons shall obstruct the free movement of other persons about the campus, interfere with the use of the College's facilities, or prevent the normal operation of the College. The abuse or unauthorized use of sound amplification equipment indoors or outdoors during classroom hours is prohibited.

Computer Use

No person may use the College's computer terminal equipment unless authorized to do so. Students enrolled in courses that require assignments to be completed on computer equipment have such authorization according to the specific instructions and direction of the instructor making the assignment. All users must abide by the regulations regarding authorization and the basic rules of courtesy. The privilege to use computer equipment, software, and services may be revoked at any time by the person responsible for that equipment.

No person may in any way abuse or misuse computer files or gain access to unauthorized computer files. Georgia Code 89-9903 on "stealing, altering, etc. of public documents," states that "No person shall steal . . . alter . . . or void any record." The code defining "record" includes "audio-visual material in any format, magnetic or other tapes, and electronic data processing records." Violation of this law is considered a felony and punishable by incarceration of from two to ten years.

This college shall not be held liable for any damage to or loss of data as a result of computer usage and/or online service access.

No person may access computers/equipment belonging to the college by remote means, (i.e. modem), without written approval from the office of the Director of Information Technology.

Solicitation

South Georgia Technical College has a no solicitation policy on its campus.

Field Trips

Field trips can be an important component of a student's educational experience and the use of such out-of-classroom experiences by the Technical College is encouraged when appropriate.

Absent extraordinary circumstances, no personal vehicles shall be used by the College for the transporting of students on field trips. Students shall be discouraged from transporting other students on field trips and shall be prohibited from doing so if travel is a component of the field trip.

Absent extraordinary circumstances, field trip transportation will be offered by SGTC using either licensed delivery vehicles or State of Georgia vehicles that meet all appropriate safety standards. Students and participating faculty and staff must review and sign an appropriate assumption of risk, release of liability, and limited medical authorization form prior to participating in technical college-sponsored field trips.

Disruptive Behavior

Behavior which disturbs the academic pursuits or infringes upon the

privacy, rights, or privileges of other persons is prohibited.

No person shall interfere with, or fail to cooperate with, any properly identified College faculty or staff personnel while these persons are in the performance of their duties.

Unlawful Harassment and Discrimination of Students

PURPOSE:

- A. It is the policy of SGTC that all students shall be provided an environment free of unlawful harassment (including sexual harassment), discrimination, retaliation, and intimidation.
- B. All students are expressly prohibited from engaging in any form of harassing, retaliating, discriminating, or intimidating behavior or conduct.
- C. Any student who has engaged in prohibited behavior or conduct will be subject to disciplinary action up to and including expulsion.
- D. All students are encouraged to report any act of unlawful harassment, discrimination, retaliation and/or intimidation. Reports will be treated in an expeditious and confidential manner.
- E. SGTC will not tolerate retaliation for having filed a good faith harassment and/or discrimination complaint or for having provided any information in an investigation. Any student or employee who retaliates against a complainant or witness in an investigation will be subject to disciplinary action, up to and including dismissal or expulsion.
- F. Any student who knowingly makes a false charge of harassment/discrimination or retaliation, or any student who is untruthful during an investigation is guilty of misconduct and may be subject to disciplinary action, up to and including, dismissal. This procedure shall uniformly apply to all SGTC employees, students, and other persons conducting business with SGTC. This procedure applies to all interactions between staff and students, and between students, whether or not the interaction occurs during class or on or off campus.

RELATED AUTHORITY:

Title IX of the Educational Amendments of 1972
Titles VI and VII of the Civil Rights Act of 1964
Age Discrimination Act of 1975
Section 504 of the Rehabilitation Act of 1973
Americans with Disabilities Act of 1990

DEFINITIONS:

For purposes of this procedure, the words listed below are defined as follows:

- A. **Unlawful Harassment (Other Than Sexual Harassment):** Verbal or physical conduct that disparages or shows hostility or aversion toward an individual because of that person's race, color, religion, gender, sexual orientation, national origin, age, or disability. Harassment does one or more of the following: has the purpose or effect of creating an intimidating, hostile or offensive academic or work environment,

or has the purpose or effect of unreasonably interfering with an individual's academic or work performance.

B. Examples of Unlawfully Harassing Conduct or Behavior (Other Than Sexual Harassment):

Harassing conduct or behavior includes, but is not limited to, epithets, slurs, negative stereotyping, or threatening, intimidating or hostile acts that relate to race, color, religion, gender, national origin, age or disability. This includes jokes or pranks that are hostile or demeaning with regard to race, color, religion, gender, national origin, age or disability. Harassing conduct may also include written or graphic material that disparages or shows hostility or aversion toward an individual or group because of race, color, religion, gender, national origin, age, or disability, and that is displayed on walls, bulletin boards, computers, or other locations, or circulated in the work place. This is a representative list of harassing conduct or behavior and is not intended to be exhaustive.

C. Sexual Harassment (a form of unlawful harassment): Sexual harassment is defined as unwelcome sexual advances, unwelcome requests for sexual favors, and other unwelcome verbal, written, electronic or physical conduct of a sexual nature when: Submission to such conduct is made, either explicitly or implicitly, a term or condition of an individual's education; Submission to, or rejection of, such conduct by an individual is used as the basis for education decisions affecting such individual; or, Such conduct has the purpose or effect of unreasonably interfering with an individual's academic performance or creating an intimidating, hostile or offensive environment.

D. Examples of Sexually Harassing Conduct or Behavior: Sexually harassing conduct or behavior (regardless of the gender of the persons involved) includes:

1. Physical touching;
2. Sexual comments of a provocative or suggestive nature;
3. Suggestive looks or gestures;
4. Jokes, printed material or innuendoes intended for and directed to another employee;
5. Making acceptance of unwelcome sexual conduct, advances, or requests for sexual favors of any nature a condition for education, education decisions, or continued enrollment (pressure for sexual favors).
6. This is a representative list of harassing conduct or behavior and is not intended to be exhaustive.

E. Discrimination: The denial of benefits or admission to the college or to any of its programs or activities, either academic or nonacademic, curricular or extracurricular, because of race, color, religion, age, national origin, gender, sexual orientation, political affiliation, or handicap and disability.

F. Retaliation: Unfavorable action taken, unfavorable condition created, or other action taken by a student or employee for the purpose of

intimidation that is directed toward a student because the student initiated an allegation of unlawful harassment/retaliation or who participates in an investigation.

- G. Local Investigator: The Vice President of Administrative Services (VPA) of SGTC, or designee, who is responsible for the investigation of unlawful harassment/retaliation complaints. That office is located in Odom Center, room 120, Americus campus.
- H. Compliance Officer: The Technical College System of Georgia's Executive Director, Legal Services.
- I. Intimate parts of the Body: Intimate parts of the body mean the primary genital area, anus, groin, inner thighs, or buttocks of a male or female and the breasts of a female.

PROCEDURE:

A. Reporting and Management Action

All students are encouraged to report events of unlawful harassment, discrimination, and/or unlawful retaliation against themselves or others. A student may attempt to resolve any issue arising under this policy informally.

- 1. Allegations or suspicions of unlawful harassment or unlawful retaliation may be reported by the complainant to any college employee, instructor, Vice President, or the President of SGTC,
- 2. Such reports can initially be expressed in writing, by telephone, or in person; however, the report will ultimately be required to be in writing.
- 3. After an allegation is made to a SGTC employee, that employee shall report the allegation to the Vice President Administrative Services (VPA), or his designee, as soon as possible, not to exceed 48 hours. When the VPA is unavailable, the employee shall report the allegation to his Vice President as soon as possible, not to exceed 48 hours.

Instructors/employees who have reason to believe that unlawful harassment, discrimination, and/or retaliation may exist shall immediately inform their Vice President or other Vice President at SGTC. The reporting individual should keep the information confidential unless release is approved, or unless final action has been approved pursuant to this procedure. The Local Investigator, or designee, may suspend, transfer or reassign personnel or students involved, in order to prevent possible further harassment, discrimination, retaliation or to facilitate the investigation. In emergency situations of a severe nature the Local Investigator, or his designee, may take appropriate actions to protect the complainant/alleged victim and/or to deter the alleged violator from any further harassment of the complainant/alleged victim. If the alleged harasser is an employee, the Local Investigator, or designee, shall report all actions of this nature and any subsequent change in status or assignment to the President.

- 1. Unless otherwise authorized by the President in writing, no

disciplinary action shall taken against the alleged violator until an investigation has been completed, a written report has been issued and action has been taken in accordance with this procedure.

2. Any allegation of unlawful harassment, discrimination, or retaliation may be referred by the President of a technical college to the Technical College System of Georgia's Executive Director, Legal Services for investigation by the Compliance Officer. Investigations by the Compliance Officer may be done in conjunction with the local investigator at the President's request. The Compliance Officer/local investigator shall notify the affected President of the complaint and the pending investigation, unless otherwise directed by the Commissioner.

B. Investigations

1. All complaints of unlawful harassment, discrimination or unlawful retaliation shall be investigated thoroughly.
2. If a complaint does not specify facts sufficient to allege unlawful harassment or retaliation as prohibited by this procedure, the local investigator may determine that the allegations shall not be investigated. This will be done with joint approval by the local investigator and President. In the case of an investigation being performed by the TCSG Compliance Officer this shall be done with joint approval of the Assistant Commissioner of Technical Education and the Executive Director, Legal Services. This decision will be made within 5 business days of receiving the complaint. Immediately following the decision, notice will be given to the complainant, and the complainant shall have the same rights of appeal as set forth in his procedure.
3. Where a complaint is investigated, the investigation shall commence within 5 business days of receipt of the complaint. Investigations will be conducted by gathering relevant information and interviewing appropriate witnesses. All witnesses provided by the complainant will be interviewed, either verbally or by written documentation.
4. The process from initial complaint to completed investigation should take no longer than 60 days. If additional time is needed, the complainant will be informed.
5. The local investigator/Compliance Officer who conducts the investigation will present facts in a written report to the President.
6. Reports concerning the unlawful harassment, discrimination, or retaliation of students will be processed and handled confidentially to the extent permitted by law.

C. Review and Disposition

1. After reviewing the final report, the President shall make a recommendation, based on a preponderance of the evidence, as to whether the facts support a finding that unlawful harassment, discrimination, or unlawful retaliation has occurred. The

President shall make this recommendation within 5 business days of receipt of the completed investigation.

2. If the recommendation is that the facts do not support a finding of unlawful harassment, discrimination, or unlawful retaliation, and it is determined that no action should be taken, then the matter can be closed.
3. If the recommendation is that the facts do support a finding of unlawful harassment, discrimination, unlawful retaliation, or a policy violation, appropriate sanctions will be recommended and taken pursuant to the applicable disciplinary procedure (either student or employee).
4. The Local Investigator will provide written notice to the complaining party and subject that the investigation is complete. Notice should be given within 5 business days, provided that if a disciplinary action is to be initiated, no parties will be notified until all disciplinary actions are served.

D. Appeal by Complainant

1. If the complainant wishes to appeal the recommendation by the President that the facts do not support a finding of unlawful harassment and/or discrimination, the complainant may do so in writing within 5 business days of receiving notice of the President's recommendation.
2. The complainant must send the appeal by regular mail, facsimile, or e-mail to the following:
 Executive Director, Legal Services
 1800 Century Place NE, Suite 400
 Atlanta, Georgia 30345-4304
 (404) 679-1615 (facsimile)
 UnlawfulHarassment@tcsg.edu
3. The Executive Director of Legal Services will convene a diverse committee of at least three persons to review the investigative file to determine whether there are sufficient facts to support a finding of unlawful harassment/retaliation/discrimination.
4. If the facts do support a finding of unlawful harassment/retaliation/discrimination, appropriate sanctions will be taken pursuant to the applicable disciplinary procedure.
5. If the facts do not support a finding of unlawful harassment/retaliation/discrimination, the matter will be closed.
6. The Executive Director of Legal Services will provide written notice to the complaining party and subject of the investigation within 15 business days of the receipt of the appeal by the Executive Director of Legal Services.

Dress Code

Dress shall be primarily a matter of individual judgment. Students are expected to be neat and clean and to exercise good judgment in their attire at all times while on campus and at events representing SGTC. Regulations

may be announced by instructors and/or administration and posted for reasons of instruction, health, and safety. These regulations must be observed.

Drugs and Narcotics

The use, possession, or distribution of narcotics, amphetamines, barbiturates, marijuana, hallucinogens, and any other dangerous or controlled drugs, not prescribed by a physician, is prohibited on College property or at College-sponsored events.

Title 20-1 of the Official Code of Georgia Annotated states that any student of a public educational college who is convicted, under the laws of the state, the United States, or any other state, of any felony offense involving the manufacture, distribution, sale, possession, or use of marijuana, a controlled substance, or a dangerous drug shall as of the date of conviction be suspended from the public educational college in which such person is enrolled.

Disciplinary action will be taken against a student for the same offense. Such suspension shall be effective as of the date of conviction, even though the educational college may not complete all administrative actions necessary to implement such suspension until a later date. Except for cases in which the college has already imposed disciplinary sanctions for the same offense, such suspension shall continue through the end of the term, quarter, semester, or other similar period for which the student was enrolled as of the date of conviction. The student shall forfeit any right to any academic credit otherwise earned or expected to be earned for such term, quarter, semester, or other similar period; and the educational college shall subsequently revoke any such academic credit which is granted prior to the completion of administrative actions necessary to implement such suspension.

Firearms, Weapons, and Explosives

SGTC is committed to providing all employees, students, volunteers, visitors, vendors and contractors a safe and secure workplace and/or academic setting by expressly prohibiting the possession of a firearm, weapon, or explosive compound/material on any technical college campus (including all satellite campuses/off-site work units), within the designated school safety zone, or at any technical college sanctioned function in a manner contrary to state or federal law.

DEFINITIONS:

Contractor: An independent contractor, business, or corporation which provides goods and/or services to SGTC under the terms specified in a contract. For the purposes of this policy, the term also includes all employees of a business or corporation working on technical college property or at a technical college workplace including any sanctioned event.

School Safety Zone: In, on, or within 1000 feet of any technical college campus, satellite campus, or other designated worksite.

Explosive Compound: any bomb or explosive, chemical, or biological

material referenced in O.C.G.A. 16-7-81.

Firearm: Includes, any operable or inoperable pistol, revolver, or any weapon designed or intended to propel a missile of any kind as defined in O.C.G.A. 16-11-27-1, or a machine gun, shotgun, sawed-off shotgun, sawed-off rifle, dangerous weapon or silencer as defined in O.C.G.A. 16-11-121.

Knife: As defined in O.C.G.A. 16-11-27 regarding the prohibition of carrying a deadly weapon in an unauthorized location (e.g., a Government building) - a cutting instrument designed for the purpose of offense and defense consisting of a blade that is greater than five inches in length which is fastened to a handle.

Long Gun: A firearm with a barrel length of at least 18 inches and overall length of at least 26 inches designed or made and intended to be fired from the shoulder and designed or made to use the energy of the accompanying explosive round (i.e. shotgun shell or metallic cartridge) provided, however, that the term shall not include a gun which discharges a single shot of .46 centimeters or less in diameter.

Weapon: Within a school safety zone, any operable or inoperable object (or reasonable facsimile thereof) referenced in O.C.G.A. 16-11-127.1, including but not limited to a pistol, revolver, or any weapon designed or intended to propel a missile of any kind, any knife with a blade two or more inches in length (e.g., switchblade, ballistic knife, etc.), straight-edge razor or razor blade, any bludgeon-type instrument (e.g., blackjack, bat, or club), any flailing instrument (e.g., nunchuck or fighting chain), stun gun or taser, or weapon designed to be thrown (e.g., throwing star or oriental dart).

Workplace: Any technical college campus, a satellite or off-site work location, or any college sponsored/sanctioned function.

PROCEDURES:

A. General Provisions

1. Unless otherwise provided by law, it is unlawful for any person to carry, possess, or have under such person's control any firearm, weapon, or unlawful explosive compound while on technical college property, to include all campus and off-site work locations; at a technical college sanctioned function; or, on a bus or other means of transportation furnished by the college.
2. Unless otherwise provided by law, it is unlawful for any person to carry a weapon (i.e., knife or handgun) or a long gun while in a government building or a building occupied, in part, by a government entity.
3. A technical college president (or his/her designee) may authorize a college employee (e.g., maintenance and/or custodial staff) to have in his/her possession for use in carrying out assigned duties and responsibilities an object which would be otherwise prohibited by the provisions of O.C.G.A. 16-11-172.1. Such authorization must be in writing and shall specify the object(s) which have been authorized and the time period during which the authorization is valid.

4. As referenced in applicable provisions of O.C.G.A. 16-11-127.1, an instructor/faculty member may possess, use, or permit the use of any object referenced in the definition of the term "Weapon" during classroom instruction.
5. Unless otherwise provided by law, it is an express violation of policy for any individual to use, possess, manufacture, distribute, maintain, transport, or receive any of the following on technical college property to include all campus and off-site work locations, or at any college sanctioned function:
 - a. any firearm or weapon whether operable or inoperable as defined in O.C.G.A. 16-11-127.1 or any facsimile thereof, including, but not limited to paintball guns, BB guns, potato guns, air soft guns, or any device that propels a projectile of any kind;
 - b. any dangerous weapon, machine gun, sawed-off shotgun or rifle, shotgun or silencer as defined in O.C.G.A. 16-11-121;
 - c. any bacteriological weapon, biological weapon, destructive device, detonator, explosive, incendiary, or over-pressure device, or poison gas as defined in O.C.G.A. 16-7-80.
 - d. any explosive compound/material defined in O.C.G.A. 16-7-81; or,
 - e. any hoax device, replica of a destructive device or configuration of explosive materials with the appearance of a destructive device, including, but not limited to, fake bombs, packages containing substances with the appearance of chemical explosives or toxic materials.
6. Personal Possession (Carrying) of a Weapon - the possession of a valid firearms permit and/or a valid license to carry a concealed weapon does not permit any individual (e.g., staff, student, etc.) to carry a weapon on their person on any technical college campus, satellite campus, or other work site, or at any college sanctioned event. Note: this prohibition does not extend to any person employed as a campus police officer or security officer and who is otherwise authorized to carry a weapon pursuant to the provisions of Chapter 8 of Title 20, or those individuals currently employed in or, as applicable, who are retired from the occupations referenced in O.C.B.A. 16-11-130.
7. Vehicle in Transit - an individual over the age of 21 who holds a valid firearms permit or license to carry a concealed weapon may possess a weapon on their person in his/her vehicle or may keep a weapon in a locked compartment of, in a locked container in, or in a locked firearms rack in a motor vehicle when in transit on technical college property.
8. Parked Vehicle - the driver of a vehicle parked on the property of any technical college (including the personal vehicle of a student or technical college employee) may keep a firearm in his/her vehicle provided the weapon is locked out of sight within

the vehicle's trunk, glove box, or other enclosed compartment or areas within the vehicle. Note; this provision applies to those drivers possessing a valid Georgia weapons carry license or who are otherwise authorized by law to carry or possess a firearm/weapon.

B. Corrective Action

1. Any employee who violates the provisions of this policy shall be subject to disciplinary action up to and including dismissal as well as possible criminal prosecution.
2. Any technical college student who violates the provisions of this policy shall be subject to disciplinary action up to and including expulsion consistent with guidelines of the affected technical college's Student Code of Conduct as well as possible criminal prosecution.
3. Any volunteer or visitor who violates the provisions of this policy shall be subject to criminal prosecution.
4. Any vendor or contractor who violates the provisions of this policy shall be subject to the termination of his/her business relationship with the affected technical college, as well as possible criminal prosecution.

Consensual Relationships

SGTC expressly prohibits consensual relationships between: a faculty or staff member and any student that he/she instructs, advises, supervises, or evaluates; a supervisor and any employee he/she directly or indirectly supervises/manages within all work units under his/her span of control (i.e., line of authority); or, any technical college employee and a dually-enrolled high school student.

1. No faculty or staff member may engage in a consensual relationship with any student that he/she instructs or advises (i.e., formal academic advisement), or, supervises or evaluates in any manner or capacity.
 2. Students, faculty, and staff members should be aware that entering into a consensual relationship is contrary to TCSG policy and limits the faculty or staff member's ability to teach and appropriately mentor, direct the work of, and/or employ the student in a part-time capacity.
 3. If a prohibited consensual relationship exists, the relationship must cease. This may involve the student transferring to another course offering or withdrawing from a course taught by the faculty member in question, initiating a change in the student's primary academic advisory, etc. In such instances, it may be necessary for the faculty/staff member to disclose the relationship to his/her immediate supervisor or reviewing manager and seek their assistance in remedying the conflict of interest. The good faith reporting of a consensual relationship, in conjunction with the implementation of the revised policy will not, in and of itself, constitute a policy violation.
- NOTE: Any subsequent complaint generated by a student that the

relationship was non-consensual will be investigated under the provisions of the Student Unlawful Harassment Procedure. Further there will be no presumption that the relationship was consensual in nature.

4. No faculty member should accept authority for/over a student with whom he/she has had a prior consensual relationship to include: permitting the student to enroll in his/her class; supervising the student as a work study, lab assistant, etc.; participating in decisions pertaining to a student's grades, academic honors, degree/diploma/certificate, etc.; or, discussions centered on possible disciplinary action.
5. A faculty or staff member who enters into or continues a prohibited consensual relationship with a student after the effective date of this policy revision will be subject to disciplinary action up to and including separation from employment.

Falsification of College Records

Each person must complete all College records honestly. No person shall alter, counterfeit, forge or cause to be altered, counterfeited or forged any record, form or document used by the College, under penalty of law.

Intellectual Property Policy and Procedure Policy:

To further its goal of making education accessible to as many people as possible, the Department owns the intellectual property rights in any and all works produced by or for the Department.

In order that the Department be able to utilize to the best and fullest extent all works produced for it, and all works provided for its use, anyone producing work for the Department and anyone providing work for the Department's use, represents and warrants that such works:

- Do not violate any law;
- Do not violate or infringe any intellectual property right (including but not limited to copyright, trademark, patent, or right of publicity) of any person or firm; and
- Do not libel, defame, or invade the privacy of any person or firm.

The Commissioner may establish a committee to make recommendations concerning the development of intellectual property not exclusively owned by the Department.

Procedure:

Each institution or unit of the Technical College system is required to follow state policies and procedures for handling patentable devices/materials or copyrightable materials/media. For each institutional/unit case the president/supervisor shall appoint representatives to a state level patent/copyright committee consisting of not fewer than three or more than nine members, a member of which shall be designated by the Commissioner to serve as chair. In each institutional case the committee shall include a representative of the office of administrative services and instructional

services of that institution.

The state level patent/copyright committee shall recommend to the Commissioner the rights and equities in patentable from royalties and other use shall be agreed upon by employees and appropriate administrative personnel in accordance with state policy in advance of the use of the institution's personnel or facilities. In the event of a disagreement as to the ownership and use of such devices, materials or media, existing State Board policies provide for an appeal procedure.

Financial Responsibility

Students are required to meet all financial obligations to the College promptly. A student who is delinquent in the student's financial obligations to the College will not be allowed to register for the next term, to receive a copy of his/her transcript, or grades to transfer the student's credit to another school, or to graduate from the College.

Gambling

Playing cards, pool, or any other game of skill or chance for money or other items of value is prohibited at the College.

Theft

No person shall take a textbook, tools, or other supplies owned by another person without the permission of the owner. No person shall take, attempt to take, or keep in the person's possession, items of College property or items belonging to students, faculty, staff or student groups without proper authorization, under penalty of law.

Unauthorized Entry or Use of Facilities

No person shall make unauthorized entry into any College building, office, or other facility; nor shall any person remain without authorization in any building after normal closing hours, under penalty of law.

Pets and Animals

Pets and other animals are not allowed in dorms or on campus, unless as part of an instructional program area under strict regulations of the instructor and the Vice President of Academic Affairs.

Automobile Registration and Parking

Any vehicle driven by a dormitory or commuting student must have a parking permit sticker. During the registration process, students will be furnished with a vehicle registration card. This card should be completed and returned to the Campus Safety office for the purpose of receiving a parking permit sticker. Proof of a current valid driver's license is required. The cost of the parking permit sticker is covered through the Student Activity Fee.

If a student uses more than one vehicle on campus, he or she must register each additional vehicle on campus. The student is responsible for placing the parking permit in a clearly visible area near the left side of the rear bumper or left corner of the rear window of the vehicle.

New students will be given three days to register their vehicles and must place the parking permit on the vehicle. After the initial three-day period, any non-registered vehicle brought on campus by a student must be registered at the Campus Safety office by 8:30 a.m. on the first class day that the vehicle is used. Students' vehicles must be parked only in areas designated for student parking. Illegally parked vehicles will receive tickets and are subject to being towed at the owner's expense.

Fines for parking and permit violations are based on the following schedule:

- First offense \$15 fine
- Second offense \$20 fine
- Third offense \$30 fine or withdrawal of parking permit or both including vehicle being banned from campus.

Students who need to pay a traffic fine should report to the Business Office. If fines are not paid during the term in which the offense occurs, the student's grades and other records will be held.

Traffic Regulations

All motor vehicles must be operated in a responsible manner on campus. The maximum speed of vehicles on campus is 15 miles per hour. This limit applies from the time of entrance on college grounds. No person operating a vehicle on campus shall pass another moving vehicle on any of the campus streets or parking areas. All vehicles must yield to pedestrians. All traffic accidents occurring on campus, no matter how minor, must be reported to Campus Safety office and to the Georgia State Patrol.

Only licensed motorized vehicles are permitted on campus. Any motorized vehicle not required to have a tag is prohibited. In addition, if at any time a vehicle becomes a nuisance, the vehicle and the operator can be banned from campus.

No person shall willfully refuse or fail to comply with any lawful order of direction or any officer with authority to direct, control, or regulate traffic. Any vehicles left on campus for a period of three weeks and appears to be abandoned will be towed at the owner's expense. The college is not responsible for vehicle accidents or damage to vehicles while on campus.

Dormitory Rules and Regulations

- All dorm students must sign the Resident Hall Agreement Form provided at the time of moving into the dormitory.
- After being assigned to a room, no student is permitted to move to another room without the approval of the Director of Campus Safety or designee.
- Students are expected to keep their rooms clean, sanitary, and free of fire hazards. Rooms are subject to a room check by the dormitory supervisor and other authorized personnel at all times.
- Overnight guests are not permitted in the dormitories.
- Occupants of a room will be held responsible for damage to the students' property as well as to the college property.

- Occupants of a building will be held responsible for damages to the building's common areas.
- The cafeteria will be closed on all college holidays and between terms when classes are not in session.
- Students are permitted to have radios, stereos, TV sets, electric fans, curling irons, hair dryers, small apartment size refrigerators and microwave units in their rooms. No other appliances should be used in the dorm rooms.
- Loud noises from stereos and TV sets will not be permitted at any time in lobbies, hallways, or rooms.
- Nails or screws of any type should not be used on the dormitory walls to hang pictures or other items. Also, wire or hangers of any type should not be hung from room ceilings.
- Students must be properly dressed when outside their rooms. Adequate clothing must be worn in the lounge, halls, and recreation rooms.
- All forms of hazing, scuffling, and horseplay are strictly prohibited.
- Pets or other animals are not allowed on campus.
- Flammable items of any type must not be stored or used in dormitory rooms. This includes incense burning.
- Any type of engine part or other mechanical parts, tires, etc. are prohibited from dormitory rooms. Dormitory rooms must not be used as work rooms for mechanical parts.
- If a student needs to replace a room or P.O. Box key, he or she must go to the Business Office and pay \$20, after which the student will receive a paid receipt to give to Campus Safety to receive a new key.
- Students must not have dormitory or mailbox keys reproduced.
- A campus curfew is in effect beginning at Midnight. Campus Safety personnel will pull ID cards on students who are loitering outside dorms or around the school campus after 12 a.m. (2 a.m. on weekends). Students arriving back on campus after 12 a.m. (2 a.m. on weekends) should go inside the dorm immediately without disturbing other individuals in the dorm.
- All dormitory students must turn in room keys and mailbox keys at the end of each term. Students who do not turn in keys cannot reserve a room for the following term, and their reservations will be canceled. There is also a fee charged for the key.
- Individuals of the opposite sex are allowed to visit a dorm room between 10 a.m. and 12 a.m. and must be escorted by the dorm student. Any student violating this policy will be suspended from the dorm for a minimum of 30 days. The visiting party will also be disciplined. Reinstatement of the student to reside on campus will be at the discretion of the school administration.
- A student picking up a cafeteria plate for a sick student must complete a form available from the cafeteria cashier on duty. The student picking up the plate must also have the ID card of the sick student at the time the form is completed.

- If a student needs medical attention in the dormitory, he or she should notify the dorm supervisor. If the dorm supervisor is unavailable, the student should notify Campus Safety, the Director of Campus Safety, or other school officials
- All dormitory accidents must be reported to the dorm supervisor and the Director of Campus Safety.
- Dorm students are required to attend all dorm meetings.
- Students should report suspected break-ins in their rooms to the dorm supervisor.
- As explained in the General Rules and Regulations, the use or possession of intoxicating beverages, narcotics, and illegal drugs is prohibited in the dormitories as well as in other areas of the campus.
- Profane language, gambling, and insubordination to college officials are strictly prohibited.
- No firearms or any other devices considered as weapons by school officials will be allowed in dormitories or on campus.
- No form of fireworks or any type of explosives will be allowed in dormitories or on campus.
- Any student found guilty of tampering or playing with fire alarms, night lights, and exit lights will be subject to disciplinary action.
- No alterations or add-ons to individual television cable service will be allowed, under penalty of law.
- During times when there is not a dorm supervisor on duty, campus safety officers will assume the supervisory role for each dorm.

STUDENT DISCIPLINARY POLICY AND PROCEDURE

POLICY:

SGTC reserves the right to maintain a safe and orderly educational environment for Students and staff. Therefore, when, in the judgment of college officials, a Student's conduct disrupts or threatens to disrupt the college community, appropriate disciplinary action will be taken to restore and protect the atmosphere of collegiality and mutual respect on campus. This procedure is intended to provide an orderly protocol for handling Student disciplinary cases in accordance with the principles of due process and justice.

DEFINITIONS:

1. **Business Days:** weekdays that the college administrative offices are open.
2. **Continuing Relationship:** any person who has been enrolled as a student and may enroll in the future as a Student at the Technical College.
3. **Judicial Advisor:** Unless otherwise noted, the "Judicial Advisor" of the Technical College may be the Student Disciplinary Officer, or his designee.
4. **Member of the Technical College Community:** any person who is a Student, Faculty Member, Technical College Official or any other person/s involved with the Technical College community or employed by the Technical College.
5. **Policy:** the written regulations of the Technical College as found in, but not limited to, the Student Code of Conduct, Students Handbook(s), Residence Hall Handbook(s), Technical College Catalog(s), the Technical College Policy Manual, and the Policy Manual approved by the State Board for the Technical College System of Georgia.
6. **Student:** all persons taking courses at the college full-time, part-time, dual enrollment, joint enrollment, non-credit and credit. Persons who are not officially enrolled for a particular term but who have a continuing relationship with the college are considered "Students."
7. **Student Disciplinary Officer:** If disciplinary action is academic in nature, the Office of Academic Affairs administers this procedure. If disciplinary action is non-academic in nature, the Director of Campus Safety & Dorms administers this procedure. If disciplinary action is relating to the Crisp County Center, the Vice President, or designee, of that Center administers this procedure.

PROCEDURE:

A. Filing a Complaint

1. Any member of the Technical College Community may file a complaint with the appropriate Student Disciplinary Officer against

any student for a violation of the Student Code of Conduct. The individual(s) initiating the action must complete a written statement of the incident and forward it directly to the Student Disciplinary Officer or his/her designee.

2. Investigation and Decision

- a. Within five business days after the Complaint is filed, the Student Disciplinary Officer or his/her designee shall complete a preliminary investigation of the incident, and schedule a meeting with the Student against whom the Complaint was filed in order to discuss the incident and the charges. In the event that additional time is necessary, the Student will be notified. After discussing the Complaint with the Student, the Student Disciplinary Officer or his/her designee shall determine whether the student committed the alleged conduct, and whether the alleged conduct constitutes a violation of the Student Code of Conduct.
 - b. The Student shall have 5 business days from the date contacted by the Student Disciplinary Officer to schedule the meeting. This initial meeting may only be rescheduled one time. If the Student fails to respond to the Student Disciplinary Officer within 5 business days to schedule the meeting, reschedules the meeting more than once, or fails to appear at the meeting, the Student Disciplinary Officer will consider the available evidence without Student input and make a determination
 - c. In the event that a Complaint alleges violations of the Student Code of Conduct by more than one Student, each Student's disciplinary proceeding, as well as any appeals relating to that proceeding, shall be conducted individually.
 - d. If the Student Disciplinary Officer or his/her designee determines that the Student has violated the Student Code of Conduct, he/she shall impose one or more disciplinary sanctions consistent with those described below. If the Student Disciplinary Officer or his/her designee determines that the alleged conduct did not occur, or that the conduct was not a violation of the Student Code of Conduct, he/she shall not impose any disciplinary sanctions on the student and the investigation shall be closed.
1. After a determination that a Student has violated the Student Code of Conduct, the Student Disciplinary Officer or his/her designee may impose one or more of the following sanctions:
 - a. **Restitution**—A Student who has committed an offense against property may be required to reimburse the Technical College or other owner for damage to or misappropriation of such property. Any such payment in restitution shall be limited to the actual cost of repair or replacement.
 - b. **Reprimand**—A written reprimand may be given to any

Student. Such a reprimand does not restrict the Student in any way, but it signifies to the Student that he/she is in effect being given another chance to conduct himself/herself as a proper Member of the Technical College Community, and that any further violation may result in more serious sanctions.

- c. **Restriction**— A restriction upon a Student's privileges for a period of time may be imposed. This restriction may include but is not limited to denial of the right to represent the Technical College in any way, denial of use of facilities, alteration or revocation of parking privileges, or restrictions from participating in extracurricular activities.
- d. **Disciplinary Probation**— Continued enrollment of a Student on probation may be conditioned upon adherence to specified terms. Any Student placed on probation will be notified of the terms and length of probation in writing. Any conduct determined after due process to be in violation of these terms while on probation may result in the imposition of more serious disciplinary sanctions, as specified by the terms of probation.
- e. **Failing or lowered grade**— In cases of academic misconduct, the Student Disciplinary Officer or his/her designee will make a recommendation to the Vice President for Academic Affairs or his/her designee who may authorize the instructor to award a failing or lowered grade in the course, a loss of credit on the assignment or examination, and may impose other additional sanctions including suspension or dismissal from the Technical College.
- f. **Disciplinary Suspension**— If a Student is suspended, he/she is separated from the Technical College for a stated period of time. Conditions of reinstatement, if any, must be stated in the notice of suspension.
- g. **Disciplinary Expulsion**— Removal and exclusion from the Technical College, Technical College controlled facilities, programs, events, and activities. A record of the reason for the Student's dismissal is maintained by the Student Disciplinary Officer or his/her designee. Students who have been dismissed from the Technical College for any reason may apply in writing for reinstatement twelve (12) months following the expulsion. If approval for reinstatement is granted, the Student will be placed on disciplinary probation for a specified term. The probationary status may be removed at the end of the specified term at the discretion of the Student Disciplinary Officer or his/her designee.
- h. **Interim Disciplinary Suspension**— As a general rule, the status of a Student accused of violations of the Student Code of Conduct should not be altered until a final determination is made regarding the charges against him/her. However,

interim suspension may be imposed upon a finding by the Student Disciplinary Officer or his/her designee that the continued presence of the accused student on campus constitutes a potential or immediate threat to the safety and well-being of the accused student or any other member of the Technical College Community or its guests, or that the continued presence of the Student on campus creates a risk of substantial disruption of classroom or other Technical College-related activities.

- i. **System-Wide Expulsion**— Where a student has been expelled or suspended three times from the same or different colleges in the Technical College System of Georgia in the past seven years, the student may not be permitted to register at any college in the Technical College System of Georgia for a period of ten years after the most recent expulsion/suspension.
2. **Violation of Federal, State, or Local Law**
 - a. If a Student is convicted or pleads Nolo Contendere to an off-campus violation of federal, state, or local law, but not with any other violation of the Student Code of Conduct, disciplinary action may be taken and sanctions imposed for misconduct that is detrimental to the Technical College's vital interests and stated mission and purpose.
 - b. Disciplinary proceedings may be instituted against a Student charged with violation of a law that is also a violation of the Student Code of Conduct if both violations result from the same factual situation, without regard to criminal arrest and/or prosecution. Proceedings under this Student Code of Conduct may be carried out prior to, simultaneously with, or following criminal proceedings.
 - c. When a Student is charged by federal, state, or local authorities with a violation of law, the Technical College will not request or agree to special consideration for that individual because of his/her status as a Student. The Technical College will cooperate fully with law enforcement and other agencies in the enforcement of criminal law on campus and in the conditions imposed by criminal courts for the rehabilitation of student violators. Individual Students, acting in their personal capacities, remain free to interact with governmental representatives as they deem appropriate.
3. **Conditions of Disciplinary Suspension and Expulsion**
 - a. A Student who has been suspended or expelled from the Technical College shall be denied all privileges afforded a Student and shall be required to vacate Technical College Premises at a time determined by the Student Disciplinary Officer or his/her designee.
 - b. In addition, after vacating the Technical College Premises, a suspended or expelled Student may not enter upon the

Technical College Premises at any time, for any purpose, in the absence of written permission from the Student Disciplinary Officer or his/her designee. A suspended or expelled student must contact the Student Disciplinary Officer or his/her designee for permission to enter the Technical College Premises for a limited, specified purpose.

- c. If the student seeks to submit a signed Disciplinary Sanction Appeal/Grievance, the Student Disciplinary Officer or his/her designee must accept the Form by mail or fax if he/she refuses the Student's request to enter the Technical College Premises for that specified purpose.
- d. A scheduled appeal hearing before the Vice President or his designee shall be understood as expressed permission from the Student Disciplinary Officer or his/her designee for a student to enter the Technical College Premises for the duration of that hearing.

C. Appeals/Grievance Procedure

A student who wishes to appeal or file a grievance of the disciplinary decision by the Student Disciplinary Officer or his/her designee must file a written notice of appeal/grievance following the Grievance/Appeal Procedure located in the SGTC Student Catalog/Handbook.

GRIEVANCE/APPEAL PROCEDURE FOR STUDENTS

Policy

It is the policy of SGTC to maintain a grievance process available to all students that provides an open and meaningful forum for their complaints, the resolution of these complaints, and is subject to clear guidelines. This procedure does not address complaints related to the unlawful harassment, discrimination and/or retaliation for reporting harassment/discrimination against students. Those complaints are handled by the Unlawful Harassment and Discrimination of Students Procedure.

DEFINITIONS:

- A. Grievable issues:** Issues arising from the application of a policy/procedure to the student's specific case is always grievable. Specifically grievable are issues related to student advisement, improper disclosure of grades, unfair testing procedures and poor treatment of students; this is a representative list and is not meant to be exhaustive.
- B. Non-grievable issues:** Issues which have a separate process for resolution (i.e. disciplinary sanctions, FERPA, financial aid, academic grades, etc.) are not grievable and a student must take advantage of the process in place.
- C. Business days:** Weekdays that the college administrative offices are open.
- D. Vice President for Academic Affairs (VPAA):** The staff member in charge of the academic affairs division at the college.
- E. Special Assistant to the President (SA):** The staff member in charge of the student activities division at the college. This includes residential facilities, campus life, campus safety, cafeteria, etc.
- F. Vice President of Administrative Services (VPA):** The staff member in charge of the administrative services division of the college. This includes business office, bookstores, financial aid, human resources, etc.
- G. Vice President of Student Affairs (VPSA):** The staff member in charge of admissions, registrar's office, information technology, and institutional effectiveness.
- H. Retaliation:** Unfavorable action taken, condition created, or other action taken by a student/employee for the purpose of intimidation directed toward a student because the student initiated a grievance or participated in an investigation of a grievance.
- I. Grievant:** the student who is making the complaint.

PROCEDURE

- A. Informal Complaint Procedure:** Student complaints should be resolved on an informal basis without the filing of a formal grievance.
 1. A student has 10 business days from the date of the incident

being grieved to resolve his complaint informally by approaching his instructor, department chair or any other staff or faculty member directly involved in the grieved incident.

2. Where this process does not result in a resolution of the grievance, the student may proceed to the formal grievance procedure.

B. Formal Complaint Procedure: Where a student cannot resolve his complaint informally, he may use the formal grievance procedure.

1. Within 15 business days of the incident being grieved, the student must file a formal grievance in the office of the division of the college as follows:
 - a. If the grievance is related to instruction/academic affairs, file the grievance with the office of the Vice President of Academic Affairs (VPAA), or
 - b. If the grievance is related to non-academic situations (residential facilities, campus life, campus safety, cafeteria, etc.), file the grievance with the office of the Special Assistant to the President (SA)
 - c. If the grievance is related to non-academic situations (business office, bookstores, etc.), file the grievance with the office of the Vice President of Administrative services (VPA).
 - d. If the grievance is related to non-academic situations (admissions, registrar's office, information technology, institutional effectiveness, etc.), file the grievance with the office of the Vice President of Student Affairs (VPSA).
 - e. With the following information: Name, Date, Brief description of incident being grieved, Remedy requested, Other written documentation to support position, Signed, and Informal remedy attempted by student and outcome.
2. If the grievance is against the VPAA, SA, VPSA, or VPA, the student shall file the grievance in the Office of the President.
3. The VPAA, SA, VPSA, or VPA, or his designee, will investigate the matter and supply a written response to the student within 15 business days.
4. If the grieved incident involves possible unlawful harassment, discrimination or retaliation for reporting unlawful harassment/discrimination, the investigation will be handled pursuant to the Procedure: Unlawful Harassment and Discrimination of Students.
5. If the grieved incident is closely related to an incident being processed through the disciplinary procedure, the disciplinary procedure will take precedence and the grievance will not be processed until after the disciplinary procedure has run its course.
6. The VPAA, SA, or VPA, or his designee, shall be granted an additional 15 business days to investigate the grievance upon notice to the grieving student.

C. Appeal of Staff Response: If a student is unsatisfied with the response from the VPAA, SA, VPSA, or VPA, the student may appeal the

decision to the President of the college. The college staff has no right to appeal.

1. A student shall file a written appeal to the President within 5 business days of receiving the response referenced in item 3 above.
2. The appeal will be decided based entirely on documents provided by the student and the administration; therefore the student must ensure that he has provided all relevant documents with his appeal.
3. At the President of the college's sole discretion, grievance appeals may be held in one of the following two ways:
 - a. The President may review the information provided by the student and administration and make the final decision; or
 - b. The President may appoint a cross-functional committee comprised of up to 5 members, including one chair, to make the final decision.
 - c. The decision of either the President or the cross-functional committee shall be made within 10 business days of receipt by the President of the appeal.
4. Whichever process is chosen by the President, the decision of the grievance appeal is final.

Retaliation against a student for filing a grievance is strictly prohibited.

DEGREE PROGRAMS

Statement of General Education Outcomes

To fulfill our institutional mission “to prepare individuals for success in the workforce,” South Georgia Technical College requires a collegiate-level general education component in each of the fourteen Associate Degree programs offered. The following objectives undergird all instruction at SGTC regardless of program area, but are particularly emphasized and assessed in General Core courses:

1. Students will be able to use reasoning skills to determine how to solve business and practical math applications.
2. Students will be able to communicate with diverse groups of people using appropriate, accurate, and effective written and oral communication skills.
3. Students will be able to conduct research using a variety of primary and reference sources.
4. Students will be able to read and analyze written materials.

Program Length

Program length indicates the minimum number of semesters required to complete the program for a full-time student.

Placement

All applicants must take the college’s placement test or submit acceptable SAT or ACT test scores or submit acceptable college or technical college credit with grades of “C” in English and math courses. Applicants who do not make the minimum scores for the program of interest may be admitted as a provisional student. This placement will be based on the test scores.

Regular Student: Attain program-ready scores on the College’s placement test or submit acceptable SAT or ACT scores, GHSGT, ELA scores, or college credit as stated above.

Provisional Student: Must take Learning Support courses in the area in which test scores indicate a need for improvement based on cut scores for the individual programs. However, a provisional student may also take selected program courses.

ACCOUNTING (AC13)

(Replaces AC03)

Program Description:

The Accounting Associate Degree program is a sequence of courses that prepares students for a variety of careers in accounting in today's technology-driven workplaces. Learning opportunities develop academic, technical, and professional knowledge and skills required for job acquisition, retention, and advancement. Program graduates receive an Associate of Applied Science Degree in Accounting.

Program Length: 5 terms

Entrance Date: Every term

Admissions Requirements

Education: A high school diploma or its equivalent is required.

Age: 16 years or older

Placement: Achievement of appropriate scores on the college's placement test or submission of acceptable SAT or ACT scores.

Provisional Admission accepted.

Students must complete a minimum of nine hours from the Occupational Elective Courses listed AND complete a minimum of nine hours of occupationally related courses approved by the advisor.

64 minimum semester hour credits required for graduation

AGRICULTURAL TECHNOLOGY (AT13)

Program Description:

Agricultural Technology is an Associate Degree program. It is a combination of classroom and cooperative education training. The classroom and related instruction was designed jointly with industry to provide the student with

theoretical, technical, and general academic knowledge needed to succeed in the agricultural equipment servicing industry. The cooperative work phase will be supervised and evaluated. Graduates will receive an Associate of Applied Science Degree and may be employed as technicians, parts managers, or sales and service personnel.

BUSINESS ADMINISTRATIVE TECHNOLOGY (BA23) (Replaces BAT3)

Program Description:

The Business Administrative Technology program is designed to prepare graduates for employment in a variety of positions in today's technology-driven workplaces. The Business Administrative Technology program provides learning opportunities, which introduce, develop, and reinforce academic and occupational knowledge, skills, and attitudes required for job acquisition, retention, and advancement. The program emphasizes the use of word processing, spreadsheet, and presentation applications software. Students are also introduced to accounting fundamentals, electronic communications, internet research, and electronic file management. The program includes instruction in effective communication skills and terminology that encompasses office management and executive assistant qualification and technology innovations for the office. Additionally, the program provides opportunities to upgrade present knowledge and skills or to retrain in the area of administrative technology. Graduates of the program receive a Business Administrative Technology, Associate of Applied Science degree.

Students must complete the required number of Occupational Elective credit hours.

62 minimum semester hour credits required for graduation

CRIMINAL JUSTICE TECHNOLOGY (CJT3)

(Replaces CJ03)

Program Description:

The Criminal Justice Technology Associate degree program is a sequence of courses that prepares students for Criminal Justice professions. Learning opportunities develop academic, occupational, and professional knowledge and skills required for job acquisition, retention, and advancement. The program emphasizes a combination of Criminal Justice theory and practical application necessary for successful employment. Program graduates receive a Criminal Justice Technology associate degree. Graduates who are current practitioners will benefit through enhancement of career potential. Entry-level persons will be prepared to pursue diverse opportunities in the corrections, security, investigative, and police administration fields. Completion of the Criminal Justice Technology associate degree does not ensure certification of officer status in Georgia. Students must seek such certification from the Peace Officer Standards and Training (P.O.S.T.) Council.

Program Length: 5 terms

Entrance Date: Every term

Admissions Requirements

Education: A high school diploma or its equivalent is required.

Age: 16 years or older

Placement: Achievement of appropriate scores on the college's placement test or submission of acceptable SAT or ACT scores.

Provisional Admission accepted.

60 minimum semester hour credits required for graduation

Acceptance into the Criminal Justice Degree program does not necessarily guarantee participation in an internship setting. A criminal background check must be completed for the internship site prior to the first day of the internship. Failure to complete and pass this criminal background check to the satisfaction of the internship site will prohibit the internship experience, thus, terminating the student from the program before graduation.

CULINARY ARTS (CA43)**(Replaces CUL3)****Program Description:**

The Culinary Arts Degree program is a sequence of courses that prepares students for the culinary profession. Learning opportunities develop academic, occupational, and professional knowledge and skills required for job acquisition, retention, and advancement. The program emphasizes a combination of culinary theory and practical application necessary for successful employment. Program graduates receive a Culinary Arts Degree. Graduates who are current practitioners will benefit through enhancement of career potential. Entry-level persons will be prepared to pursue diverse opportunities in the culinary field as cooks, bakers, or caterers/culinary managers.

Program Length: 5 terms**Entrance Date:** Every term**Admissions Requirements****Education:** A high school diploma or its equivalent is required.**Age:** 16 years or older**Placement:** Achievement of appropriate scores on the college's placement test or submission of acceptable SAT or ACT scores.

DRAFTING TECHNOLOGY (DT13)

(Replaces DR03)

Program Description:

The Drafting Technology Associate of Applied Science degree program prepares students for employment in a variety of positions in the drafting field, such as drafter or CAD operator based on the specialization area a student chooses to complete. The program provides learning opportunities which introduce, develop, and reinforce academic and technical knowledge, skills and attitudes required for job acquisition, retention, and advancement. Additionally, the program provides opportunities to upgrade present knowledge and skills or retrain in drafting practices and software.

Program Length: 5 terms

Entrance Date: Every term

Admissions Requirements

Education: A high school diploma or its equivalent is required.

Age: 16 years or older

Placement: Achievement of appropriate scores on the college's placement test or submission of acceptable SAT or ACT scores.

Provisional Admission accepted.

EARLY CHILDHOOD CARE/EDUCATION (EC13)

(Replaces 0003)

Program Description:

The Early Childhood Care and Education Associate of Applied Science degree program is a sequence of courses designed to prepare students for a variety of careers in the field of early childhood education. The program emphasizes a combination of early childhood care and education

theory and practical application as well as general core competencies necessary for successful employment. Graduates have qualifications to be employed in early childhood care and education settings including child care centers, Head Start, Georgia Pre-K programs, and elementary school paraprofessional positions. Graduates of this program will receive one of two areas of specialization: paraprofessional or program administration.

Program Length: 5 terms

Entrance Date: Every term

Admissions Requirements

Education: A high school diploma or its equivalent is required.

Age: 16 years or older

Placement: Achievement of appropriate scores on the college's placement test or submission of acceptable SAT or ACT scores.

Provisional Admission accepted.

ECCE 2322	Personnel Management	3

72 minimum semester hour credits required for graduation

Students enrolled in the Early Childhood Care/Education Degree program will be required to have criminal background checks to satisfaction of the clinical site and a Tuberculosis (TB) skin test prior to participating in a clinical experience or practicum.

ELECTRONICS TECHNOLOGY (ET13)

(Replaces EFA3)

Program Description:

The Electronics Technology Degree program is a sequence of courses designed to prepare students for careers in electronics professions. Learning opportunities develop academic, technical, and professional knowledge and skills required for job acquisition, retention, and advancement. The program emphasizes a combination of electronics technology theory and practical application necessary for successful employment using both manual and computerized electronics systems. Program graduates receive an Electronics Technology associate of Science Degree which qualifies them as electronics technicians with a specialization in general and communication electronics.

Program Length: 5 terms

Entrance Date: Every term

Admissions Requirements

Education: A high school diploma or its equivalent is required.

Age: 16 years or older

Placement: Achievement of appropriate scores on the college's placement test or submission of acceptable SAT or ACT scores.

HEAVY EQUIPMENT DEALER SERVICE TECHNOLOGY (HED3)

Program Description:

The Heavy Equipment Dealers Service Technology Associate degree program is a sequence of courses designed to prepare students for careers in the heavy equipment service and repair profession, specifically for Caterpillar dealers. The program utilizes a curriculum (ThinkBIG) developed by Caterpillar, Inc. and is currently utilized by 19 colleges throughout the world. Learning opportunities in the classroom, lab and internships enable students to develop academic, technical and professional knowledge and skill required for job acquisition, retention, and advancement. The program emphasizes a combination of heavy equipment, engines and a minor emphasis on marine propulsion systems and power generator repair theory and practical application necessary for successful employment. Program graduates receive a Heavy Equipment Dealers Service Technology Associate Degree that qualifies them as entry-level heavy equipment technicians.

Program Length: 5 semesters

Entrance Date: Fall semester

Admissions Requirements

Education: A high school diploma or its equivalent is required.

Age: 16 years or older

Placement: Achievement of appropriate scores on the college's placement test or submission of acceptable SAT or ACT scores.

RECREATION AND LEISURE MANAGEMENT (RA13)

(Replaces RAL3)

Program Description:

The Recreation and Leisure Management degree program prepares students for successful careers in the recreation and leisure management field. Students who successfully complete the program will have the skills to work in various recreation agencies. The student will be able to maintain, manage, and supervise facilities and staff, supervise sports programs and coordinate special events. Graduates of the program will have an understanding of the process for planning and designing recreational facility.

Program Length: 5 terms

Entrance Date: Every term

Admissions Requirements

Education:	A high school diploma or its equivalent is required.
Age:	16 years or older
Placement:	Achievement of appropriate scores on the college's placement test or submission of acceptable SAT or ACT scores.

Provisional Admission accepted.

DIPLOMA PROGRAMS

Program Length

Program length indicates the minimum number of terms required to complete the program for a full-time student. Factors such as a being enrolled as a part-time student or evening student or being required to repeat courses would extend completion time.

Placement

All applicants must take the Institution's placement test or submit acceptable SAT or ACT test scores. Applicants who do not make the minimum scores for the program of interest may be admitted as a provisional student or a learning support student. This placement will be based on the test scores.

Regular Student: Attained acceptable program scores on the college's placement test or submitted acceptable SAT or ACT scores.

Provisional Student: Must take Learning Support courses in the area in which test scores indicated a need for improvement. However, a provisional student may also take selected program courses.

Learning Support Student: A student is granted Learning Support status when he/she does not meet the regular or provisional admissions requirements. Students classified in this category are eligible to enroll in Learning Support classes only. The amount of time spent in Learning Support depends upon the individual student.

LEARNING SUPPORT (DV00)

Program Description:

Learning Support is a series of courses designed to assist students in attaining regular program admission by providing them the opportunity to correct deficiencies and/or improve their skills in the areas of reading, English, and mathematics. The aim of the Learning Support Courses is to prepare students for successful participation in occupational/technical programs.

CURRICULUM

All Learning Support course hours are for institutional credit only.

AUTO COLLISION REPAIR (ACR2)

(Replaces AU02)

Program Description:

The Automotive Collision Repair program is a sequence of courses designed to prepare students for careers in the automotive collision repair profession. Learning opportunities develop academic, technical and professional knowledge and skills required for job acquisition, retention, and advancement. The program emphasizes either major automotive collision repair or automotive painting and refinishing depending on the specialization area a student chooses to complete. Program graduates receive an Automotive Collision Repair diploma which qualifies them as major collision repair technicians or painting and refinishing technicians.

Program Length: 4 terms

Entrance Date: Every term

Admissions Requirements

Education: A high school diploma or its equivalent is required.

Age: 16 years or older

Placement: Achievement of appropriate scores on the college's placement test or submission of acceptable SAT or ACT scores.

AVIATION MAINTENANCE TECHNOLOGY (AM34)

(Replaces AV04)

Program Description:

The Aviation Maintenance Technology diploma program is intended to provide students with an introduction to the occupational area of aviation maintenance as currently understood and practiced by Federal Aviation, Administration (FAA) mechanic certificate holders with airframe and/or power plant ratings. In addition, the combined power plant and airframe curriculum is designed to provide students with the technical knowledge and skills required to diagnose problems and repair aircraft power plants, both reciprocating and turbine, their systems and components; and airframes, both metal and wood, their systems and components. Satisfactory completion of all program courses entitles students to participate in FAA power plant and airframe examinations and certification processes.

AVIONICS MAINTENANCE TECHNOLOGY (AM44)

(Replaces A004)

Program Description:

The Avionics Maintenance Technology diploma program is a sequence of courses designed to prepare students to work in the field of avionics maintenance technology. Learning opportunities develop academic, technical and professional knowledge and skills required for job acquisition, retention and advancement. The program emphasizes a combination of aircraft airframe and avionics theory and practical application necessary for successful employment. Program graduates receive an Avionics Maintenance Technology diploma that qualifies them as avionics technicians and prepares them to sit for the Federal Aviation Administration (FAA) Airframe certification exams as well as the Federal Communication Commission (FCC) and General Radio Operating License (GROL) exam.

BARBERING (BA12)

(Replaces BA02)

Program Description:

The Barbering program is a sequence of courses that prepares students for careers in the field of barbering. Learning opportunities develop academic and professional knowledge and skills required for job acquisition, retention, and advancement. The program emphasizes specialized training in safety, sanitation, hair treatments and manipulations, hair-cutting techniques, shaving, skin care, reception, sales, and management. The curriculum meets state licensing requirements of the Georgia State Board of Barbering. The program graduate receives a Barbering diploma and is employable as a barber, salon/shop manager, or a salon/shop owner.

Program Length: 4 terms

Entrance Date: Every term

Admissions Requirements

Education: A high school diploma or its equivalent is not required for admission, but must be obtained before receiving a diploma from SGTC.

Age: 16 years or older

Placement: Achievement of appropriate scores on the college's placement test or submission of acceptable SAT or ACT scores.

Only Regular Admission students are accepted.

BUSINESS ADMINISTRATIVE TECHNOLOGY (BA22)

(Replaces BAT2)

Program Description:

The Business Administrative Technology program is designed to prepare graduates for employment in a variety of positions in today's technology driven workplaces. The Business Administrative Technology program provides learning opportunities, which introduce, develop, and reinforce academic and occupational knowledge, skills, and attitudes required for job acquisition, retention, and advancement. The program emphasizes the use of word processing, spreadsheet, presentation, and database applications software. Students are also introduced to accounting fundamentals, electronic communications, internet research, and electronic file management. The program includes instruction in effective communication skills and technology that encompasses office management and executive assistant qualification and technology innovations for the office. Also provided are opportunities to upgrade present knowledge and skills or to retrain in the area of business administrative technology. Graduates of the program receive a Business Administrative Technology Diploma with a specialization in one of the following: Business Administrative Assistant or

Medical Administrative Assistant.

Program Length: 4 terms

Entrance Date: Every term

Admissions Requirements

Education: A high school diploma or its equivalent is required.

Age: 16 years or older

Placement: Achievement of appropriate scores on the college's placement test or submission of acceptable SAT or ACT scores.

Provisional Admission accepted.

COSMETOLOGY (C012)

Program Description:

The Cosmetology program is a sequence of courses that prepares students for careers in the field of cosmetology. Learning opportunities develop academic and professional knowledge and skills required for job acquisition, retention, and advancement. The program emphasizes specialized training in safety, sanitation, state laws, rules, and regulations, chemistry, anatomy and physiology, skin, hair, and nail diseases and disorders, hair treatments and manipulations, hair shaping, hair coloring, hair lightening, reception, sales, management, math, reading, writing interpersonal relations development, computer skills, employability skills, and work ethics. The curriculum meets state licensing requirements of the State Board of Cosmetology. Program graduates receive a Cosmetology diploma and are employable as a cosmetology salesperson, cosmetologist, salon manager, or a salon owner.

Program Length: 3 terms

Entrance Date: Fall and Spring terms

Admissions Requirements

Education: A high school diploma or its equivalent is required.

Age: 16 years or older

Placement: Achievement of appropriate scores on the college's placement test or submission of acceptable SAT or ACT scores.

Only Regular Admission students are accepted.

CURRICULUM

COURSE NO.	GENERAL CORE COURSES	CREDITS
ENGL 1010	Fundamentals of English I	3

MATH 1012	Foundations of Mathematics	3

54 minimum semester hour credits required for graduation

CRIMINAL JUSTICE TECHNOLOGY (CJT2)

(Replaces CJ02)

Program Description:

The Criminal Justice Technology program is a sequence of courses that prepares students for Criminal Justice professions. Learning opportunities develop academic, occupational, and professional knowledge and skills required for job acquisition, retention, and advancement. The program emphasizes a combination of Criminal Justice theory and practical application necessary for successful employment. Program graduates receive a Criminal Justice Technology diploma. Graduates who are current practitioners will benefit through enhancement of career potential. Entry-level persons will be prepared to pursue diverse opportunities in the corrections, security, investigative, and police administration fields. Completion of the Criminal Justice Technology diploma does not ensure certification of officer status in Georgia. Students must seek such certification from the Peace Officer Standards and Training (P.O.S.T.) Council.

Program Length: 4 terms

Entrance Date: Every term

Admissions Requirements

Education: A high school diploma or its equivalent is required.

Age: 16 years or older

Placement: Achievement of appropriate scores on the college's placement test or submission of acceptable SAT or ACT scores.

Only Regular Admission students are accepted.

CURRICULUM		
COURSE NO.	GENERAL CORE COURSES	CREDITS
ENGL 1010	Fundamentals of English I	3

48 minimum quarter hour credits required for graduation

Acceptance into the Criminal Justice Diploma program does not necessarily guarantee participation in an internship setting. A criminal background check must be completed for the internship site prior to the first day of the internship. Failure to complete and pass this criminal background check to the satisfaction of the internship site will prohibit the internship experience, thus, terminating the student from the program before graduation.

CULINARY ARTS (CA44)

(Replaces CUL4)

Program Description:

The Culinary Arts Diploma program is a sequence of courses that prepares

students for the culinary profession. Learning opportunities develop academic, occupational, and professional knowledge and skills required for job acquisition, retention, and advancement. The program emphasizes a combination of culinary theory and practical application necessary for successful employment. Program graduates receive a Culinary Arts Diploma. Graduates who are current practitioners will benefit through enhancement of career potential. Entry-level persons will be prepared to pursue diverse opportunities in the culinary field as cooks, bakers, or caterers/culinary managers.

Program Length: 4 terms

Entrance Date: Every term

Admissions Requirements

Education: A high school diploma or its equivalent is not required for admission, but must be obtained before receiving a diploma from SGTC.

Age: 16 years or older

Placement: Achievement of appropriate scores on the college's placement test or submission of acceptable SAT or ACT scores.

Provisional Admission accepted.

DIESEL EQUIPMENT TECHNOLOGY (DET4)

(Replaces QP04)

Program Description:

The Diesel Equipment Technology program is a sequence of courses designed to prepare students for careers in the diesel equipment service and repair profession. Learning opportunities enable students to develop academic, technical and professional knowledge and skills required for job acquisition, retention, and advancement. The program emphasizes a combination of truck, heavy equipment, marine systems, or emergency power generator repair theory and practical application necessary for successful employment depending on the specialization area a student chooses to complete. Program graduates receive a Diesel Equipment Technology diploma that qualifies them as entry-level Diesel Equipment technicians.

Program Length: 4 terms

Entrance Date: Every term

Admissions Requirements

Education: A high school diploma or its equivalent is required.

Age: 16 years or older

Placement: Achievement of appropriate scores on the college's placement test or submission of acceptable SAT or ACT scores.

Provisional Admission accepted.

DRAFTING TECHNOLOGY (DT12)

(Replaces DR02)

Program Description:

The Drafting Technology program prepares students for employment in a variety of positions in the drafting field, such as drafter, CAD operator or Civil Tech based on the specialization area a student chooses to complete. The program provides learning opportunities which introduce, develop, and reinforce academic and technical knowledge, skills and attitudes required for job acquisition, retention, and advancement. Additionally, the program provides opportunities to upgrade present knowledge and skills or retrain in drafting practices and software.

Program Length: 4 terms

Entrance Date: Every term

Admissions Requirements

Education: A high school diploma or its equivalent is required.

Age: 16 years or older

Placement: Achievement of appropriate scores on the college's placement test or submission of acceptable SAT or ACT scores.

Provisional Admission accepted.

EARLY CHILDHOOD CARE/EDUCATION (ECC2)

(Replaces 0002)

Program Description:

The Early Childhood Care and Education program is a sequence of courses designed to prepare students for a variety of careers in the field of early childhood education. The program emphasizes a combination of early childhood care and education theory and practical application as well as limited general core competencies necessary for successful employment. Graduates have qualifications to be employed in early care childhood care/education settings including child care centers, Head Start, and Georgia Pre-K programs.

Program Length: 4 terms

Entrance Date: Every term

Admissions Requirements

Education: A high school diploma or its equivalent is not required for admission, but must be obtained before receiving a diploma from SGTC.

Age: 16 years or older

Placement: Achievement of appropriate scores on the college's placement test or submission of acceptable SAT or ACT scores.

Provisional Admission accepted.

MARKETING MANAGEMENT (MM12)

(Replaces MM02)

Program Description:

The Marketing Management program is designed to prepare students for employment in a variety of positions in today's marketing and management fields. The Marketing Management program provides learning opportunities that introduce, develop, and reinforce academic and occupational knowledge, skills, and attitudes required for job acquisition, retention, and advancement. Additionally, and program provides opportunities to upgrade present knowledge and diploma with specializations in marketing management, entrepreneurship, or retail management.

Program Length: 4 terms

Entrance Date: Every term

Admissions Requirements

Education: A high school diploma or its equivalent is required.

Age: 16 years or older

Placement: Achievement of appropriate scores on the college's placement test or submission of acceptable SAT or ACT scores.

Provisional Admission accepted.

MEDICAL ASSISTING (MA22)

(Replaces MA02)

Program Description:

The Medical Assisting program prepares students for employment in a variety of positions in today's medical offices. The Medical Assisting program provides learning opportunities which introduce, develop, and reinforce academic and occupational knowledge, skills, and attitudes required for job acquisition, retention, and advancement. Additionally, the program provides opportunities to upgrade present knowledge and skills or to retrain in the area of medical assisting. Graduates of the program receive a Medical Assisting diploma.

Program Length: 5 terms

Entrance Date: Every term

Admissions Requirements

Education: A high school diploma or its equivalent is required.

Age: 17 years or older

Placement: Achievement of appropriate scores on the college's placement test or submission of acceptable SAT or ACT scores.

Only Regular Admission students are accepted.

CURRICULUM

COURSE NO.	GENERAL CORE COURSES	CREDITS

54 minimum semester hour credits required for graduation

Acceptance into the Medical Assisting program does not guarantee participation in a clinical or externship setting. A drug test, physical examination, and/or criminal background check may be a stipulation of the externship site where the work experience is to be completed. Failure to complete the drug test, physical examination, or criminal background check to the satisfaction of the externship site could prohibit the externship experience, thus, terminating the student from the program before graduation.

MOTORSPORTS VEHICLE TECHNOLOGY (MVT2)

(Replaces MSV2)

Program Description:

The Motorsports Vehicle Technology program prepares students for an entry level position in a racing team shop. Focus is on many forms of racing vehicles including sports cars, stock cars, drag cars, and open wheel cars. Students learn chassis set up, engine designs, brake systems, transmissions, electrical systems, fuel systems, and fabrication skills unique to racing vehicles. Students are also taught precision measurement, math, and communication skills required of racing team members.

Program Length: 4 terms

Entrance Date: Every term

Admissions Requirements

Education: A high school diploma or its equivalent is required.

Age: 16 years or older

Placement: Achievement of appropriate scores on the college's placement test or submission of acceptable SAT or ACT scores.

Provisional Admission accepted.

NETWORKING SPECIALIST (NS14)

(Replaces CIN4)

Program Description:

The Networking Specialist program is a sequence of courses designed to provide students with an understanding of the concepts, principles, and techniques required in computer information processing. Graduates are to be competent in the technical areas of computer terminology and concepts, program design and development, and computer networking. Program graduates are qualified for employment as networking specialists.

Program Length: 5 terms

Entrance Date: Every term

Admissions Requirements

Education: A high school diploma or its equivalent is required.

Age: 16 years or older

Placement: Achievement of appropriate scores on the college's placement test or submission of acceptable SAT or ACT scores.

Provisional Admission accepted.

***Must be completed**

Students must complete the required number of Occupational Elective Credit Hours.

54 minimum semester hour credits required for graduation

PRACTICAL NURSING (PN12)

(Replaces PN04)

Program Description:

The Practical Nursing program is designed to prepare students to write the NCLEX-PN for licensure as practical nurses. The program prepares graduates to give competent nursing care. This is done through a selected number of academic and occupational courses providing a variety of techniques and materials necessary to assist the student in acquiring the needed knowledge and skills to give competent care. A variety of clinical experiences is planned so that theory and practice are integrated under the

guidance of the clinical instructor. Program graduates receive a practical nursing diploma and have the qualifications of an entry-level practical nurse.

Program Length: 5 terms

Entrance Date: TBA

Admissions Requirements

Education: A high school diploma or its equivalent is required.

Age: 17 years or older

Placement: Achievement of appropriate scores on the college's placement test or submission of acceptable SAT or ACT scores.

Only Regular Admission students are accepted.

57 minimum quarter hour credits required for graduation

Acceptance into the Practical Nursing program does not guarantee participation in the clinical setting. A physical examination is required prior to entering the clinical facility. A drug test and a criminal background check may be a stipulation of the clinical facility before beginning the clinical rotation. Failure to complete such requirements to the satisfaction of the clinical facility could prohibit the clinical experience, thus, terminating participation before graduation.

RECREATION AND LEISURE MANAGEMENT (RA12)

(Replaces RAL2)

Program Description:

The Recreation and Leisure Management program prepares students for successful careers in the recreation and leisure management field. Students who successfully complete the program will have the skills to work in various recreation agencies. The student will be able to maintain, manage, supervise facilities and staff, supervise sports programs and coordinate special events. Graduates of the program will have an understanding of the process for planning and designing recreational facilities.

Program Length: 4 terms

Entrance Date: Every term

Admissions Requirements

Education: A high school diploma or its equivalent is required.

Age: 16 years or older

Placement: Achievement of appropriate scores on the college's placement test or submission of acceptable SAT or ACT scores.

WELDING AND JOINING TECHNOLOGY (WAJ2)

(Replaces WJ02)

Program Description:

The Welding and Joining program is designed to prepare students for careers in the welding industry. Program learning opportunities develop academic, technical, professional knowledge and skills required for job acquisition, retention, and advancement. The program emphasizes welding theory and practical application necessary for successful employment. Program graduates receive a Welding and Joining Technology diploma, have the qualifications of a welding and joining technician, and are prepared to take qualifications tests.

Program Length: 4 terms

Entrance Date: Every term

Admissions Requirements

Education: A high school diploma or its equivalent is not required for admission, but must be obtained before receiving a diploma from SGTC.

Age: 16 years or older

Placement: Achievement of appropriate scores on the college's placement test or submission of acceptable SAT or ACT scores.

Provisional Admission accepted.

ADVANCED CAD OPERATOR—MECHANICAL (AC41)

(Replaces ADM1)

Program Description:

All of the courses in the Advanced CAD Operator - Mechanical TCC program are embedded in the Drafting Technology diploma and degree programs. The CAD Operator TCC program endows students with the prospect to continue on the career pathway toward advancement in the drafting profession. Additionally, the program provides opportunities to upgrade present knowledge and skills or to retrain in drafting practices and software. This TCC could also serve if needed as an exit point for high school dual enrolled students needing a point of exit for employment purposes.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
MATH 1013	Algebraic Concepts	3
DFTG 1105	3D Mechanical Modeling	4
DFTG 1111	Technical Drawing IV	4

11 minimum semester hour credits required for certificate

ADVANCED COMMERCIAL REFRIGERATION (AC81)

(Replaces AD01)

Program Description:

The Advanced Commercial Refrigeration Specialization TCC is a sequence

of courses that prepares diploma or degree graduates or air conditioning technicians for careers in the commercial refrigeration air conditioning industry. The program emphasizes a combination of theory and practical application necessary of successful employment. Program graduates receive an Advanced Commercial Refrigeration Technical Certificate of Credit.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
AIRC 2070	Commercial Refrigeration Design	3
AIRC 2080	Commercial Refrigeration Application	5
AIRC 2090	Troubleshooting & Servicing Commercial Refrigeration	3

11 minimum semester hour credits required for certificate

ADVANCED EMERGENCY MEDICAL TECHNICIAN (EMH1)

(Replaces EM01)

Program Description:

The Advanced Emergency Medical Technician certificate program prepares students to provide basic and limited advanced emergency medical care and transportation for critical and emergent patients who access the emergency medical system. This individual possesses the basic knowledge and skills necessary to provide patient care and transportation. Advanced Emergency Medical Technicians function as part of a comprehensive EMS response, under medical oversight. Advanced Emergency Medical Technicians perform interventions with the basic and advanced equipment typically found on an ambulance. The Advanced Emergency Medical Technician is a link from the scene to the emergency health care system. Successful completion of the program allows the graduate to take the National Registry of Emergency Medical Technicians AEMT certification examination and apply for Georgia licensure as an AEMT. This technical certificate of credit replaces the EM01 "Emergency Medical Technician (Intermediate)" technical certificate of credit.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
EMSP 1510	Advanced Concepts for the AEMT	3
EMSP 1520	Advanced Patient Care for the AEMT	3
EMSP 1530	Clinical Applications for the AEMT	1
EMSP 1540	Clinical and Practical Applications for the AEMT	3

10 minimum semester hour credits required for certificate

ADVANCED RESIDENTIAL SYSTEMS SPECIALIZATION (ARS1)

(Replaces ADR1)

Program Description:

The Advanced Residential Systems Specialization TCC is a sequence of courses that prepares diploma or degree graduates or air conditioning technicians for careers in the residential systems air conditioning industry. The program emphasizes a combination of air conditioning theory and practical application necessary for successful employment. Program graduates receive an Advanced Residential Systems Specialization Technical Certificate of Credit.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
AIRC 2040	Residential Systems Design	5
AIRC 2050	Georgia State and Local Residential Air Conditioning Codes	3
AIRC 2060	Air Distribution Systems for Residential Air Conditioning	3

11 minimum semester hour credits required for certificate

ADVANCED SHIELDED METAL ARC WELDER (OSM1)

(Replaces 5BU1)

Program Description:

The Advanced Shielded Metal Arc Welder Technical Certificate of Credit is a continuation of the basic certificate. The advanced program provides instruction in shielded metal arc welding in the overhead, horizontal, and vertical positions.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
WELD 1050	Horizontal Shielded Metal Arc Welding	4
WELD 1060	Vertical Shielded Metal Arc Welding	4
WELD 1070	Overhead Shielded Metal Arc Welding	4

12 minimum semester hour credits required for certificate

AIR CONDITIONING ELECTRICAL TECHNICIAN (ACK1)

(Replaces AIR1)

Program Description:

The Air Conditioning Electrical Technician program prepares students in the air conditioning area of study to acquire competencies in electricity

related to installation, service, and maintenance of electrical systems.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
AIRC 1030	HVACR Electrical Fundamentals	4

AIRC 1040	HVACR Electrical Motors	4
AIRC 1050	HVACR Electrical Components and Controls	4

12 minimum semester hour credits required for certificate

AIR CONDITIONING REPAIR SPECIALIST (ACY1)

(Replaces AI01)

Program Description:

The Air Conditioning Repair Specialist TCC is a series of courses designed to prepare students for positions in the maintenance and repair of air conditioning systems. A combination of theory and practical application provide for the necessary skills to support industry requirements.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
AIRC 1005	Refrigerated Fundamentals	4
AIRC 1030	HVACR Electrical Fundamentals	4
AIRC 1040	HVACR Electrical Motors	4
AIRC 1070	Gas Heat	4
AIRC 1080	Heat Pumps and Related Systems	4

20 minimum semester hour credits required for certificate

AIR CONDITIONING TECHNICIAN ASSISTANT (AZ31)

(Replaces AX01)

Program Description:

The Refrigeration Technician Assistant TCC is a series of courses that prepares students to hold positions as refrigeration technician assistants.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
AIRC 1005	Refrigeration Fundamentals	4
AIRC 1010	Refrigeration Principles and Practices	4
AIRC 1020	Refrigeration Systems Components	4

12 minimum semester hour credits required for certificate

AIRCRAFT ASSEMBLY TECHNICIAN (AA61)

(Replaces FT01)

Program Description:

The Aircraft Assembly Technician certificate program will provide technical training to existing industry and individuals interested in obtaining aircraft structural assembly skills. This program will provide a minimum of training for job market entry and/or upgrading for existing industry personnel and could lead to continued training for a diploma. This program results from industry requesting new personnel with the skills addressed in the aircraft structural courses included in this program.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
ASTT 1010	Basic Blueprint Reading	4
ASTT 1030	Structural Fundamentals	6
AND Choose one of the following:		
ASTT 1020	Aircraft Blueprint Reading	3
ASTT 1070	Aerodynamics	2

12 minimum semester hour credits required for certificate

AIRCRAFT STRUCTURAL MAINTENANCE (AS31)

(Replaces AIM1)

Program Description:

The Aircraft Structural Maintenance certificate program is a sequence of courses that prepares students for careers in aircraft structure manufacture and repair. Learning opportunities develop academic, technical, and professional knowledge and skills required for job acquisition, retention, and advancement. The program emphasizes a combination of aircraft structural theory and practical application necessary for successful employment. Program graduates receive an Aircraft Structural Maintenance certificate and are qualified as aircraft structural specialists.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
ASTT 2010	Metal Working Tools	4
ASTT 2020	Aircraft Hardware	4
AND Choose one of the following:		
ASTT 2030	Fabrication and Repair of Structural Parts	4
ASTT 2040	Internship	8

12 minimum semester hour credits required for certificate

ALTERNATIVE ENERGY FUNDAMENTALS (AE21)

(Replaces AEF1)

Program Description:

The Alternative Energy Fundamentals technical certificate of credit is designed to prepare students for employment in emerging green technology fields including solar power, wind power, fuel cell technology, bio-fuel

technology, and other power saving/ producing electrical technologies. Program graduates receive a technical certificate of credit.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
ELCR 1010	Direct Current Circuits	6
ELCR 1020	Alternating Current Circuits	7
MATH 1012	Foundations of Mathematics	3
ELCR 1030	Solid State Devices	5
ALET 1390	Alternative Energy & Green Tech. Systems	3

24 minimum semester hour credits required for certificate

AUTO BASIC MAINTENANCE AND DETAILING TECHNICIAN (ABM1) (SCYDC Only) (Replaces AM01)

Program Description:

This certificate program includes automobile system inspection and maintenance as well as vehicle exterior and interior inspection and reconditioning. Major topics include: safety in the shop, basic tools and equipment, basic vehicle maintenance procedures, and vehicle detailing equipment and procedures. Graduates of this program are prepared to enter the auto service industry as entry level basic maintenance and detailing technicians.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
ACRP 1000	Introduction to Auto Collision Repair	4
AUTT 1010	Automotive Technology Introduction	2
ACRP 1030	Car Detailing	3

9 minimum semester hour credits required for certificate

AUTO ELECTRICAL/ELECTRONIC SYSTEMS (AE41) (Replaces 5AS1)

Program Description:

This certificate program provides students with the knowledge and skills necessary to diagnose, service, and repair basic electrical/electronic automotive systems as an entry level technician. Topics covered include automotive shop safety, electrical theory and circuit diagnosis, automotive batteries, starting and charging systems, instrumentation, lighting, and various vehicle accessories.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
AUTT 1010	Automotive Technology Introduction	2
AUTT 1020	Automotive Electrical Systems	7

9 minimum semester hour credits required for certificate

AUTOMOTIVE CHASSIS AND CLIMATE CONTROL SPECIALIST (AC71)

Program Description:

The Automotive Chassis and Climate Control Specialist certificate program provides students with skills needed to enter the automotive industry as an entry level chassis and climate control technician. Topics covered include: shop safety, basic electrical / electronic theory and diagnosis, chassis component and types, steering system components and service, alignment theory and procedures, brake system operation and repair, and theory, operation, and servicing of automotive climate control systems.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
AUTT 1010	Automotive Technology Introduction	2
AUTT 1020	Automotive Electrical Systems	7
AUTT 1030	Automotive Brake Systems	4
AUTT 1050	Automotive Suspension and Steering	4
AUTT 1060	Automotive Climate Control Systems	5

22 minimum semester hour credits required for certificate

AUTOMOTIVE CHASSIS TECHNICIAN SPECIALIST (ASG1)

(Replaces 5CU1)

Program Description:

The Automotive Chassis Technician Specialist certificate program provides students with skills needed to enter the automotive industry as an entry level chassis technician. Topics covered include: shop safety, basic electrical/ electronic theory and diagnosis, chassis components and types, steering system components and service, alignment theory and procedures, and brake system operation, diagnosis and repair.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
AUTT 1010	Automotive Technology Introduction	2
AUTT 1020	Automotive Electrical Systems	7
AUTT 1030	Automotive Brake Systems	4
AUTT 1050	Automotive Suspension and Steering Systems	4

17 minimum semester hour credits required for certificate

AUTOMOTIVE CLIMATE CONTROL TECHNICIAN (AH21)

(Replaces 5AM1)

Program Description:

The Automotive Climate Control Technician certificate program provides students with skills for entering the automotive service industry as an entry level climate control technician. Topics covered include: basic shop

safety, electrical/electronic theory and diagnosis, and the theory, operation, diagnosis and servicing of automotive climate control systems.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
AUTT 1010	Automotive Technology Introduction	2
AUTT 1020	Automotive Electrical Systems	7
AUTT 1060	Automotive Climate Control Systems	5

14 minimum semester hour credits required for certificate

AUTOMOTIVE COLLISION REPAIR ASSISTANT II (AZ51)

(Replaces 5DU1)

Program Description:

The Automotive Collision Repair Assistant II certificate program is an advanced certificate option a student can complete after finishing the Automotive Collision Repair Assistant I program. Topics covered include collision repair tools and equipment, hydraulic systems, damage analysis and estimations, frame straightening, and conventional/unibody structural panel repairs and replacement.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
ACRP 1010	Foundations of Collision Repair	5
ACRP 2010	Major Collision Repair	5
ACRP 2015	Major Collision Replacements	5

15 minimum semester hour credits required for certificate

AUTOMOTIVE ENGINE PERFORMANCE TECHNICIAN (AE51)

(Replaces AEG1)

Program Description:

The Automotive Engine Performance Technician certificate program introduces students to the knowledge and skills they will need as entry level automotive engine performance technicians. Topics covered include: shop safety, electrical/electronic diagnosis, and diagnosis and service of fuel, ignition, emission and electronic engine controls.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
AUTT 1010	Automotive Technology Introduction	2
AUTT 1020	Automotive Electrical Systems	7
AUTT 1040	Automotive Engine Performance	7

16 minimum semester hour credits required for certificate

AUTOMOTIVE ENGINE REPAIR TECHNICIAN (AE61)

(Replaces 5CS1)

Program Description:

The Automotive Engine Repair Technician certificate program provides the student with entry level automotive engine repair skills. Topics include: basic shop safety, basic electrical/electronic diagnosis, principles of engine operation, basic engine diagnosis, and basic engine repair procedures.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
AUTT 1010	Automotive Technology Introduction	2
AUTT 1020	Automotive Electrical Systems	7
AUTT 2010	Automotive Engine Repair	6

15 minimum semester hour credits required for certificate

AUTOMOTIVE TRANSMISSION/TRANSAXLE TECH SPECIALIST (AA71)

(Replaces ADT1)

Program Description:

The Automotive Transmission/Transaxle Tech Specialist certificate program provides students with the skills to enter the automotive industry as an entry level transmission, transaxle, and drive line technician. Topics covered include: shop safety, basic electrical/electronic theory and diagnosis, manual transmission/transaxle operation and diagnosis, automatic transmission/transaxle operation and diagnosis, axles operation and diagnosis, differentials operation and diagnosis, and 4WD/AWD systems operation and diagnosis.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS

AUTT 1020	Automotive Electrical Systems	7
AUTT 2020	Automotive Manual Drive Train and Axles	4
AUTT 2030	Automotive Automatic Transmissions and Transaxles	5

18 minimum semester hour credits required for certificate

AVIATION MAINTENANCE TECHNICIAN (AM24)

(Replaces AV14)

Program Description:

The Aviation Maintenance Technician program courses prepare students for employment in the field of aviation maintenance. The program emphasizes a combination of aircraft maintenance theory and aircraft maintenance application. This program meets the academic requirements for the FAA Airframe and Powerplant certificate.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS

BARBERING FOR COSMETOLOGISTS (BF21)**(Replaces BJ01)****Program Description:**

The Barbering for Cosmetologist Technical Certificate allows the student who holds a current Master Cosmetology license to receive additional training that will qualify the student to take the examination for Barbering.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
BARB 1000	Introduction to Barber/Styling Implements	3
BARB 1010	Science: Sterilization, Sanitation, and Bacteriology	3
BARB 1020	Introduction to Haircutting & Shampooing	5
BARB 1030	Haircutting/Basic Styling	3
BARB 1040	Shaving	2
BARB 1100	Barber/Styling Practicum and Internship	3

19 minimum semester hour credits required for certificate

BASIC AUTOCAD OPERATOR (BA41)**(Replaces CX01)****Program Description:**

All of the courses in the Basic AutoCAD Operator - TCC program are embedded in the Drafting Technology diploma and degree programs. The CAD Operator TCC program endows students with the prospect to continue

on the career pathway toward advancement in the drafting profession. Additionally, the program provides opportunities to upgrade present knowledge and skills or to retrain in drafting practices and software. This TCC could also serve if needed as an exit point for high school dual enrolled students needing a point of exit for employment purposes.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
DFTG 1101	CAD Fundamentals	4
DFTG 1103	Multiview/Basic Dimensioning	4
DFTG 1111	Fasteners	4

12 minimum semester hour credits required for certificate

BASIC ELECTRICAL TECHNICIAN (BE11)

(Replaces BL01)

Program Description:

The Basic Electrical Technician Technical Certificate of Credit provides fundamental instruction in electrical construction principles and practices. Topics include safety, mathematical applications, reading and interpreting blueprints, and direct and alternating current circuits.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
MATH 1012	Foundations of Mathematics	3
IDFC 1007	Industrial Safety Procedures	2
IDFC 1011	Direct Current I	3
ELTR 1020	Electrical Systems Basics I	3
ELTR 1060	Electrical Prints, Schematics, and Symbols	2

13 minimum semester hour credits required for certificate

BASIC ELECTRONIC ASSEMBLER (BE41)

(Replaces OB01)

Program Description:

The Basic Electronic Assembler certificate program is designed to prepare students for careers as entry-level production technicians in a manufacturing environment, or as service technicians or operators in the telecommunications industry. Topics include basic algebraic fundamentals, direct current circuits, and soldering techniques.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
MATH 1013	Algebraic Concepts	3
ELCR 1005	Soldering Technology	1
ELCR 1010	Direct Current Circuits	6

10 minimum semester hour credits required for certificate

BASIC FIRE COMPANY OFFICER (BF11)**(Replaces FCR1)****Program Description:**

Exit examination can be administer for Basic Fire Company Officer after these courses have been successfully completed and the respective task book has been completed. If the exit examination and task book are successfully completed, the candidate will be issued an NPQ Certification Application through GFSTC.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
FRSC 1121	Firefighting Strategy and Tactics	3
FRSC 2110	Fire Service Hydraulics	3
FRSC 2130	Fire Service Building Construction	3
FRSC 2141	Incident Command	4

13 minimum semester hour credits required for certificate

BASIC LAW ENFORCEMENT (BL11)**(LAW ENFORCEMENT ACADEMY)****(Replaces BLE1)****Program Description:**

The Basic Law Enforcement Certificate program provides students with the necessary skills, standards, and knowledge in order to become qualified, proficiency trained, ethical and competent peace officers in criminal justice careers. Successful completion of the program will make the student eligible to be certified as a Georgia Peace Officer.

Program Length: 17 weeks

Entrance Date: Contact Law Enforcement Academy Office at 229.931.2716 for details.

Admissions Requirements

Education: A high school diploma or its equivalent is required.

Age: 18 years or older

Placement: Achievement of minimum program scores on the COMPASS or ASSET test.

Other: P.O.S.T. Council requires a complete background investigation, to include criminal history, driver's history, fingerprint check, and medical clearance, along with a personal interview with the academy director prior to issuance of a P-2, which is required for entry into the cohort.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
LETA 1010	Health & Life Safety for Basic Law Enforcement	2
LETA 1012	Ethics & Liability for Basic Law Enforcement	2

LETA 1014	Firearms Training for Basic Law Enforcement	4
LETA 1016	Emergency Vehicle Operations for Basic Law Enforcement	4
LETA 1018	Defensive Tactics for Basic Law Enforcement	2
LETA 1020	Police Patrol Operations for Basic Law Enforcement	4

LETA 1026	Criminal Procedure for Basic Law Enforcement	4
LETA 1028	Police Traffic Control & Investigation for Basic Law Enforcement	3
LETA 1030	Principles of Law Enforcement for Basic Law Enforcement	3
LETA 1032	Introduction to Criminal Justice for Basic Law Enforcement	3
LETA 1034	Constitutional Law for Criminal Justice for Basic Law Enforcement	3

42 minimum semester hour credits required for certificate

BASIC SHIELDED METAL ARC WELDER (FS31)

(Replaces 5BR1)

Program Description:

The Basic Shielded Metal Arc Welder Technical Certificate of Credit prepares students for careers in the welding and joining industry. This certificate emphasizes arc welding in the flat position and is pre-requisite to the advanced certificate.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
WELD 1000	Introduction to Welding Technology	3
WELD 1010	Oxyfuel Cutting	3
WELD 1040	Flat Shielded Metal Arc Welding	4

10 minimum semester hour credits required for certificate

CAD OPERATOR (CP41)

(Replaces CAH1)

Program Description:

All of the courses in the CAD Operator TCC program are embedded in the Drafting Technology diploma and degree programs. The CAD Operator TCC program endows students with the prospect to continue on the career pathway toward advancement in the drafting profession. Additionally, the

program provides opportunities to upgrade present knowledge and skills or to retrain in drafting practices and software. This TCC could also serve if needed as an exit point for high school dual enrolled students needing a point of exit for employment purposes.

CATERING SPECIALIST (CS61)

(Replaces CTG1)

Program Description:

The Catering Specialist technical certificate of credit program is a sequence of courses that prepares students for the catering profession. Learning opportunities develop occupation and professional knowledge and

skills required for job acquisition, retention, and advancement. The program emphasizes a combination of culinary theory and practical application necessary for successful employment.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
CULL 1110	Culinary Safety and Sanitation	2
CULL 1120	Principles of Coking	6
CULL 1220	Baking Principles	5
CULL 1129	Fundamentals of Restaurant Operations	4
CULL 1320	Grade Manager	4
CULL 2160	Contemporary Cuisine	4

25 minimum semester hour credits required for certificate

CDA PREPARATION (CE71)

(Replaces CDA1)

Program Description:

The Early Childhood Care and Education CDA Preparation TCC (Child Development Associate Preparation) program is a four course sequence of courses designed to prepare students for the Child Development Associate national credential issued by the Council for Professional Recognition (out of Washington DC). The four courses in this TCC provide students with the knowledge and skills needed for the national credential and provide information on the development of the portfolio required of the Council. Graduates have qualifications to be employed in early care and education settings including child care centers, Head Start and Georgia Pre-K programs.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
ECCE 1103	Child Growth and Development	3
ECCE 1105	Health, Safety and Nutrition	3
ECCE 1125	Professionalism Through CDA Certificate Preparation	2

8 minimum semester hour credits required for certificate

CERTIFIED CONSTRUCTION WORKER (CCW1)

(SCYDC ONLY)

(Replaces CWQ1)

Program Description:

The Certified Construction Worker certificate program offers training in the construction industry providing students with the knowledge and skills they need to work effectively on a construction site. Completion of the program qualifies graduates for entry level employment. Topics include safety, tool use and safety, materials and fasteners, and construction print reading.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
COFC 1000	Safety	2
COFC 1011	Overview of Building Construction Practices	2
COFC 1020	Professional Tool Use and Safety	3
COFC 1030	Materials and Fasteners	2
COFC 1050	Construction Print Reading Fundamentals	3

12 minimum semester hour credits required for certificate

CERTIFIED CUSTOMER SERVICE SPECIALIST (CC81)

(Replaces CSA1)

Program Description:

The Certified Customer Service Specialist program provides training in the core interpersonal and technical skill required to deliver exceptional customer service in a broad range of customer contact jobs.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
MKTG 1161	Service Industry Business Environment	2
MKTG 1162	Customer Contact Skills	4
MKTG 1163	Computer Skills for Customer Service	2
MKTG 1164	Business Skills for the Customer	2
MKTG 1165	Personal Effectiveness in Customer Service	1

11 minimum semester hour credits required for certificate

CHILD DEVELOPMENT SPECIALIST (CD61)

(Replaces CDE1)

Program Description:

The Early Childhood Care and Education Child Development Specialist TCC is a sequence of five courses designed to prepare students for a variety of careers in the field of early childhood education. The program emphasizes the basics needed for a career in early childhood, but this TCC also includes more content about planning curriculum and working in the field. In addition, the student may complete a practicum and work in a child care program. Graduates have qualifications to be employed in early care and education settings including child care centers and Head Start.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
ECCE 1101	Introduction to Early Childhood Care and Education	3
ECCE 1103	Child Growth and Development	3
ECCE 1105	Health, Safety and Nutrition	3

Select one of the following courses:

ECCE 1121	Early Childhood Care and Education
-----------	------------------------------------

	Practicum	3
EMPL 1000	Interpersonal Relations and Professional Development	2

14 minimum semester hour credits required for certificate

CISCO NETWORK SPECIALIST (CN71)

(Replaces 5BG1)

Program Description:

The Cisco Network Specialist program teaches how to build, maintain and troubleshoot computer networks. Students also learn how to connect these networks to other networks and the Internet.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
	Select one of the following specializations:	
	CISCO DISCOVERY	
CIST 2441	Cisco Networking for Home & Small Businesses	4
CIST 2442	Working at a Small-to-Medium Business or ISP	4
CIST 2443	Cisco Routing and Switching	4
CIST 2444	Cisco Designing & Supporting Computer Networks	4
	OR	
	CISCO EXPLORATION	
CIST 2451	Cisco Network Fundamentals	4
CIST 2452	Cisco Routing Protocols and Concepts	4
CIST 2453	Cisco LAN Switching and Wireless	4
CIST 2454	Cisco Accessing the WAN	4

16 minimum semester hour credits required for certificate

CNC OPERATOR (CG71)

Program Description:

The TCC introduces the fundamental concepts and produces necessary for the safe and efficient use of basic machine tools, provides the fundamental concepts to interpret drawings and procedure sketches for machining application, and provides a comprehensive introduction to CNC machining processing.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
AMCA 2010	Advanced Milling I	4
MCHT 1011	Introduction to Machine Tool	4
MCHT 1012	Blueprint for Machine Tool	3
MCHT 1510	Machine Tool Internship	3

14 minimum semester hour credits required for certificate

CNC SPECIALIST (CS51)**(Replaces CNC1)****Program Description:**

The CNC Specialist Technical Certificate of Credit program provides training for graduates to gain employment as CNC machine tool technicians. Topics include CNC Fundamentals, mill and lathe manual programming, CNC practical applications, and CAD/CAM programming. The program emphasizes a combination of CNC theory and practical application necessary for successful employment.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
AMCA 2110	CNC Fundamentals	3
AMCA 2130	CNC Mill Manual Programming	5
AMCA 2150	CNC Lathe Manual Programming	5
AMCA 2170	CNC Practical Applications	3
AMCA 2190	CAD/CAM Programming	4

20 minimum semester hour credits required for certificate

COMMERCIAL TRUCK DRIVING (CT61)**(Replaces TU01)****Program Description:**

The Commercial Truck Driving certificate program provides basic training in the principles and skills of commercial truck operations. The program is based on the definition of a truck driver as one who operates a commercial motor vehicle of all different sizes and descriptions on all types of roads. At the completion of the program, the student is administered the Georgia CDL Skills Exam.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
CTDL 1010	Fundamentals of Commercial Driving	3
CTDL 1020	Combination Vehicle Basic Operation and Range Work	2
Select one of the following courses:		
CTDL 1030	Combination Vehicle Advanced Operations	4
CTDL 1040	Commercial Driving Internship	4

9 minimum semester hour credits required for certificate

As a requirement for admission to the Commercial Truck Driving program, students must complete a physical examination and drug test.

COMMERCIAL WIRING (CW31)**(Replaces CW01)****Program Description:**

The Commercial Wiring Technical Certificate of Credit provides instruction in the knowledge and skills necessary to preform wiring functions in a

commercial setting. Topics include safety practices, blueprint and schematic reading and interpretation, and wiring and practices.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
ELTR 1060	Electrical Prints, Schematics, and Symbols	2
IDFC 1007	Industrial Safety Procedures	2
IDFC 1011	Direct Current I	3

EARLY CHILDHOOD CARE/EDUCATION BASICS (EC31)

(Replaces EC11)

Program Description:

The Early Childhood Care and Education (ECCE) Basic TCC includes three basic Early Childhood and Care Education courses that are needed for entry level workers. The program provides an introductory course to the ECCE field, a child growth and development course, and health, safety, and nutrition course. Graduates have qualifications to be employed in early care and education settings including child care centers, Head Start, and Georgia Pre-K programs. Bright from the Start (BFTS), the regulatory agency in Georgia, requires the basic knowledge included in this TCC for a person to be a lead teacher in a child care center and family day care center.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
ECCE 1101	Introduction to Early Childhood Care and Education	3
ECCE 1103	Child Growth and Development	3
ECCE 1105	Health, Safety and Nutrition	3

9 minimum semester hour credits required for certificate

ELECTRICAL CONTRACTING TECHNICIAN (ECL1)

(Replaces ELN1)

Program Description:

The Electrical Contracting Technician Technical Certificate of Credit is a sequence of courses designed to prepare students for careers in residential and commercial electrical industries. The program emphasizes a combination of theory and practical application for successful employment.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
ELTR 1060	Electrical Prints, Schematics, and Symbols	2
ELTR 1080	Commercial Wiring I	5

ELTR 1090	Commercial Wiring II	3

ELTR 1210	Residential Wiring II	3

26 minimum semester hour credits required for certificate

ELECTRICAL LINeworker (EL11)

(Replaces ELL1)

Program Description:

The Electrical Lineworker certificate program provides students with the necessary knowledge and skill to gain employment as an entry-level lineworker with electrical utility companies, both public and private. Topics include lineworker organization principles, lineworker workplace skills, lineworker automation skills, and lineworker occupational skills.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
ELCR 1800	Electrical Lineworker Organization Principles	3
ELCR 1820	Electrical Lineworker Workplace Skills	2
ELCR 1840	Electrical Lineworker Automation Skills	2
ELCR 1860	Electrical Lineworker Occupational Skills	5

12 minimum semester hour credits required for certificate

ELECTRICAL MAINTENANCE TECHNICIAN (EM81)

(Replaces ELM1)

Program Description:

The Electrical Maintenance Technician Technical Certificate of Credit provides instruction in industrial systems electrical inspection, maintenance, service, and repair. Topics include DC and AC fundamentals, motor controls, magnetic starters and braking systems, PLCs, and industrial wiring procedures.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
IDFC 1011	Direct Current I	3
ELTR 1020	Electrical Systems Basics I	3
IDSY 1110	Industrial Moto Controls I	5
IDSY 1120	Basic Industrial PLCs	5
IDSY 1130	Industrial Wiring	5
IDSY 1220	Intermediate Industrial PLCs	5

26 minimum semester hour credits required for certificate

ELECTRICAL TECHNICIAN (ET51)

(Replaces LL01)

Program Description:

The Electrical Technician Certificate of Credit provides training in basic electrical wiring skills enabling students to gain entry level employment in the construction and the maintenance industry. Topics include basic electrical principles and practices, blueprint interpretation, industrial safety procedures, and residential wiring operations.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
MATH 1012	Foundations of Mathematics	3
IDFC 1007	Industrial Safety Procedures	2
IDFC 1011	Direct Current I	3
ELTR 1020	Electrical Systems Basics I	3
ELTR 1060	Electrical Prints, Schematics, and Symbols	2
ELTR 1205	Residential Wiring I	3
ELTR	Residential Wiring II	3

19 minimum semester hour credits required for certificate

EMERGENCY MEDICAL TECHNICIAN (EMJ1)

(Replaces EMB1)

Program Description:

The Emergency Medical Technician certificate program prepares students to provide basic emergency medical care and transportation for critical and emergent patients who access the emergency medical system. This individual possesses the basic knowledge and skills necessary to provide patient care and transportation. Emergency Medical Technicians function as part of a comprehensive EMS response, under medical oversight. Emergency Medical Technicians perform interventions with the basic equipment typically found on an ambulance. The Emergency Medical Technician is a link from the scene to the emergency health care system. Successful completion of the program allows the graduate to take the National Registry of Emergency Medical Technicians EMT certification examination and apply for Georgia licensure as an EMT. This technical certificate of credit replaces the previous EMB1 "Emergency Medical Technician (Basic)" technical certificate of credit. Criminal background checks and drug screens may be required based on the requirements for participation in clinical experiences.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
EMSP 1110	Introduction to the EMT Profession	3
EMSP 1120	EMT Assessment/Airway Management and Pharmacology	3
EMSP 1130	Medical Emergencies for the EMT	3
EMSP 1140	Special Patient Populations	3
EMSP 1150	Shock and Trauma for the EMT	3
EMSP 1160	Clinical and Practical Applications	

for the EMT

1

16 minimum semester hour credits required for certificate

Acceptance into the Emergency Medical Technician Certificate program does not necessarily guarantee qualification of employment as an EMT. A drug test and a criminal background check may be a stipulation by the employer before obtaining employment as an EMT.

ENVIRONMENTAL HORTICULTURE TECHNICIAN (EH11)

(Replaces ENH1)

Program Description:

The Environmental Horticulture Technician technical certificate of credit prepares students to engage in the propagation, growing and marketing of plants for use in the home, business or the landscape greenhouse and nursery operations. The program provides a solid foundation of plant knowledge and nursery, garden center skills to equip students to work effectively in nurseries, retail garden centers, and entrepreneurial enterprises. The program emphasizes hands-on learning and most courses incorporate lab activities that apply knowledge and skills in realistic settings.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
HORT 1000	Horticulture Science	3
HORT 1041	Landscape Construction	4
HORT 1050	Nursery Production and Management	4
HORT 1080	Pest Management	3
HORT 1310	Irrigation & Water Management	4

18 minimum semester hour credits required for certificate

FIRE OFFICER I (FF31)

(Replaces FOC1)

Program Description:

The Fire Officer I Technical Certificate of Credit program is conducted in cooperation with the Georgia Fire Academy and Georgia Firefighter Standards and Training to ensure graduates have the skills, knowledge and credentials to serve as firefighters in paid and volunteer fire departments. Graduates will be tested and certified at the National Professional Qualifications level. Program graduates receive a Fire Officer I Technical Certificate of Credit. Students should be graduates of the Basic Company Officer Technical Certificate of Credit before enrolling in this program.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
FRSC 1110	Fire Administration Supervision & Leadership	3
FRSC 1132	Fire Service Instructor	4
FRSC 1141	Hazardous Materials Operations	4

FRSC 2120 Fire Protection Systems

15 minimum semester hour credits required for certificate

FLUX CORED ARC WELDER (FC61)**(Replaces WJS1)****Program Description:**

The Flux Cored Arc Welder Technical Certificate of Credit introduces students to and provides instruction in flux cored arc welding practices. Topics include an introduction to the welding industry, oxyfuel cutting techniques, and flux cored arc welding practices.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
WELD 1000	Introduction to Welding Technology	3
WELD 1010	Oxyfuel Cutting	3
WELD 1153	Flux Cored Arc Welding	4

Choose one of the following courses:

WELD 1040	Flat Shielded Metal Arc Welding	4
WELD 1090	Gas Metal Arc Welding	4
WELD 1110	Gas Tungsten Arc Welding	4
WELD 1150	Advanced Gas Tungsten Arc Welding	3
WELD 1151	Fabrication Processes	3
WELD 1152	Pipe Welding	3
WELD 1154	Plasma Cutting	3
WELD 1030	Blueprint Reading for Welding Technology	3

13 minimum semester hour credits required for certificate

FOOD AND BEVERAGE DIRECTOR (FAB1)**(Replaces FBM1)****Program Description:**

The Food and Beverage program prepares students for employment in a variety of positions in today's hotels and restaurants. The Food and Beverage program provides learning opportunities which introduce, develop, and reinforce occupational knowledge skills, and attitudes required for job acquisition, retention, and advancement. Additionally, the program provides opportunities to upgrade present knowledge and skills or to retrain in the area of Food and Beverage Management.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
CUUL 1000	Fundamentals of Culinary Arts	4
HRTM 1100	Intro. of Hotel, Restaurant, & Tourism	3
HRTM 1160	Food and Beverage Management	3
HRTM 1220	Supervision and Leadership in the Hospitality Industry	3
CUUL 1110	Culinary Safety and Sanitation	2

15 minimum semester hour credits required for certificate

FOOD PRODUCTION WORKER (FPW1)**(Replaces 5AB1)****Program Description:**

The Food Production Worker I technical certificate of credit is designed to provide basic entry-level skills for employment in the food service industry as prep cooks and banquet/ service prep workers.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
CUUL 1000	Fundamentals of Culinary Arts	4
CUUL 1110	Culinary Safety and Sanitations	2
CUUL 1120	Principles of Cooking	6
CUUL 1129	Fundamentals of Restaurant Operations	4

16 minimum semester hour credits required for certificate

FRAMING CARPENTER (FC71)**(SCYDC ONLY)****(Replaces 5AX1)****Program Description:**

The Framing Carpenter certificate program prepares students for employment as framing carpenters. Program graduates are trained in the use of hand and power tools, materials, blueprint reading, and floor, wall, ceiling and roof framing.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
CARP 1070	Site Layout, Footings and Foundations	3
CARP 1105	Floor and Wall Framing	4
CARP 1110	Ceiling and Roof Framing and Covering	5

12 minimum semester hour credits required for certificate

GAME DEVELOPMENT SPECIALIST (GDS1)

(Replaces GAM1)

Program Description:

The introduction to Game Development Technical Certificate is designed to prepare student to work as entry level game developers. The student will be able to design and implement a game. Emphasis will be placed on development for the PC platform.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
CIST 2750	Game Design	3
CIST 2751	Game Development I	3
CIST 2759	Mathematics for Game Development	3
CIST 2752	Game Development II	3
CIST 2730	Introduction of 3D Animation	4

14 minimum semester hour credits required for certificate

GARDEN CENTER TECHNICIAN (GC31)

(Replaces 5AK1)

Program Description:

Prepare graduates for challenging careers in the expanding field of Landscaping and Garden Centers. Students will also develop contemporary business concepts as they apply to landscape and garden centers.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
HORT 1010	Woody Plant Identification I	3
HORT 1020	Herbaceous Plant Identification	3
HORT 1140	Horticulture Business Management	3
HORT 1080	Pest Management	3

12 minimum semester hour credits required for certificate

GAS METAL ARC WELDER (GM31)

(Replaces 5BW1)

Program Description:

The Gas Metal Arc Welder Technical Certificate of Credit prepares students for welding careers in the MIG process. Topics include an introduction to welding technology, oxyfuel cutting techniques, and MIG welding techniques and processes.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
WELD 1000	Introduction to Welding Technology	3
WELD 1010	Oxyfuel Cutting	3
WELD 1090	Gas Metal Arc Welding	4
Select one of the following courses:		
WELD 1150	Advanced Gas Tungsten Arc Welding	3
WELD 1151	Fabrication Processes	3
WELD 1152	Pipe Welding	3
WELD 1153	Flux Cored Arc Welding	4
WELD 1154	Plasma Cutting	3
WELD 1156	Ornamental Iron Works	3
WELD 1030	Blueprint Reading for Welding Technology	3
WELD 1040	Flat Shielded Metal Arc Welding	4

13 minimum semester hour credits required for certificate

GAS TUNGSTEN ARC WELDER (GTA1)

(Replaces 5BT1)

Program Description:

The Gas Tungsten Arc Welder Technical Certificate of Credit provides instruction in TIG welding techniques. Topics include understanding the nature and culture of the welding industry, oxyfuel cutting techniques, and TIG welding processes.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
WELD 1000	Introduction to Welding Technology	3
WELD 1010	Oxyfuel Cutting	3
WELD 1110	Gas Tungsten Arc Welding	4
Choose one of the following:		
WELD 1150	Advanced Gas Tungsten Arc Welding	3
WELD 1151	Fabrication Processes	3
WELD 1152	Pipe Welding	3
WELD 1153	Flux Cored Arc Welding	4
WELD 1154	Plasma Cutting	3
WELD 1156	Ornamental Iron Works	3
WELD 1030	Blueprint Reading for Welding Technology	3
WELD 1040	Flat Shielded Metal Arc Welding	4

13 minimum semester hour credits required for certificate

HEALTH CARE ASSISTANT (HA21)

(Replaces 5CJ1)

Program Description:

The Health Care Assistant of Credit is a program that provides academic foundations at the diploma level in communications, mathematics, and human relations, as well as the technical fundamentals. Program graduates

are trained in the underlying fundamentals of health care delivery and are well prepared for employment and subsequent upward mobility.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
COMP 1000	Introduction to Computers	3

INDUSTRIAL FLUID POWER TECHNICIAN (IF11)

(Replaces IFP1)

Program Description:

The Industrial Fluid Power Technician certificate program prepares students to inspect, maintain, service, and repair industrial mechanical systems, fluid power systems, and pumps and piping systems. Topics include safety procedures, mechanics, fluid power, and pumps and piping system maintenance.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
IDSY 1170	Industrial Mechanics	5
IDSY 1190	Fluid Power and Piping Systems	5

10 minimum semester hour credits required for certificate

INDUSTRIAL MOTOR CONTROL TECHNICIAN (IM41)

(Replaces MTC1)

Program Description:

The Industrial Motor Control Technician Technical Certificate of Credit provides training in the maintenance of industrial motor controls. Topics include DC and AC motors, basic, advanced, and variable speed motor controls, and magnetic starters and braking.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
IDSY 1110	Industrial Motor Controls I	5
IDSY 1210	Industrial Motor Controls II	5

10 minimum semester hour credits required for certificate

INDUSTRIAL WIRING TECHNICIAN (IW11)

(Replaces CWT1)

Program Description:

The Industrial Wiring Technician Technical Certificate of Credit provides basic skills for commercial and industrial wiring applications. Topics include safety procedures, direct current circuits, and wiring applications.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
IDFC 1007	Industrial Safety Procedures	2
IDFC 1011	Direct Current I	3
ELTR 1080	Commercial Wiring I	5
ELTR 1090	Commercial Wiring II	5

15 minimum semester hour credits required for certificate

LANDSCAPE SPECIALIST (LS11)

(Replaces 5AE1)

Program Description:

Prepare graduates for challenging careers in the expanding field of Landscaping. Students will also develop contemporary business concepts as they apply to landscape and garden centers.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
HORT 1000	Horticulture Science	3

HORT 1010	Woody Plant Identification I	3

HORT 1080	Pest Management	3
HORT 1120	Landscape Management	4

17 minimum semester hour credits required for certificate

LATHE OPERATOR (LP11)

(Replaces 5AJ1)

Program Description:

The Lathe Operator certificate program prepares students to use lathes, lathe set up, and lathe tool grinding. Emphasis is placed on cutting threads, boring holes to precise measurements, and cutting tapers. Topics include an introduction to machine tool technology, blueprint reading for machine tool, and basic and advanced lathe operations.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
MCHT 1011	Introduction to Machine Tool	4
MCHT 1012	Blueprint for Machine Tool	3
MCHT 1119	Lathe Operations I	3
MCHT 1219	Lathe Operations II	3

13 minimum semester hour credits required for certificate

LAWN MAINTENANCE SPECIALIST (LM11)

(Replaces LMA1)

Program Description:

The Lawn Maintenance Specialist technical certificate of credit program is a sequence of courses that prepares students for entry-level work as a lawn maintenance specialist. Topics include: horticulture construction, landscape installation, and pest management.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
HORT 1070	Landscape Installation	4
HORT 1080	Pest Management	3
Select one of the following courses:		
HORT 1000	Horticulture Science	3
HORT 1410	Soils	3

10 minimum semester hour credits required for certificate

LIGHT COMMERCIAL AIR CONDITIONING SPECIALIZATION (LC11)

(Replaces ADL1)

Program Description:

The Light Commercial Air Conditioning Specialization TCC is a sequence

of courses that prepares diploma or degree graduates or air conditioning technicians for careers in the light commercial air conditioning industry. The program emphasizes a combination of air conditioning theory and practical application necessary for successful employment. Program graduates receive a Light Commercial Air Conditioning Specialization Technical Certificate of Credit.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
AIRC 2005	Design and Application of Light Commercial Air Conditioning	3
AIRC 2010	Light Commercial Air Conditioning Control Systems	3
AIRC 2020	Light Commercial Air Conditioning Systems Operation	5

11 minimum semester hour credits required for certificate

MANUFACTURING MAINTENANCE FUNDAMENTALS (MM11)

(Replaces MMF1)

Program Description:

The Manufacturing Maintenance Fundamentals Technical Certificate of Credit provides training to assist students employed in a variety of positions within the industrial equipment maintenance field to develop new or reinforce existing skills.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
IDFC 1007	Industrial Safety Procedures	2

MAST 1110	Administrative Practice Management	3

16 minimum semester hour credits required for certificate

MICROSOFT EXCEL APPLICATION SPECIALIST (ME21)

(Replaces 5AU1)

Program Description:

The certificate program provides students with the knowledge and skill to

perform intermediate and advanced Microsoft Excel. Prepares students with skills necessary to obtain the expert user certification.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
COMP 1000	Introduction to Computers	3
CIST 2128	Comprehensive Spreadsheet Techniques	3
CIST xxxx	Elective	3

9 minimum semester hour credits required for certificate

MICROSOFT NETWORK ADMINISTRATOR (MS11)

Program Description:

The Microsoft Network Administrator Certificate provides training in Microsoft networking. This certificate will prepare the student or an entry-level computer networking position. Skills taught include implementation of Microsoft operating systems, implementation of Microsoft servers, and networking Infrastructure. This certificate prepares the student to sit for the Microsoft Certified IP Professional (MCITP) networking exam. Hands-on labs provide student with real world simulations.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
CIST 2411	Microsoft Client	4
CIST 2412	Microsoft Server Directory Services	4
CIST 2413	Microsoft Server Infrastructure	4
Select one of the following:		
CIST 2414	Microsoft Server Administrator	4
CIST 2420	Microsoft Exchange Server	4

16 minimum semester hour credits required for certificate

MICROSOFT OFFICE APPLICATION PROFESSIONAL (MF41)

(Replaces 5CG1)

Program Description:

The Microsoft Office Applications Professional certificate program provides students with the knowledge and skills to perform word processing, spreadsheet, database, and presentation applications in an office environment. It is designed to provide hands-on instruction for developing foundation skills for office assistant careers as well as to prepare students for Microsoft Certified Application Specialist (MCAS) certification. Graduates of the program receive a Microsoft Office Applications Professional Technical Certificate of Credit.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
COMP 1000	Introduction to Computers	3
BUSN 1400	Word Processing Applications	4

BUSN 1410	Spreadsheet Concepts and Applications	4
BUSN 1420	Database Applications	4
BUSN 1430	Desktop Publishing and Presentation Applications	4
XXXX xxxx	Guided Electives	3

22 minimum semester hour credits required for certificate

MICROSOFT OFFICE APPLICATION SPECIALIST (MF51)

(Replaces 5AN1)

Program Description:

The Microsoft Office Application Specialist certificate program enables the student to upgrade his/her microcomputer application software skills and prepare for certification.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
COMP 1000	Introduction to Computers	3
CIST 2126	Comprehensive Presentations and E-Mail Techniques	3
CIST 2127	Comprehensive Word Processing Techniques	3
CIST 2128	Comprehensive Spreadsheet Techniques	3
CIST 2129	Comprehensive Database Techniques	4

16 minimum semester hour credits required for certificate

MICROSOFT WORD APPLICATION PROFESSIONAL (MWA1)

(Replaces 5CH1)

Program Description:

The certificate program provides students with the knowledge and skills to perform word processing, spreadsheet, database, and presentation applications in an office environment. It is designed to provide hands-on instruction for developing foundation skills for office assistant careers.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
COMP 1000	Introduction to Computers	3
BUSN 1400	Word Processing Applications	4
BUSN 1440	Document Production	4
XXXX xxxx	Guided Elective	3

14 minimum semester hour credits required for certificate

MICROSOFT WORD APPLICATION SPECIALIST (MW11)

(SCYDC Only)

(Replaces MOW1)

Program Description:

The certificate program provides students with the knowledge and skills to perform word processing, spreadsheet, and presentation applications in an office environment. It is designed to provide hands-on instruction for developing foundation skills for office assistant careers. Occupational Trends: The need to replace workers who transfer to other occupations or leave this large occupation for other reasons will produce numerous job openings each year. Job prospects will be most favorable for those with the best technical skills and be willing to upgrade their skills continuously in order to remain marketable.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
COMP 1000	Introduction to Computers	3
CIST 1102	Keyboarding	3
CIST 2127	Comprehensive Word Processing Techniques	3

9 minimum semester hour credits required for certificate

MILL OPERATOR (MP11)

(Replaces 5AH1)

Program Description:

The Mill Operator certificate program teaches students to effectively operate milling machinery. Students become proficient in blueprint reading, general mathematical operations, and are provided the necessary knowledge and skills to obtain employment as a milling machinist.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
MCHT 1011	Introduction to Machine Tool	4
MCHT 1012	Blueprint for Machine Tool	3
MCHT 1120	Mill Operation I	3
MCHT 1220	Mill Operations II	3

13 minimum semester hour credits required for certificate

MOBILE ELECTRONICS TECHNICIAN (ME61)

(Replaces MBE1)

Program Description:

The Mobile Electronics Technician Technical Certificate of Credit is designed to provide students with short term training to prepare them for entry level employment in the field of car audio systems installation. Topics

include direct and alternating current principles, soldering techniques, and system installation procedures.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
IDFC 1011	Direct Current I	3
IDFC 1012	Alternating Current I	3
ELCR 1005	Soldering Technology	1
ELCR 1300	Mobile Audio and Video Systems	3

10 minimum semester hour credits required for certificate

MOTORCYCLE MAINTENANCE TECHNICIAN (MM61)

(Replaces MSN1)

Program Description:

The Motorcycle Maintenance Technician certificate program is a single semester sequence of courses that prepares student to obtain entry level maintenance positions in the power sports service industry. The program emphasizes a combination of mechanical theory and practical experience relative to the maintenance of power sports equipment. Topics include shop safety, basic electrical theory, wheels and tires, precision measuring, valve adjustments, and battery service.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
MCST 1000	Introduction to Motorcycle Technology	4
MCST 1110	Motorcycle Maintenance	5

9 minimum semester hour credits required for certificate

MOTORSPORTS CHASSIS TECHNICIAN (MCB1)

(Replaces MSH1)

Program Description:

The Motorsports Chassis Technician certificate program prepares students for an entry level or apprenticeship position with a racing team helping prepare a race car for proper chassis set up and minor repair at the race track. The program includes identification of different chassis types and construction methods, proper scale set up, weighing a race vehicle, and making adjustments affecting weight distribution. The program also covers front end geometry, shock testing, and spring rate testing related to vehicle handling characteristics of different types of racing vehicles.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
MSVT 1000	Introduction to Motorsports and Race Vehicle Systems	3
MCHT 1011	Introduction to Machine Tool	4
WELD 1000	Introduction to Welding Technology	3
MSVT 1050	Fabrication Techniques	6

MSVT 2020	Race Car Preparation and Testing	3
19 minimum semester hour credits required for certificate		

MOTORSPORTS ENGINE BUILDER (MEB1)

(Replaces MSB1)

Program Description:

The Motorsports Engine Builder certificate program prepares students for an entry level or apprenticeship in an engine building, testing or machining facility. The program deals with assembly and disassembly of components, precision measurement of wear, and assembly procedures involved in blueprinting an engine. The program also covers related lubrication, cooling, and ignition systems and components used on modern racing engines. The course includes engine hook up to an engine dynamometer and proper engine break in and Dyno testing.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
MSVT 1000	Introduction to Motorsports and Race Vehicle Systems	3
MCHT 1011	Introduction to Machine Tool	4
MSVT 2010	Engine Design, Building and Testing	3

10 minimum semester hour credits required for certificate

MOTORSPORTS FABRICATION TECHNICIAN (MFT1)

(Replaces MSF1)

Program Description:

The Motorsports Fabrication certificate program prepares students for an entry level or apprenticeship position in a racing vehicle shop, custom shop, or street rod shop fabricating related parts. The student will learn how to identify types of metals, form various shapes, and identify types of fastening methods for various applications. Students will also learn machining methods as they apply to basic fabrication and the fabrication techniques associated with carbon fiber race cars of the installation methods of fitting body panels to IMCA style stock cars.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
MSVT 1000	Introduction to Motorsports and Race Vehicle Systems	3
MCHT 1011	Introduction to Machine Tool	4
WELD 1000	Introduction to Welding	3
MSVT 1050	Fabrication Techniques	6
MSVT 2005	Body and Chassis Design and Fabrication	5

21 minimum semester hour credits required for certificate

NAIL TECHNICIAN (NT11)**(Replaces NAP1)****Program Description:**

The Nail Technician program is a sequence of courses that prepares students for careers in the field of Nail Technician. Learning opportunities develop academic and professional knowledge and skills required for job acquisition, retention, and advancement. The program emphasizes specialized training in safety, sanitation, state laws, rules, and regulations, nail diseases and disorders, skin and nail care, and work ethics. The curriculum meets state licensing requirements of the State Board of Cosmetology. Program graduates receive a Nail Technician certificate and are employable as a Nail Technician.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
COSM 1000	Introduction to Cosmetology Theory	4
COSM 1070	Nail Care and Advanced Techniques	3
COSM 1180	Nail Care I	5
COSM 1120	Salon Management	3
COSM 1190	Nail Care II	5

20 minimum semester hour credits required for certificate

NETWORK ADMINISTRATOR (NA11)**(Replaces 5BC1)****Program Description:**

This certificate program provides basic training in computer information systems networking. Students are introduced to the basic concepts of network administration. Upon graduation, students will be able to install, configure, and maintain networks using Windows networking software. The student is prepared to take the MCP (Microsoft Certified Professional) exam.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
CIST 1001	Computer Concepts	4
CIST 1130	Operating Systems Concepts	3
COMP 1000	Introduction to Computers	3
CIST 1122	Hardware Installation and Maintenance	4
CIST 2411	Microsoft Client	4
CIST 2414	Microsoft Server Administrator	4
CIST 1401	Computer Networking Fundamentals	4
OR		
CIST 2451	Cisco Network Fundamentals	(4)
XXXX xxxx	Electives	6

32 minimum semester hour credits required for certificate

NETWORK SUPPORT SPECIALIST (NS31)

(Replaces NST1)

Program Description:

This Certificate program provides basic training in networking support. Students are introduced to the basic networking support skills. Upon graduation, student will be able to maintain networks using Windows networking software.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
COMP 1000	Introduction to Computers	3
CIST XXXX	Elective	3
	Select one of the following:	
CIST 1401	Computer Networking Fundamentals	4
CIST 2414	Microsoft Server Administrator	4

10 minimum semester hour credits required for certificate

NETWORK TECHNICIAN (NT21)

(Replaces 5BD1)

Program Description:

The Network Technician technical certificate of credit provides basic training in computer information systems networking. Students are introduced to the basic concepts of network administration. Upon graduation, students will be able to install, configure, and maintain networks using Windows networking software.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
CIST 1001	Computer Concepts	4
CIST 1130	Operating Systems Concepts	3
CIST 1401	Computer Networking Fundamentals	4
COMP 1000	Introduction to Computers	3

14 minimum semester hour credits required for certificate

NURSE AIDE (CN21)

(Replaces CDN1)

Program Description:

The Nurse Aide Technical Certificate of Credit prepares students with classroom training and practice as well as the clinical experience necessary to care for patients in various settings including general medical and surgical hospitals, nursing care facilities, community care facilities for the elderly, and home health care services. Students who successfully complete the Nurse Aide Technical Certificate of Credit may be eligible to sit for the National Nurse Aide Assessment program (NNAAP) which determines competency to become enrolled in the State nurse aide registry.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
ALHS 1040	Introduction to Health Care	3
ALHS 1060	Diet & Nutrition for Allied Health Sciences	2
ALHS 1090	Medical Terminology for Allied Health Sciences	2
NAST 1100	Nurse Aide Fundamentals	6

13 minimum semester hour credits required for certificate

NURSERY/GREENHOUSE TECHNICIAN (PPS1)

Program Description:

Prepare graduates for challenging careers in the expanding field of Landscaping and Garden Centers.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
HORT 1000	Horticulture Science	3
HORT 1010	Woody Plant Identification I	3
HORT 1020	Herbaceous Plant Identification	3
HORT 1030	Greenhouse Management	4
HORT 1050	Nursery Production and Management	4

17 minimum semester hour credits required for certificate

OFFICE ACCOUNTING SPECIALIST (0A31)

(Replaces 5AY1)

Program Description:

The Office Accounting Specialist technical certificate provides entry-level office accounting skills. Topics include principles of accounting, computerized accounting and basic computer skills.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
COMP 1000	Introduction to Computers	3
ACCT 1100	Financial Accounting I	4
ACCT 1105	Financial Accounting II	4
ACCT 1115	Computerized Accounting	3

14 minimum semester hour credits required for certificate

ORNAMENTAL IRON FABRICATOR (OI21)

(Replaces OIW1)

Program Description:

The Ornamental Iron Fabricator Technical Certificate of Credit introduces student to ornamental iron welding and fabrication processes. Topics include oxyfuel cutting, plasma cutting, and ornamental iron works.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
WELD 1000	Introduction to Welding Technology	3

WELD 1010	Oxyfuel Cutting	3
WELD 1154	Plasma Cutting	3
WELD 1156	Ornamental Iron Works	3

12 minimum semester hour credits required for certificate

PATIENT CARE ASSISTANT (PC21)

(Replaces TTP1)

Program Description:

The Patient Care Assistant Technical Certificate of Credit prepares students with rigorous classroom training and practice as well as the clinical experiences to perform a full range of patient care duties or services under nursing or medical direction. This includes taking vital signs, obtaining lab specimens, assisting with activities of daily living, observing and charting patient information, and reporting appropriate information to supervisors. It may also include providing various outreach services to clients within the community. Students who successfully complete the Patient Care Assistant Technical Certificate of Credit may be eligible to sit for the National Nurse Aide Assessment program (NNAAP) which determines competency to become enrolled in the State nurse aide registry.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
ALHS 1011	Structure and Function of the Human Body	5
ALHS 1040	Introduction to Health Care	3
ALHS 1060	Diet and Nutrition for Allied Health Sciences	2
ALHS 1090	Medical Terminology for Allied Health Sciences	2
COMP 1000	Introduction to Computers	3
EMPL 1000	Interpersonal Relations and Professional Development	2
NAST 1100	Nurse Aide Fundamentals	6

23 minimum semester hour credits required for certificate

Acceptance into the Patient Care Assistant certificate program does not guarantee participation in the clinical setting. A physical examination is required prior to entering the clinical facility. A drug test and a criminal background check may be a stipulation by the clinical facility before beginning the clinical rotation. Failure to complete such requirement to the satisfaction of the clinical facility could prohibit the clinical experience, thus, terminating participation before graduation.

PAYROLL ACCOUNTING SPECIALIST (PA61)

(Replaces 5AP1)

Program Description:

The Payroll Accounting Specialist technical certificate provides entry-level skills into payroll accounting. Topics include: principles of accounting,

computerized accounting, principles of payroll accounting, mathematics and basic computer use.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
ACCT 1100	Financial Accounting I	4
COMP 1000	Introduction to Computers	3
ACCT 1105	Financial Accounting II	4
ACCT 1115	Computerized Accounting	3
ACCT 1130	Payroll Accounting	3

17 minimum semester hour credits required for certificate

PC REPAIR AND NETWORK TECHNICIAN (PR21)

(Replaces 5AV1)

Program Description:

The PC Repair and Network Technician certificate prepares the student with the skills needed to perform personal computer troubleshooting and repair.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
CIST 1001	Computer Concepts	4
CIST 1122	Hardware Installation and Maintenance	4
COMP 1000	Introduction to Computers	3
CIST xxxx	CIS Operating System	3

Select one of the following Networking Courses:

CIST 1401	Computer Networking Fundamentals	4
CIST 2441	Cisco Networking for Home and Small Businesses	4
CIST 2451	Cisco Network Fundamentals	4

18 minimum semester hour credits required for certificate

PHLEBOTOMY TECHNICIAN (PT21)

(Replaces PYP1)

Program Description:

The Phlebotomy Technician program educates students to collect blood and process blood and body fluids. Phlebotomy technicians typically work in concert with clinical laboratory personnel and other healthcare providers in hospitals or other healthcare facilities. Topics covered include human anatomy, anatomical terminology, venipuncture, and clinical practice.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
ALHS 1011	Structure and Function of the Human Body	5
ALHS 1090	Medical Terminology for Allied Health Sciences	2
ALHS 1040	Introduction to Health Care	3

COMP 1000	Introduction to Computers	3
PHLT 1030	Introduction to Venipuncture	3
PHLT 1050	Clinical Practice	5
ENGL 1010	Fundamentals of English I	3

24 minimum semester hour credits required for certificate

PHOTOVOLTAIC SYSTEMS INSTALLATION AND REPAIR TECHNICIAN (PS11)

(Replaces PSI1)

Program Description:

The Photovoltaic Systems Installation and Repair Technician Technical Certificate of Credit provides individuals with the opportunity to enter the workforce area that specializes in electrical applications of installing, inspecting, and repairing solar panels in the electrical construction industry.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
IDFC 1007	Industrial Safety Procedures	2
IDFC 1011	Direct Current I	3
ELTR 1020	Electrical Systems Basics I	3
ELTR 1060	Electrical Prints, Schematics, and Symbols	2
ELTR 1525	Photovoltaic Systems	5

15 minimum semester hour credits required for certificate

PIPE WELDER (PW11)

(Replaces ADW1)

Program Description:

The Pipe Welder Technical Certificate of Credit provides instruction in the specialized field of pipe welding. A good understanding and skill base is essential for the completion of this program. Topics include advanced gas tungsten arc welding practices, fabrication practices, and pipe welding techniques.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
WELD 1150	Advanced Gas Tungsten Arc Welding	3
WELD 1151	Fabrication Processes	3
WELD 1152	Pipe Welding	3

9 minimum quarter hour credits required for certificate

PREP COOK (PC51)**(Replaces 5AC1)****Program Description:**

This technical certificate of credit provides skills for entry into the food services preparation area as a prep cook. Topics include: food services history, safety and sanitation, purchasing and food control, nutrition and menu development and design, along with the principles of cooking.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
CUUL 1000	Fundamentals of Culinary Arts	4
CUUL 1120	Principles of Cooking	6
CUUL 1110	Culinary Safety and Sanitation	2

12 minimum semester hour credits required for certificate

PROCESS CONTROL TECHNICIAN I (PC61)**(Replaces PSC1)****Program Description:**

The Process Control Technician certificate program offers instruction in the theory and practical application of motor and variable speed controls, industrial PLCs, and industrial fluid power systems. Completion of the program is profitable or entry-level employment of for upgrading technical skills.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
IDSY 1120	Basic Industrial PLCs	5
IDSY 1190	Fluid Power and Piping Systems	5
IDSY 1210	Industrial Motor Controls II	5

15 minimum semester hour credits required for certificate

PROCESS CONTROL TECHNICIAN II (PC71)**(Replaces PST1)****Program Description:**

The process Control Technician II Technical Certificate of Credit provides instruction continuing the offerings in the Process Control Technician I certificate. Topics include industrial computer applications, intermediate PLCs, industrial instrumentation, and solid state devices.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
IDFC 1013	Solid State Devices I	3
IDSY 1220	Intermediate Industrial PLCs	5
IDSY 1230	Industrial Instrumentation	5

13 minimum semester hour credits required for certificate

PROGRAMMABLE CONTROL TECHNICIAN (PC81)

(Replaces IPC1)

Program Description:

The Programmable Controller Technician I certificate program offers specialized training in programmable controllers. Topics include motor control fundamentals, and instruction in basic and advanced PLCs.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
IDSY 1110	Industrial Motor Controls I	5
IDSY 1120	Basic Industrial PLCs	5
IDSY 1220	Intermediate Industrial PLCs	5

15 minimum semester hour credits required for certificate

PULP AND PAPER OPERATIONS (PA31)

(Replaces PP01)

Program Description:

The Pulp and Paper Operations TCC is a sequence of courses designed to prepare students for entry into the pulp and paper products industry. In addition, this program provides supplemental training for present industry employees needing to upgrade their skills in this field.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
COMP 1000	Introduction to Computers	3
EMPL 1000	Interpersonal Relations & Professional Development	2
IDFC 1007	Industrial Safety Procedures	2
PPOT 1000	Pulp and Paper Chemistry	3
PPOT 1010	Pulping, Washing, and Chemical Recovery	3
PPOT 1020	Pulp Screening, Bleaching and Recycling	3
PPOT 1030	Pulp and Paper Machine and Finishing Operations	3
PPOT 1040	Quality/Operations Management and Pollution Abatement	3

22 minimum semester hour credits required for certificate

RAILCAR REPAIR TECHNICIAN (RR11)

(Replaces RRT1)

Program Description:

The Railcar Repair Technician certificate program provides individuals with an opportunity to enter the workforce in an area that specializes in the repair of all classifications of railcars. Railcar Repair consists of developing skills for reviewing specifications and work orders, air brake repair and renewing, and general and specialized repairs of major and minor components.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
WELD 1000	Introduction to Welding Technology	3
WELD 1010	Oxyfuel Cutting	3
WELD 1040	Flat Shielded Metal Arc Welding	4
WELD 1050	Horizontal Shielded Metal Arc Welding	4
RCRT 1106	Introduction to Railcar Structural Components	2
WELD 1060	Vertical Shielded Metal Arc Welding	4
WELD 1070	Overhead Shielded Metal Arc Welding	4
RCRT 1108	AAR Rules and Regulations	3
RCRT 1110	Railcar Airbrake Equipment & Technology	3
RCRT 1112	Railcar Components Parts Repair	3
RCRT 1114	Railcar Equipment Accessories & Repair	3

36 minimum semester hour credits required for certificate

REFRIGERATION SYSTEM SERVICE (RS21)

(Replaces RSS1)

Program Description:

The Refrigeration Systems Service Technician TCC is a series of courses that prepares students for entry level positions in the maintenance and servicing of refrigeration systems.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
AIRC 1005	Refrigerated Fundamentals	4
AIRC 1010	Refrigeration Principles and Practices	4
AIRC 1020	Refrigeration Systems Components	4
AIRC 1030	HVACR Electrical Fundamentals	4
AIRC 1040	HVACR Electrical Motors	4

20 minimum semester hour credits required for certificate

RESIDENTIAL AIR CONDITIONING TECHNICIAN (RA21)

(Replaces RAC1)

Program Description:

The Residential Air Conditioning Technician TCC is a series of courses designed to prepare students for entry level positions in the level maintenance and repair of residential air conditioning systems.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
AIRC 1005	Refrigeration Fundamentals	4
AIRC 1020	Refrigeration Systems Components	4
AIRC 1060	Air Conditioning Systems Application and Installation	4

AIRC 1090 Troubleshooting Air Conditioning Systems 4
16 minimum semester hour credits required for certificate

RESIDENTIAL WIRING TECHNICIAN (RW61)

(Replaces RWT1)

Program Description:

The Residential Wiring Technician program is designed to introduce students to residential wiring techniques. Upon completion, students will be ready to enter the electrical field as electrical apprentices.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
ELTR 1020	Electrical Systems Basics I	3
ELTR 1060	Electrical Prints, Schematics, and Symbols	2
ELTR 1205	Residential Wiring I	3
ELTR 1210	Residential Wiring II	3
IDFC 1007	Industrial Safety Procedures	2

13 minimum semester hour credits required for certificate

RESTAURANT OPERATIONS SPECIALIST (RPS1)

(Replaces ROS1)

Program Description:

The Restaurant Operations Specialist certificate program is a sequence of courses that prepare students for the culinary profession. Learning opportunities develop occupational and professional knowledge and skills required for job acquisition, retention and advancement. The program emphasizes a combination of culinary theory and practical application necessary for successful employment. Entry-level persons will be prepared to pursue opportunities as a front-of-the-house or gourmet supervisor.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
CUUL 1129	Fundamentals of Restaurant Operations	4
CUUL 2160	Contemporary Cuisine	4
CUUL 2190	Principles of Culinary Leadership	3

11 minimum semester hour credits required for certificate

RETAIL MERCHANDISE MANAGER (RMM1)

(Replaces MER1)

Program Description:

The Retail Merchandise Manager certificate is designed to prepare students to plan and supervise the purchase and marketing of merchandise in a broad area. In department store chains, with numerous stores, many of the buying and merchandising functions are centralized in one location.

Managers decide which merchandise is best for their own stores.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
MKTG 1370	Consumer Behavior	3
MKTG 1270	Visual Merchandising	3
MKTG 2070	Buying and Merchandising	3
MKTG 2270	Retail Operations Management	3
MGMT 1100	Principles of Management	3
	OR	
MKTG 2010	Small Business	3

15 minimum semester hour credits required for certificate

ROBOTIC TECHNICIAN (RT31)

(Replaces RT11)

Program Description:

The Robotics Technician technical certificate prepares graduates in the Industrial Systems Technology field in specific skills related to robotics in the industrial and/ or manufacturing sector.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
IDSY 1120	Basic Industrial PLCs	5
IDSY 1190	Fluid Power and Piping Systems	5
AUMF 1150	Introduction to Robotics	3
AUMF 1210	Flexible Manufacturing Systems II	5
IDSY 1220	Intermediate Industrial PLCs	5
XXXX xxx	Occupational Elective	3

26 minimum semester hour credits required for certificate

SMALL BUSINESS MARKETING MANAGER (SB51)

(Replaces SB01)

Program Description:

The Operations Management Specialist Certificate prepares individuals to manage and direct day-to-day functions of a variety of small businesses. Learning opportunities will introduce, develop and reinforce students knowledge, skills and attitudes required for job acquisition, retention and success in small business management. Graduates will receive a Small Business Management Specialist TCC.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
MKTG 1100	Principles of Marketing	3
MKTG 1130	Business Regulations and Compliance	3
MKTG 1160	Professional Selling	3
MKTG 1190	Integrated Marketing Communications	3

MKTG 2010	Small Business Management	3
15 minimum semester hour credits required for certificate		

SUPERVISOR/MANAGEMENT SPECIALIST (SS31)

(Replaces SUM1)

Program Description:

The Supervisor/Manager Specialist Certificate prepares individuals to become supervisors in business, commercial or manufacturing facilities. Learning opportunities will introduce, develop and reinforce students knowledge, skills and attitudes required for job acquisition, retention and advancement in management. Graduates will receive a Supervisor/Manager Specialist TCC.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
MGMT 1100	Principles of Management	3
MGMT 1115	Leadership	3
MGMT 2115	Human Resource Management	3
Select one of the following courses:		
MGMT 1110	Employment Law	3
MKTG 1130	Business Regulations and Compliance	3
MGMT 2120	Labor Management Relations	3

12 minimum semester hour credits required for certificate

TRANSPORT TEMPERATURE CONTROL TECHNICIAN (TT11)

(Replaces TTC1)

Program Description:

The Transport Temperature Control Technician, Technical Certificate of Credit program provides individuals with an opportunity to enter the workforce area that specializes in the installation, repair, and service of Transport Temperature Control Systems for a variety of mobile applications including trailers, truck bodies, buses, shipboard containers, railway cars, and off road equipment.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
DIET 1000	Introduction to Diesel Technology, Tools, and Safety	3
AIRC 1010	Refrigeration Principles and Practices	4
AIRC 1005	Refrigeration Fundamentals	4
DIET 2140	Introduction to Mobile Temperature Control	3
IDFC 1011	Direct Current I	3
IDFC 1012	Alternating Current I	3
DIET 1010	Diesel Electrical and Electronic Systems	7

DIET 2141 Transport Temperature Control Certification 3
30 minimum semester hour credits required for certificate

TURFGRASS MAINTENANCE TECHNICIAN (TM21) **(Replaces 5AF1)**

Program Description:

Turfgrass management is the study of the science and culture of fine grasses that are used on golf courses, athletic fields, home lawns, and other areas requiring an attractive but functional groundcover. Increasing interest in outdoor recreational activities as well as aesthetically appealing landscaped areas has created a demand for professional turfgrass maintenance.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
HORT 1080	Pest Management	3
HORT 1310	Irrigation & Water Management	4
HORT 1330	Turfgrass Management	4
HORT 1410	Soils	3

14 minimum quarter hour credits required for certificate

UTILITY EQUIPMENT TECHNICIAN (UET1) **(Replaces UET1)**

Program Description:

The Utility Equipment Technology training program, TCC prepares individuals for entry level employment opportunities with local, regional, and national utility companies.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
UEQT 1100	Utility Equipment Organization Principles	3
UEQT 1110	Utility Equipment Mechanical and Hydraulic Skill Development	3
UEQT 1120	Utility Equipment Workplace Skills	3
UEQT 1130	Utility Equipment Occupational Skills	3
UEQT 1140	Utility Equipment Aerial Device Service	2
UEQT 1150	Utility Equipment Component Rebuild	2
UEQT 1160	Utility Equipment Fluid Power Training and Certification	2

18 minimum semester hour credits required for certificate

VERTICAL SHIELDED METAL ARC WELDER FABRICATOR (VSM1)

(Replaces 5BS1)

Program Description:

The Vertical Shielded Metal Arc Welder Fabricator technical certificate of credit prepares student for careers in shielded metal arc welding fabrication.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
WELD 1050	Horizontal Shielded Metal Arc Welding	4
WELD 1060	Vertical Shielded Metal Arc Welding	4
Select one Program Elective:		
WELD 1030	Blueprint Reading for Welding Technology	3
WELD 1040	Flat Shielded Metal Arc Welding	4
WELD 1153	Flux Cored Arc Welding	4
WELD 1154	Plasma Cutting	3
WELD 1156	Ornamental Iron Works	3

11 minimum semester hour credits required for certificate

WELDING AND BRAZING TECHNICIAN (WT21)

(Replaces BWT1)

Program Description:

The Welding/Brazing Technician, TCC introduces the student to gas cutting, welding and brazing. The skills student gain in this certificate will enable them to fabricate and fit component parts of tubing and piping necessary to complete heating and air conditioning units.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
WELD 1000	Introduction to Welding Technology	3
WELD 1010	Oxyfuel Cutting	3
WELD 1020	Oxyacetylene Welding	2
WELD 1151	Fabrication Processes	3

11 minimum semester hour credits required for certificate

WELDING BLUEPRINT READING (WB11)

(Replaces WBR1)

Program Description:

The Welding Blueprint Reading TCC is a sequence of courses that prepares the welding technician to read and understand welding symbols, drawings, measurements, and inspection requirements necessary to fabricate weldments. The student will understand the safety issues associated with welding and fabrication of these weldments. The program emphasizes a combination of theory and practical application necessary for successful employment. Program graduates receive a Welding Blueprint Reading Certificate.

COURSE NO.	OCCUPATIONAL COURSES	CREDITS
WELD 1000	Introduction to Welding Technology	3
WELD 1010	Oxyfuel Cutting	3
WELD 1030	Blueprint Reading for Welding Technology	3

9 minimum semester hour credits required for certificate

COURSE DESCRIPTIONS

Course descriptions are arranged in alphabetical-numerical order. The number shown immediately following the course title indicates in sequence the number of credit hours and the number of contact hours per week for the course. Course prerequisites are specified. Learning Support courses receive institutional credit only. These courses are not limited in total hours required for program completion. No Learning Support courses can be used to satisfy program elective requirements.

ACCT 1100 - Financial Accounting I (4)

(Replaces ACC 1101 and a portion of ACC 1102—see ACC 1105)

Pre-requisites: Program Admission

Co-requisites: None

Introduces the basic financial accounting concepts of the complete accounting cycle and provides the student with the necessary skills to maintain a set of books for a sole proprietorship. Topics include: accounting vocabulary and concepts, the accounting cycle for a personal service business, the accounting cycle for a merchandising business, inventory, cash control and receivables. Laboratory work demonstrates theory presented in class.

ACCT 1105 - Financial Accounting II (4)

(Replaces a portion of ACC 1102—see ACCT 1100, and a portion of ACC 1103—see ACCT 1110)

Pre-requisites: ACCT 1100

Co-requisites: None

Introduces the intermediate financial accounting concepts that provide the student with the necessary skills to maintain a set of books for a partnership and corporation. Topics include: Fixed and Intangible Assets, Current and Long-Term Liabilities (Notes Payable), Payroll, Accounting for a Partnership, Accounting for a Corporation, Statement of Cash Flows, and Financial Statement Analysis. Laboratory work demonstrates theory presented in class.

ACCT 1110 - Managerial Accounting (3)

(Replaces ACC 2158 or ACC 2150 and a portion of ACC 1103—see ACCT 1105)

Pre-requisites: ACCT 1105

Co-requisites: None

Emphasizes the interpretation of data by management in planning and controlling business activities. Topics include Managerial Accounting Concepts, Manufacturing Accounting using a Job Order Cost System, Manufacturing Accounting using a Process Cost System, Cost Behavior and Cost-Volume-Profit, Budgeting and Standard Cost Accounting, Flexible Budgets, Standard Costs and Variances, and Capital Investment Analysis and Budgeting. Laboratory work demonstrates theory presented in class.

ACCT 1115 - Computerized Accounting (3)

(Replaces ACC 1104)

Pre-requisites: ACCT 1100, COMP 1000

Co-requisites: None

Emphasizes operation of computerized accounting systems from manual input forms.

Topics include: company creation (service and merchandising), chart of accounts, customers transactions, vendors transactions, banking activities, merchandise inventory, employees and payroll, and financial reports. Laboratory work includes theoretical and technical application.

ACCT 1120 - Spreadsheet Applications (4)

(Replaces ACC 1106 and ACC 2160)

Pre-requisites: COMP 1000

Co-requisites: None

This course covers the knowledge and skills to use spreadsheet software through course demonstrations, laboratory exercises and projects. Topics and assignments will include: spreadsheet concepts, creating and manipulating data, formatting data and content, creating and modifying formulas, presenting data visually and collaborating and securing data.

ACCT 1125 - Individual Tax Accounting (3)

(Replaces ACC 1151)

Pre-requisites: None

Co-requisites: None

Provides instruction for the preparation of individual federal income tax returns.

Topics include: taxable income, income adjustments, schedules, standard deductions, itemized deductions, exemptions, tax credits, and tax calculations.

ACCT 1130 - Payroll Accounting (3)

(Replaces ACC 1152)

Pre-requisites: ACCT 1100

Co-requisites: None

Provides an understanding of the laws that affect a company's payroll structure and practical application skills in maintaining payroll records. Topics include: payroll tax laws, payroll tax forms, payroll and personnel records, computing wages and salaries, taxes affecting employees and employers, and analyzing and journalizing payroll transactions.

ACCT 2100 - Accounting Internship I (4)

(Replaces ACC 2167)

Pre-requisites: All non-elective courses required for program completion.

Co-requisites: None

Introduces the application and reinforcement of accounting and employability principles in an actual job setting. Acquaints the student with realistic work situations and provides insights into accounting applications on the job. Topics include appropriate work habits, acceptable job performance, application of accounting knowledge and skills, interpersonal relations, and development of productivity. The half-time accounting internship is implemented through the use

of written individualized training plans, written performance evaluation, and weekly documentation or seminars and/or other projects as required by the instructor.

ACCT 2105 - Accounting Internship II (8)

(Replaces ACC 2168)

Pre-requisites: All non-elective courses required for program completion.

Co-requisites: None

Introduces the application and reinforcement of accounting and employability principles in an actual job setting. Acquaints the student with realistic work situations and provides insights into accounting applications on the job. Topics include: appropriate work habits, acceptable job performance, application of accounting knowledge and skills, interpersonal relations, and development of productivity. The full-time accounting internship is implemented through the use of written individualized training plans, written performance evaluation, and weekly documentation or seminars and/or other projects as required by the instructor.

ACCT 2110 - Accounting Simulation (3)

(Replaces ACC 2159)

Pre-requisites: ACCT 1105, ACCT 1115, ACCT 1120

Co-requisites: None

Students assume the role of a business owner where he/she can directly experience the impact and importance of accounting in a business. At the end of the simulation course, the student will have completed the entire accounting cycle for a service business, merchandising business and a corporation using an Accounting Information System software (different from software used in ACCT 1115-Computerized Accounting). Emphasis placed on providing students with real-world opportunities for the application and demonstration of accounting skills by using Simulation Projects will enable them to build a foundation for understanding and interpreting financial statements. Topics include company creation, chart of accounts, customers transactions, vendors transactions, banking activities, merchandise inventory, employees and payroll, financial statements, preparation of payroll tax forms and preparation of income tax forms. Laboratory work includes theoretical and technical application.

ACCT 2115 - Bookkeeper Certification Review (3)

(Replaces ACC 2164)

Pre-requisites: Program Admission

Co-requisites: None

Reviews the topics of adjusting entries, correction of accounting errors, payroll, depreciation, inventory, internal controls and fraud prevention. Prepares the students to take certification testing.

ACCT 2120 - Business Tax Accounting (3)

(Replaces ACC 2156)

Pre-requisites: None

Co-requisites: ACCT 1125

Provides instruction for preparation of both state and federal partnership, corporation and other business tax returns. Topics include: organization form, overview of taxation of partnership, special partnership issues, corporate tax elections,

adjustments to income and expenses, tax elections, forms and schedules, tax credits, reconciliation of book and tax income, tax depreciation methods, and tax calculations.

ACCT 2125 - Capstone Review Course of Accounting Principles (3)

(Replaces ACC 2165)

Pre-requisites: Hold a 2-year Associate degree in Accounting or take the following three courses: ACCT 1105, ACCT 1125, ACCT 1130

Co-requisites: None

Guides the student in dealing with ethics, internal control, fraud and financial statement analysis in the accounting environment which will require students to confront and resolve accounting problems by integrating and applying skills and techniques acquired from previous courses. Will prepare students in developing a personal code of ethics by exploring ethical dilemmas and pressures they will face as accountants. Will help the student understand financial statement analysis and the relation to fraud, and fraud detection. Will prepare the student for the ACAT Comprehensive Examination for Accreditation in Accountancy.

ACCT 2130 - Integrated Accounting Management Systems (3)

(Replaces ACC 2157)

Pre-requisites: ACCT 1105, ACCT 1115, ACCT 1120

Co-requisites: None

Emphasizes use of database management packages, electronic spreadsheet packages, and accounting software packages for accounting/financial applications with more advanced systems. Topics include: creation and management of database applications, creation and management of spreadsheet applications, and creation and management of accounting integrated software systems.

ACCT 2140 - Legal Environment of Business (3)

(Replaces ACC 2155)

Pre-requisites: Program Admission

Co-requisites: None

Introduces law and its relationship to business. Topics include: legal ethics, legal processes, business contracts, business torts and crimes, real and personal property, agency and employment, risk-bearing devices, and Uniform Commercial Code.

ACCT 2145 - Personal Finance (3)

(Replaces ACC 2154)

Pre-requisites: None

Co-requisites: None

Introduces practical applications of concepts and techniques used to manage personal finance. Topics include: cash management, time value of money, credit, major purchasing decisions, insurance, investments, retirement, and estate planning.

ACRP 1000 - Introduction to Auto Collision Repair (4)

(Replaces ACR 1100 and ACR 1050)

Pre-requisites: Provisional Admission

Co-requisites: None

This course introduces suspension and steering, braking, and drive train systems found on vehicles typically requiring repair of damages incurred through automobile collisions.

ACRP 1005 - Automobile Component Repair and Replacement (4)

(Replaces ACR 1070 and ACR 1280)

Pre-requisites: None

Co-requisites: ACRP 1000

This course provides instruction in removal and replacement methods of a variety of non-structural cosmetic and safety features of the automobile as well as bolt-on body panels.

ACRP 1010 - Foundations of Collision Repair (5)

(Replaces ACR 1100 and ACR 1050)

Pre-requisites: None

Co-requisites: ACRP 1000, ACRP 1005

This course covers the safety precautions followed during the painting and refinishing processes used in a shop during collision repairs. Basic surface preparations will be discussed and practiced. Spray gun types and basic operations will also be introduced.

ACRP 1015 - Fundamentals of Automotive Welding (4)

(Replaces ACR 1060)

Pre-requisites: Program Admission

Co-requisites: ACRP 1000

This course introduces welding and cutting procedures used in auto collision repair. Emphasis will be placed on MIG welding techniques through a variety of different procedures.

ACRP 1017 - Mechanical and Electrical Systems (4)

Pre-requisites: Program Admission

Co-requisites: ACRP 1000

This course introduces suspension and steering, braking, and drive train systems found on vehicles typically requiring repair of damages incurred through automobile collisions.

ACRP 1019 - Mechanical and Electrical Systems (5)

Pre-requisites: Program Admission

Co-requisites: ACRP 1000

This course introduces the various electrical, heating and AC, engine cooling, fuel and intake, and restraint systems found on vehicles typically requiring repair of damages incurred through automobile collisions

ACRP 1030 - Car Detailing (3)

(Replaces AUT 157)

Pre-requisites: Program Admission

Co-requisites: None

This course trains students to inspect and improve the appearance of vehicles to a reconditioned state by cleaning, polishing, waxing, treating, and spot painting the vehicle finish and components. Topics include: engine cleaning, interior care, exterior finishing, tire, fender-well and under-car cleaning, convertible/cloth top care, trunk detailing, and applying decals and pin stripes. Safety and appropriate use of materials will be emphasized. This course will also prepare students to properly interact with customers in order to generate repeat business.

ACRP 2001 - Introduction to Auto Painting and Refinishing (5)

Pre-requisites: Provisional Admission

Co-requisites: ACRP 1000, ACRP 1010

This course covers the safety precautions followed during the painting and refinishing processes used in a shop during collision repairs. Basic surface preparations will be discussed and practiced. Spray gun types and basic operations will also be introduced.

ACRP 2002 - Painting and Refinishing Techniques (5)

Pre-requisites: Provisional Admission

Co-requisites: ACRP 1000, ACRP 2001

This course covers the fundamental refinishing tasks of mixing, matching and applying various types of automotive paints. Paint defect causes and cures will be examined in depth. Final delivery detailing and tasks will also be practiced and discussed.

ACRP 2009 - Refinishing Internship (2)

(Replaces ACR 2370)

Pre-requisites: ACRP 1000

Co-requisites: ACRP 2005, ACRP 2008

Provides occupation-based learning opportunities for students pursuing the Paint and Refinishing specialization. Students will be mentored by qualified professional technicians as they experience working in the Automotive Collision Repair profession in an industry standard commercial repair facility or industry standard simulated on-campus facility. Topics include: sanding, priming, and paint preparation; special refinishing applications; urethane enamels; tint and match colors; and detailing.

ACRP 2010 - Major Collision Repair (5)

(Replaces ACR 1090, ACR 1200, ACR 1210, and ACR 2240)

Pre-requisites: ACRP 1000

Co-requisites: ACRP 1005

This course introduces procedures and resources used in the identification and assessment of automotive collision damages. This course provides instruction on the hydraulic systems and for the diagnosis, straightening, measuring and alignment of automobile frames and bodies.

ACRP 2015 - Major Collision Replacements (5)

(Replaces ACR 2250 and ACR 2260)

Pre-requisites: ACRP 1000

Co-requisites: ACRP 2010

This course provides instruction in conventional/unibody automobile body structural panel repairs emphasizing a variety of removal and replacement techniques.

ACRP 2019 - Major Collision Repair Internship (2)

(Replaces ACR 1290)

Pre-requisites: ACRP 1000

Co-requisites: ACRP 2010, ACRP 2015

Provides occupation-based learning opportunities for students pursuing the Major Collision Repair specialization. Qualified professional technicians will mentor students as they experience working in the Automotive Collision Repair profession in an industry standard commercial repair facility or industry standard simulated on-campus facility. Topics include: conventional frame repair, unibody damage identification and analysis, unibody measuring and fixturing systems, unibody straightening systems and techniques, unibody welding techniques, unibody structural panel repair and replacement, conventional body structural panel repair, unibody suspension and steering systems, and bolt-on body panel removal and replacement.

AGRI 1110 - Service Technician Fundamentals (3)

Pre-requisites: None

Co-requisites: None

Provides instruction on the proper use and care of power and hand tools. Encompasses micrometers, dial indicators, torque wrenches, twist drills, taps, dies, screw extractors, thread restoration, tube flaring, fittings, and fasteners. Safety and proper operation of pullers and presses will be demonstrated and practiced. Also included will be setup of equipment using specifications provided by the manufacturer so that it is field ready. Proper use of shop tools and shop equipment is emphasized including proper torquing of attaching hardware. Further study of the John Deere Service ADVISOR program will be covered and students will learn how to navigate and use all of the functions of program and to incorporate it while diagnosing problems.

AGRI 1120 - Basic Diesel Engines (3)

Pre-requisites: None

Co-requisites: None

Course deals with basic physical principles, operation, and construction of two- and four-stroke cycle engines. It includes ignition timing of four-stroke cycle engines to factory specifications. Basic diagnostic engine test procedures will be practiced on spark and compression ignition engines.

AGRI 1130 - Basic Power Trains (2)

Pre-requisites: None

Co-requisites: None

Provides instruction on the theory of power transmissions from engine to traction wheels. Includes function and operation of gears, chains, clutches, planetary gears,

drivelines, differentials, and transmissions. Complete disassembly, inspection, and reassembly of clutches, 2-speed planetaries, differentials, final drives, mechanical front-wheel drive, power take-offs, and transmissions. Proper set-up and adjustment of differentials and final drives using bearing pre-loads, shimming, rolling drag, etc. will be covered as well.

AGRI 1140 - Basic Hydraulics (2)

Pre-requisites: None

Co-requisites: None

Hydraulic theory emphasizing pressure and flow relationship, comparison between open-center and closed-center hydraulics systems, and discussion and tear-down of hydraulic components such as variable and fixed displacement pumps, motors, control valves, relief valves, flow control valves, cylinders, filters, reservoirs, lines, and fittings. Simple pressure and flow test and the study of JIC schematics will prepare the student for advanced hydraulics.

AGRI 1150 - Basic Electrical/Electronics (2)

Pre-requisites: None

Co-requisites: None

Basic electrical principles and applications of magnetism, electromagnetism, and electromagnetic induction, voltage, current, and resistance using ohms law will be discussed. Basic operation and diagnostics of charging systems, starting circuits, series and parallel circuits, and batteries will be covered as well. The theory of operation of electrical and electronic components will be discussed as well as basic computer and controller circuits as they relate to John Deere equipment.

AGRI 1160 - Air Conditioning Systems (2)

Pre-requisites: None

Co-requisites: None

The theory of operation, component function, and diagnosis of both manual and automatic temperature control systems will be studied. The students will use refrigerant recovery machines for R-134a refrigerant and will learn the proper procedures and guidelines for retrofitting systems from R-12 to R-134a. Heavy emphasis will be put diagnosing air conditioning problems with the proper tools and equipment.

AGRI 1170 - Harvesting Equipment & AMS Equipment Set-Up (2)

Pre-requisites: AGRI 1130, AGRI 1140, AGRI 1150

Co-requisites: None

This course covers the theory, design, principles of operation and adjustment, trouble shooting and repair of harvesting equipment including combines, cotton pickers, and hay equipment. Heavy emphasis will be put on crop flow through the machine and initial field preparation adjustments. Students must have a basic understanding of power trains, electrical systems, and hydraulics for successful completion. The installation and set-up of AMS equipment will also be covered.

AGRI 2110 - Advanced Engines & Diagnostics (2)

Pre-requisites: AGRI 1120, AGRI 1150

Co-requisites: None

Course deals with more machine specific hydraulic systems on current production machines. The theory of operation of complete hydraulic systems will be studied as well as in depth diagnostic procedures and methods according to the appropriate technical manuals. Students will enroll and take the online John Deere hydraulic systems overview courses and complete the online final assessment.

AGRI 2120 - Advanced Hydraulics & Diagnostics (2)

Pre-requisites: None

Co-requisites: None

Course deals with the theory of operation and diagnostics and repair of all John Deere fuel systems, electronic engine controls, and current emissions regulations and components. Heavy emphasis will be put on engine diagnostics using John Deere software as well as on board machine diagnostics. Proper repair and replacement procedures for fuel system components using proper tools and equipment will also be covered.

AGRI 2130 - Advanced Electrical/Electronics (2)

Pre-requisites: AGRI 1110, AGRI 1150

Co-requisites: None

Course deals with more advanced electrical/electronic systems consisting of multiple electronic controller circuits and control functions. In depth study of these systems and how they interact and function with other electronic controllers and the machine will be covered. Students will also enroll and take the online John Deere electrical systems courses and complete the online final assessment. Heavy emphasis will be placed on diagnostic methods and procedures.

AGRI 2140 - Advanced Power Trains and Diagnostics (2)

Pre-requisites: AGRI 1110, AGRI 1130, AGRI 1150

Co-requisites: None

This course provides an in-depth study of power trains with diagnosis and repair of problems encountered in everyday use. Students will use manuals and specifications in determining time, parts, and total cost in the repair of projects. Specialty tools will be introduced and their use, care, and importance stressed.

AGRI 2210 - Dealer Internship I (12)

Pre-requisites: None

Co-requisites: None

During the dealer internship/co-operative work experience, the student gains the practical knowledge necessary for optimum job performance. The student will be required to function in the sponsoring dealerships work environment under the supervision of the dealership management personnel or co-op training coordinator.

AGRI 2220 - Dealer Internship II (12)

Pre-requisites: None

Co-requisites: None

During the dealer internship/co-operative work experience, the student gains the practical knowledge necessary for optimum job performance. The student will be required to function in the sponsoring dealerships work environment under the supervision of the dealership management personnel or co-op training coordinator.

AIRC 1005 - Refrigeration Fundamentals (4)

(Replaces ACT 100 and IFC 100)

Pre-requisites: Provisional Admission

Co-requisites: None

Introduces the basic concepts, theories, and safety regulations and procedures of refrigeration. Topics include an introduction to OSHA, safety, first aid, laws of thermodynamics, pressure and temperature relationships, heat transfer, the refrigerant cycle, refrigerant identification, and types of AC systems.

AIRC 1010 - Refrigeration Principles and Practices (4)

(Replaces ACT 101)

Pre-requisites: AIRC 1005

Co-requisites: None

This course introduces the student to basic refrigeration system principles and practices, and the major component parts of the refrigeration system. Topics include refrigeration tools, piping practices, service valves, leak testing, refrigerant recovery, recycling, and reclamation, evacuation, charging, and safety.

AIRC 1020 - Refrigeration Systems Components (4)

(Replaces ACT 102)

Pre-requisites: AIRC 1005

Co-requisites: None

This course provides the student with the skills and knowledge and skills to install, test, and service major components of a refrigeration system. Topics include compressors, condensers, evaporators, metering devices, service procedures, refrigeration systems and safety.

AIRC 1030 - HVACR Electrical Fundamentals (4)

(Replaces ACT 103)

Pre-requisites: Provisional Admission

Co-requisites: None

This course provides an introduction to fundamental electrical concepts and theories as applied to the air conditioning industry. Topics include AC and DC theory, electric meters, electrical diagrams, distribution systems, electrical panels, voltage circuits, code requirements, and safety.

AIRC 1040 - HVACR Electrical Motors (4)

(Replaces ACT 104)

Pre-requisites: AIRC 1030

Co-requisites: None

This course provides the student with the skills and knowledge necessary for application and service of electric motors commonly used by the refrigeration and air conditioning industry. Topics include diagnostic techniques, capacitors, installation procedures, types of electric motors, electric motor service, and safety.

AIRC 1050 - HVACR Electrical Components and Controls (4)

(Replaces ACT 105 and ACT 106)

Pre-requisites: None

Co-requisites: AIRC 1030

Provides instruction in identifying, installing, and testing commonly used electrical components in an air conditioning system. Topics include: pressure switches, transformers, other commonly used controls, diagnostic techniques, installation procedures, solid state controls, and safety.

AIRC 1060 - Air Conditioning Systems Application and Installation (4)

(Replaces ACT 107 and ACT 108)

Pre-requisites: None

Co-requisites: AIRC 1010, AIRC 1030

Provides instruction on the installation and service of residential air conditioning systems. Topics include: installation procedures, split systems, add-on systems, packaged systems, system wiring, control circuits, and safety.

AIRC 1070 - Gas Heat (4)

(Replaces ACT 110)

Pre-requisites: AIRC 1030

Co-requisites: None

This course introduces principles of combustion and service requirements for gas heating systems. Topics include servicing procedures, electrical controls, piping, gas valves, venting, code requirements, principles of combustion, and safety.

AIRC 1080 - Heat Pumps and Related Systems (4)

(Replaces ACT 111)

Pre-requisites: AIRC 1010, AIRC 1030

Co-requisites: None

This course provides instruction on the principles, applications, and operation of a residential heat pump system. Topics include installation and servicing procedures, electrical components, geothermal ground source energy supplies, dual fuel, valves, and troubleshooting techniques.

AIRC 1090 - Troubleshooting Air Conditioning Systems (4)

(Replaces ACT 109)

Pre-requisites: AIRC 1010, AIRC 1030

Co-requisites: None

This course provides instruction on the troubleshooting and repair of major components of a residential air conditioning system. Topics include troubleshooting

techniques, electrical controls, air flow, the refrigeration cycle, electrical servicing procedures, and safety.

AIRC 2005 - Design and Application of Light Commercial Air Conditioning (3)

(Replaces ACT 200)

Pre-requisites: AIRC 1090

Co-requisites: None

Continues in-depth instruction on components and functions of air conditioning systems with emphasis on design and application of light commercial air conditioning systems. Topics include: refrigeration piping, hydronic piping, pump sizing, commercial load design, air flow, codes, and safety.

AIRC 2010 - Light Commercial Air Conditioning Control Systems (3)

(Replaces ACT 201)

Pre-requisites: AIRC 1090

Co-requisites: AIRC 1090

Emphasizes the study of complex control systems on light commercial air conditioning systems. Topics include: pneumatic controls, electronic controls, electrical controls, mechanical controls, and safety.

AIRC 2020 - Light Commercial Air Conditioning Systems Operation (5)

(Replaces ACT 202)

Pre-requisites: AIRC 1090

Co-requisites: AIRC 1090

Provides in-depth study of the operation of light commercial air conditioning systems. Topics include: boiler operations, refrigeration components, energy management, codes, and safety.

AIRC 2040 - Residential Systems Designs (5)

(Replaces ACT 204)

Pre-requisites: AIRC 1090

Co-requisites: AIRC 1090

Presents advanced refrigeration and electrical skills and theories. Topics include: heat gain and heat loss, duct design, zone control, equipment selection, and safety.

AIRC 2050 - Georgia State and Local Residential Air Conditioning Codes (3)

(Replaces ACT 205)

Pre-requisites: AIRC 1090

Co-requisites: AIRC 1090

Presents advanced level residential air conditioning code concepts and theories. Topics include: local residential air conditioning codes, state residential air conditioning codes, gas piping, refrigeration piping, and safety.

AIRC 2060 - Air Distribution Systems for Residential Air Conditioning (3)

(Replaces ACT 206)

Pre-requisites: AIRC 1090

Co-requisites: AIRC 1090

Continues development of air systems concepts, theories, and skills. Emphasis will be placed on test and balance techniques and fan laws. Topics include: test and balance techniques, fan laws, and safety.

AIRC 2070 - Commercial Refrigeration Design (3)

(Replaces ACT 208)

Pre-requisites: AIRC 1090

Co-requisites: AIRC 1090

Provides an increased level of concepts and theory beyond ACT 102. Students are introduced to more design theory in commercial refrigeration. Topics include: refrigeration heat calculation, equipment selection, refrigeration piping, codes, and safety.

AIRC 2080 - Commercial Refrigeration Application (5)

(Replaces ACT 209)

Pre-requisites: AIRC 1090

Co-requisites: AIRC 1090

Introduces the application of fundamental theories and concepts of refrigeration. Emphasis will be placed on equipment application and installation procedures. Topics include: equipment application, installation procedures, cycle controls, energy management, and safety.

AIRC 2090 - Troubleshooting and Servicing Commercial Refrigeration (3)

(Replaces ACT 210)

Pre-requisites: AIRC 1090

Co-requisites: AIRC 1090

Continues to provide experience in maintenance techniques in servicing light commercial refrigeration systems. Topics include: system clearing, troubleshooting procedures, replacement of components, and safety.

ALHS 1011 - Structure and Function of the Human Body (5)

(Replaces AHS 1011 or AHS 101)

Pre-requisites: Program Admission

Co-requisites: None

Focuses on basic normal structure and function of the human body. Topics include general plan and function of the human body, integumentary system, skeletal system, muscular system, nervous and sensory systems, endocrine system, cardiovascular system, lymphatic system, respiratory system, digestive system, urinary system, and reproductive system.

ALHS 1040 - Introduction to Health Care (3)

(Replaces AHS 104)

Pre-requisites: Provisional Admission

Co-requisites: None

Introduces a grouping of fundamental principles, practices, and issues common in the health care profession. In addition to the essential skills, students explore various delivery systems and related issues. Topics include: basic life support/CPR, basic emergency care/first aid and triage, vital signs, infection control/blood and air-borne pathogens.

ALHS 1060 - Diet and Nutrition for Allied Health Sciences (2)

(Replaces AHS 106)

Pre-requisites: Program Admission

Co-requisites: None

A study of the nutritional needs of the individual. Topics include: nutrients, standard and modified diets, nutrition throughout the lifespan, and client education.

ALHS 1090 - Medical Terminology for Allied Health Sciences (2)

(Replaces AHS 109)

Pre-requisites: Provisional Admission

Co-requisites: None

Introduces the elements of medical terminology. Emphasis is placed on building familiarity with medical words through knowledge of roots, prefixes, and suffixes. Topics include: origins (roots, prefixes, and suffixes), word building, abbreviations and symbols, and terminology related to the human anatomy.

AMCA 2010 - Advanced Milling I (4)

Pre-requisites: MCHT 1120, MCHT 1220

Co-requisites: None

Provides instruction in advanced techniques of milling machine operations. Emphasis is placed on skill development through laboratory practice. Topics include: vertical milling, horizontal milling, compound angles, gear cutting, and safety.

AMCA 2030 - Advanced Milling II (4)

Pre-requisites: AMCA 2010

Co-requisites: None

Provides instruction in advanced techniques of milling machine operations and is a continuation of Advanced Milling I. Emphasis is placed on skill development through laboratory practice. Topics include: indexing; rotary table; boring, facing, and turning; straddle milling, and safety.

AMCA 2050 - Advanced Lathe Operations I (4)

Pre-requisites: MCHT 1119, MCHT 1219

Co-requisites: None

Provides instruction in advanced lathe operations and procedures. Emphasis is placed on skill development through laboratory experiences. Topics include: eccentric turning, special setups, tolerance turning, and safety.

AMCA 2070 - Advanced Lathe Operations II (4)

Pre-requisites: AMCA 2050

Co-requisites: None

Provides instruction in advanced lathe operations and procedures and is a continuation of Advanced Lathe Operations I. Emphasis is placed on skill development through laboratory experiences. Topics include: eccentric turning, special setups, tolerance turning, and safety.

AMCA 2080 - Advanced Grinding I (2)

Pre-requisites: MCHT 1015

Co-requisites: None

Provides instruction in advanced grinding operations and procedures. Emphasis is placed on skill development through laboratory experiences. Topics include: surface grinding, cylindrical grinding, tool and cutter grinding, grinding theory, and safety.

AMCA 2090 - Advanced Grinding Operations II (2)

Pre-requisites: AMCA 2080

Co-requisites: None

Provides instruction in advanced grinding operations and procedures, and is a continuation of Advanced Grinding Operations I. Emphasis is placed on skill development through laboratory experiences. Topics include: surface grinding, cylindrical grinding, tool and cutter grinding, grinding theory, and safety.

AMCA 2110 - CNC Fundamentals (3)

(Replaces MCA 211)

Pre-requisites: Provisional Admission, MCHT 1011, MCHT 1012, MCHT 1013

Co-requisites: None

Provides a comprehensive introduction to computer numerical controlled (CNC) machining processes. Topics include: safety, Computer Numerical Control of machinery, setup and operation of CNC machinery, introduction to programming of CNC machinery, introduction to CAD/CAM.

AMCA 2130 - CNC Mill Manual Programming (5)

(Replaces MCA 213)

Pre-requisites: None

Co-requisites: AMCA 2110

Provides instruction for the safe operation and manual programming of computer numerical controlled (CNC) milling machines. Topics include: safety, calculation for programming, program codes and structure, program run and editing of programs.

AMCA 2150 - CNC Lathe Manual Programming (5)

(Replaces MCA 215)

Pre-requisites: None

Co-requisites: AMCA 2110

Provides instruction for the safe operation and manual programming of computer numerical controlled (CNC) Lathes. Topics include: safety, calculations for programming, program codes and structure, program run and editing of programs.

AMCA 2170 - CNC Practical Applications (3)

(Replaces MCA 217)

Pre-requisites: AMCA 2110, AMCA 2130, AMCA 2150

Co-requisites: None

Provides additional instruction in part holding and fixture design. Students will also gain additional experience in print-to-part development of CNC programming. Topics include: safety, fixture design and manufacturing, and CNC part manufacturing.

AMCA 2190 - CAD/CAM Programming (4)

(Replaces MCA 219)

Pre-requisites: None

Co-requisites: AMCA 2110

Emphasizes the development of skills in computer aided design (CAD) and computer aided manufacturing (CAM). The student will design and program parts to be machined on computer numerical controlled machines. Topics include: hardware and software, drawing manipulations, tool path generation, program posting, and program downloading.

ARTS 1101 - Art Appreciation (3)

Pre-requisites: Appropriate Degree Level Writing (English) and Reading Placement Test Scores.

Co-requisites: None

Explores the visual arts and the relationship to human needs and aspirations. Students investigate the value of art, themes in art, the elements and principles of composition, and the materials and processes used for artistic expression. Well-known works of visual art are explored. The course encourages student interest in the visual arts beyond the classroom.

ASTT 1010 - Basic Blueprint Reading (4)

(Replaces AST 101)

Pre-requisites: Provisional Admission

Co-requisites: None

This course introduces basic blueprint reading. Emphasis will be placed on reading and interpreting blueprints found in a manufacturing environment. Topics include: lines and symbols, orthographic drawings, views, material, form and position, title blocks, sketching, features, and sections.

ASTT 1020 - Aircraft Blueprint Reading (3)

(Replaces AST 102)

Pre-requisites: ASTT 1010

Co-requisites: None

This course introduces aerospace specific blueprint information which builds on a basic knowledge of blueprint terminology and symbols. Topics include: dimensioning standards and practices, blueprint components, interpretation of reference planes and coordinate systems, engineering numbering and revision system, body/field of the drawing, detail drawings, configured/method/undimensioned drawings.

ASTT 1030 - Structural Fundamentals (6)

(Replaces AST 103)

Pre-requisites: Provisional Admission

Co-requisites: ASTT 1010

Introduces the fundamental concepts required in aerospace structural manufacturing and repair. Emphasis is placed on safety, quality, and precision. Topics include: safety, flat pattern layout, quality standards, fasteners, hand tools, and precision measuring instruments.

ASTT 1040 - Structural Layout and Fabrication (5)

(Replaces AST 104)

Pre-requisites: ASTT 1010, ASTT 1030

Co-requisites: ASTT 1020, MATH 1012

Continues the development of knowledge and skills required to perform basic aerospace layout and fabrication. Emphasizes the safe use of stationary equipment. Topics include: machine safety, stationary equipment, bend allowance, fasteners layout, parts fabrication, special fasteners, and geometric functions.

ASTT 1050 - Aerospace Quality Management (3)

(Replaces AST 105)

Pre-requisites: Program Admission

Co-requisites: None

Introduces the student to the concept of Aerospace Quality Management Systems used in the American workplace. Topics include: History of quality management, principles of quality, tools used in quality systems, quality team building.

ASTT 1070 - Aerodynamics (2)

(Replaces AST 107)

Pre-requisites: Provisional Admission

Co-requisites: None

This course presents the theory of flight and aircraft design as it applies to the manufacturing and repair processes. Topics include: terminology, theory of flight, structural design, control surfaces, and stress and fatigue.

ASTT 1090 - Composites and Bonded Structures (4)

(Replaces AST 109)

Pre-requisites: ASTT 1040

Co-requisites: None

Emphasizes the development of knowledge and skills necessary to fabricate and repair bonded and composite aircraft parts. Topics include: safety, terms, classification and characteristics, inspection techniques, and application.

ASTT 1100 - Sealants (2)

(Replaces AST 110)

Pre-requisites: Provisional Admission

Co-requisites: ASTT 1030

Provides instruction in the surface preparation, application, and safe handling of sealants used in the aerospace structures repair and manufacturing industry. Topics

include: safety; surface preparation; sealants application; sealants shelf life; sealants cure times; and sealants removal.

ASTT 1110 - Corrosion Control (5)

(Replaces AST 110)

Pre-requisites: ASTT 1040

Co-requisites: None

Emphasizes the development of knowledge and skills necessary to assess damage due to corrosion and take corrective action. Topics include: safety; corrosion theory; corrosion types; corrosion removal, repair, and treatment; and corrosion prevention.

ASTT 1120 - Aircraft Metallurgy (4)

(Replaces AST 112)

Pre-requisites: ASTT 1040, MATH 1012

Co-requisites: None

Introduces the types of metals used in aircraft construction and provides a study of their properties and working characteristics. Topics include: safety, types of metals, properties of metals, methods of identification, heat treatment, temper designations, and working characteristics.

ASTT 1180 - Aircraft Technical Publications (3)

(Replaces AST 118)

Pre-requisites: ASTT 1020

Co-requisites: ENGL 1010

Continues the study of aircraft technical publications found in the manufacturing and repair process. Research skills necessary to locate information in technical publications will be emphasized. Topics include: document control numbers; technical publications; instructional repair manuals; aircraft transport association (ATA) codes; technical orders; tech order system, general; tech order, aircraft specific; and industry specific manuals.

ASTT 2010 - Metal Working Tools (4)

(Replaces ASM 301)

Pre-requisites: None

Co-requisites: None

This course continues the development of knowledge and skills required to use tools and equipment found in the Aircraft Maintenance and Repair Industry. Topics include: safety, measuring tools, cutting, tools and equipment, forming tool and equipment and tool and equipment maintenance.

ASTT 2020 - Aircraft Hardware (4)

(Replaces ASM 302)

Pre-requisites: None

Co-requisites: None

This course continues the development of knowledge and skills required to identify, install and replace fasteners used in the Aircraft Maintenance and Repair Industry. Topics include: safety, aircraft rivets, mechanical fasteners and aircraft hardware.

ASTT 2030 - Fabrication and Repair of Structural Parts (4)

(Replaces ASM 303)

Pre-requisites: None

Co-requisites: None

This course continues the development of knowledge and skills required in fabrication, assembly, and repair of the aircraft or aircraft parts. Topics include: safety, repair planning, parts duplication, removal and replacement.

ASTT 2040 - Internship (8)

(Replaces ASM 400)

Pre-requisites: None

Co-requisites: None

This course provides students with occupational-based instruction that applies learned skills to actual work experiences. Topics include: perform riveting repair on aircrafts, cutting, bending, shaping and forming sheet metal, identify, inspect, remove and treat corrosion of aircraft, use blueprints to find dimensions, parts, tolerances and fasteners, communicate effectively. The Aircraft Structural Maintenance Internship is implemented through student internship is an approved occupational setting or through student work in an occupational setting.

AUTT 1010 - Automotive Technology Introduction (2)

(Replaces AUT 120 or AUT 156)

Pre-requisites: Provisional Admission

Co-requisites: None

Introduces basic concepts and practices necessary for safe and effective automotive shop operations. Topics include: safety procedures; legal/ethical responsibilities; general service; hand tools; shop organization, management, and work flow systems.

AUTT 1020 - Automotive Electrical Systems (7)

(Replaces AUT 122 and AUT 124)

Pre-requisites: None

Co-requisites: AUTT 1010

Introduces automotive electricity, emphasizes the basic principles, diagnosis, and service/repair of batteries, starting systems, starting system components, alternators and regulators, lighting system, gauges, horn, wiper/washer, and accessories.

AUTT 1030 - Automotive Brake Systems (4)

(Replaces AUT 130 and AUT 214)

Pre-requisites: None

Co-requisites: AUTT 1010

Introduces brake systems theory and its application to automotive systems and anti-lock brake system (ABS) to include ABS components and ABS operation, testing, and diagnosis. Topics include: hydraulic system diagnosis and repair; drum brake diagnosis and repair; disc brake diagnosis and repair; power assist units diagnosis and repair; miscellaneous brake components (wheel bearings, parking brakes, electrical, etc.) diagnosis and repair; test, diagnose, and service electronic brake control system.

AUTT 1040 - Automotive Engine Performance (7)

(Replaces AUT 128, AUT 140, and AUT 218)

Pre-requisites: AUTT 1020

Co-requisites: None

Introduces basic engine performance systems which support and control four stroke gasoline engine operations and reduce emissions. Topics include: general engine diagnosis, computerized engine controls and diagnosis, ignition system diagnosis and repair, fuel and air induction, exhaust systems, emission control systems diagnosis and repair, and other related engine service.

AUTT 1050 - Automotive Suspension and Steering Systems (4)

(Replaces AUT 132 and AUT 216)

Pre-requisites: None

Co-requisites: AUTT 1010

Introduces students to principles of steering, suspension, wheel alignment, electronic steering, and electronic active suspension. Topics include: general suspension and steering systems diagnosis; steering systems diagnosis and repair; suspension systems diagnosis and repair; related suspension and steering service; wheel alignment diagnosis, adjustment and repair, wheel and tire diagnosis and repair.

AUTT 1060 - Automotive Climate Control Systems (5)

(Replaces AUT 142)

Pre-requisites: AUTT 1020

Co-requisites: None

Introduces the theory and operation of automotive heating and air conditioning systems. Students attain proficiency in inspection, testing, service, and repair of heating and air conditioning systems and related components. Topics include: a/c system diagnosis and repair; refrigeration system component diagnosis and repair; heating, ventilation, and engine cooling systems diagnosis and repair; operating systems and related controls diagnosis and repair; refrigerant recovery, recycling, and handling.

AUTT 1070 - Automotive Technology Internship (4)

(Replaces AUT 220)

Pre-requisites: AUTT 1010, AUTT 1020, AUTT 1030

Co-requisites: None

This elective course will provide the student with an opportunity to relate what they have learned in the classroom and lab to a real world situation either at a place of business or at a technical college. Under the supervision of an experienced ASE certified automotive technician or their instructor, the student will obtain a greater admiration and appreciation of the material learned in the classroom and lab. The internship will also serve the function of bridging the lessons learned at school and applying that to real world situations. The suitability of the work setting will be determined by having a conference with the automotive instructor and the prospective employer. The student will have the option to take the internship program at an approved place of employment or at the college if he or she wishes and perform all the live work duties of the service writer, parts department personnel, and technician to include writing the repair order, ordering parts (if applicable)

and repairing the vehicle. Student must work a minimum of 150 hours during the semester to receive credit for this course.

AUTT 2010 - Automotive Engine Repair (6)

(Replaces AUT 126)

Pre-requisites: None

Co-requisites: AUTT 1010

This course introduces the student to automotive engine theory and repair, placing emphasis on inspection, testing, and diagnostic techniques for both 2 cycle and 4 cycle internal combustion engines. Topics include general engine diagnosis; removal and reinstallation; cylinder heads and valve trains diagnosis and repair; engine blocks assembly diagnosis and repair; lubrication and cooling systems diagnosis and repair.

AUTT 2020 - Automotive Manual Drive Train and Axles (4)

(Replaces AUT 134 and AUT 138)

Pre-requisites: None

Co-requisites: AUTT 1010

This course introduces basics of rear-wheel drive, front-wheel drive, and four-wheel drive drive line related operation, diagnosis, service and related electronic controls. Topics include: drive shaft and half shaft, universal and constant-velocity (CV) joint diagnosis and repair; ring and pinion gears and differential case assembly; limited slip differential; drive axle shaft; four-wheel drive/all-wheel drive component diagnosis and repair. Introduces basics of front and rear-wheel drive. Clutch operation, diagnosis and service is included. Electronic controls related to transmission/transaxles operation are discussed. Topics include: clutch diagnosis and repair; transmission/transaxles diagnosis and repair.

AUTT 2030 - Automotive Automatic Transmissions and Transaxles (5)

(Replaces AUT 144, AUT 210, and AUT 212)

Pre-requisites: AUTT 1020

Co-requisites: None

Introduces students to basic automatic transmission/transaxle theory, operation, inspection, service, and repair procedures as well as electronic diagnosis and repair. Topics include: general automatic transmission and transaxle diagnosis; in vehicle and off vehicle transmission and transaxle maintenance, adjustment and repair.

AVIO 1010 - Basic Electronics (4)

(Replaces AVT 101)

Pre-requisites: Program Admission

Co-requisites: None

Provides a review of the basic theory and application of electronics with a primary focus on use in avionic systems. Topics include: atomic theory, DC circuits, AC circuits, alternating current, inductance and transformers, capacitance, resonance and filters, vacuum tubes, and solid state devices.

AVIO 1020 - Avionics Maintenance Practices (3)

(Replaces AVT 102)

Pre-requisites: None

Co-requisites: AVIO 1010

Provides practical experience in maintaining avionics systems. Topics include: solder/solderless connecting, use of test instruments, component installation/removal techniques, repair procedures, and troubleshooting techniques.

AVIO 1030 - Advanced Electronics (4)

(Replaces AVT 103)

Pre-requisites: AVIO 1010

Co-requisites: None

Introduces the theory and application of radio frequency transmission and reception. Topics include: power supplies, oscillators, amplifiers, transmitters, amplitude modulation, AM receivers, frequency modulation, and antenna systems.

AVIO 1040 - Digital Electronics (4)

(Replaces AVT 104)

Pre-requisites: AVIO 1010

Co-requisites: None

Introduces the theory and application of digital electronics with a primary focus on their use in avionic systems. Topics include: numbering system, logic gates, Boolean algebra, flip-flops, and registers and counters.

AVIO 1060 - Aircraft Logic Systems (4)

(Replaces AVT 106)

Pre-requisites: None

Co-requisites: AVIO 1040

Focuses on microprocessor based computers used in avionics systems. Topics include: memory, mass storage, computer systems, data bases, and logic systems repair procedures.

AVIO 1070 - Aircraft Communication Systems (5)

(Replaces AVT 107)

Pre-requisites: None

Co-requisites: AVIO 1040

Continues the study of avionics maintenance practices with emphasis on aircraft communication systems. Topics include: component operation, component location, integration, analysis, maintenance, and ACARS.

AVIO 1080 - Navigation Systems (5)

(Replaces AVT 108)

Pre-requisites: AVIO 1040

Co-requisites: AVIO 1070

Continues the study of avionics maintenance practices with emphasis on aircraft navigational systems. Topics include: bridges and monitors, synchros, gyros, and navigation systems.

AVIO 1090 - Flight Director and Autopilot Systems (4)

(Replaces AVT 109)

Pre-requisites: None

Co-requisites: AVIO 1080

Continues the study of avionics maintenance practices with emphasis on flight director and autopilot systems. Topics include: flight director systems, autopilot systems, and avionics line maintenance test equipment.

AVMT 1000 - Aviation Mathematics (2)

(Replaces AMT 100)

Pre-requisites: Program Admission

Co-requisites: None

Aviation Mathematics provides students with the knowledge necessary to use and apply mathematical procedures and processes that are applicable to aviation maintenance functions. Topics include: perform algebraic operations; extract roots and raise numbers to a given power; determine area and volume of geometrical shapes; and solve ratio, proportion, and percentage problems.

AVMT 1010 - Aircraft Maintenance Regulations (2)

(Replaces AMT 101)

Pre-requisites: Program Admission

Co-requisites: None

This course provides students with the knowledge and skills necessary to select and use FAA and manufacturers' specifications, data sheets, manuals, related regulations, and technical data; to write descriptions of aircraft conditions, record work performed, and complete maintenance forms and inspection reports; and to interpret federal regulations regarding mechanic privileges and limitations. Topics include: maintenance publications, maintenance forms and records, and mechanic privileges and limitations.

AVMT 1020 - Aircraft Applied Sciences I (5)

(Replaces a portion of AMT 102—see AVMT 1025)

Pre-requisites: Program Admission

Co-requisites: None

Provides students with the fundamentals of aircraft materials and processes, ground operations and servicing, and aircraft cleaning and corrosion control.

AVMT 1025 - Aircraft Applied Sciences II (4)

(Replaces a portion of AMT 203—see AVMT 1020)

Pre-requisites: Program Admission

Co-requisites: None

Provides students with the fundamentals of aircraft drawings, weight and balance, and fluid lines and fittings.

AVMT 1030 - Aircraft Electricity and Electronics (5)

(Replaces AMT 103)

Pre-requisites: None

Co-requisites: AVMT 1000

Basic Electricity and Electronics provides a study of the relationships of voltage, current, and resistance in aircraft electrical systems, and the use of meters. Alternators; generators; starters; motors; charging systems; basic AC and DC systems; and semiconductor, solid state, and integrated circuit fundamentals are introduced. Topics include: basic electricity; determine the relationship of voltage, current, and resistance in electrical circuits; read and interpret electrical circuit diagrams; measure voltage, current, resistance, and continuity; calculate and measure electrical power; calculate and measure capacitance and inductance; inspect and service batteries; and solid state devices applications.

AVMT 1210 - Aviation Physics (2)

(Replaces AMT 121)

Pre-requisites: None

Co-requisites: AVMT 1000

Provides students with an introduction to the theory and application of physics to aerospace vehicles and their subsystems. Topics include: temperature and heat; pressure, temperature, and volume of air mass; basic aerodynamics and theory of flight; physical factors affecting engine output; relationship of pressure, area, and force; origin of sound; principles of simple machines; and centrifugal and centripetal force.

AVMT 2010 - Aircraft Airframe Structures (2)

(Replaces AMT 201)

Pre-requisites: Program Admission

Co-requisites: None

This course presents a survey of aircraft airframe structures used in aircraft. Topics include: wood structures, aircraft covering, and aircraft finishes.

AVMT 2020 - Airframe Sheet Metal (2)

(Replaces AMT 202)

Pre-requisites: Program Admission

Co-requisites: None

Provides a study of metal and non-metallic tube and riveted sheet monocoque or semi-monocoque. Topics include: sheet metal structures introduction; install conventional rivets; install special rivets and fasteners; sheet metal form, lay out, and bend; inspect and repair sheet metal structures; identify non-metallic structures; inspect bonded structures; fiberglass structures; plastic structures; composite and honeycomb structures; inspect, check, service, and repair windows, doors, and interior furnishings; and laminated structures.

AVMT 2025 - Airframe Non-Metallic Structures (2)

Pre-requisites: Program Admission

Co-requisites: None

Provides a study of non-metallic tube and riveted sheet monocoque or semi monocoque. Topics include: identify non-metallic structures; inspect bonded

structures; fiberglass structures; plastic structures; composite and honeycomb structures; inspect, check, service and repair windows, doors, and interior furnishings; and laminated structures.

AVMT 2030 - Airframe Welding (1)

(Replaces AMT 203)

Pre-requisites: Program Admission

Co-requisites: None

Provides a study of airframe non-metallic structures and allied maintenance procedures. Topics include: welding principles; soldering, brazing, gas-welding, and arc-welding steel; welding aluminum and stainless steel; fabricating tubular structures; soldering stainless steel; and welding titanium and magnesium.

AVMT 2040 - Airframe Assembly and Rigging (2)

(Replaces AMT 204)

Pre-requisites: Program Admission

Co-requisites: None

This course provides a study of aircraft assembly and rigging configurations. Topics include: use assembly and rigging hand tools and equipment; rig fixed wing aircraft; rig rotary wing aircraft; check alignment of structures; assemble aircraft components, including flight control surfaces; balance, rig, and inspect movable primary and secondary control surfaces; and jack aircraft.

AVMT 2050 - Airframe Inspection (4)

(Replaces AMT 205)

Pre-requisites: None

Co-requisites: AVMT 1010, AVMT 1025, AVMT 2010

This course provides instruction for performing airframe inspections with emphasis on developing the skills related to conformity and air worthiness evaluations. Topics include: perform airframe conformity inspection, and perform airframe air worthiness inspection.

AVMT 2060 - Aircraft Hydraulic and Pneumatic Systems (2)

(Replaces AMT 206)

Pre-requisites: Program Admission

Co-requisites: None

This course provides a study of the principles of generation, distribution, and management of hydraulic and pneumatic power throughout the aircraft. Topics include: identify hydraulic fluids; repair hydraulic and pneumatic power system components; inspect, check, service, troubleshoot, and repair hydraulic and pneumatic power systems; hydraulic and pneumatic position and warning systems; and inspect, check, troubleshoot, service, and repair aircraft position and warning systems.

AVMT 2070 - Aircraft Landing Gear Systems (3)

(Replaces AMT 207)

Pre-requisites: Program Admission

Co-requisites: None

This course provides a study of aircraft landing gear systems with emphasis on inspection and maintenance procedures of hydraulic and pneumatic power throughout the aircraft structure. Topics include: inspect, check, service, and repair landing gear retraction systems and shock struts; inspect, check, service, and repair brakes, wheels, and tires; and inspect, check, service, and repair steering systems.

AVMT 2080 - Aircraft Environmental Control Systems (3)

(Replaces a portion of AMT 208—see AVMT 2085)

Pre-requisites: Program Admission

Co-requisites: None

This course provides a study of aircraft environmental control systems. Topics include: inspect, check, troubleshoot, service, and repair cabin atmosphere control systems; inspect, check, troubleshoot, service, and repair ice and rain control systems; and inspect, check, troubleshoot, service, and repair fire protection systems.

AVMT 2085 - Aircraft Fuel and Instrument Systems (3)

(Replaces a portion of AMT 208—see AVMT 2080)

Pre-requisites: Program Admission

Co-requisites: None

This course provides a study of airframe fuel and instrument systems. Topics include: inspect, check, troubleshoot, service and repair aircraft fuel systems; and inspect, check, troubleshoot, service and repair aircraft instrument systems.

AVMT 2090 - Aircraft Electrical Systems (4)

(Replaces a portion of AMT 209—see AVMT 2095)

Pre-requisites: None

Co-requisites: AVMT 1030

This course provides a study of aircraft electrical systems. Topics include: install, check, and service airframe electrical wiring, controls, switches, indicators, and protective devices; inspect, check, troubleshoot, service, and repair alternating and direct current electrical systems; repair and inspect aircraft electrical system components, crimp and splice wiring to manufacturer's specifications, and repair pins and sockets of aircraft connectors; and inspect, check, and troubleshoot constant speed and integrated speed drive generators.

AVMT 2095 - Aircraft Communication and Navigation Systems (2)

(Replaces a portion of AMT 209—see AVMT 2090)

Pre-requisites: None

Co-requisites: AVMT 1030

This course provides a study of aircraft communication and navigation systems. Topics include: inspect, check, and troubleshoot autopilot servos and approach coupling systems; inspect, check, and service aircraft electronic communication and navigation systems including VHF passenger address interphones and static discharge devices, aircraft VOR, ILS LORAN, radar beacon transponders, flight

management computers, and GPWS; and inspect and repair antenna and electronic equipment installations.

AVMT 2210 - Reciprocating Engine Powerplants I (3)

(Replaces AMT 221)

Pre-requisites: Program Admission

Co-requisites: None

This course provides a study of piston engine theory and maintenance including air and water cooled aircraft engines. Topics include: aircraft reciprocating engine theory, and inspect and repair radial engines.

AVMT 2220 - Reciprocating Engine Powerplants II (5)

(Replaces AMT 222)

Pre-requisites: None

Co-requisites: AVMT 2210

This course continues a study of piston engine theory and maintenance including air and water cooled aircraft engines. Topics include: overhaul a reciprocating engine; inspect, check, service, and repair reciprocating engines and engine installations; and install, troubleshoot, and remove reciprocating engines.

AVMT 2230 - Gas Turbine Powerplants I (3)

(Replaces AMT 223)

Pre-requisites: Program Admission

Co-requisites: None

This course provides a study of the fundamentals and evolution of the jet engine and jet propulsion. Topics include: aircraft gas turbine engine theory, and inspect and troubleshoot unducted fan systems and components.

AVMT 2240 - Gas Turbine Powerplants II (3)

(Replaces AMT 224)

Pre-requisites: None

Co-requisites: AVMT 2230

This course continues a study of the fundamentals and evolution of the jet engine and jet propulsion. Topics include: overhaul a turbine engine; install, troubleshoot, and remove turbine engines; and inspect, check, service, and repair turbine engines and turbine engine installations.

AVMT 2260 - Aircraft Engine Fuel and Fuel Metering Systems (4)

(Replaces AMT 226)

Pre-requisites: Program Admission

Co-requisites: None

This course provides a study of aircraft engine fuel and fuel metering systems. Topics include: repair engine fuel system components; inspect, check, service, troubleshoot, and repair engine fuel systems; troubleshoot and adjust turbine engine fuel metering systems and electronic engine fuel controls; inspect check, service, troubleshoot, and repair reciprocating and turbine engine fuel metering systems; overhaul carburetors;

repair engine fuel metering system components; and inspect, check, and service water injection systems.

AVMT 2270 - Powerplant Instruments, Fire Protection & Electrical Systems (3)

(Replaces a portion of AMT 227—see AVMT 2275)

Pre-requisites: AVMT 1030

Co-requisites: None

This course provides a study of powerplant instruments, fire protection and electrical systems. Topics include: troubleshoot, service, and repair electrical and mechanical fluid rate-of-flow indicating systems; inspect, check, service, troubleshoot, and repair electrical and mechanical engine temperature, pressure, and r.p.m. indicating systems; inspect, check, service, troubleshoot, and repair engine fire detection and extinguishing systems; install, check, and service engine electrical wiring, controls, switches, indicators, and protective devices; and repair engine electrical system components.

AVMT 2275 - Powerplant Ignition and Starting Systems (4)

(Replaces a portion of AMT 227—see AVMT 2270)

Pre-requisites: AVMT 1030

Co-requisites: None

This course provides a study of powerplant ignition and starting systems. Topics include: overhaul magneto and ignition harness; inspect, service, troubleshoot, and repair reciprocating and turbine engine ignition systems and components; inspect, service, troubleshoot, and repair turbine electrical starting systems; and inspect, service, and troubleshoot turbine engine pneumatic starting systems.

AVMT 2280 - Aircraft Powerplant Accessory Systems (3)

(Replaces a portion of AMT 228—see AVMT 2285)

Pre-requisites: AVMT 2210, AVMT 2230

Co-requisites: None

This course provides a study of aircraft powerplant accessory systems. Topics include: inspect and maintain aircraft engine lubrication systems; inspect and maintain aircraft engine induction systems; inspect and maintain aircraft engine cooling systems; and inspect and maintain aircraft engine exhaust systems.

AVMT 2285 - Aircraft Propeller Systems (3)

(Replaces a portion of AMT 228—see AVMT 2280)

Pre-requisites: AVMT 2210

Co-requisites: None

This course provides a study of aircraft propeller systems. Topics include: propeller theory and fundamentals; inspect and maintain propellers; and install, troubleshoot, and remove propellers.

BARB 1000 - Introduction to Barber/Styling Implements (3)

(Replaces BAR 100 and BAR 101)

Pre-requisites: Provisional Admission

Co-requisites: None

Introduction to Barber/Styling Implements is designed to give an overview of the barbering profession. Students are also taught the fundamentals of each barber/

styling implement. Emphasis will be placed on the maintenance and care of each implement. Topics include: Barbering history, personality development, professional barbering ethics, and professional barbering image, safety, and reception and telephone techniques, nomenclature, types and sizes, proper use and care, and maintenance.

BARB 1010 - Science: Sterilization, Sanitation, and Bacteriology (3)

(Replaces BAR 102)

Pre-requisites: BARB 1000, ENGL 1010

Co-requisites: BARB 1000, ENGL 1010

Introduces fundamental theories and practices of bacteriology, sterilization, sanitation, safety, and the welfare of the barber/stylist and patron. Topics include: sterilization, sanitation, safety, bacteriology, and Hazardous Duty Standards Act compliance.

BARB 1020 - Introduction to Haircutting and Shampooing (5)

(Replaces BAR 103 and BAR 104)

Pre-requisites: BARB 1000, BARB 1010, PSYC 1010

Co-requisites: BARB 1000, BARB 1010, PSYC 1010

Introduces the theory and skills necessary to apply basic haircutting techniques. Safe use of haircutting implements will be stressed. Also introduces the fundamental theory and skills required to shampoo hair. Laboratory training includes shampooing a live model. Topics include: preparation of patron, haircutting terminology, safety and sanitation, implements, and basic haircutting techniques, shampoo chemistry, patron preparation, and shampoo procedures.

BARB 1030 - Haircutting/Basic Styling (3)

(Replaces BAR 105)

Pre-requisites: BARB 1020

Co-requisites: BARB 1020

Continues the theory and application of haircutting techniques and introduces hairstyling. Topics include: introduction to styling, client consultation, head and hair analysis, style cutting techniques, and implements for style cutting and tapering techniques

BARB 1040 - Shaving (2)

(Replaces BAR 106)

Pre-requisites: BARB 1020

Co-requisites: BARB 1020

Introduces the theory and skills necessary to prepare and shave a patron. Simulated shaving procedures will precede practice on live models. Topics include: patron preparation, beard preparation, shaving techniques, once-over shave techniques, and safety precautions.

BARB 1050 - Science: Anatomy and Physiology (3)

(Replaces BAR 107)

Pre-requisites: BARB 1010

Co-requisites: None

Develops knowledge of the function and care of the scalp, skin, and hair. Emphasis is placed on the function, health, and growth of these areas. Topics include: cells, skeletal system, muscular system, nervous system, circulatory system, and related systems.

BARB 1060 - Introduction to Color Theory/Color Application (3)

(Replaces BAR 108 and BAR 118)

Pre-requisites: MATH 1012

Co-requisites: BARB 1050

Introduces the fundamental theory of color, predispositions tests, color selection, and color application. Presents the application of temporary, semi-permanent, and permanent hair coloring products. Topics include: basic color concepts, skin reactions, the color wheel, color selection and application, mustache and beards, coloring products, safety precautions and tests, mixing procedures, color selection and application.

BARB 1070 - Chemical Restructuring of Hair (5)

(Replaces BAR 109 and BAR 112)

Pre-requisites: BARB 1050, MATH 1012

Co-requisites: None

Introduces the chemistry and chemical reactions of permanent wave solutions and relaxers. Provide instructions in the applications of permanent waves and hair relaxers. Precautions and special problems involved in applying permanent waves and relaxers will be emphasized. Application of perms and relaxers on live models is included. Topics include: permanent wave techniques, safety procedures, chemical relaxer techniques, and permanent wave and chemical relaxer, application procedures on manikins, timed permanent wave, timed relaxer applications, safety precautions, and Hazardous Duty Standard Act.

BARB 1080 - Advanced Haircutting/Styling (5)

(Replaces BAR 110 and BAR 116)

Pre-requisites: BARB 1030, BARB 1040, BARB 1070

Co-requisites: None

Continues the theory and application of haircutting and styling techniques. Topics include: elevation and design cutting, introduction to hairpieces, blow-dry styling, and thermal waving and curling, advanced haircutting and styling; use of clippers, shears, and razor; hair chemical texturizing/styling; permanent waving/styling; shaving techniques; and beard trimming.

BARB 1090 - Structures of Skin, Scalp, Hair and Facial Treatments (3)

(Replaces BAR 113 and BAR 114)

Pre-requisites: BARB 1050

Co-requisites: None

Introduces the theory, procedures, and products used in the care and treatment of the skin, scalp, and hair. Provides instruction on the theory and application

of techniques in the treatment of the skin, scalp, and hair; and introduces the theory and skills required in massaging the face, preparing the patron for facial treatment, and giving facial treatments for various skin conditions. Benefits of facial treatments and massage will be emphasized. Emphasis will be placed on work with live models. Topics include: treatment theory, basic corrective hair and scalp treatments, plain facial, products and supplies, disease and disorders, implements, products and supplies, diseases and disorders, corrective hair and scalp treatments, facial procedures and manipulations, and safety precautions, theory of massage, preparation of patron for massage, massage procedures, facial treatment, types of facials, and facial treatment benefits.

BARB 1100 - Barber/Styling Practicum and Internship (3)

(Replaces BAR 120)

Pre-requisites: None

Co-requisites: None

Provides experience necessary for professional development and completion of requirements for state licensure. Emphasis will be placed on the display of professional conduct and positive attitudes. The requirements for this course may be met in a laboratory setting or in a combination of a laboratory setting and an approved internship facility. Topics include: haircutting/styling, hairstyling texturizing, shaving, beard trimming, thermal waving, hairpiece fitting and styling, safety precautions, and licensure preparation.

BARB 1110 - Shop Management/Ownership (3)

(Replaces BAR 121)

Pre-requisites: BARB 1080

Co-requisites: BARB 1080

Emphasizes the steps involved in opening and operating a privately owned cosmetology salon or barber/styling shop. Topics include: planning a salon/shop, business management, retailing, public relations, sales skills, client retention, and entrepreneurship.

BUSN 1100 - Introduction to Keyboarding (3)

(Replaces BUS 1100)

Pre-requisites: None

Co-requisites: None

This course introduces the touch system of keyboarding placing emphasis on correct techniques. Topics include: computer hardware, computer software, file management, learning the alphabetic keyboard, the numeric keyboard and keypad, building speed and accuracy, and proofreading. Students attain a minimum of 25 GWAM (gross words a minute) on 3-minute timings with no more than 3 errors.

BUSN 1190 - Digital Technologies in Business (2)

(Replaces a portion of BUS 1170—see BUSW 2160)

Pre-requisites: COMP 1000

Co-requisites: None

Provides an overview of digital technology used for conducting business. Students will learn the application of business activities using various digital platforms.

BUSN 1200 - Machine Transcription (2)

(Replaces BUS 1200)

Pre-requisites: BUSN 1440, COMP 1000, ENGL 1010

Co-requisites: None

Emphasizes transcribing mailable documents from dictation using word processing software. Topics include: equipment and supplies maintenance and usage, work area management, transcription techniques, productivity and accuracy, proofreading, and language arts skills.

BUSN 1210 - Electronic Calculators (2)

(Replaces BUS 1210)

Pre-requisites: None

Co-requisites: None

Develops skill in the use of electronic calculators to interpret, solve, and record results of various types of problems involving the four arithmetic processes. Topics include: machine parts and features, touch system techniques, and arithmetic applications.

BUSN 1240 - Office Procedures (3)

(Replaces BUS 1240)

Pre-requisites: COMP 1000

Co-requisites: None

Emphasizes essential skills required for the business office.

BUSN 1300 - Introduction to Business (3)

(Replaces BUS 1300)

Pre-requisites: Program Admission

Co-requisites: None

Introduces organization and management concepts of the business world and in the office environment. Topics include business in a global economy, starting and organizing a business, enterprise management, marketing strategies and financial management.

BUSN 1400 - Word Processing Applications (4)

(Replaces BUS 1140 and BUS 2110)

Pre-requisites: COMP 1000

Co-requisites: None

This course covers the knowledge and skills required to use word processing software through course demonstrations, laboratory exercises and projects. Minimal document keying will be necessary as students will work with existing documents to learn the functions and features of the word processing application. Topics and assignments will include: word processing concepts, customizing documents, formatting content, working with visual content, organizing content, reviewing documents, sharing and securing content.

BUSN 1410 - Spreadsheet Concepts and Applications (4)

(Replaces BUS 2120 and BUS 2130)

Pre-requisites: COMP 1000

Co-requisites: None

This course covers the knowledge and skills required to use spreadsheet software through course demonstrations, laboratory exercises and projects. Topics and assignments will include: spreadsheet concepts, creating and manipulating data, formatting data and content, creating and modifying formulas, presenting data visually and, collaborating and securing data.

BUSN 1420 - Database Applications (4)

(Replaces BUS 1150 and BUS 2140)

Pre-requisites: COMP 1000

Co-requisites: None

This course covers the knowledge and skills to required to use database management software through course demonstrations, laboratory exercises and projects. Topics and assignments will include: database concepts, structuring databases, creating and formatting database elements, entering and modifying data, creating and modifying queries, presenting and sharing data and, managing and maintaining databases.

BUSN 1430 - Desktop Publishing and Presentation Applications (4)

(Replaces BUS 1160 and BUS 2150)

Pre-requisites: COMP 1000

Co-requisites: None

This course covers the knowledge and skills required to use desktop publishing (DTP) software and presentation software to create business publications and presentations. Course work will include course demonstrations, laboratory exercises and projects. Topics include: desktop publishing concepts, basic graphic design, publication layout, presentation design, and practical applications.

BUSN 1440 - Document Production (4)

(Replaces BUS 1130)

Pre-requisites: BUSN 1100 or the ability to key 25 gross words a minute on 3-minute timings with no more than 3 errors.

Co-requisites: COMP 1000

Reinforces the touch system of keyboarding placing emphasis on correct techniques with adequate speed and accuracy and producing properly formatted business documents. Topics include: reinforcing correct keyboarding technique, building speed and accuracy, formatting business documents, language arts, proofreading, and work area management.

BUSN 2160 - Electronic Mail Applications (2)

(Replaces a portion of BUS 1170—see BUSN 1190)

Pre-requisites: Program Admission, COMP 1000

Co-requisites: None

This course provides instruction in the fundamentals of communicating with others inside and outside the organization via a personal information management program. Emphasizes the concepts necessary for individuals and workgroups to organize,

find, view, and share information via electronic communication channels. Topics include: Internal and External Communication, Message Management, Calendar Management, Navigation, Contact and Task Management, and Security and Privacy.

BUSN 2190 - Business Document Proofreading and Editing (3)

(Replaces BUS 112)

Pre-requisites: ENGL 1010 OR ENGL 1101, BUSN 1440

Co-requisites: None

Emphasizes proper proofreading and editing for business documents. Topics include: applying proofreading techniques and proofreaders marks with business documents; proper content, clarity, and conciseness in business documents; and business document formatting.

BUSN 2210 - Applied Office Procedures (3)

(Replaces BUS 2210)

Pre-requisites: BUSN 1240, BUSN 1400, BUSN 1410, BUSN 1440

Co-requisites: BUSN 2200 or ACCT 1101, ACCT 1100

This course focuses on applying knowledge and skills learned in prior courses taken in the program. Topics include: communications skills, telecommunications skills, records management skills, office equipment/supplies, and integrated programs/applications. Serves as a capstone course.

BUSN 2240 - Business Administrative Assistant Internship I (4)

(Replaces BUS 2240)

Pre-requisites: Must be in last semester of program. With advisor approval, may take concurrently with last semester courses.

Co-requisites: None

Provides student work experience in a professional environment. Topics include: application of classroom knowledge and skills, work environment functions, and listening/following directions. Students will be under the supervision of the Business Administrative Technology program faculty and/or persons designated to coordinate work experience arrangements.

BUSN 2250 - Business Administrative Assistant Internship II (6)

(Replaces BUS 2250)

Pre-requisites: Must be in last semester of program. With advisor approval, may take concurrently with last semester courses.

Co-requisites: None

Provides student work experience in a professional environment. Topics include: application of classroom knowledge and skills, work environment functions, and listening/following directions. Students will be under the supervision of the Business Administrative Technology program faculty and/or persons designated to coordinate work experience arrangements.

BUSN 2320 - Medical Document Processing/Transcription (4)

(Replaces BUS 2320)

Pre-requisites: BUSN 2300 or ALHS 1090 and ALHS 1010 or ALHS 1011 or BUSN

2310, BUSN 1440, ENGL 1010

Co-requisites: None

Provides experience in medical machine transcription working with the most frequently used medical reports. Topics include: equipment and supplies maintenance and usage, work area management, spelling, definitions, punctuation, processing/transcription speed and accuracy, resource utilization, and pronunciation.

BUSN 2340 - Medical Administrative Procedures (4)

(Replaces BUS 2340)

Pre-requisites: BUSN 2300 or ALHS 1090 and BUSN 2310 or ALHS 1010 or ALHS 1011, BUSN 1440, COMP 1000

Co-requisites: None

Emphasizes essential skills required for the medical office. Introduces the knowledge and skills of procedures for billing purposes. Introduces the basic concept of medical administrative assisting and its relationship to the other health fields. Emphasizes medical ethics, legal aspects of medicine, and the medical administrative assistant's role as an agent of the physician. Provides the student with knowledge and the essentials of professional behavior. Topics include: introduction to medical administrative assisting, medical law, ethics, patient relations/human relations, physician-patient-assistant relationship, medical office in litigation, medical records management, scheduling appointments, pegboard or computerized accounting, health insurance, transcription of medical documents, and billing/collection.

BUSN 2370 - Medical Office Billing/Coding/Insurance (3)

(Replaces BUS 2370)

Pre-requisites: BUSN 2300 or ALHS 1090 and BUSN 2310 or ALHS 1010 or ALHS 1011

Co-requisites: None

Provides an introduction to medical coding skills and applications of international coding standards for billing of health care services. Provides the knowledge and skills to apply coding of diagnostic statements and procedures for billing purposes. Provides an introduction to medical coding as it relates to health insurance. Topics include: International classification of diseases, code book formats; coding techniques; formats of the ICD and CPT manuals; health insurance; billing, reimbursement, and collections; and managed care.

CATT 1100 - Caterpillar Engine Fundamentals (4)

(Replaces CAT 110)

Pre-requisites: None

Co-requisites: None

This course introduces the students to basic diesel engine theory and service procedures. The principles of compression ignited internal combustion engines are taught and variations in design are discussed. Caterpillar engines are used for lab disassembly and assembly.

CATT 1110 - Caterpillar Service Industry (3)

(Replaces CAT 111)

Pre-requisites: None

Co-requisites: None

This course introduces the student to the Caterpillar Organization and provides instruction and lab experience in shop safety, shop operation, service tools, and how to obtain Caterpillar service information.

CATT 1120 - Hydraulic Fundamentals (3)

(Replaces CAT 112)

Pre-requisites: None

Co-requisites: None

This module is designed to teach the basic hydraulic fundamentals, to identify and state the function of the various valves used in Caterpillar hydraulic systems, to identify and state the function of vane pumps, gear pumps, and piston pumps, to disassemble and assemble hydraulic components, to identify and state the function of ISO hydraulic symbols, and to trace the oil flow and state the operation of various hydraulic systems.

CATT 1130 - Fuel Systems (3)

(Replaces CAT 113)

Pre-requisites: None

Co-requisites: None

The course introduces the student to the various fuel systems used on Caterpillar Engines. The student will become familiar with fuel selection, calibrations, nozzle testing procedures, governor operation, and hydraulic fuel ratio controls. The student will also become familiar with the 1.1 and 1.2 Mechanical Unit Injection (MUI) and Hydraulic Electronic Unit Injection (HEUI) fuel systems, the Electronic Unit Injection (EUI) and Nippondenso, and Zexel fuel systems.

CATT 1140 - Electrical Fundamentals (3)

(Replaces CAT 114)

Pre-requisites: None

Co-requisites: None

The course introduces the student to basic electrical and electronic fundamentals needed by a technician to properly diagnose and repair the complex electrical systems installed in Caterpillar machines. The course does not teach specific machine systems unless otherwise stated in the lesson description.

CATT 1150 - Air Conditioning Fundamentals (3)

(Replaces CAT 115)

Pre-requisites: None

Co-requisites: None

This course is designed to prepare the serviceman to state the principles of air conditioning, to identify air conditioning components, to state the component functions, and to service the air conditioning system.

CATT 1160 - Power Train I (3)

(Replaces CAT 116)

Pre-requisites: None

Co-requisites: None

The course will discuss the basic components and operation of power train systems used in Caterpillar machines. Included will be basic components, clutches, torque converters, manual shift transmissions, and power shift transmissions. Basic components and component functions are explained as they relate to the operation of various power train systems.

CATT 1170 - Machine Hydraulic Systems (3)

(Replaces CAT 117)

Pre-requisites: None

Co-requisites: None

This course is designed to teach the system operations and the testing and adjusting procedures for the pilot operated hydraulic system, the load sensing pressure compensated (LSPC) hydraulic system, the proportional priority, pressure compensated (PPPC) system, the electro-hydraulic system, and the hydrostatic system.

CATT 1500 - CAT Internship I (4)

(Replaces CAT 150)

Pre-requisites: None

Co-requisites: None

This supervised experience is required of students enrolled in the Heavy Equipment Dealers Service Technician curriculum. Placement is obtained through the cooperation of the sponsoring Caterpillar dealer. Major emphasis is placed on the specific internship objectives that are contained in the "Internship Logbook".

CATT 1510 - CAT Internship II (4)

(Replaces CAT 151)

Pre-requisites: None

Co-requisites: None

This supervised experience is required of students enrolled in the Heavy Equipment Dealers Service Technician curriculum. Placement is obtained through the cooperation of the sponsoring Caterpillar dealer. Major emphasis is placed on the specific internship objectives that are contained in the "Internship Logbook".

CATT 2000 - Power Train II (3)

(Replaces CAT 200)

Pre-requisites: None

Co-requisites: None

This course will discuss methods for transferring power through the mechanical power train and cover differentials, brakes, final drives, and undercarriage.

CATT 2010 - Machine Electronics (3)

(Replaces CAT 201)

Pre-requisites: None

Co-requisites: None

This course introduces the student to machine electronic systems and diagnostic tooling needed by a technician to properly diagnose and repair the complex electrical/electronic systems installed in Caterpillar machines.

CATT 2020 - Engine Diagnostics and Repair (3)

(Replaces CAT 202)

Pre-requisites: None

Co-requisites: None

This course is an in-depth study of engine diagnostics and repair techniques. Much of the class time is spent with on-iron activities—diagnosing and correcting engine problems. Participants learn basic diagnosis and troubleshooting procedures, use of Caterpillar diagnostic tools, and use of Caterpillar reference material. The four major engine system studied are oil, air, cooling, and fuel.

CATT 2030 - Machine Diagnostics (3)

(Replaces CAT 203)

Pre-requisites: None

Co-requisites: None

This course introduces the student to machine problem identification using diagnostic tooling and reference material to properly diagnose and repair the complex systems installed on Caterpillar machines.

CATT 2040 - Machine Specific (3)

(Replaces CAT 204)

Pre-requisites: None

Co-requisites: None

This course introduces the student to machine specific systems. The machines and engines covered in this course include: 950G II Electro-Hydraulic Control Systems, Compact Construction Equipment (CCE), 325C Excavator, 312/315C Hydraulic Excavators, Off-highway Trucks, Articulated Dump Trucks, 620G Series Wheel Tractor-Scrapers, H-Series Motor Graders, Gas Engines, EPG Engines, Marine Engines, and Paving Products.

CATT 2500 - CAT Internship III (4)

(Replaces CAT 250)

Pre-requisites: None

Co-requisites: None

This supervised experience is required of students enrolled in the Heavy Equipment Dealers Service Technician curriculum. Placement is obtained through the cooperation of the sponsoring Caterpillar dealer. Major emphasis is placed on the specific internship objectives that are contained in the "Internship Logbook".

CATT 2510 - CAT Internship IV (4)

(Replaces CAT 251)

Pre-requisites: None

Co-requisites: None

This supervised experience is required of students enrolled in the Heavy Equipment Dealers Service Technician curriculum. Placement is obtained through the cooperation of the sponsoring Caterpillar dealer. Major emphasis is placed on the specific internship objectives that are contained in the "Internship Logbook".

CHEM 1211 - Chemistry I (3)

Pre-requisites: MATH 1101 - Mathematical Modeling OR MATH 1111 - College Algebra

Co-requisites: CHEM 1211L - Chemistry Lab I

Provides an introduction to basic chemical principles and concepts which explain the behavior of matter. Topics include measurement, physical and chemical properties of matter, atomic structure, chemical bonding, nomenclature, chemical reactions, and stoichiometry and gas laws.

CHEM 1211L - Chemistry Lab I (1)

Pre-requisites: MATH 1101 - Mathematical Modeling OR MATH 1111 - College Algebra

Co-requisites: CHEM 1211 - Chemistry I

Provides an introduction to basic chemical principles and concepts which explain the behavior of matter. Topics include measurement, physical and chemical properties of matter, atomic structure, chemical bonding, nomenclature, chemical reactions, and stoichiometry and gas laws.

CIST 1001 - Computer Concepts (4)

(Replaces CIS 155)

Pre-requisites: None

Co-requisites: None

Provides an overview of information systems, computers and technology. Topics include: Information Systems and Technology Terminology, Computer History, Data Representation, Data Storage Concepts, Fundamentals of Information Processing, Fundamentals of Information Security, Information Technology Ethics, Fundamentals of Hardware Operation, Fundamentals of Networking, Fundamentals of the Internet, Fundamentals of Software Design Concepts, Fundamentals of Software, (System and Application), System Development Methodology, Computer Number Systems conversion (Binary and Hexadecimal), Mobile computing.

CIST 1102 - Keyboarding (3)

(Replaces CIS 101)

Pre-requisites: Provisional Admission

Co-requisites: None

This course introduces the touch system of keyboarding placing emphasis on correct techniques. Topics include learning the alphabetic keyboard, the numeric keyboard and keypad, building speed and accuracy, and proofreading. Students attain a minimum of 20 GWAM (gross words a minute).

CIST 1122 - Hardware Installation and Maintenance (4)

(Replaces CIS 122)

Pre-requisites: Program Admission

Co-requisites: None

This course serves to provide students with the knowledge of the fundamentals of computer technology, networking, and security along with the skills required to identify hardware, peripheral, networking, and security components with an introduction to the fundamentals of installing and maintaining computers. Students will develop the skills to identify the basic functionality of the operating system, perform basic troubleshooting techniques, utilize proper safety procedures, and effectively interact with customers and peers. This course is designed to help prepare students for the CompTIA A+ certification examination.

CIST 1130 - Operating Systems Concepts (3)

(Replaces CIS 103 or CIS 173)

Pre-requisites: None

Co-requisites: None

Provides an overview of modern operating systems and their use in home and small business environments. Activities will utilize the graphical user interface (GUI) and command line environment (CLI). This will include operating system fundamentals; installing, configuring, and upgrading operating systems; managing storage, file systems, hardware and system resources; troubleshooting, diagnostics, and maintenance of operating systems; and networking.

CIST 1305 - Program Design and Development (3)

(Replaces CIS 105)

Pre-requisites: None

Co-requisites: None

An introductory course that provides problem solving and programming concepts for those that develop user applications. An emphasis is placed on developing logic, troubleshooting, and using tools to develop solutions. Topics include: problem solving and programming concepts, structured programming, the four logic structures, file processing concepts, and arrays.

CIST 1401 - Computer Networking Fundamentals (4)

(Replaces CIS 1140)

Pre-requisites: Program Admission

Co-requisites: None

Introduces networking technologies and prepares students to take the CompTIA's broad-based, vendor independent networking certification exam, Network +. This course covers a wide range of material about networking, including local area networks, wide area networks, protocols, topologies, transmission media, and security. Focuses on operating network management systems, and implementing the installation of networks. It reviews cabling, connection schemes, the fundamentals of the LAN and WAN technologies, TCP/IP configuration and troubleshooting, remote connectivity, and network maintenance and troubleshooting. Topics include: basic knowledge of networking technology, network media and topologies, network devices, network management, network tools and network security.

CIST 1601 - Information Security Fundamentals (3)

(Replaces CIS 1115)

Pre-requisites: None

Co-requisites: None

This course provides a broad overview of information security. It covers terminology, history, security systems development and implementation. Student will also cover the legal, ethical, and professional issues in information security.

CIST 2122 - A+ Preparation (3)

(Replaces CIS 286)

Pre-requisites: CIST 1122

Co-requisites: None

This course serves to prepare students to complete the CompTIA A+ certification examination. It will provide students with advanced knowledge of computer technology, networking, and security fundamentals. Students will possess the skills required to identify hardware, peripherals, networking components, and security components. Students will understand basic operating system functionality and troubleshooting methodology while practicing proper safety procedures and effective interaction skills with customers and peers.

CIST 2127 - Comprehensive Word Processing Techniques (3)

Pre-requisites: None

Co-requisites: None

This course provides students with knowledge in word processing software. Word processing topics include creating, customizing, and organizing documents by using formatting and visual content that is appropriate for the information presented.

CIST 2128 - Comprehensive Spreadsheet Techniques (3)

(Replaces a portion of CIS 127 and a portion of CIS 2228—see CIST 2120)

Pre-requisites: None

Co-requisites: None

This course provides students with knowledge in spreadsheet software. Spreadsheet topics include creating and manipulating data, formatting data and content, creating and modifying formulas, presenting data visually, and collaborating on and securing data.

CIST 2129 - Comprehensive Database Techniques (4)

(Replaces CIS 2229)

Pre-requisites: None

Co-requisites: None

This course provides a study of databases beginning with introductory topics and progressing through advanced development techniques. Topics include: advanced database concepts, advanced development techniques, data integration concepts, and troubleshooting and supporting databases.

CIST 2311 - Visual Basic I (4)

(Replaces CIS 1121 or CIS 157)

Pre-requisites: CIST 1305

Co-requisites: None

Visual Basic I introduces event-driven programming. Common elements of Windows applications will be discussed created and manipulated using Microsofts Visual Studio development environment. Topics include numeric data types and variables, decision making structures, arrays, validating input with strings and functions, repetition and multiple forms, test files, lists and common dialog controls.

CIST 2361 - C++ Programming I (4)

(Replaces CIS 282)

Pre-requisites: CIST 1305

Co-requisites: None

Provides opportunity to gain a working knowledge of "C++" programming. Includes creating, editing, executing, and debugging "C++" programs of moderate difficulty. Topics include: basic "C++" concepts, simple I/O and expressions, I/O and control statements, arrays, pointers, structures, managing data and developing programs.

CIST 2411 - Microsoft Client (4)

(Replaces CIS 2149)

Pre-requisites: Program Instructor Approval

Co-requisites: None

Provides the ability to implement, administrator, and troubleshoot Windows Professional Client as a desktop operating system in any network environment.

CIST 2412 – Microsoft Server Directory Services (4)

(Replaces CIS 2154)

Pre-requisites: None

Co-requisites: None

Provides students with knowledge and skills necessary to install, configure, manage, support and administer Windows Server. Topics include server deployment, server management, monitor and maintain servers, application and data provisioning, and business continuity and high availability.

CIST 2413 - Microsoft Server Infrastructure (4)

(Replaces CIS 2153)

Pre-requisites: None

Co-requisites: None

Provides students with knowledge and skills necessary to install, configure, manage, support and administer Microsoft Directory Services.

CIST 2414 - Microsoft Server Administrator (4)

(Replaces CIS 2150)

Pre-requisites: None

Co-requisites: None

Provides students with knowledge and skills necessary to install, configure, manage, support and administer a Microsoft network infrastructure.

CIST 2441 – Cisco Networking for Home and Small Businesses (4)

(Replaces CIS 2321)

Pre-requisites: None

Co-requisites: None

This course teaches students the skills needed to obtain entry-level home network installer jobs. It also helps students develop some of the skills needed to become network technicians, computer technicians, cable installers, and help desk technicians. It provides a hands-on introduction to networking and the Internet using tools and hardware commonly found in home and small business environments. Instructors are encouraged to facilitate field trips and outside-the-classroom learning experiences. Labs include PC installation, Internet connectivity, wireless connectivity, and file and print sharing.

CIST 2442 – Cisco Working at a Small-to-Medium Business or ISP (4)

(Replaces CIS 2322)

Pre-requisites: None

Co-requisites: None

This course prepares students for jobs as network technicians and helps them develop additional skills required for computer technicians and help desk technicians. It provides a basic overview of routing and remote access, addressing, and security. It also familiarizes students with servers that provide email services, web space, and authenticated access. Students learn about the soft skills required for help desk and customer service positions, and the final chapter helps them prepare for the CCENT certification exam. Network monitoring and basic troubleshooting skills are taught in context.

CIST 2443 - Cisco Routing and Switching (4)

(Replaces CIS 276)

Pre-requisites: None

Co-requisites: None

The students will be familiarized with the equipment applications and protocols installed in enterprise networks, with a focus on switched networks, IP Telephony requirements, and security. It also introduces advanced routing protocols such as Enhanced Interior Gateway Routing Protocol (EIGRP) and Open Shortest Path First (OSPF) Protocol.

CIST 2444 – Cisco Designing and Supporting Computer Networks (4)

(Replaces CIS 277)

Pre-requisites: CIST 2442, CIST 2443

Co-requisites: None

This course introduces students to network design processes using two examples; a large stadium enterprise network and a medium-sized film company network. Students follow a standard design process to expand and upgrade each network, which includes requirements gathering, proof-of-concept, and project management. Lifecycle services, including upgrades, competitive analyses, and system integration, are presented in the context of pre-sale support. In addition to the Packet Tracer and lab exercises found in the previous courses, there are many pen-and-paper and role playing exercises that students complete while developing their network upgrade proposals.

CIST 2451 - Cisco Network Fundamentals (4)

(Replaces CIS 2321)

Pre-requisites: Program Admission

Co-requisites: None

This course provides students with classroom and laboratory experience in current and emerging network technology. Topics include basics of communication, converged networks, OSI and TCP/IP network models, Application layer protocols, services, and applications, Transport layer protocols and services, Network layer addressing and routing concepts, IPv4 and IPv6, calculating IPv4 subnets, Data Link layer and the encapsulation process, Physical layer components and data encoding, Ethernet and network protocol analysis, network cabling, and basic network configuration.

CIST 2452 - Cisco Routing Protocols and Concepts (4)

(Replaces CIS 2322)

Pre-requisites: CIST 2451

Co-requisites: None

The goal is to develop an understanding of how a router learns about remote networks and determines the best path to those networks. Topics include basics of routing, static routing, dynamic routing, distance vector routing, distance vector routing protocols, VLSM and CIDR, routing table in-depth, link state routing, and link state routing protocols.

CIST 2453 - Cisco LAN Switching and Wireless (4)

(Replaces CIS 276)

Pre-requisites: CIST 2451

Co-requisites: None

The goal is to develop an understanding of how switches are interconnected and configured to provide network access to LAN users. This course also teaches how to integrate wireless devices into a LAN. Topics include LAN design, basic switch concepts and configuration, VLAN concepts and configuration, VTP concepts and configuration, STP concepts and configuration, Inter-VLAN routing, and basic wireless concepts and configuration.

CIST 2454 - Cisco Accessing the WAN (4)

(Replaces CIS 277)

Pre-requisites: CIST 2452, CIST 2453

Co-requisites: None

Provides students with classroom and laboratory experience in current and emerging network technology. Topics include: introduction to WANs, WAN protocols, basic network security and ACLs, remote access, IP addressing services, and network troubleshooting.

CIST 2455 - Cisco CCNA Security (4)

Pre-requisites: CIST 2444, CIST 2454

Co-requisites: None

Cisco Networking Academy CCNA Security course provides a next step to build upon the concepts and skills acquired in the four Cisco Networking Academy CCNA courses. It is for individuals who want to enhance their CCNA-level skill set and help

meet the growing demand for network security professionals. It covers network security principles, tools, and configuration practices to enhance network security. Students will acquire the skills needed to design, implement, and support network security.

CIST 2921 - IT Analysis, Design, and Project Management (4)

Pre-requisites: CIST 1305

Co-requisites: None

IT Analysis, Design, and Project Management will provide a review and application of systems life cycle development methodologies and project management.

Topics include: Systems planning, systems analysis, systems design, systems implementation, evaluation, and project management.

COFC 1000 - Safety (2)

(Replaces CFC 100)

Pre-requisites: None

Co-requisites: None

This course provides a review of general safety rules and practices giving students information about state and federal regulations including OSHA Hazard Communication Standards and Material Safety Data Sheets (MSDS). Emphasis is placed on electrical, fire, lifting, and ladder and scaffolding practices.

COFC 1011 - Overview of Building Construction Practices & Materials (3)

Pre-requisites: Provisional Admission

Co-requisites: None

This course covers the introduction to a residential construction project from start to finish. Topics to include preparing to build, tools and equipment, building foundations, wood frame construction, completing the structure, finish carpentry, construction specialties, and materials and fasteners used in the construction industry.

COFC 1020 - Professional Tool Use and Safety (3)

(Replaces CFC 102)

Pre-requisites: None

Co-requisites: None

This course provides instruction in the use of professional tools for the construction trades. Emphasis will be placed on the safe use of each tool discussed. Topics include layout and measuring tools, cutting tools, sawing tools, drilling and boring tools, finishing and fastening tools, general shop tool use, and job site setup.

COFC 1030 - Materials and Fasteners (2)

(Replaces CFC 103)

Pre-requisites: None

Co-requisites: None

This course introduces the fundamental array of building materials used in residential and commercial construction. Topics include fasteners, wood products, concrete, brick and block, plumbing materials, finishing materials, manufactured products and an introduction to construction cost estimation.

COFC 1050 - Construction Print Reading Fundamentals (3)

(Replaces CFC 105)

Pre-requisites: None

Co-requisites: None

This course introduces the reading and interpretation of prints and architectural drawings for all of the construction trades. Topics include types of plans, scales, specifications, conventions, and schedules.

COMP 1000 - Introduction to Computers (3)

(Replaces SCT 100)

Pre-requisites: Provisional Admission

Co-requisites: None

Introduces the fundamental concepts, terminology, and operations necessary to use computers. Emphasis is placed on basic functions and familiarity with computer use. Topics include an introduction to computer terminology, the Windows environment, Internet and email, word processing software, spreadsheet software, database software, and presentation software.

COSM 1000 - Introduction to Cosmetology Theory (4)

(Replaces COS 100)

Pre-requisites: Program Admission

Co-requisites: None

Introduces fundamental both theory and practices of the cosmetology profession. Emphasis will be placed on professional practices and safety. Topics include: state rules, and regulations; state regulatory agency, image; bacteriology; decontamination and infection control, chemistry fundamentals, safety, Hazardous Duty Standards Act compliance, and anatomy and physiology.

COSM 1010 - Chemical Texture Services (3)

(Replaces COS 101 and COS 108)

Pre-requisites: None

Co-requisites: COSM 1000

Provides instruction in the chemistry and chemical reactions of permanent wave solutions and relaxers, application of permanent waves and relaxers. Precautions and special problems involved in applying permanent waves and relaxers will be emphasized. Topics include: permanent wave techniques, chemical relaxer techniques, chemistry, physical and chemical change, safety procedures, permanent wave and chemical relaxer application procedures, hair analysis, scalp analysis, permanent wave procedures (in an acceptable time frame), relaxer application (in an acceptable time frame), and Hazardous Duty Standards Act Compliance.

COSM 1020 - Hair Care and Treatment (2)

(Replaces a portion of COS 105—see COSM 1040; and a portion of COS 103—see COSM 1060)

Pre-requisites: None

Co-requisites: COSM 1000

Introduces the theory, procedures and products used in the care and treatment of the scalp and hair, disease and disorders and their treatments and the fundamental theory and skills required to shampoo, condition, and recondition the hair and scalp.

COSM 1030 - Haircutting (3)

(Replaces COS 106 and COS 107)

Pre-requisites: None

Co-requisites: COSM 1000

Introduces the theory and skills necessary to apply haircutting techniques, advanced haircutting techniques, proper safety and decontamination precautions, hair design elements, cutting implements, head, hair and body analysis, and client consultation.

COSM 1040 - Styling (3)

(Replaces a portion of COS 105—see COSM 2010 and COS 111)

Pre-requisites: None

Co-requisites: COSM 1000

Introduces the fundamental theory and skills required to create shapings, pin curls, fingerwaves, roller placement, blow dry styling, thermal curling, thermal pressing, thermal waving, artificial hair and augmentation, and comb-outs. Laboratory training includes styling training on manikin. Topics include: braiding/intertwining hair, styling principles, pin curls, roller placement, fingerwaves, skip waves, ridge curls, blow dry styling, thermal curling, thermal pressing, thermal waving, artificial hair and augmentation, comb-outs, and safety precautions.

COSM 1050 - Hair Color (3)

(Replaces COS 109)

Pre-requisites: None

Co-requisites: COSM 1000

Introduces the theory and application of temporary, semipermanent, demipermanent-deposit only, and permanent hair coloring, hair lightening, and color removal products and application. Topics include: principles of color theory, hair structure, color, tone, classifications of color, hair lightening, color removal, application procedures, safety precautions, client consultation, product knowledge, hair color challenges, corrective solutions, and special effects.

COSM 1060 - Fundamentals of Skin Care (3)

(Replaces a portion of COS 103—see COSM 1020; and COS 110)

Pre-requisites: None

Co-requisites: COSM 1000

This course provides a comprehensive study in care of the skin for theory and practical application. Emphasis will be placed on client consultation, safety precautions, skin conditions, product knowledge, basic facials, facial massage, corrective facial treatments, hair removal, and make-up application. Other topics in this course include advanced skin treatments in electrotherapy, light therapy, galvanic current, high frequency, and microdermabrasion.

COSM 1070 - Nail Care and Advanced Techniques (3)

(Replaces COS 112)

Pre-requisites: None

Co-requisites: COSM 1000 - Introduction to Cosmetology Theory

Provides training in manicuring, pedicuring and advanced nail techniques. Topics include: implements, products and supplies, hand and foot anatomy and Physiology, diseases and disorders, manicure techniques, pedicure techniques, nail product

chemistry, safety precautions and practices, and advanced nail techniques (wraps/ tips/acrylics).

COSM 1080 - Cosmetology Practicum I (4)

(Replaces COS 113)

Pre-requisites: COSM 1000, COSM 1010, COSM 1020, COSM 1030, COSM 1040, COSM 1050, COSM 1060, COSM 1070

Co-requisites: None

Provides laboratory experiences necessary for the development of skill levels required to be a competent cosmetologist. The allocation of time to the various phases of cosmetology is required by the Georgia State Board of Cosmetology. This course includes a portion of the required hours for licensure. Topics include: permanent waving and relaxers; various hair color techniques, foiling and lightening; skin, scalp, and hair treatments; haircutting; styling; manicure/ pedicure/ advanced nail techniques; dispensary; reception; safety precautions/decontamination; and Hazardous Duty Standards Act compliance.

COSM 1090 - Cosmetology Practicum II (4)

(Replaces COS 114)

Pre-requisites: None

Co-requisites: COSM 1080

Provides laboratory experiences necessary for the development of skill levels required to be a competent cosmetologist. The allocation of time to the various phases of cosmetology is prescribed by the Georgia State Board of Cosmetology. This course includes a portion of the hours required for licensure. Topics include: permanent waving and relaxers; hair color, foiling, lightening, skin, scalp, and hair treatments; haircutting; clipper design, precision cutting, styling; dispensary; manicure/ pedicure/advanced nail techniques; reception; safety precautions/decontamination; Hazardous Duty Standards Act compliance; product knowledge, customer service skills, client retention, State Board Rules and Regulations guidelines, and State Board foundation prep.

COSM 1100 - Cosmetology Practicum III (4)

(Replaces COS 115)

Pre-requisites: None

Co-requisites: COSM 1090

Provides experience necessary for professional development and completion of requirements for state licensure. Emphasis will be placed on the display of professional conduct and positive attitudes. The appropriate number of applications for completion of state board service credit requirements for this course may be met in a laboratory setting. Topics include: texture services; permanent waving and relaxers; haircolor and lightening; skin, scalp, and hair treatment; haircutting; styling; dispensary; manicure/pedicure/advanced nail techniques; reception; safety precautions/decontamination; and Hazardous Duty Standards Act compliance.

COSM 1110 - Cosmetology Practicum IV (4)

(Replaces COS 116)

Pre-requisites: None

Co-requisites: COSM 1100

Provides experience necessary for professional development and completion of requirements for state licensure. Emphasis will be placed on the display of professional conduct and positive attitudes. The requirements for this course may be met in a laboratory setting. Topics include: permanent waving and relaxers; hair color and bleaching; skin, scalp, and hair treatments; haircutting; dispensary; styling; manicure/pedicure/advanced nail techniques; reception; safety precautions/decontamination; Hazardous Duty Standards Act compliance; and state licensure preparation.

COSM 1120 - Salon Management (3)

(Replaces COS 117)

Pre-requisites: None

Co-requisites: COSM 1000

Emphasizes the steps involved in opening and operating a privately owned salon. Topics include: law requirements regarding employment, tax payer education / federal and state responsibilities, law requirements for owning and operating a salon business, business management practices, and public relations and career development.

COSM 1180 - Nail Care I (5)

(Replaces COS 118)

Pre-requisites: COSM 1000, COSM 1070

Co-requisites: None

Provides additional experience in Manicuring and Pedicuring techniques required of applicants for state licensure. Emphasis is placed on performance, using live models in an actual or simulated occupational setting. Topics include: manicure, nail repair, artificial nails, pedicure, nail art, reception, dispensary, advanced/new techniques, documentation, customer service skills, safety precautions, federal/state agency compliance, and state board foundation prep.

COSM 1190 - Nail Care II (5)

(Replaces COS 119)

Pre-requisites: None

Co-requisites: COSM 1180

Provides nail care experience on live models. Emphasis will be placed on the display of professional conduct and positive attitudes. The appropriate number of applications required by the state board of cosmetology in theory and service credit requirements for this course. Emphasis is placed on performance, using live models in an actual or simulated occupational setting. Topics include: manicure, nail repair, artificial nails, pedicure, nail art, electric drill, reception, dispensary, advanced/new techniques, documentation, customer service skills, safety precautions, federal/state agency compliance, and state board comprehension.

COSM 2000 - Instructional Theory and Documentation (4)

(Replaces COS 201 and COS 202)

Pre-requisites: Program Admission

Co-requisites: None

Introduces the fundamental theory and practices of the cosmetology instructor profession. Emphasis will be placed on fostering and providing educational training in the field of Cosmetology. Topics include: state and local laws, rules and regulations, professional image, effective communication, theory of instruction, Hazardous Duty Standards Act Compliance, career opportunities, documentation for attendance, grades, student service and theory hours, basic record keeping, and effective use of an advisory committee.

COSM 2010 - Salon Management (3)

(Replaces COS 203)

Pre-requisites: None

Co-requisites: COSM 2000

Emphasizes the steps involved in the operation of a cosmetology program. Topics include: entry-level skills, communication skills, inventory, networking, and portfolio design.

COSM 2020 - Principles of Teaching (3)

(Replaces COS 204)

Pre-requisites: None

Co-requisites: COSM 2000

Provides knowledge and application on the principles of teaching. Topics include: educator to learner relationships, communication skills, emotional influences, needs of today's learner, destructive versus constructive tactics, learner motivation, and cultivating positive relationships.

COSM 2030 - Lesson Plans (3)

(Replaces COS 205)

Pre-requisites: None

Co-requisites: COSM 2000

Emphasizes the steps involved in the development of a lesson plan. Topics include: development of curriculum, instructional outcomes, components of a lesson plan, using visual aids, print materials and audio visuals in a lesson plan.

COSM 2040 - Classroom Management (3)

(Replaces COS 206)

Pre-requisites: None

Co-requisites: COSM 2000

Emphasis will be placed on classroom management, professionalism in the classroom and dynamic clinic teaching. Topics include: classroom management, managing learner behavior, managing difficult learners, classroom arrangements, clinic environment, and academic advising and counseling.

COSM 2050 - Instruction and Evaluation (2)

(Replaces COS 207 and COS 208)

Pre-requisites: None

Co-requisites: COSM 2000

Identify the characteristics of the different learner types, teaching methods, and measuring student learning outcomes. Topics include: challenges for all learner styles, lecturing, preparing for a lecture method of teaching, testing, academic policy, rubrics, special learner needs, multiple-category grading system.

COSM 2060 - Practicum I (3)

(Replaces COS 209 and a portion of COS 210—see COSM 2070)

Pre-requisites: COSM 2000, COSM 2010, COSM 2020, COSM 2030, COSM 2040, COSM 2050

Co-requisites: None

Provides experience necessary for professional development and completion of requirements for Instructor training state licensure. Emphasis will be placed on the trainees display of professional conduct, positive attitude, and evaluation of learners in a classroom/lab setting. The requirements for this course may be met in a classroom/laboratory setting. Topics include monitoring and evaluating in the following areas: theory/online testing; permanent waving and relaxers; hair color and bleaching; skin, scalp, and hair treatments; haircutting; dispensary; styling; manicure/ pedicure/advanced nail techniques; dispensary; reception; safety precautions/decontamination; Hazardous Duty Standards Act compliance.

COSM 2070 - Practicum II (3)

(Replaces a portion of COS 210—see COSM 2060)

Pre-requisites: None

Co-requisites: COSM 2060

Provides experience necessary for professional development and completion of requirements for instructor training state licensure requirements. Emphasis will be placed on the trainees display of professional conduct, positive attitude, and evaluation of learners in a lab setting. The requirements for this course may be met in a classroom/laboratory setting. Topics include monitoring and evaluating in the following areas: permanent waving and relaxers; hair color and lightening; skin, scalp, and hair treatments; haircutting; dispensary; styling; manicure/ pedicure/ advanced nail techniques; dispensary; reception; safety precautions/decontamination; Hazardous Duty Standards Act compliance.

CRJU 1010 - Introduction to Criminal Justice (3)

(Replaces CRJ 101)

Pre-requisites: Provisional Admission

Co-requisites: None

Introduces the development and organization of the criminal justice system in the United States. Topics include: the American criminal justice system; constitutional limitations; organization of enforcement, adjudication, and corrections; and career opportunities and requirements.

CRJU 1021 - Private Security (3)

(Replaces CRJ 121)

Pre-requisites: Program Admission

Co-requisites: None

Provides an orientation to the development, philosophy, responsibility, and function of the private security industry. A historical and philosophical perspective of private security will help students better understand the present stage of private security, its principles, its legal authority and its effect on society in general. Topics include: private security: an overview; basic security goals and responsibilities; when prevention fails; and security systems at work: putting it all together.

CRJU 1030 - Corrections (3)

(Replaces CRJ 103)

Pre-requisites: Program Admission

Co-requisites: None

Provides an analysis of all phases of the American correctional system and practices, including its history, procedures, and objectives. Topics include: history and evolution of correctional facilities; legal and administrative problems; institutional facilities and procedures; probation, parole, and prerelease programs; alternative sentencing; rehabilitation; community involvement; and staffing.

CRJU 1040 - Principles of Law Enforcement (3)

(Replaces CRJ 104)

Pre-requisites: Program Admission

Co-requisites: None

This course examines the principles of the organization, administration, and duties of federal, state and local law enforcement agencies. Topics include: history and philosophy of law enforcement, evaluation of administrative practices, problems in American law enforcement agencies, emerging concepts, professionalism, and community crime prevention programs.

CRJU 1043 - Probation and Parole (3)

(Replaces CRJ 143)

Pre-requisites: Program Admission

Co-requisites: None

This course will cover the history of both juvenile and adult probation as well as the history of parole. The probation and parole systems will be covered generally with a special emphasis on the Georgia systems and related laws. Topics include: history and philosophy of probation and parole; function of the probation and parole systems; Georgia law related to probation and parole; characteristics and roles of probation and parole officers; and special issues and programs of probation and parole.

CRJU 1050 - Police Patrol Operations (3)

(Replaces CRJ 150)

Pre-requisites: Program Admission

Co-requisites: None

This course presents the knowledge and skills associated with police patrol operations. Emphasis is placed on patrol techniques, crimes in progress, crisis

intervention, domestic disputes, Georgia Crime Information Center procedures, electronics communications and police reports. Topics include: foundations, policing skills and communication skills.

CRJU 1052 - Criminal Justice Administration (3)

(Replaces CRJ 152)

Pre-requisites: Program Admission

Co-requisites: None

This course explores the managerial aspects of effective and efficient police administration. Emphasis is directed towards increasing organizational skills and overcoming interdepartmental and inter-agency non-communication. Topics include: environmental management, human resources, and organizational concerns.

CRJU 1062 - Methods of Criminal Investigation (3)

(Replaces CRJ 162)

Pre-requisites: Program Admission

Co-requisites: None

This course presents the fundamentals of criminal investigation. The duties and responsibilities of the investigator both in field and in the courtroom are highlighted. Emphasis is placed on techniques commonly utilized by investigative personnel as well as the procedures used for investigating various crimes.

CRJU 1063 - Crime Scene Processing (3)

(Replaces CRJ 163)

Pre-requisites: Program Admission

Co-requisites: None

This course presents students with practical exercises dealing with investigating crime scenes and gathering various forms of physical evidence. Emphasis is placed on crime scene assessment, search, fingerprinting, and evidence collection. Topics include: crime scene management, evidence characteristics, identification, documentation and collection as well as techniques for developing and lifting latent fingerprints.

CRJU 1065 - Community-Oriented Policing (3)

(Replaces CRJ 165)

Pre-requisites: Program Admission

Co-requisites: None

Presents the fundamentals for the community-oriented policing philosophy, including the comparison of traditional and community policing philosophies; law enforcement and community relationships; importance of political and public support and involvement; attitudinal changes involving the roles of police management, supervisors and line personnel; creation of partnerships with community organizations, businesses, private security, other governmental agencies, and special interest groups; and police problem-solving methodologies. Topics include: foundations of community-oriented policing, partnerships and problem-solving in community-oriented policing, and community-oriented policing projects and programs.

CRJU 1068 - Criminal Law for Criminal Justice (3)

(Replaces CRJ 168)

Pre-requisites: Program Admission

Co-requisites: None

This course introduces criminal law in the United States, but emphasizes the current specific status of Georgia criminal law. The course will focus on the most current statutory contents of the Official Code of Georgia Annotated (O.C.G.A.) with primary emphasis on the criminal and traffic codes. Topics include: historic development of criminal law in the United States; statutory law, Georgia Code (O.C.G.A.) Title 16 - Crimes and Offenses; statutory law, Georgia Code (O.C.G.A.) Title 40 - Motor Vehicle and Traffic Offenses; and Supreme Court rulings that apply to criminal law.

CRJU 1075 - Report Writing (3)

(Replaces CRJ 175)

Pre-requisites: Program Admission

Co-requisites: None

Explains and demonstrates the effectiveness of the entire criminal investigation process by the quality of notes reports, and accurate documentation. An examination of what goes into the preparation, content, elements, mechanics, and format of documenting the criminal investigation process. Topics include: Field notes, initial information, observations, evidence, victims, witnesses, property, neighborhood canvass, crime scene, laboratory analysis and results, investigative follow-up, suspect statements, and the characteristics essential to quality report writing.

CRJU 1400 - Ethics and Cultural Perspectives for Criminal Justice (3)

(Replaces CRJ 140 and CRJ 212)

Pre-requisites: Program Admission

Co-requisites: None

This course provides an exploration ethics and cultural perspectives in criminal justice. In presenting ethics, both the individual perspective and the organizational standpoint will be examined. Four areas of ethical decision making opportunities are studied including: law enforcement ethics; correctional ethics; legal profession ethics; and policymaking ethics. The presentation of cultural perspectives is designed to aid law enforcement officers to better understand and communicate with members of other cultures with whom they come in contact in the line of duty. Topics include: defining and applying terms related to intercultural attitudes, role-play activities related to intercultural understanding, developing interpersonal/intercultural communication competence, and development of personal intercultural growth plan.

CRJU 2020 - Constitutional Law for Criminal Justice (3)

(Replaces CRJ 202)

Pre-requisites: Program Admission

Co-requisites: None

This course emphasizes those provisions of the Bill of Rights which pertain to criminal justice. Topics include: characteristics and powers of the three branches of government; principles governing the operation of the U.S. Constitution, the Bill of Rights and the Fourteenth Amendment.

CRJU 2050 - Criminal Procedure (3)

(Replaces CRJ 105)

Pre-requisites: Program Admission

Co-requisites: None

Introduces the procedural law of the criminal justice system which governs the series of proceedings through which government enforces substantive criminal law. The course offers an emphasis on the laws of arrest and search and seizure; the rules of evidence, right to counsel, and the rights and duties of both citizens and officers. The course covers in depth appropriate Case Law and court rulings that dictate criminal procedure on the State and Federal Level.

CRJU 2060 - Criminology (3)

(Replaces CRJ 206)

Pre-requisites: Program Admission

Co-requisites: None

Introduces the nature, extent, and factors related to criminal behavior, and the etiology of criminal offenses and offenders. Topics include: sociological, psychological, and biological causes of crime; effectiveness of theories in explaining crime; theory integration; and application of theory to selected issues.

CRJU 2070 - Juvenile Justice (3)

(Replaces CRJ 207)

Pre-requisites: Program Admission

Co-requisites: None

Analyzes the nature, extent, and causes of juvenile delinquency, and examines processes in the field of juvenile justice. Topics include: survey of juvenile law, comparative analysis of adult and juvenile justice systems, and prevention and treatment of juvenile delinquency.

CRJU 2090 - Criminal Justice Practicum (3)

(Replaces CRJ 209)

Pre-requisites: Program Admission

Co-requisites: None

Provides experiences necessary for further professional development and exposure to related agencies in the criminal justice field. The student will pursue a professional research project supervised by the instructor. Topics include: criminal justice theory applications.

CRJU 2100 - Criminal Justice Externship (3)

Pre-requisites: None

Co-requisites: None

Provides experiences necessary for further professional development and exposure to related agencies in the criminal justice field. The student will pursue an externship in a related agency supervised by the instructor. Topics include: criminal justice theory applications.

CTDL 1010 - Fundamentals of Commercial Driving (3)

(Replaces CTD 101)

Pre-requisites: None

Co-requisites: None

Fundamentals of Commercial Driving introduces students to the transportation industry, federal and state regulations, records and forms, industrial relations, and other non-driving activities. This course provides an emphasis on safety that will continue throughout the program.

CTDL 1020 - Combination Vehicle Basic Operation and Range Work (2)

(Replaces CTD 102)

Pre-requisites: None

Co-requisites: CTDL 1010

This course familiarizes students with truck instruments and controls and performing basic maneuvers required to drive safely in a controlled environment and on the Driving Range. Each student must receive 12 hours behind the wheel (BTW) instructional time in range operations such as operating a tractor trailer through clearance maneuvers, backing, turning, parallel parking and coupling/uncoupling.

CTDL 1030 - Combination Vehicle Advanced Operations (4)

(Replaces CTD 103)

Pre-requisites: None

Co-requisites: CTDL 1020

Advanced Operations develops students' driving skills under actual road conditions. The classroom part of the course stresses following safe operating practices. These safe operating practices are integrated into the development of driving skills on the road. Each student must receive at least twelve (12) hours behind-the-wheel (BTW) instructional time on the street/road. In addition the student must have a minimum program total of forty four (44) hours BTW instructional time in any combination (with CTDL 1020) of range and street/road driving. Note: state law requires that whenever a combination vehicle is operated on public roads an instructor must be present in the vehicle while the student is driving.

CTDL 1040 - Commercial Driving Internship (4)

(Replaces CTD 104)

Pre-requisites: None

Co-requisites: CTDL 1020

Commercial Driving Internship provides the opportunity for an individual to complete his/her training with a company. The internship takes the place of CTDL-1030, Advanced Operations. Working closely with the school a company provides the advanced training which focuses on developing students' driving skills. Each student must receive at least twelve (12) hours behind-the-wheel (BTW) instructional time on the street/road. In addition the student must have a minimum program total of forty-four (44) hours BTW instructional time in any combination (with CTDL 1020) or range and street/road driving. Note: State law requires that whenever a vehicle is operated on public roads an instructor must be present in the truck while the student is driving.

CUUL 1000 - Fundamentals of Culinary Arts (4)

(Replaces CUL 100 and CUL 116)

Pre-requisites: None

Co-requisites: MATH 1012

Provides an overview of the professionalism in culinary arts, culinary career opportunities, Chef history, pride, and esprit d corp. Introduces principles and practices necessary to food, supply, and equipment selection, procurement, receiving, storage, and distribution. Topics include: cuisine, food service organizations, career opportunities, food service styles, basic culinary management techniques, professionalism, culinary work ethics, quality factors, food tests, pricing procedures, cost determination and control, selection, procurement, receiving, storage, and distribution. Laboratory demonstration and student experimentation parallel class work.

CUUL 1110 - Culinary Safety and Sanitation (2)

(Replaces CUL 110)

Pre-requisites: Provisional Admission

Co-requisites: Provisional Admission

Emphasizes fundamental kitchen and dining room safety, sanitation, maintenance, and operation procedures. Topics include: cleaning standards, O.S.H.A. M.S.D.S. guidelines, sanitary procedures following SERV-SAFE guidelines, HACCAP, safety practices, basic kitchen first aid, operation of equipment, cleaning and maintenance of equipment, dishwashing, and pot and pan cleaning. Laboratory practice parallels class work.

CUUL 1120 - Principles of Cooking (6)

(Replaces CUL 112 and CUL 114)

Pre-requisites: CUUL 1110

Co-requisites: CUUL 1110

This course introduces fundamental food preparation terms, concepts, and methods. Course content reflects American Culinary Federation Educational Institute apprenticeship training objectives. Topics include: weights and measures, conversions, basic cooking principles, methods of food preparation, recipe utilization, and nutrition. Laboratory demonstrations and student experimentation parallel class work.

CUUL 1129 - Fundamentals of Restaurant Operations (4)

(Replaces CUL 127 and CUL 129)

Pre-requisites: CUUL 1120

Co-requisites: None

Introduces the fundamentals of dining and beverage service and experience in preparation of a wide variety of quantity foods. Course content reflect American Culinary Federation Education Institute apprenticeship training objectives. Topics include: dining service/guest service, dining service positions and functions, international dining services, restaurant business laws, preparation and setup, table side service, and beverage service and setup, kitchen operational procedures, equipment use, banquet planning, recipe conversion, food decorating, safety and sanitation, and production of quantity food. Laboratory practice parallels class work.

CUUL 1220 - Baking Principles (5)

(Replaces CUL 121 and CUL 122)

Pre-requisites: CUUL 1120

Co-requisites: None

Baking Principles presents the fundamental terms, concepts, and methods involved in preparation of yeast and quick breads and baked products. Emphasis is placed on conformance of sanitation and hygienic work habits with health laws. Course content reflects American Culinary Federation Educational Institute cook and pastry apprenticeship training objectives, along with Retail Bakery Association training program. Topics include: baking principles; Science and use of baking ingredients for breads, desserts, cakes, pastries; weights, measures, and conversions; preparation of baked goods, baking sanitation and hygiene, baking supplies and equipment. Laboratory demonstrations and student experimentation parallel class work.

CUUL 1320 - Garde Manger (4)

(Replaces CUL 130 and CUL 132)

Pre-requisites: CUUL 1120

Co-requisites: None

Introduces basic pantry manger principles, utilization, preparation, and integration into other kitchen operations. Course content reflects American Culinary Federation Educational Institute apprenticeship pantry, garnishing, and presentation training objectives. Topics include: pantry functions; garnishes, carving, and decorating; buffet presentation; cold preparations; hot/cold sandwiches; salads, dressings and relishes; breakfast preparation; hot/cold hors d'oeuvres; chaudfroids, gelees, and molds; and pats and terrines. Laboratory practice parallels class work.

CUUL 1370 - Culinary Nutrition and Menu Development (3)

(Replaces CUL 137)

Pre-requisites: CUUL 1120

Co-requisites: None

This course emphasizes menu planning for all types of facilities, services, and special diets. Topics include: menu selection, menu development and pricing, nutrition, special diets, cooking nutritional foods, and organics. Laboratory demonstrations and student management and supervision parallel class work.

CUUL 2130 - Culinary Practicum and Leadership (6)

(Replaces CUL 133 and CUL 216)

Pre-requisites: CUUL 1220, CUUL 1320

Co-requisites: None

This course familiarizes the student with the principles and methods of sound leadership and decision making in the hospitality industry and provides the student with the opportunity to gain management/supervision experience in an actual job setting. Students will be placed in an appropriate restaurant, catering, or other food service business for four days per week throughout the quarter. On-the-job training topics include: restaurant management/on-off premise catering/food service business, supervisory training, and management training, on-off premise catering, hotel kitchen organization, kitchen management, restaurant kitchen systems, institutional food systems, kitchen departmental responsibilities, and kitchen productivity. Topics include: basic leadership principles and how to use

them to solicit cooperation, use of leadership to develop the best possible senior-subordinate relationships, the various decision making processes, the ability to make sound and timely decisions, leadership within the framework of the major functions of management, and delegation of authority and responsibility in the hospitality industry.

CUUL 2140 - Advanced Baking and International Cuisine (6)

(Replaces CUL 124 and CUL 224)

Pre-requisites: CUUL 1220, CUUL 1320

Co-requisites: None

This course introduces international cuisine and acquisition of advanced cookery techniques. Course content reflects American Culinary Federation Educational Institute cook apprenticeship training objectives and provides background for those aspiring to become chefs. Topics include: international cuisine, advanced grill cookery, advanced vegetable cookery, advanced meat cookery, advanced line cookery, advanced fry cookery and nutrition. Laboratory practice parallels class work. ***Provides in-depth experience in preparing many types of baked goods commonly found in restaurants and hotels. Course content reflects American Culinary Federation and Retail Bakery Association training objectives and provides background for those aspiring to become pastry chefs or bakery supervisors. Topics include: breads, pies, cakes, pastry dough, puff pastry, icing, filling, and candy. Laboratory practice parallels class work.

CUUL 2160 - Contemporary Cuisine (4)

(Replaces CUL 215 and CUL 220)

Pre-requisites: CUUL 1220, CUUL 1320

Co-requisites: None

This course emphasizes all modern cuisine and introduces management concepts necessary to the functioning of a commercial kitchen. Topics include: international cuisine, cuisine trends, kitchen organization, kitchen management, kitchen supervision, competition entry, nutrition, menu selection, layout and design, and on/off premise catering. Laboratory demonstration and student experimentation parallel class work.

CUUL 2190 - Principles of Culinary Leadership (4)

(Replaces CUL 133)

Pre-requisites: Provisional Admission

Co-requisites: None

Familiarizes the student with principles, skills, methods, and behaviors necessary for sound leadership of people in their job responsibilities. Emphasis will be placed on real-life concepts, personal skill development, applied knowledge, and managing human resources. Course content is intended to help leaders, managers, and supervisors deal with a dramatically changing workplace that is affected by technology changes, a more competitive and global market place, corporate restructuring, and the changing nature of work and the workforce. Topics include: Leadership Principles, Leadership Relative to the Function of Management; Decision Making Process; Building and Effect Organizational Culture; Human Resource Management; and Delegating Management, Organization, and Control.

DFTG 1101 - CAD Fundamentals (4)

(Replaces DDF 107 and DDF 100 or DDF 101)

Pre-requisites: Provisional Admission

Co-requisites: COMP 1000

Establishes safety practices as they relate to a drafting environment. Introduces basic CAD functions while presenting essential principles and practices for line relationships, scale, and geometric construction.

DFTG 1103 - Multiview/Basic Dimensioning (4)

(Replaces DDF 102 and DDF 111)

Pre-requisites: None

Co-requisites: DFTG 1105 OR DFTG 1127

Multiview/Basic Dimensioning provides multiview and pictorial sketching, orthographic drawing and fundamental dimensioning methods necessary to develop 2D and 3D views that completely describe machine parts for manufacture using intermediate CAD software techniques.

DFTG 1105 - 3D Mechanical Modeling (4)

(Replaces DDF 112)

Pre-requisites: DFTG 1103

Co-requisites: None

In the 3D Mechanical Modeling course, the student becomes acquainted with concepts of the software related to Parametric modeling for mechanical drafting. The student will develop the skills necessary to create 3D models and presentation/working drawings.

DFTG 1107 - Advanced Dimensioning/Sectional Views (3)

(Replaces DDF 103)

Pre-requisites: DFTG 1103

Co-requisites: DFTG 1105

Advanced Dimensioning/Sectional Views continues dimensioning skill development and introduces tools for precision measurement and sectional views.

DFTG 1109 - Auxiliary Views/Surface Development (4)

(Replaces DDF 105 and DDF 108)

Pre-requisites: None

Co-requisites: None

Introduces techniques necessary for auxiliary view drawings, surface development, and developing sheet metal parts. Topics include: primary auxiliary views, secondary auxiliary views, surface development, and developing sheet metal parts.

DFTG 1111 - Fasteners (4)

Pre-requisites: None

Co-requisites: None

This course covers the basics of identifying fastening techniques, interpreting technical data, and create working drawings. Topics include utilization of technical data, identifying thread types, graphic representation of threaded fasteners, utilization of other fastening techniques, welding symbol identification, and welding symbol usage in working drawings.

DFTG 1113 - Assembly Drawings (4)

Pre-requisites: None

Co-requisites: None

Assembly Drawings provides knowledge and skills necessary to create working drawings for the manufacture of machine parts. Topics include: detail drawings, orthographic assembly drawings, pictorial assembly drawings, and utilization of technical reference source.

DFTG 1125 - Architectural Fundamentals (4)

(Replaces DDS 200 and a portion of DDS 205—see DFTG 1129)

Pre-requisites: None

Co-requisites: None

Introduces architectural fundamental principles and practices associated with architectural styles and drawing. Fundamentals residential and commercial practices will be covered. Topics include: specifications and materials; architectural styles, construction drawing practices and procedures, dimensioning and scales.

DFTG 1127 - Architectural 3D Modeling (4)

Pre-requisites: None

Co-requisites: None

In the Architectural 3D Modeling course, the student becomes acquainted with concepts of the software related to Parametric modeling for Architectural drafting. The student will develop the skills necessary to create 3D models and presentation/constructions drawings.

DFTG 1129 - Residential Drawing I (4)

(Replaces DDS 204 and a portion of DDS 205—see DFTG 1125)

Pre-requisites: DFTG 1125

Co-requisites: None

Introduces the essential skills necessary for assessing the expected materials, labor requirements and costs for given structures or products also students will be introduced to architectural drawing skills necessary to produce a basic set of construction drawings given floor plan information. Topics include: material take-offs; footing and foundation; floor plans; exterior elevations; site plans; and construction drawing techniques/practices.

DFTG 1131 - Residential Drawing II (4)

(Replaces DDS 207 and DDS 208)

Pre-requisites: DFTG 1129

Co-requisites: None

Continues in-depth architectural drawing practice and develops architectural design skills. Plans are designed to meet applicable codes. Topics include: material take-offs; footing and foundation; floor plans; exterior elevations; site plans; and construction drawing techniques/ practices.

DFTG 1133 - Commercial Drawing I (4)

(Replaces DDS 209 and DDS 210)

Pre-requisites: DFTG 1125

Co-requisites: None

Introduces commercial drawing skills necessary to produce construction drawings given floor plan information. Topics include: structural steel detailing, reflected ceiling plans, rebar detailing, and commercial construction drawings.

DFTG 2010 - Engineering Graphics (4)

(Replaces DDF 191)

Pre-requisites: None

Co-requisites: None

Covers the basics of computer terminology, input and output devices, file formatting, file management, for CAD software. Introduces students to the fundamentals of geometric construction, scale reading line relationship and basic history of the drafting concepts. Student will also be introduced to basic and intermediate CAD commands and procedures, and drafting concepts and principals.

DFTG 2020 - Visualization and Graphics (3)

Pre-requisites: None

Co-requisites: None

This course is an introduction to engineering graphics and component visualization. Sketching, line drawing, computer assisted drafting solid modeling including parametric modeling are practiced. Development of working drawings and requirements for drawing in a manufacturing and rapid pro-type environment are emphasized.

DFTG 2030 - Advanced 3D Modeling Architectural (4)

Pre-requisites: DFTG 1127

Co-requisites: None

In this course students become acquainted with concepts of the software related to Presentations for Architectural Renderings and Architectural Animations. Students will demonstrate skills in texture applications, camera angles for presentations, lighting and shadow techniques for architectural renderings, and animation techniques for architectural presentations.

DFTG 2040 - Advanced 3D Modeling Mechanical (4)

Pre-requisites: DFTG 1105

Co-requisites: None

In this course the student becomes acquainted with concepts of the software related to Sheet Metal modeling for mechanical drafting, multibody parts assemblies, and basic animation techniques for mechanical assembly presentations.

DFTG 2110 - Print Reading for Technical Drawing I (2)

Pre-requisites: Provisional Admission

Co-requisites: None

Introduces the fundamental principles and practices associated with interpreting technical drawings. Topics include: interpretation of blueprints and sketching.

DFTG 2120 - Print Reading for Architecture (3)

Pre-requisites: None

Co-requisites: None

This course emphasizes skills in reading, producing and interpreting construction drawings. Topics include reading and measuring plans, identifying and understanding lines, symbols, dimensions, materials, schedules, and specifications.

DFTG 2130 - Manual Drafting Fundamentals (2)

(Replaces DDF 101)

Pre-requisites: None

Co-requisites: None

This course emphasizes the essential techniques of basic manual drafting. It introduces drafting tools and equipment, scale and measurement, line relationships and lettering, and geometric construction concepts.

DFTG 2210 - Blueprint Reading for Technical Drawing II (2)

Pre-requisites: DFTG 2110

Co-requisites: None

This course continues the development of blueprint reading as applied to technical drawing. Topics include threads (inch and metric), auxiliary views, geometric tolerancing, and weldments.

DFTG 2300 - Drafting Technology Practicum/Internship 3 (3)

Pre-requisites: None

Co-requisites: None

Provides an approved industry-like setting where the student develops and sharpens skills. Emphasis is placed on production standards achievement and quality control.

DFTG 2400 - Drafting Technology Practicum/Internship 4 (4)

Pre-requisites: None

Co-requisites: None

Provides an approved industry-like setting where the student develops and sharpens skills. Emphasis is placed on production standards achievement and quality control.

DIET 1000 - Introduction to Diesel Technology, Tools, and Safety (3)

(Replaces DET 121)

Pre-requisites: Program Admission

Co-requisites: None

This course introduces basic knowledge and skills the student must have to succeed in the Diesel Equipment Technology field. Topics include an overview of diesel powered vehicles, diesel technology safety skills, basic tools and equipment, reference materials, measuring instruments, shop operation, mechanical fasteners, welding safety, and basic welding skills. Classroom and lab experiences on safety, precision measuring, and basic shop practices are highly emphasized.

DIET 1010 - Diesel Electrical and Electronic Systems (7)

(Replaces DET 125, DET 127, and DET 131)

Pre-requisites: None

Co-requisites: DIET 1000

This course introduces students to electrical and electronic systems used on medium/heavy duty trucks and heavy equipment. Topics include: general electrical system diagnosis, battery diagnosis and repair, starting system diagnosis and repair, charging system diagnosis and repair, lighting system diagnosis and repair, gauges and warning devices, and an introduction and familiarization with electrical and electronic systems.

DIET 1020 - Preventive Maintenance (5)

(Replaces DET 123 and DET 124)

Pre-requisites: None

Co-requisites: DIET 1010

This course introduces preventive maintenance procedures pertaining to medium/heavy duty trucks and heavy equipment. Topics include: engine systems; cab and hood; heating, ventilation and air conditioning (HVAC); electrical and electronics; frame and chassis.

DIET 1030 - Diesel Engines (6)

(Replaces DET 132, DET 133, and DET 135)

Pre-requisites: None

Co-requisites: DIET 1010

This course introduces diesel engines used in medium/heavy duty trucks and heavy equipment. Topics include: general engine diagnosis, cylinder head and valve train, engine block, engine lubrication system, hydraulic pumps, engine cooling, air induction, exhaust, fuel supply systems, electronic fuel management, and engine brakes. Using and interpreting test and measuring equipment is highly emphasized.

DIET 1040 - Diesel Truck and Heavy Equipment HVAC Systems (3)

(Replaces DET 137)

Pre-requisites: None

Co-requisites: DIET 1010

This course introduces systems used in medium/heavy duty trucks and heavy equipment. Classroom instruction on HVAC theory and operation along with local, state, and federal regulations are strongly emphasized. Topics include: HVAC safety, HVAC system theory and operation, A/C system component diagnosis and repair, HVAC system diagnosis and repair, HVAC operating systems and related controls, and refrigeration recovery, recycling, and handling procedures.

DIET 1050 - Diesel Equipment Technology Internship (4)

(Replaces DET 120)

Pre-requisites: DIET 1000, DIET 1010, DIET 1030

Co-requisites: None

This internship provides the student work experience in the occupational environment. Topics include: application of prerequisite knowledge and skills, problem solving, adaptability to job setting equipment and technology, and development of productivity and quality job performance through practice. The

student's internship experience may be implemented through the use of written individualized training plans, written performance evaluations, and required integrative experiences at the internship site.

DIET 2000 - Truck Steering and Suspension Systems (4)

(Replaces DET 215 and DET 216)

Pre-requisites: None

Co-requisites: DIET 1000

This course introduces steering and suspension systems used on medium/heavy trucks. Classroom instruction on Federal Motor Vehicle Safety Standards (FMVSS) is strongly emphasized. Topics include: hydraulic assist steering systems; suspension systems; wheel alignment diagnosis, adjustment, and repair; wheels and tires; and frame and coupling devices.

DIET 2001 - Heavy Equipment Hydraulics (6)

(Replaces DET 129, DET 230, and DET 231)

Pre-requisites: None

Co-requisites: DIET 1000

This course introduces the student to basic hydraulic fundamentals, components, system servicing, symbols and schematics. The student will learn component operation and service techniques for maintaining a hydraulic system. The student will also learn to identify the ISO symbols used on hydraulic schematics and to trace the hydraulic schematics. Topics include: general system operation; basic hydraulic principles; hydraulic system components; hydraulic control valves; load sensing pressure control systems; pilot operated hydraulic system operation; and hydraulic actuators.

DIET 2010 - Truck Brake Systems (4)

(Replaces DET 211 and DET 213)

Pre-requisites: None

Co-requisites: DIET 1000, DIET 1010

This course introduces air and hydraulic brake systems used on medium/heavy duty trucks. Classroom theory on brake systems along Federal Motor Vehicle Safety Standards (FMVSS) is strongly emphasized. Topics include: introduction to hydraulic systems and safety; air brakes air supply and system service; air brakes mechanical service; parking brakes; hydraulic brake system and service; hydraulic brakes mechanical service; hydraulic brakes power assist units; anti lock brake systems (ABS) and automatic traction control (ATC); and wheel bearings.

DIET 2011 - Off Road Drivelines (6)

(Replaces DET 233 and DET 234)

Pre-requisites: None

Co-requisites: DIET 1000, DIET 1010

This course introduces power trains used on heavy equipment such as bulldozers, excavators, wheel loaders, back-hoe loaders and skidders. Classroom and lab instruction on components and systems with use and interpreting testing and diagnosing equipment are highly emphasized. Topics include: power train theory and principles, clutches, manual transmissions, drive shafts, differentials, final drives, special drives, final drive failure analysis, torque converters, hydraulically shifted

transmissions, electronic transmissions, hydrostatic transmissions, and transmission failure analysis.

DIET 2020 - Truck Drivetrains (4)

(Replaces DET 215, DET 218, and DET 220)

Pre-requisites: None

Co-requisites: DIET 1000, DIET 1010

This course introduces power train systems used on medium/heavy duty trucks.

Topics include: introduction to power trains, clutches and flywheels, powertrain electronic systems, auto-shift mechanical transmissions, power take-offs, truck drive lines, differentials and final drives, torque converters, and automatic transmissions.

DIET 2140 - Introduction to Mobile Temperature Control (3)

(Replaces DET 240)

Pre-requisites: None

Co-requisites: None

This course introduces the basic fundamentals of mobile refrigeration, installation procedures, and service and repair of mobile temperature control units.

DIET 2141 - Transport Temperature Control Certification (3)

(Replaces DET 241)

Pre-requisites: None

Co-requisites: None

Introduces the service technician certification process and the features and benefits of certification.

ECCE 1101 - Introduction to Early Childhood Care and Education (3)

(Replaces ECE 1010)

Pre-requisites: Provisional Admission

Co-requisites: None

Introduces concepts relating the responsibilities and procedures involved in a variety of early childhood care situations. Topics include historical perspectives; professionalism; guidance; developmentally appropriate practices; learning environment (including all children); cultural diversity; and licensing, accreditation, and credentialing.

ECCE 1103 - Child Growth and Development (3)

(Replaces ECE 1030 or ECE 2030)

Pre-requisites: Provisional Admission

Co-requisites: None

Introduces the student to the physical, social, emotional, and cognitive development of the young child (prenatal through 12 years of age). The course provides for competency development in observing, recording, and interpreting growth and development stages in the young child; advancing physical and intellectual competence; supporting social and emotional development; and examining relationships between child development and positive guidance. Topics include developmental characteristics, prenatal through age 12, developmental guidance applications, observing and recording techniques, ages and stages of development, and introduction to children with special needs.

ECCE 1105 - Health, Safety and Nutrition (3)

(Replaces ECE 1050)

Pre-requisites: Provisional Admission

Co-requisites: None

Introduces the theory, practices, and requirements for establishing and maintaining a safe, healthy learning environment. Topics include CPR and first aid, health issues, safety issues, child abuse and neglect, and nutritional needs of children.

ECCE 1112 - Curriculum and Assessment (3)

(Replaces ECE 1012)

Pre-requisites: ECCE 1103

Co-requisites: ECCE 1103

Provides student with an understanding of developmentally effective approaches to teaching, learning, observing, documenting and assessment strategies that promote positive development for young children. The course will enable the student to establish a learning environment appropriate for young children and to identify the goals, benefits, and uses of assessment in the development of curriculum for young children. Topics include observing, documenting, and assessing; learning environments; development of curriculum plans and materials; curriculum approaches; and instructional media.

ECCE 1113 - Creative Activities for Children (3)

(Replaces ECE 1013 and ECE 1014)

Pre-requisites: Provisional Admission

Co-requisites: None

Introduces the concepts related to creativity in art, music, movement and creative drama, and facilitating children's creative expression across the curriculum. Topics include concepts of creativity and expression; theories of young children's creative development; facilitation of children's creative expression, media, methods and materials across the curriculum; appreciation of children's art processes and products; appreciation of children's creativity in music, movement and dance; appreciation of children's creative expression in play and creative drama; and art and music appreciation.

ECCE 1121 - Early Childhood Care and Education Practicum (3)

(Replaces ECE 1021 or ECE 1022)

Pre-requisites: ECCE 1105

Co-requisites: ECCE 1105

Provides the student with the opportunity to gain a supervised experience in a practicum placement site allowing demonstration of techniques obtained from course work. Practicum topics include promoting child development and learning; building family and community relationships; observing, documenting, and assessing to support young children and families; teaching and learning; becoming a professional; and guidance techniques and classroom management.

ECCE 1125 - Professionalism Through CDA Certificate Preparation (2)

(Replaces ECE 1025 and ECE 1026)

Pre-requisites: Provisional Admission

Co-requisites: None

Provides training in professionalism through Child Development Associate Credentialing Certificate preparation in the following areas: applying for the Child Development Associate Credential through Direct Assessment, professional resource file development, and strategies to establish positive and productive relationships with families.

ECCE 2115 - Language and Literacy (3)

(Replaces ECE 2115)

Pre-requisites: ECCE 1103

Co-requisites: ECCE 1103

Develops knowledge, skills, and abilities in supporting young children's literacy acquisition and development, birth through age twelve. Topics include developmental continuum of reading and writing, literacy acquisition birth to five years of age, literacy acquisition in kindergarten, literacy acquisition in early grades, and literacy acquisition in children who are culturally and linguistically diverse.

ECCE 2116 - Math and Science (3)

(Replaces ECE 2116)

Pre-requisites: ECCE 1103

Co-requisites: ECCE 1103

Presents the process of introducing math and science concepts to young children. Includes planning and implementation of developmentally appropriate activities and development of math and science materials, media and methods. Topics include inquiry approach to learning; cognitive stages and developmental processes in developing math and science concepts with children birth to five; cognitive stages and developmental processes in developing math and science concepts with children in kindergarten and primary grades; planning math and science activities; and development of math and science materials, media and methods.

ECCE 2201 - Exceptionalities (3)

(Replaces ECE 2010 or ECE 2260)

Pre-requisites: ECCE 1103

Co-requisites: None

Provides for the development of knowledge and skills that will enable the student to understand individuals with special needs and appropriately guide their development. Special emphasis is placed on acquainting the student with programs and community resources that serve families with children with special needs. Topics include inclusion/least restrictive environment (LRE), physical and motor impairments, gifted/talented, intellectual and cognitive disabilities, emotional and behavioral disorders, communication disorders in speech and language, autism spectrum disorders, visual impairments, deaf and hard of hearing, health impairments, multiple disabilities, and community resources.

ECCE 2202 - Social Issues and Family Involvement (3)

(Replaces ECE 2020)

Pre-requisites: Provisional Admission

Co-requisites: None

Enables the student to value the complex characteristics of children's families and communities and to develop culturally responsive practices which will support family partnerships. Students use their understanding to build reciprocal relationships which promote children's development and learning. Students are introduced to local programs and agencies that offer services to children and families within the community. Topics include professional responsibilities, family/social issues, community resources, family education and support, teacher family communication, community partnerships, social diversity and anti-bias concerns, successful transitions, and school-family activities.

ECCE 2203 - Guidance and Classroom Management (3)

Pre-requisites: ECCE 1103

Co-requisites: ECCE 1103

Examines effective guidance practices in group settings based upon the application of theoretical models of child development and of developmentally appropriate practices. Focus will be given to individual, family, and cultural diversity. Topics will include developmentally appropriate child guidance (birth through 12); effective classroom management, including preventive and interventive techniques; understanding challenging behaviors; and implementing guidance plans.

ECCE 2240 - Early Childhood Care and Education Internship (12)

(Replaces ECE 2240)

Pre-requisites: ECCE 1101, ECCE 1103, ECCE 1105

Co-requisites: ECCE 1105

Provides the student with the opportunity to gain a supervised experience in an actual or simulated work site allowing demonstration of techniques obtained from course work. Practicum topics include promoting child development and learning; building family and community relationships; observing, documenting, and assessing to

ECCE 2310 - Paraprofessional Methods and Materials (3)

(Replaces ECE 2110)

Pre-requisites: ECCE 1103

Co-requisites: ECCE 1103

Develops the instructional skills to enable the student to work as a paraprofessional in a program for kindergarten through elementary age children. Topics include assessment and curriculum, instructional techniques, and methods for instruction in a learning environment.

ECCE 2312 - Paraprofessional Roles and Practices (3)

(Replaces ECE 2120)

Pre-requisites: Program Admission, ECCE 1103

Co-requisites: ECCE 1103

Develops skills to enable the student to work as a paraprofessional in a program for kindergarten through elementary aged children. Topics include professional

qualifications, professional and ethical conduct, professionalism and employment, and paraprofessional roles and responsibilities.

ECCE 2320 - Program Administration and Facility Management (3)

(Replaces ECE 2170 and ECE 2210)

Pre-requisites: Provisional Admission

Co-requisites: None

Provides training in planning, implementation, and maintenance of an effective early childhood program and facility. Topics include organization, mission, philosophy, goals of a program; types of programs; laws, rules, regulations, accreditation, and program evaluation; needs assessment; administrative roles and board of directors; anti-bias program development; child development and developmentally appropriate practices; marketing, public and community relations, grouping, enrollment and retention; working with families; professionalism and work ethics; space management; money management; and program, equipment, and supplies management.

ECCE 2322 - Personnel Management (3)

(Replaces ECE 2220)

Pre-requisites: Provisional Admission

Co-requisites: None

Emphasizes the knowledge and ability to analyze basic DC circuits and introductory concepts of AC circuits. Topics include: international units, basic electrical laws, series and parallel circuits, network analysis concepts, network theorems concepts, D.C. instruments, grounding techniques, magnetism, inductance/capacitance, transient analysis, and introduction to dependent sources and 2-port parameters. Laboratory work parallels class work.

ECET 1101 - Circuit Analysis I (4)

Pre-requisites: Provisional Admission

Co-requisites: ENGT 1000 - Introduction to Engineering Technology AND MATH 1111 - College Algebra

Study of digital circuit fundamentals with an emphasis on digital electronics and techniques, simplification of logic circuits, sequential and combinational logic circuits, programmable logic devices, flip-flops and registers, binary number system, and arithmetic and logic operations. Laboratory work parallels class work using trainers, DesignWorks, and Altera simulation software and system.

ECET 1110 - Digital Systems I (4)

Pre-requisites: ENGT 1000 - Introduction to Engineering Technology

Co-requisites: None

Provides training in early childhood personnel management. Topics include staff records; communication; personnel policies; managing payroll; recruitment, interviewing, selection, hiring, motivating, and firing; staff retention; staff scheduling; staff development; staff supervision; conflict resolution; staff evaluations; ethical responsibilities to employees; and time and stress management.

ECET 2101 - Circuit Analysis II (4)

Pre-requisites: ECET 1101 - Circuit Analysis I AND MATH 1111 - College Algebra

Co-requisites: None

Continues study of AC circuit analysis, which emphasizes complex networks. Topics include: analysis of complex networks, networks with multiple sources, AC network theorems, resonance, transformers, three-phase systems, filters and bode plots, non sinusoidal waveforms, and pulse response of RLC circuits. Laboratory work parallels class work.

ECET 2120 - Electronic Circuits I (4)

Pre-requisites: None

Co-requisites: None

Introduces the conduction process in semiconductor materials and devices. Topics include semiconductor physics; diodes; basic diode circuits and applications; biasing, stability and graphical analysis of bipolar junction transistors and field effect transistors; introduction to silicon controlled rectifiers; device curve characteristics; and related devices with selected applications. Laboratory work includes circuit construction, use of appropriate instruments, troubleshooting and circuit simulation using P-SPIICE.

ELCR 1005 - Soldering Technology (1)

(Replaces ELC 104)

Pre-requisites: Provisional Admission

Co-requisites: None

Develops the ability to solder and desolder connectors, components, and printed circuit boards using industry standards. Topics include: safety practices, soldering, desoldering, anti-static grounding, and surface mount techniques.

ELCR 1010 - Direct Current Circuits (5)

(Replaces ELC 106 and ELC 108)

Pre-requisites: MATH 1013, MATH 1111

Co-requisites: None

This course provides instruction in the theory and practical application of simple and complex direct current circuitry. Topics include laboratory safety practices and procedures, electrical laws and principles, DC test equipment basic series, parallel and combination circuits, complex series and parallel circuits, and DC theorems.

ELCR 1020 - Alternating Current Circuits (7)

(Replaces ELC 109 and ELC 110)

Pre-requisites: ELCR 1010

Co-requisites: None

This course introduces the theory and application of varying sine wave voltages and current, and continues the development of AC concepts with emphasis on constructing, verifying, and troubleshooting reactive circuits using RLC theory and practical application. Topics include AC wave generation, frequency and phase relationship, impedance, admittance, and conductance power factors, reactive components simple RLC circuits, AC circuit resonance, passive filters, and non-sinusoidal wave forms.

ELCR 1030 - Solid State Devices (5)

(Replaces ELC 114, ELC 115, and ELC 125)

Pre-requisites: ELCR 1020

Co-requisites: None

This course provides instruction in the theory and application of solid state devices in the electronics industry. Emphasis is placed on the physical characteristics and uses of solid state devices. Topics include PN diodes, power supplies, voltage regulation, bipolar junction theory and application, field effect transistors, and special applications.

ELCR 1040 - Digital and Microprocessor Fundamentals (5)

(Replaces ELC 118, ELC 119, and ELC 120)

Pre-requisites: ELCR 1020

Co-requisites: ELCR 1030

This course is designed to provide sufficient coverage of digital electronics and microprocessor fundamentals. Digital fundamentals will introduce basic topics such as binary topics such as binary arithmetic, logic gates and truth tables, Boolean algebra and minimization techniques, logic families, and digital test equipment. Upon completion of the foundational digital requirements, a more advanced study of digital devices and circuits will include such topics as flip-flops, counters, multiplexers and de-multiplexers, encoding and decoding, displays, and analog to digital and digital to analog conversions. Students will also explore the basic architecture and hardware concepts of the microprocessor.

ELCR 1060 - Linear Integrated Circuits (3)

(Replaces ELC 117)

Pre-requisites: ELCR 1030

Co-requisites: None

Provides in-depth instruction on the characteristics and applications of linear integrated circuits. Topics include: operational amplifiers, timers, and three-terminal voltage regulators.

ELCR 1300 - Mobile Audio and Video Systems (3)

(Replaces ELC 130)

Pre-requisites: None

Co-requisites: None

Provides the fundamental concepts for the installation of automotive audio and video systems. Topics include: charging and electrical systems, automotive wiring harnesses, basic audio systems, advanced audio systems, and mobile video systems.

ELCR 1800 - Electrical Lineworker Organization Principles (3)

(Replaces ELC 180)

Pre-requisites: Program Admission

Co-requisites: None

This course provides a comprehensive summary of lineworker requirements. Topics include physical and mechanical abilities, electrical and workplace safety practices, communications skills, and positive work ethic responsibilities.

ELCR 1820 - Electrical Lineworker Workplace Skills (2)

(Replaces ELC 182)

Pre-requisites: Program Admission

Co-requisites: None

This course will familiarize the student with the importance of working together and team building. Topics include basic tools in the problem solving process, change in the workplace, developing and maintaining a positive image, resume writing, and developing job interview skills.

ELCR 1840 - Electrical Lineworker Automation Skills (2)

(Replaces ELC 184)

Pre-requisites: Program Admission

Co-requisites: None

This course familiarizes the student with the identification, proper use, basic electrical fundamentals, and safety and maintenance of lineworker hand and power tools. Students will be prepared to operate hydraulic and pneumatic systems.

ELCR 1860 - Electrical Lineworker Occupational Skills (5)

(Replaces ELC 186)

Pre-requisites: Program Admission

Co-requisites: None

This course provides an introduction to the basic skills necessary for an electrical lineworker. Topics include an understanding of ratios and proportions, blueprint reading, CSL training and testing, lineman simulations, and observation based instruction.

ELCR 2210 - Advanced Circuit Analysis (5)

(Replaces ELC 220 and ELC 221)

Pre-requisites: ELCR 1040

Co-requisites: None

This course provides an in depth study of communication system concepts and emphasis an analysis of amplitude and frequency modulation and detection methods. Topics include AM, FM, and SSB modulation and detection, transmitters and receivers, multiplexing and demultiplexing, basic telemetry concepts, and noise bandwidth considerations.

ELCR 2220 - Advanced Modulation Techniques (3)

(Replaces ELC 222)

Pre-requisites: None

Co-requisites: ELCR 2210

This course continues the study of modulation and detection techniques. Topics include: digital modulation techniques, pulse modulation techniques, and sampling techniques.

ELCR 2230 - Antenna and Transmission Lines (3)

(Replaces ELC 223)

Pre-requisites: None

Co-requisites: ELCR 2220

Provides an understanding of antennas and transmission lines used in communications. Topics include: transmission lines, wave guides, antenna types, antenna applications, and telephone transmission lines.

ELCR 2240 - Microwave Communications and Radar (3)

(Replaces ELC 224)

Pre-requisites: ELCR 2230

Co-requisites: None

Provides a basic understanding of microwave communications and radar. Topics include: microwave and radar fundamentals, microwave devices, wave guides, specialized antennas, radar systems, and communications systems.

ELCR 2250 - Optical Communications Techniques (3)

(Replaces ELC 225)

Pre-requisites: None

Co-requisites: ELCR 2240

Surveys the major optical devices used for communications. Topics include: light sources, fiber optic cable, coupling and fusing, light modulation and detection techniques, and system application of light devices.

ELTR 1020 - Electrical Systems Basics I (3)

(Replaces ELT 119)

Pre-requisites: None

Co-requisites: IDFC 1011, MATH 1012

Introduces the theory and application of varying sine wave voltages and current. Topics include: magnetism, AC wave generation, AC test equipment, inductance, capacitance, and basic transformers.

ELTR 1060 - Electrical Prints, Schematics, and Symbols (2)

(Replaces ELT 106)

Pre-requisites: Provisional Admission

Co-requisites: None

Introduces electrical symbols and their use in construction blueprints, electrical schematics, and diagrams. Topics include: electrical symbols, component identification, print reading and scales and measurement.

ELTR 1080 - Commercial Wiring I (5)

(Replaces ELT 107 and a portion of ELT 108—see ELTR 1090)

Pre-requisites: None

Co-requisites: ELTR 1090

This course introduces commercial wiring practices and procedures. Topics include: industrial safety procedures, the National Electrical Code, commercial load calculations, three-phase power systems, and fundamentals of AC motor control.

ELTR 1090 - Commercial Wiring II (3)

(Replaces ELT 109 and a portion of ELT 108—see ELTR 1080)

Pre-requisites: None

Co-requisites: ELTR 1080

This course is a continuation of the study in commercial wiring practices and procedures. Topics include: transformer connections, an introduction to low voltage systems, conduit design and installation practices, and system design concepts.

ELTR 1110 - Electric Motors (4)

(Replaces ELT 111)

Pre-requisites: None

Co-requisites: ELTR 1120, ELTR 1180

Introduces the fundamental theories and applications of single-phase motors. Topics include: motor theory/operating principles, motor terminology, motor identification, NEMA standards, motor efficiencies, preventive maintenance, troubleshooting/failure analysis, and NEC requirements.

ELTR 1120 - Variable Speed/Low Voltage Controls (2)

(Replaces ELT 112)

Pre-requisites: None

Co-requisites: ELTR 1110, ELTR 1180

Introduces types of electric motor control, reduced voltage starting, and applications. Emphasis will be placed on motor types, controller types, and applications. Includes information on wye and delta motor connections; part wind, autotransformer; adjustable frequency drives and other applications; and oscilloscopes and their operation. Topics include: types of reduced voltage starting, reduced voltage motor connections, and adjustable frequency drive.

ELTR 1180 - Electrical Controls (3)

(Replaces ELT 118)

Pre-requisites: None

Co-requisites: ELTR 1110, ELTR 1120

Introduces line and low voltage switching circuits, manual and automatic controls and devices, and circuits. Emphasis will be placed on switching circuits, manual and automatic controls and devices, line and low voltage switching circuits, and operation, application and ladder diagrams. Topics include: ladder and wire diagrams, switching circuits, manual controls and devices, automatic controls and devices, and application and operation of controllers and controls.

ELTR 1205 - Residential Wiring I (3)

(Replaces ELT 120)

Pre-requisites: None

Co-requisites: ELTR 1210

Introduces residential wiring practices and procedures. Topics include: residential circuits, print reading, National Electrical Code, wiring materials, determining the required number and location of lighting/receptacles and small appliance circuits, wiring methods (size and type conductors, box fill calculations and voltage drop), switch control of luminaries, receptacle installation including bonding, GFCI and AFCI

circuits, special purposes outlets - ranges, cook tops, ovens, dryers, water heaters, sump pumps, and sizing OCPDs (circuit breakers and fuses).

ELTR 1210 - Residential Wiring II (3)

(Replaces ELT 121)

Pre-requisites: None

Co-requisites: ELTR 1205

Provides additional instruction on wiring practices in accordance with the National Electrical Code. Topics include: residential single family service calculations, residential two family service calculations, load balancing, sub panels and feeders, residential single family service installation, residential two family service installation, concepts of TV and CATV installation, swimming pool installation, and remote control of lighting and intercom installation.

ELTR 1220 - Industrial PLCs (4)

(Replaces ALT 122)

Pre-requisites: ELTR 1110, ELTR 1180

Co-requisites: None

Introduces operational theory, systems terminology, PLC installations, and programming procedures for programmable logic controls. Emphasis is placed on PLC programming, connections, installations, and start-up procedures. Topics include: PLC hardware and software, PLC functions and terminology, introductory numbering systems, PLC installation and set up, PLC programming basics, relay logic instructions, timers and counters, connecting field devices to I/O cards, and PLC safety procedures.

ELTR 1250 - Diagnostic Troubleshooting (2)

(Replaces ELT 115)

Pre-requisites: ELTR 1180

Co-requisites: None

Introduces diagnostic techniques related to electrical malfunctions. Special attention is given to use of safety precautions during troubleshooting. Topics include: problem diagnosis, advanced schematics, and sequential troubleshooting procedures.

ELTR 1260 - Transformers (3)

(Replaces ELT 116)

Pre-requisites: ELTR 1080, ELTR 1090

Co-requisites: None

Provides instruction in the theory and operation of specific types of transformers. Emphasis will be placed on National Electrical Code requirements related to the use of transformers. Topics include: transformer theory, types of transformers, National Electrical Code requirements, and safety precautions.

ELTR 1270 - National Electrical Code Industrial Applications (4)

(Replaces ELT 117)

Pre-requisites: None

Co-requisites: ELTR 1080, ELTR 1090

Provides instruction in industrial applications of the National Electrical Code. Topics include: rigid conduit installation, systems design concepts, equipment installation (600 volts or less) and safety precautions.

ELTR 1500 - Electrical Systems Technology Internship/Practicum (3)

Pre-requisites: None

Co-requisites: None

This course is designed to give students the opportunity to engage in a lab project or an off-site internship for the purpose of refining the skills necessary for gainful employment. The student is expected to have completed all program requirements to this point, and to be able to demonstrate efficiency in all skills mastered.

ELTR 1510 - Electrical Worker (3)

Pre-requisites: Provisional Admission

Co-requisites: None

Introduces work hazards present during the construction of manufacturing homes or construction sites. Emphasis is placed on the proper use of electrical tools and equipment and maintenance of these tools on the work site. Topics include hazards of electricity, safe use electrical tools and equipment, and the repair of electrical cords, plugs, lights, and smirches.

ELTR 1520 - Grounding and Bonding (2)

(Replaces ELT 151)

Pre-requisites: Provisional Admission

Co-requisites: None

Presents the theory and practical applications for grounding and bonding systems. Emphasis will be placed on the use of the requirements of the National Electrical Code. Topics include: branch circuit grounding, equipment grounding/bonding, service grounding/bonding, and earth connections.

ELTR 1525 - Photovoltaic Systems (5)

Pre-requisites: None

Co-requisites: ELTR 1210

This class introduces techniques and method on how to install residential and commercial photovoltaic systems.

ELTR 1530 - Conduit Sizing (2)

(Replaces ELT 150)

Pre-requisites: Program Admission

Co-requisites: None

Provides practice in calculating conduit size. Emphasis is placed on use of the requirement of the National Electrical Code. Topics include: National Electrical Code, conduits types/trade sizes, and percent of fill.

ELTR 1540 - Wire Pulling and Codes (3)

(Replaces ELT 126)

Pre-requisites: Provisional Admission

Co-requisites: None

The purpose of this course is for instruction in the installation of cabling systems. Emphasis will be on the types of cabling technologies that address voice, video, and data communications and the applicable codes.

EMPL 1000 - Interpersonal Relations and Professional Development (2)

(Replaces EMP 1000)

Pre-requisites: Provisional Admission

Co-requisites: None

Emphasizes human relations and professional development in today's rapidly changing world that prepares students for living and working in a complex society. Topics include human relations skills, job acquisition skills and communication, job retention skills, job advancement skills, and professional image skills.

EMSP 1110 - Introduction to the EMT Profession (3)

Pre-requisites: Program Admission

Co-requisites: None

This course serves as the introductory course to the Emergency Medical Services (EMS) profession. It orients the student to the pre-hospital care environment, issues related to the provision of patient care in both in-hospital and out-of-hospital circumstances. It further provides foundational information upon which subsequent curriculum content is based so that successful completion of this content increases the potential for success in subsequent courses and should allow students to apply the fundamental knowledge, skills, and attitudes gained in order to effectively communicate and function safely, ethically and professionally within the emergency medical services environment. Topics include: Anatomy and Physiology, Medical Terminology, Pathophysiology, CPR for HCP, EMS Systems, Research, Workforce Safety and Wellness, Documentation, EMS System Communication, Therapeutic Communication, Medical/Legal and Ethics, Public Health, Principles of Safely Operating a Ground Ambulance, Incident Management, Multiple Casualty Incidents, Air Medical, Vehicle Extrication, HazMat, MCI due to Terrorism/Disaster, and Life Span Development.

EMSP 1120 - EMT Assessment/Airway Management and Pharmacology (3)

Pre-requisites: Program Admission

Co-requisites: None

This course prepares students for initial scene management and assessment of patients as well as management of the airway. Introduction to pharmacology is also covered. Includes application of scene information and patient assessment findings (scene size up, primary and secondary assessment, patient history, and reassessment) to guide emergency management. Topics include: Scene Size-Up; Primary Assessment; History Taking; Secondary Assessment; Monitoring Devices; Reassessment; Airway Management; Respiration; Artificial Ventilation; Principles of Pharmacology; Medication Administration; and Emergency Medications.

EMSP 1130 - Medical Emergencies for the EMT (3)

Pre-requisites: Program Admission

Co-requisites: None

This course integrates pathophysiological principles and assessment findings to formulate a field impression and implement the treatment plan of cases involving non-traumatic medical emergencies. Topics include: Medical Overview; Neurology; Abdominal and Gastrointestinal Disorders; Immunology; Infectious Disease; Endocrine Disorders; Psychiatric; Cardiovascular; Toxicology; Respiratory; Hematology; Genitourinary/Renal; Non-Traumatic Musculoskeletal Disorders; Diseases of the Eyes, Ears, Nose, and Throat; and Medical Assessments.

EMSP 1140 - Special Patient Populations (3)

Pre-requisites: Program Admission

Co-requisites: None

This course provides a fundamental knowledge of growth, development, and aging and assessment findings to provide basic emergency care and transportation for a patient with special needs. Topics include: Obstetrics, Gynecology, Neonatal Care, Pediatrics, Geriatrics, Patients with Special Challenges, and Special Patient Populations - Assessments.

EMSP 1150 - Shock and Trauma for the EMT (3)

Pre-requisites: Program Admission

Co-requisites: None

This course is designed to prepare the EMT student to apply pre-hospital emergency care to patients who have sustained injuries resulting from various mechanisms of injury including: Abdominal and Genitourinary trauma; Orthopedic trauma; Soft Tissue trauma; Head, Facial, Neck, and Spine Trauma and Nervous System trauma. Special considerations in trauma related injuries will be presented including the physiology of shock as well as multi-system trauma and environmental emergencies. Topics include: Shock and Resuscitation; Trauma Overview; Bleeding; Chest Trauma; Abdominal and Genitourinary Trauma; Orthopedic Trauma; Soft Tissue Trauma; Head, Facial, Neck, and Spine Trauma; Nervous System Trauma; Special Considerations in Trauma; Environmental Emergencies; and Multi-System Trauma.

EMSP 1160 - Clinical and Practical Applications for the EMT (1)

Pre-requisites: Program Admission

Co-requisites: None

This course provides supervised clinical experience in various clinical settings as well as opportunities to demonstrate critical thinking skills and assessment based management techniques through competency based evaluations relevant to the practice of an EMT. Topics include: Clinicals and Assessment Based Management.

EMSP 1510 - Advanced Concepts for the AEMT (3)

Pre-requisites: Program Admission

Co-requisites: None

This course serves as the introductory course to the advanced level practice of the Advanced Emergency Medical Technician (AEMT). It expands on the information attained at the EMT level. Topics include: EMS Systems; Documentation; EMS System Communication; Therapeutic Communication; Principles of Pharmacology;

Medication Administration; Emergency Medications; Airway Management; Respiration; Artificial Ventilation; Primary Assessment; and Secondary Assessment.

EMSP 1520 - Advanced Patient Care for the AEMT (3)

Pre-requisites: Program Admission

Co-requisites: None

This course provides opportunities to apply fundamental knowledge of basic and selected advanced emergency care and transportation based on assessment findings for the following: an acutely ill patient; a patient in shock, respiratory failure or arrest, cardiac failure or arrest, and post resuscitation management; and an acutely injured patient. In addition it provides a fundamental knowledge of growth, development, and aging and assessment findings to provide basic and selected advanced emergency care and transportation for a patient with special needs. Topics include: Geriatrics; Patients with Special Challenges; Medical Overview; Neurology; Immunology; Infectious Disease; Endocrine Disorders; Cardiovascular; Toxicology; Respiratory; Hematology; Genitourinary/Renal; Shock and Resuscitation; Chest Trauma; Abdominal and Genitourinary Trauma; Orthopedic Trauma; Head, Facial, Neck, and Spine Trauma; Nervous System Trauma; and Integration of Medical/Trauma Assessments.

EMSP 1530 - Clinical Applications for the AEMT (1)

Pre-requisites: Program Admission

Co-requisites: None

This course provides supervised clinical experience in various clinical settings. Topics include: Clinicals

EMSP 1540 - Clinical and Practical Applications for the AEMT (3)

Pre-requisites: Program Admission

Co-requisites: None

This course provides supervised clinical experience in various clinical settings as well as opportunities to demonstrate critical thinking skills and assessment based management techniques through competency based evaluations relevant to the practice of an AEMT. Topics include: Clinicals and Assessment Based Management.

ENGL 0096 - English I (3)

(Replaces ENG 096)

Pre-requisites: Appropriate Placement Test Score

Co-requisites: None

Emphasizes standard English usage. Topics include capitalization, basic punctuation, subject and verb agreement, correct verb forms, spelling, and basic paragraph development.

ENGL 0097 - English II (3)

(Replaces ENG 097)

Pre-requisites: Appropriate Placement Test Score, ENGL 0096 - English I

Co-requisites: None

Emphasizes the rules of grammar, punctuation, capitalization, spelling, and writing in order to ensure a smooth transition into communicating orally and in writing. Topics include basic grammar, basic mechanics, spelling, and writing skills.

ENGL 0098 - English III (3)

(Replaces ENG 098)

Pre-requisites: Appropriate Placement Test Score, ENGL 0097

Co-requisites: None

Emphasizes the ability to communicate using written methods. Topics include writing, grammar, and revising.

ENGL 1010 - Fundamentals of English I (3)

(Replaces ENG 1010 or ENG 100 or ENG 101 or ENG 111)

Pre-requisites: ENGL 0097, READ 0097

Co-requisites: None

Emphasizes the development and improvement of written and oral communication abilities. Topics include analysis of writing, applied grammar and writing skills, editing and proofreading skills, research skills, and oral communication skills.

ENGL 1012 - Fundamentals of English II (3)

(Replaces ENG 1012 or ENG 102 or ENG 112)

Pre-requisites: ENGL 1010

Co-requisites: None

Provides knowledge and application of written and oral communications found in the workplace. Topics include writing fundamentals and speaking fundamentals.

ENGL 1101 - Composition and Rhetoric (3)

(Replaces ENG 1101 or ENG 191)

Pre-requisites: Appropriate Degree Level Writing (English) and Reading Placement Test Scores

Co-requisites: None

Explores the analysis of literature and articles about issues in the humanities and in society. Students practice various modes of writing, ranging from exposition to argumentation and persuasion. The course includes a review of standard grammatical and stylistic usage in proofreading and editing. An introduction to library resources lays the foundation for research. Topics include writing analysis and practice, revision, and research. Students write a research paper using library resources and using a formatting and documentation style appropriate to the purpose and audience.

ENGL 1102 - Literature and Composition (3)

(Replaces ENG 1102 or ENG 193)

Pre-requisites: ENGL 1101

Co-requisites: None

Emphasizes the student's ability to read literature analytically and meaningfully and to communicate clearly. Students analyze the form and content of literature in historical and philosophical contexts. Topics include reading and analysis of fiction, poetry, and drama; research; and writing about literature.

ENGL 1105 - Technical Communications (3)

(Replaces ENG 1105 or ENG 195)

Pre-requisites: ENGL 1101

Co-requisites: None

Emphasizes practical knowledge of technical communications techniques, procedures, and reporting formats used in industry and business. Topics include reference use and research, device and process description, formal technical report writing, business correspondence, and technical report presentation.

ENGL 2130 - American Literature (3)

(Replaces ENG 2130)

Pre-requisites: ENGL 1101

Co-requisites: None

Emphasizes American literature as a reflection of culture and ideas. A survey of important works in American literature. Includes a variety of literary genres: short stories, poetry, drama, nonfiction, and novels. Topics include literature and culture, essential themes and ideas, literature and history, and research skills.

ENGT 1000 - Introduction to Engineering Technology (3)

Pre-requisites: Provisional Admission

Co-requisites: None

Provides a study of engineering technology as a career field and describes the knowledge and skills required for academic and occupational success. Topics include: engineering technology career, measurement and standards, mathematical operators, engineering tools, and engineering concepts. Labs reinforce mathematical, mechanical and electrical concepts through practical exercises, such as measurement and calculation of density of objects, relative humidity, use of digital multi-meter, building circuits, use of precision instruments, and team exercises.

ENGT 2300 - Capstone Project (1)

Pre-requisites: ECET 2101 - Circuit Analysis II

Co-requisites: None

This course will require students to undertake either individual or team projects, by applying knowledge acquired classroom/lab activities in program courses and core courses. The student will create or construct a product, a circuit or mechanism using circuit building, troubleshooting and other engineering skills developed through previous course work. The project activity includes conceptualization, detailed planning and design, project construction, cost and production considerations, quality assurance and project presentation.

ENGT 2400 - Evidence & Procedures for Boundary Locations Internship (1)

Pre-requisites: CETC 1116.820 - Surveying II

Co-requisites: CETC 1120.820 - Evidence and Procedures for Boundary Locations

This course will provide the field experience to enhance the competencies taught in the lecture portion.

ENGT 2500 - Engineering Internship (3)

Pre-requisites: None

Co-requisites: None

This course provides students the opportunity to build on the knowledge and skills gained during their engineering technology studies, either through the completion of a capstone project directed by engineering technology faculty or through an off-site internship. Students will take part in professional experiences such as the design, execution, and presentation of engineering technology projects, and the application of engineering technology skills during off-site projects with employers. These experiences will also better prepare students for entry into the workforce through the development of a portfolio of work and through the creation of a network of engineering technology professionals.

FRSC 1020 - Basic Firefighter - Emergency Services Fundamentals (3)

Pre-requisites: Program Admission

Co-requisites: None

This course provides the student with information on the applicable laws, policies, and standards that the Firefighter I course is designed, and how the course will be administered. This course provides the emergency responder with basic principles and functions of the Incident Command System. The course will provide the necessary knowledge and skills to operate within the ICS and their role within the ICS at the fire station, at a non-emergency scene, and at emergency scenes. It will provide also provide the emergency responder with knowledge on how to perform basic skills at emergency scenes that deal with infection control, cardiopulmonary resuscitation, basic first aid measures, and using an AED. Finally, it will provide the emergency responder skills and knowledge on how to recognize the presence of and the potential for a hazardous materials release, and how and who personnel should call. Upon completion of this course the student emergency responder candidate/recruit will have the basic skills and knowledge to be able to obtain a certificate of completion or become certified through the appropriate governing agency for the following: 1. Infection Control 2. CPR 3. First Aid 4. ICS-100 5. IS-700 6. NPQ - Hazardous Materials for First Responders Awareness Level This course meets the requirements NFPA 1001 Standard for Fire Fighter Professional Qualifications and all other state, local, and provincial occupational health and safety regulatory requirements.

FRSC 1030 - Basic Firefighter - MODULE I (5)

Pre-requisites: Program Admission

Co-requisites: None

This course provides the firefighter candidate/recruit with basic knowledge and skills to perform various fire ground operations as a firefighter on emergency scenes. The candidate/recruit will learn about safety during all phases of a firefighters career, the personal protective equipment that is required for training and every emergency response, and how to properly don it for use and doff it after use. The candidate/recruit will learn about the dynamics of fire through fire behavior and how to extinguish the different phases of fires with either portable fire extinguishers or through fire suppression attacks and techniques. The candidate/recruit will also learn the three tactical priorities of Life Safety, Incident Stabilization, and Property Conservation that have to be achieved on every fireground. Basic knowledge and

skills will be provided to the candidate/recruit so they can achieve the tactical priorities through various fireground operations such as: response & size-up, forcible entry, ladders, search & rescue, ventilation, water supply, fire hose, fire nozzles, fire streams, salvage, and overhaul. Upon completion of this course the student emergency responder candidate/recruit will have the basic skills and knowledge to be able to obtain a certificate of completion or become certified through the appropriate governing agency for the following: 1. Module I This course meets the requirements NFPA 1001 Standard for Fire Fighter Professional Qualifications and all other state, local, and provincial occupational health and safety regulatory requirements.

FRSC 1040 - Basic Firefighter - MODULE II (3)

Pre-requisites: Program Admission

Co-requisites: None

This course builds from the skills and knowledge in Module I and provides the knowledge and skills to support the fireground techniques learned in the previous courses. The firefighter will learn various uses of ropes & knots and how to hoist fire fighting tools and equipment. The firefighter will also gain the knowledge and skills of building construction principles that will be used throughout their firefighting career to identify building conditions such as: fire spread and travel, how and where to ventilate, indications of potential building collapse, etc. The firefighter will learn survival techniques that will be used throughout their career to help keep themselves safe and how to rescue themselves or another firefighter. Firefighter rehabilitation will be discussed during this course, so that the firefighter will know how and when to properly rehab themselves before, during, after an emergency response. Knowledge of fire suppression systems will be discussed, so that the firefighter will have a basic understanding of the components of a fire detection, protection, and suppression system. Basic cause determination will be discussed so that firefighters will be aware of observations during various phases of fireground operations. Finally to complete the Firefighter I program the firefighter will participate in the following live fire scenarios in order to complete the objectives of the program. 1. Exterior Class A Fire 2. Interior Structure Attack Above Grade Level 3. Interior Structure Attack Below Grade Level 4. Vehicle Fire 5. Dumpster Fire Upon completion of this course the student emergency responder candidate/recruit will have the basic skills and knowledge to be able to obtain a certificate of completion or become certified through the appropriate governing agency for the following: 1. NPQ Fire Fighter I This course meets the requirements NFPA 1001 Standard for Fire Fighter Professional Qualifications and all other state, local, and provincial occupational health and safety regulatory requirements.

FRSC 1050 - Fire and Life Safety Educator I (3)

Pre-requisites: FRSC 1020 - Basic Firefighter - Emergency Services Fundamentals AND FRSC 1030 - Basic Firefighter - MODULE I AND FRSC 1040 - Basic Firefighter - MODULE II AND FRSC 1141 - Hazardous Materials Operations

Co-requisites: None

Most structural fires, fire deaths and fire injuries occur in the home. This course addresses some of the most important responsibilities of the modern fire service; teaching the public to prevent or if needed, escape fires and related emergencies. We have adopted the approach that we must learn from each incident then put the information to work to prevent fires and fire losses through public fire and life safety

education. Topics include: general requisite knowledge, administration, planning and development, education and implementation, and evaluation.

FRSC 1060 - Fire Prevention, Preparedness and Maintenance (3)

Pre-requisites: Program admission

Co-requisites: None

This course provides the student with the necessary skills of fire prevention, emergency scene preparedness, and tool and equipment maintenance. Specifically addressed are the following topics: basic principles of building construction; knowledge of water supply systems to include pressurized systems, rural water supplies, and alternative water supplies; perform hydrant flow tests as part of water flow assessments for water supplies coming from pressurized hydrants; discuss fire detection, suppression, and suppression systems; consolidate all knowledge to perform a pre-incident plan of a facility; selection of proper tools and techniques of cleaning and proper maintenance of those tools; discuss hoselines, nozzles, and fire streams to perform hoseline lays with proper nozzles attached and select the proper fire stream for the class of fire encountered on various types of fire scenes; and service testing of fire hoses. Finally, this course will conclude fire cause determination to gain necessary knowledge and skills to perform a fire investigation to determine the point of origin and the cause of a fire in a structure. To participate in this course the student must also attain national certification of Firefighter I status or successful completion of FRSC 1020, FRSC 1030, FRSC 1040 and FRSC 1141.

FRSC 1070 - Introduction to Technical Rescue (4)

Pre-requisites: Program admission

Co-requisites: None

This course provides an awareness of the principles of technical rescue through utilization of readings from the text, classroom discussion, practical skills, and practice. This course includes Extricating a victim entrapped in a Motor Vehicle, Assisting a Rescue Team in various technical rescue operations including but not limited to Trench and Excavation, Rope Rescue, Water Rescue, Confined Space Operations, Structural Collapse, Vehicle and Machinery Rescue, and Wilderness Search and Rescue. The student will learn the application of knots, rigging principles, anchor selection criteria, system safety check procedures, rope construction and rope rescue equipment applications and limitations. This course fulfills NFPA 1001, Standard for Firefighter Professional Qualifications, 2008 Edition Chapter 6 sections 6.4.1, 6.4.2 and NFPA 1006, Standard for Technical Rescuer Professional Qualifications, 2008 Edition Chapter 5 sections 5.2, 5.3, 5.4, 5.5.1, 5.5.2, 5.5.3, 5.5.4, 5.5.5, 5.5.8, 5.5.9, 5.5.11, 5.5.14 and NFPA 1670, Standard on operations and Training for Technical Search and Rescue Incidents, 2004 Edition sections 5.2.2, 6.2.2, 6.3.47.2.48.2.3, 9.2.3, 10.2.2, 11.2.3. To participate in this course, the student must also have attained national certification of Firefighter I status or successful completion of FRSC 1020, FRSC 1030, FRSC 1040 and FRSC 1141.

FRSC 1080 - Fireground Operations (3)

Pre-requisites: Program admission

Co-requisites: None

This course will provide the student basic knowledge of the roles and responsibilities of the Firefighter II; the standard operating procedures and guidelines of firefighters; fire service communications relative to obtaining information from occupants

and owners to complete an incident report can be completed accurately; Incident Command principles and their application; practical fireground hydraulics to supply proper nozzle pressures while participating in live fire scenarios. To participate in this course the student must also attain National certification of Firefighter I status or successful completion of FRSC 1020, FRSC 1030, FRSC 1040, FRSC 1141.

FRSC 1100 - Introduction to the Fire Service (3)

Pre-requisites: Program admission

Co-requisites: None

This course is a survey of the philosophy and history of Fire Protection, loss of property and life by fire, review of municipal fire defenses and the organization and function of the federal, state, county, city and private fire protection. Includes introduction to: fire technology education and the firefighter selection process; fire protection career opportunities; public fire protection; chemistry and physics of fire; public and private support organizations; fire department resources, fire department administration; support functions; training, fire prevention; codes and ordinances; fire protection systems and equipment; emergency incident management; and emergency operations.

FRSC 1110 - Fire Administration - Supervision and Leadership (3)

Pre-requisites: Program admission

Co-requisites: None

This course provides the necessary knowledge and skills for an emergency responder to become a successful fire officer. The student will learn how to become a responsible leader and supervisor to a crew of firefighters, how to manage a budget for the fire station, understand standard operating procedures, and be able to manage an incident. Also, an understanding of basic fire prevention methods, fire and building codes, and records systems will be covered throughout the course. Upon completion of this course the student emergency responder candidate/recruit will have the basic skills and knowledge to be able to qualify for a certificate of completion or seek certification through the appropriate governing agency for the following: 1. NFA Leadership I 2. NFA Leadership II 3. NFA Leadership III This course meets the requirements NFPA 1021 Standard for Fire Officer Professional Qualifications and all other state, local, and provincial occupational health and safety regulatory requirements.

FRSC 1121 - Firefighting Strategy and Tactics (3)

Pre-requisites: Program admission

Co-requisites: None

This course presents the principles of applying fire department resources to mitigate a fire or related emergency. General topics include: principles of firefighting, size up, engine company operations, hose line selection and placement, water supply, standpipe and sprinkler operations, ladder company operations, forcible entry, ventilation and search and rescue. Specific fires reviewed will include private dwellings, multiple dwellings, commercial buildings, high-rise structures, buildings under construction, structural collapse, flammable liquid and gas fires and waterfront fires.

FRSC 1132 - Fire Service Instructor (4)

Pre-requisites: Program admission

Co-requisites: None

This course presents the principles of applying fire department resources to mitigate Students will learn to analyze jobs and information, then prepare and present related training. Emphasis is placed on planning, organizing, presenting, and testing, using methodologies appropriate to the subject. Topics include: orientation to emergency services instruction, communication, planning and analysis, objectives, learning, assessment, methods of instruction, instructor materials, media, training related group dynamics, classroom management, the legal environment, and NPQ Fire Instructor I. Students will have numerous hands-on opportunities to apply what they learn. Successful completers of FRSC 1132 are qualified to test for the National Professional Qualification (NPQ) Fire Instructor I Exam.

FRSC 1141 - Hazardous Materials Operations (4)

Pre-requisites: Program admission

Co-requisites: None

This course provides emergency responder personnel with the information to respond safely, limit possible exposure to all personnel, and to provide information to the proper authorities as being a primary goal while reacting in the defensive mode of operation. The first responder operations level responsibilities are recognition and identification of a hazardous material scene, the gathering of information, the notification of the proper authorities, the isolation of the area by setting perimeters/zones, possible evacuation, protection by initiating the incident management system, emergency decontamination, and performing defensive actions only. Even though the first responder is a member of an emergency response service, they are not trained in specialized protective clothing or specialized control equipment. Thus, the first responder is not a member of a hazardous materials response team. This course meets the requirements of NFPA 472 - Professional Competence of First Responders to Haz Mat Incidents at the Operations Level. This course also meets the requirements of OSHA 29 CFR 1910.120, EPA, USDOT, and all other appropriate state, local and provincial occupational health and safety regulatory requirements. Also required as prerequisite: NPQ FF I and NPQ Hazardous Materials Awareness Level.

FRSC 1151 - Fire Prevention & Inspection (4)

Pre-requisites: Program admission

Co-requisites: None

Emphasis is placed on the shared responsibility of all fire service personnel to prevent fires and fire losses by survey of fire prevention activities, conducting basic fire prevention inspections, practicing life safety codes, review of local and state laws regarding fire inspection, and review of applicable codes and standards. Topics include: code administration, inspection, use and occupancy, building limitations and types of construction, fire resistive construction elements, installation of fire protection systems, mean of egress, interior finish requirements, general fire safety provisions, maintenance of fire protection systems, means of egress maintenance for occupancies, hazardous materials, flammable liquids and aerosols, detonation and deflagration hazards, hazardous assembly occupancies, other storage and processing occupancies, compressed gases and cryogenic liquids, pesticides and other health

hazards, and using referenced standards. Successful completion of FRSC 1151 qualifies individuals to test for the National Professional Qualification (NPQ) Inspector Level-I examination.

FRSC 1161 - Fire Service Safety and Loss Control (3)

Pre-requisites: Program admission

Co-requisites: None

This course will provide the necessary knowledge and skills for the emergency responder to understand occupational safety and health and be able to develop safety programs. The course starts with an introduction to occupational safety and health and covers the history, national agencies that produce injury and fatality reports, and efforts that have been made to address safety and health problems in emergency service occupations. The course will review safety related regulations and standards and discuss how to implement them through risk management processes. There will be lectures and discussions on pre-incident safety, safety at fire emergencies, safety at medical and rescue emergencies, safety at specialized incidents, and post-incident safety management. Personnel roles and responsibilities will be covered, so that knowledge can be gained on the relationship to the overall safety and health program by the different responding and administrative personnel at emergency scenes. Lectures and discussions on how to develop, manage, and evaluate safety programs will be covered to provide general knowledge and basic skills on occupational health and safety programs. Finally information management and various other special topics will be covered to gain knowledge on the legal, ethical, and financial considerations that programs need to be aware of and how to collect the data and report it.

FRSC 2100 - Fire Administration Management (3)

Pre-requisites: Program admission

Co-requisites: None

This course will provide the necessary knowledge and skills for the emergency responder to become a diverse leader and manager in their department. The course starts with the history of the fire service which focuses on the historical events that have forged the fire service today. Discussions on preparing for the future are designed to provide information to develop a game plan for personal success. Leadership and Management principles will be taught to blend the academics of leadership and management research into what occurs in the fire service organization on a daily basis. Leadership styles will be discussed to help understand how to lead and manage and, as important, why it's done. The course will take an insightful look into how people handle change personally and organizationally. Discussions on ethics will be focused on the elements critical to ethical leadership and management practices. The course will explore the elements of team building and provide a depth of understanding how to blend various styles and personalities to get the most from people. Discussions on managing emergency services will target budgeting and personnel management the support elements that are so vital to every organization. Quality of the fire service will also be looked at for methods of quality improvement and their applications to improve the services delivered to citizens everyday. An in-depth overview of the changes in disaster planning and response since 9-11, and includes ways to help with community evaluation and preparedness processes. Finally, shaping the future will explore the possibilities of what may occur

in the fire service and how you can play an important role in helping to shape the fire service of the future.

FRSC 2110 - Fire Service Hydraulics (3)

Pre-requisites: Program admission

Co-requisites: None

This course begins with the history and theories of the use of water for fire extinguishment then moves to practical application of the principles of hydraulics in water systems and on the fire ground. Topics include: water at rest and in motion, velocity and discharge, water distribution systems, fire service pumps, friction loss, engine and nozzle pressures, fire streams, standpipe systems, automatic sprinkler systems, firefighting foams, and the clip board friction loss system.

FRSC 2120 - Fire Protection Systems (3)

Pre-requisites: Program admission

Co-requisites: None

A review of fire detection and protection systems including: automatic sprinkler systems, portable fire extinguishers, restaurant/kitchen systems, special hazard systems, detection systems, and control systems. The applicable laws, codes and standards will be introduced along with regulatory and support agencies. Specific topics include: introduction to fire protection systems, water supply systems for fire protection systems, water-based suppression systems, nonwater-based suppression systems, fire alarm systems, smoke management systems, and portable fire extinguishers.

FRSC 2130 - Fire Service Building Construction (3)

Pre-requisites: Program admission

Co-requisites: None

Presents building construction features from the perspective of the fire service with emphasis placed on the use of building construction information to prevent and reduce fire fighter and civilian deaths and injuries. Topics include: principles of building construction, building construction classification, building construction hazards and tactical considerations, structural loads and stresses, structural building components and functions, fire resistance and flame spread, building codes, structural failure and firefighter safety, and firefighter safety in structural and wildland firefighting.

FRSC 2141 - Incident Command (4)

Pre-requisites: Program admission

Co-requisites: None

The Incident Command course is designed to illustrate the responsibilities to use, deploy, implement, and/or function within an Incident Command System (ICS) as well as functioning within multi-jurisdictions incident under the Incident Management System (IMS). The course emphasizes the need for incident management systems, an overview of the structure and expandable nature of ICS, an understanding of the command skills needed by departmental officers to use ICS guidelines effectively, and scenario practice on how to apply ICS and IMS. The National Incident Management System (NIMS) will illustrate and provide the consistent nationwide template to enable all government, private- sectors, and non-governmental

organizations to work together during virtual all domestic incidents. These course competencies will cover those objectives entailed in NIMS 100, 200, 700, and 800.

FRSC 2170 - Fire and Arson Investigation (4)

Pre-requisites: Program admission

Co-requisites: None

Presents an introduction to Fire Investigation. Emphasis is placed upon: fire behavior, combustion properties of various materials, sources of ignition, and investigative techniques for - structures, grassland, wildland, automobiles, vehicles, ships and other types of fire investigation, causes of electrical fires, chemical fires, explosive evaluations, laboratory operation, Techniques used in fire deaths and injuries, arson as a crime, other techniques, State and Federal laws, and future trends in fire investigative technology.

FRSC 2230 - Fire Officer - Administrator (3)

Pre-requisites: Program admission

Co-requisites: None

This course is designed for the chief officer who is ready to assume a leadership role by moving into the upper administrator role in the fire service. This course is based on NFPA 1021, Standard for Fire Officer Professional Qualifications. Upon successful completion of assigned NPQ tasks, graduates will have the opportunity to be tested and certified at the National Professional Qualifications Fire Officer III Level. Note: For qualification at the Fire Officer Level III, the Fire Officer II shall meet the requirements for Fire Instructor Level II as defined by NFPA 1041 and the job performance requirements defined in Sections 6.2 through 6.8 of the standard.

FRSC 2240 - Fire Officer - Executive (3)

Pre-requisites: Program admission

Co-requisites: None

This course is designed for the chief officer who is ready to assume a leadership role by moving into the upper management level of the fire service. This course is based on NFPA 1021, Standard for Fire Officer Professional Qualifications. Upon successful completion of assigned NPQ tasks, graduates will have the opportunity to be tested and certified at the National Professional Qualifications Fire Officer IV Level. Note: For qualifications at the Fire Officer IV level, the Fire Officer III shall meet the requirements of the job performance requirements defined in Sections 7.2 through 7.7 of the standard.

HIST 1111 - World History I (3)

Pre-requisites: Appropriate Degree Level Writing (English) and Reading Placement Test Scores

Co-requisites: None

Emphasizes the study of intellectual, cultural, scientific, political, and social contributions of the civilizations of the world and the evolution of these civilizations during the period from the prehistoric era to early modern times. Topics include the Prehistoric Era the Ancient Near East, Ancient India, Ancient China, Ancient Rome, Ancient Africa, Islam, the Americas, Japan, Ancient Greece, the Middle Ages, and the Renaissance.

HIST 1112 - World History II (3)

Pre-requisites: Appropriate Degree Level Writing (English) and Reading Placement Test Scores

Co-requisites: None

Emphasizes the study of the intellectual, cultural, scientific, political, and social contributions of the civilizations of the world and the evolution of these civilizations during the period from early modern times to the present. Topics include transitions to the Modern World, scientific revolution and the Enlightenment, political modernization, economic modernization, imperialism, and the Twentieth Century.

HORT 1000 - Horticulture Science (3)

(Replaces EHO 100)

Pre-requisites: Provisional Admission

Co-requisites: None

Introduces the fundamentals of plant science and horticulture as a career field. Emphasis will be placed on an industry overview; plant morphology; plant physiology; environmental factors affecting horticulture practices; soil physical and chemical properties; fertilizer elements and analysis; and basic propagation techniques.

HORT 1010 - Woody Plant Identification I (3)

(Replaces EHO 101)

Pre-requisites: Program Admission

Co-requisites: None

Provides the basis for a fundamental understanding of the taxonomy, identification, and culture requirements of woody plants. Topics include: introduction to woody plants, classification of woody plants, and woody plant identification and culture requirements.

HORT 1020 - Herbaceous Plant Identification (3)

(Replaces EHO 102)

Pre-requisites: Program Admission

Co-requisites: None

Emphasizes the identification, selection, and cultural requirements of herbaceous plants. Topics include: introduction to herbaceous plants, plant classification and nomenclature of herbaceous plants, herbaceous plant identification and culture requirements and seasonal color management.

HORT 1030 - Greenhouse Management (4)

(Replaces EHO 103)

Pre-requisites: Provisional Admission

Co-requisites: None

This course helps to prepare students for a career in the management of commercial greenhouses, conservatories and institutional greenhouses. Emphasis is placed on greenhouse construction; operation and management; regulating and controlling the environment; applying cultural practices as they affect plant physiological processes and influence plant growth and development; and management of a greenhouse business.

HORT 1040 - Landscape Installation (3)

(Replaces EHO 104 and EHO 107)

Pre-requisites: None

Co-requisites: None

This course helps develop skills needed to prepare an area for plant and vital non-plant materials as well as install the landscape items as intended by the designer. Topics include: Workplace safety, retaining wall construction, landscape paving, irrigation and drainage, plant installation, and managerial functions related to landscape installation.

HORT 1041 - Landscape Construction (4)

Pre-requisites: None

Co-requisites: None

This course develops fundamental skills in landscape construction with an emphasis on landscape grading, drainage, retaining walls, and pavements. Topics include workplace safety, site preparation, project layout, construction methods, sequencing, and managerial functions.

HORT 1050 - Nursery Production and Management (4)

(Replaces EHO 105)

Pre-requisites: Provisional Admission

Co-requisites: None

Develops skills necessary to propagate and produce both container and field grown nursery stock. Topics include: industry overview, facility design, propagation techniques and environment, field grown and container production, and managerial functions for nursery production.

HORT 1060 - Landscape Design (4)

(Replaces EHO 106)

Pre-requisites: None

Co-requisites: None

Introduces design principles, drawing skills, and plant selection techniques required to produce landscape plans for residential/commercial clients. Topics include: landscape design principles, sketching and drawing skills, site analysis, plant and material selection, and landscape design process.

HORT 1070 - Landscape Installation (4)

Pre-requisites: None

Co-requisites: None

This course develops skills needed for the proper selection, installation, and establishment of landscape trees, shrubs, groundcovers, turf, and flowers. Topics include workplace safety, interpreting a landscape plan, soil preparation, planting methods, post care and establishment, and managerial functions for landscape installers.

HORT 1080 - Pest Management (3)

(Replaces EHO 108)

Pre-requisites: Provisional Admission

Co-requisites: None

This course provides an introduction to the principles and mechanisms of integrated pest management across a diverse array of pests including insects, weeds, plant pathogens, nematodes and vertebrates. Specifically, the course will provide students with a fundamental and practical understanding of integrated pest management in a landscape setting with emphasis on pest identification and control; pesticide application safety; and legal requirements for state licensure.

HORT 1100 - Introduction to Sustainable Agriculture (3)

Pre-requisites: Provisional Admission

Co-requisites: None

Introduces the fundamentals of small scale agriculture with a sustainable approach. Emphasis will be placed on an industry overview, history and foundation of sustainable practices, management and fertility of soils, pest management, and economic and marketing theory and practices.

HORT 1110 - Small Scale Food Production (4)

Pre-requisites: Provisional Admission

Co-requisites: None

Continues hands-on experience in food-crop production to be sold direct to the consumer, at farmers markets or CSA (Community Sponsored Agriculture). Topics include farm safety, farm design and development, propagation, production, harvesting, packaging, and marketing.

HORT 1120 - Landscape Management (4)

(Replaces EHO 112)

Pre-requisites: None

Co-requisites: None

This course introduces cultural techniques required for proper landscape management with emphasis on practical application and managerial techniques. Topics include: landscape management, safe operation and maintenance of landscape equipment, and administrative functions for landscape managers.

HORT 1140 - Horticulture Business Management (3)

(Replaces EHO 114)

Pre-requisites: Provisional Admission

Co-requisites: None

This course presents managerial techniques required for business success in a chosen horticultural field. All aspects of establishing and managing a small business will be addressed. Emphasis will be placed on strategic planning; financial management; marketing strategies; human resource management; and operations and administration.

HORT 1150 - Environmental Horticulture Internship (3)

(Replaces EHO 115)

Pre-requisites: None

Co-requisites: None

Provides the student with practical experience in an actual job setting. This internship allows the student to become involved in on-the-job environmental horticulture applications that require practice and follow through. Topics include: work ethics, skills, and attitudes; demands of the horticulture industry; horticultural business management; and labor supervision.

HORT 1160 - Landscape Contracting (4)

(Replaces EHO 116)

Pre-requisites: None

Co-requisites: None

Provides essential knowledge and skills in landscape contracting with emphasis on landscape business practices and principles, landscape bidding and estimating and managerial skills for the landscape business environment. Topics include: overview of landscape industry, landscape business principles and practices, landscape bidding and estimating and managerial skills for the landscape business environment.

HORT 1310 - Irrigation and Water Management (4)

(Replaces EHO 131)

Pre-requisites: None

Co-requisites: None

Provides students with exposure to the basic principles of hydraulics and fluidics. Special attention is given to watering plant materials in various soil and climatic conditions through the use of irrigation. Topics include: industry overview; fluidics and hydraulics; system design and installation.

HORT 1330 - Turfgrass Management (4)

(Replaces EHO 133)

Pre-requisites: Provisional Admission

Co-requisites: None

A study of turfgrass used in the southern United States. Topics include: industry overview, soil and soil modification; soil fertility; turf installation; turf maintenance, turf diseases, insects and weeds: and estimating costs on management practices.

HORT 1410 - Soils (3)

(Replaces EHO 141)

Pre-requisites: Program Admission

Co-requisites: HORT 1000

This course introduces students to the basic fundamentals of soil science including: soil formation and classification; physical, chemical and biological characteristics; soil fertility and productivity; and soil management and conservation practices.

HORT 1560 - Computer-Aided Landscape Design (4)

(Replaces EHO 156)

Pre-requisites: None

Co-requisites: None

Introduces computer aided landscape design techniques and used in landscape design projects. Emphasis is placed on practical application of landscape design processes through use of computer applications. Topics include: software commands; scale and layers operations; and drawing and design.

HORT 1680 - Woody Plant Identification II (3)

(Replaces EHO 168)

Pre-requisites: Provisional Admission

Co-requisites: None

Students will develop a systematic approach to proper classification, nomenclature, identification, culture and use of many different woody plant species suitable for the region. Topics include: principles of plant classification and nomenclature, identification traits of woody plants and identification, culture and use of woody landscape plant species.

HRTM 1100 - Introduction to Hotel, Restaurant & Tourism Management (3)

Pre-requisites: Program Admission

Co-requisites: None

Provides the student with an overview of occupations in the hospitality industry. Emphasizes the various segments of each occupation and the interrelated responsibilities for customer service which exist across the hospitality industry. Topics include: development of the hospitality industry, food and beverage services, hotel services, meeting and convention services, management's role in the hospitality industry, and hospitality industry trends.

HRTM 1110 - Travel Industry and Travel Geography (3)

Pre-requisites: Program Admission

Co-requisites: None

Introduces students to the importance of the travel agent in the hospitality industry and provides an understanding of international, national, vstate, major cities and their points of interest to the travel customer. Emphasis is placed on career options, industry trends, travel documents, identifying why people travel and how geography is linked to their needs. Topics include: terminology, agency operations, travel reference guides, airline industry, other transportation modes, hotels and resorts, individual travel needs, travel and tourism careers, miscellaneous services, geographical and physical aspects of the Americas and Greenland, Europe, Middle East and Africa, Far East, Australia, New Zealand and Pacific Islands, and travel regulations and documents needed to travel internationally.

HRTM 1120 - Tour and Cruise Management (3)

Pre-requisites: Program Admission

Co-requisites: None

Provides students with an orientation to the duties and responsibilities of the tour operator and an overview of the cruise industry. The course also gives students an opportunity to gain the technical knowledge and skills needed to utilize computerized

reservation and information systems. Emphasis is placed on the operator's role in planning and conducting tours and cruises as well as accessing data bases and identifying options which satisfy customer's needs. Topics include: planning individual tours, planning group tours, transportation arrangements, accommodation options, entertainment options, foreign country tours, and manager's on-tour responsibilities the ship, living quarters, amenities, shipboard activities, and marketing, selling of cruises, agency computer hardware, computer reservation systems, automated travel information, back-room accounting, and trends in automated travel data systems.

HRTM 1130 - Business Etiquette and Communication (3)

Pre-requisites: Program Admission

Co-requisites: None

This course focuses on professionalism in a variety of business settings. Topics include professional image and conduct at work, telephone etiquette, table manners, oral and written communication skills, and diversity in the hospitality industry.

HRTM 1140 - Hotel Operations Management (3)

Pre-requisites: Program Admission

Co-requisites: None

This course focuses on the organization and management of lodging operations. It covers day-to-day operations of each department in a hotel and helps students to understand what seasoned managers do. Emphasis is placed on the rooms division. Topics include corporate structures, departmental responsibilities, hotel services and staff, decision making, and industry trends.

HRTM 1150 - Event Planning (3)

Pre-requisites: Program Admission

Co-requisites: None

This course introduces students to event planning requirements. Topics include fundamentals of event planning; selecting event dates and venues; developing agendas, time lines, budgets, and contracts; marketing events, and facilitating events.

HRTM 1160 - Food and Beverage Management (3)

Pre-requisites: Program Admission

Co-requisites: None

Provides students with a study of food and beverage operations and management. Emphasis is placed on the successful operation of a food and beverage establishment. Topics include restaurants, owners, locations, and concepts; business plans, financing, and legal and tax matters; menus, kitchens, and purchasing; restaurant operations and management.

HRTM 1170 - Hospitality Industry Accounting and Financial Analysis (3)

Pre-requisites: Program Admission

Co-requisites: None

This course provides students with the fundamental knowledge to interpret and analyze the key reports and financial statements used daily in the hospitality industry. Focusing on Profit and Loss statements, students learn to use numbers to assess the performance of individual departments and the overall operation. These numbers are the basis for managerial decisions that increase revenues and control costs.

HRTM 1201 - Hospitality Marketing (3)

Pre-requisites: Program Admission

Co-requisites: None

Introduces students to marketing techniques associated with hotel/restaurant/tourism fields with emphasis on identifying and satisfying needs of customers. Topics include: marketing introduction, research and analysis, marketing strategies, marketing plans, social media marketing, branding, positioning, sales and advertising. Because of the constant change in marketing strategies in the hospitality industry, this course will also focus on new marketing techniques that are being used in the hospitality industry.

HRTM 1210 - Hospitality Law (3)

Pre-requisites: Program Admission

Co-requisites: None

Introduces the student to local, state, federal, and international laws which govern the hospitality industry. Emphasis is placed on creating a workplace where compliance with the law, adherence to ethical standards, and stressing security and loss prevention are the basis for every decision. Topics include civil law, the structure of hospitality enterprises, government agencies that impact the hospitality industry, preventative legal management, contracts, employee selection and management, duties and obligations to employees and guests, and crisis management.

HRTM 1220 - Supervision and Leadership in the Hospitality Industry (3)

Pre-requisites: Program Admission

Co-requisites: None

This courses focuses on the principles of good supervision and leadership as they apply to day-to-day hospitality operations. Topics include recruiting, selection, orientation, compensation and benefits, motivation, teamwork, coaching, employee training and development, performance stanendards, discipline, employee assistance programs, health and safety, conflict management, communicating and delegating, and decision making and control.

HRTM 1230 - Internship (3)

Pre-requisites: Program Admission

Co-requisites: None

This course introduces students to the application and reinforcement of hotel/restaurant/tourism operational principles in an actual job placement. Students become acquainted with occupational responsibilities through realistic work situations and are provided with insights into management applications on the job. Topics include problem solving, adaptability to the job setting, use of proper interpersonal skills, application of hotel/restaurant/tourism management techniques, and professional development. The occupation-based instruction includes written individualized training plans and written performance evaluations.

IDFC 1007 - Industrial Safety Procedures (2)

(Replaces a portion of IFC 100—see IDFC 1000)

Pre-requisites: Provisional Admission

Co-requisites: None

Provides an in-depth study of the health and safety practices required for maintenance of industrial, commercial, and home electrically operated equipment. Topics include: introduction to OSHA regulations; safety tools, equipment, and procedures; and first aid and cardiopulmonary resuscitation.

IDFC 1011 - Direct Current I (3)

(Replaces a portion of IFC 100—see IDFC 1000)

Pre-requisites: None

Co-requisites: MATH 1012

Introduces direct current (DC) concepts and applications. Topics include: electrical principles and laws; batteries; DC test equipment; series, parallel, and simple combination circuits; and laboratory procedures and safety practices.

IDFC 1012 - Alternating Current I (3)

(Replaces IFC 102)

Pre-requisites: None

Co-requisites: IDFC 1011

Introduces the theory and application of varying sine wave voltages and current. Topics include: magnetism, AC wave generation, AC test equipment, inductance, capacitance, and basic transformers.

IDSY 1101 - DC Circuit Analysis (3)

Pre-requisites: None

Co-requisites: None

This course introduces direct current (DC) concepts and applications. Topics include: electrical principles and laws; batteries; DC test equipment; Series, parallel, and simple combination circuits; and laboratory procedures and safety practices.

IDSY 1105 - AC Circuit Analysis (3)

Pre-requisites: None

Co-requisites: None

This course introduces alternating current concepts, theory, and application of varying sine wave voltages and current, and the physical characteristics and applications of solid state devices. Topics include, but are not limited to, electrical laws and principles, magnetism, inductance and capacitance.

IDSY 1110 - Industrial Motor Controls I (5)

(Replaces IDS 105, IDS 110, and IDS 113)

Pre-requisites: None

Co-requisites: None

This course introduces the fundamental concepts, principles, and devices involved in industrial motor controls, theories and applications of single and three-phase motors, wiring motor control circuits, and magnetic starters and braking. Topics include, but are not limited to, motor theory and operating principles, control devices, symbols

and schematic diagrams, NEMA standards, Article 430 NEC and preventative maintenance and troubleshooting.

IDSY 1120 - Basic Industrial PLCs (5)

(Replaces IDS 101 or IDS 107 and IDS 141)

Pre-requisites: None

Co-requisites: IDSY 1110

This course introduces the operational theory, systems terminology, PLC installation, and programming procedures for Programmable Logic Controllers. Emphasis is placed on PLC programming, connections, installation, and start-up procedures. Other topics include timers and counters, relay logic instructions, and hardware and software applications.

IDSY 1130 - Industrial Wiring (5)

(Replaces IDS 103)

Pre-requisites: None

Co-requisites: IDSY 1100

Teaches the fundamental concepts of industrial wiring with an emphasis on installation procedures. Topics include: grounding, raceways, three-phase systems, transformers (three-phase and single-phase), wire sizing, over current protection, NEC requirements, industrial lighting systems, and switches, receptacles, and cord connectors.

IDSY 1170 - Industrial Mechanics (5)

(Replaces IDS 101 or IDS 107 and IDS 215)

Pre-requisites: None

Co-requisites: None

This course introduces and emphasizes the basic skill necessary for mechanical maintenance personnel. Instruction is also provided in the basic physics concepts applicable to the mechanics of industrial production equipment, and the application of mechanical principles with additional emphasis on power transmission and specific mechanical components.

IDSY 1190 - Fluid Power and Piping Systems (6)

(Replaces IDS 221 and IDS 231)

Pre-requisites: None

Co-requisites: None

This course provides instruction in the fundamentals of safely operating hydraulic, pneumatic, and pump and piping systems. Theory and practical application concepts are discussed. Topics include hydraulic system principles and components, pneumatic system principles and components, and the installation, maintenance, and troubleshooting of pump and piping systems.

IDSY 1210 - Industrial Motor Controls II (5)

(Replaces IDS 115, IDS 121, and IDS 131)

Pre-requisites: None

Co-requisites: IDSY 1110

This course introduces the theory and practical application for two-wire control circuits, advanced motor controls, and variable speed motor controls. Emphasis

is placed on circuit sequencing, switching, and installation, maintenance, and troubleshooting techniques.

IDSY 1220 - Intermediate Industrial PLCs (6)

(Replaces IDS 101 or IDS 107 and IDS 142)

Pre-requisites: None

Co-requisites: IDSY 1120

This course provides for hands on development of operational skills in the maintenance and troubleshooting of industrial control systems and automated equipment. Topics include data manipulation, math instructions, introduction to HMI, analog control, and troubleshooting discrete IO devices.

IDSY 1230 - Industrial Instrumentation (6)

(Replaces IDS 101 or IDS 107 and IDS 142)

Pre-requisites: None

Co-requisites: None

Provides instruction in the principles and practices of instrumentation for industrial process control systems with an emphasis on industrial maintenance techniques for production equipment. Topics include: instrument tags; process documentation; basic control theory; sensing pressure, flow, level, and temperature; instrument calibration; and loop tuning.

IDSY 1240 - Maintenance for Reliability (4)

Pre-requisites: None

Co-requisites: None

Applies advanced instrumentation in conjunction with principles of mechanical physics, vibration and particulate analysis, thermography, and advanced reliability concepts relative to precision/predictive maintenance of industrial equipment.

LETA 1010 - Health & Life Safety for Basic Law Enforcement (2)

(Replaces CRJ 1010)

Pre-requisites: Program Admission

Co-requisites: None

Introduces students of the Basic Law Enforcement Academy to emergency care or first aid, cardiopulmonary resuscitation, universal precautions, interpersonal communications, as well as concepts related to mental health, mental retardation and substance abuse. This course is limited to students enrolled in the Basic Law Enforcement Technical Certificate of Credit.

LETA 1012 - Ethics and Liability for Basic Law Enforcement (2)

(Replaces CRJ 1012)

Pre-requisites: Program Admission

Co-requisites: None

This course for students of the Basic Law Enforcement Academy examines the ethical issues and areas of liability confronted by law enforcement personnel. Included in this course are the following topics: ethics and professionalism, peace officer liability. This course is limited to students enrolled in the Basic Law Enforcement Technical Certificate of Credit.

LETA 1014 - Firearms Training for Basic Law Enforcement (4)

(Replaces CRJ 1014)

Pre-requisites: LETA 1010, LETA 1012, LETA 1018, LETA 1024, LETA 1026, LETA 1032

Co-requisites: None

This course provides the student of the Basic Law Enforcement Academy with an understanding of terminology, legal requirements, liability, safety considerations, tactics, procedures, firearms nomenclature, fundamentals of marksmanship, fundamental simulation in the use of deadly force and the opportunity to demonstrate proficiency in marksmanship. This course is limited to students enrolled in the Basic Law Enforcement Technical Certificate of Credit. (version 201003L)

LETA 1016 - Emergency Vehicle Operations for Basic Law Enforcement (4)

(Replaces CRJ 1016)

Pre-requisites: LETA 1010, LETA 1024, LETA 1026, LETA 1030, LETA 1032

Co-requisites: None

This course provides the student of the Basic Law Enforcement Academy with an understanding of appropriate driving actions, terminology, local responsibility, specific statutes, and safety considerations as well as demonstrate proficiency in the operation of an emergency vehicle. This course is limited to students enrolled in the Basic Law Enforcement Technical Certificate of Credit.

LETA 1018 - Defensive Tactics for Basic Law Enforcement (2)

(Replaces CRJ 1018)

Pre-requisites: LETA 1010, LETA 1024, LETA 1026, LETA 1032

Co-requisites: None

This course provides students of the Basic Law Enforcement Academy with an understanding of terminology, human anatomy, legal requirements, liability, safety, tactics, and demonstrate proper procedures for specific techniques to search, control and restrain a person. This course is limited to students enrolled in the Basic Law Enforcement Technical Certificate of Credit.

LETA 1020 - Police Patrol Operations for Basic Law Enforcement (4)

Pre-requisites: LETA 1010, LETA 1024, LETA 1026, LETA 1030, LETA 1032

Co-requisites: None

This course presents the knowledge and skills associated with police patrol operations. Emphasis is placed on patrol techniques, crimes in progress, crisis intervention, domestic disputes, Georgia Crime Information Center procedures, electronics communications and police reports. Topics include: foundations, policing skills and communication skills. This course is limited to students enrolled in the Basic Law Enforcement Technical Certificate of Credit.

LETA 1022 - Methods of Criminal Investigation for Basic Law Enforcement (4)

Pre-requisites: LETA 1010, LETA 1024, LETA 1026, LETA 1030, LETA 1032,

Co-requisites: None

Course Description This course presents the fundamentals of criminal investigation. The duties and responsibilities of the investigator both in field and in the courtroom are highlighted. Emphasis is placed on techniques commonly utilized by investigative personnel as well as the procedures used for investigating various crimes. This

course is limited to students enrolled in the Basic Law Enforcement Technical Certificate of Credit.

LETA 1024 - Criminal Law for Criminal Justice for Basic Law Enforcement (4)

Pre-requisites: LETA 1032

Co-requisites: None

This course introduces criminal law in the United States, but emphasizes the current specific status of Georgia criminal law. The course will focus on the most current statutory contents of the Official Code of Georgia Annotated (O.C.G.A.) with primary emphasis on the criminal and traffic codes. Topics include: historic development of criminal law in the United States; statutory law, Georgia Code (O.C.G.A.) Title 16 - Crimes and Offenses; statutory law, Georgia Code (O.C.G.A.) Title 40 - Motor Vehicle and Traffic Offenses; and Supreme Court rulings that apply to criminal law. This course is limited to students enrolled in the Basic Law Enforcement Technical Certificate of Credit.

LETA 1026 - Criminal Procedure for Basic Law Enforcement (4)

Pre-requisites: LETA 1024, LETA 1032

Co-requisites: None

Introduces the procedural law of the criminal justice system which governs the series of proceedings through which government enforces substantive criminal law. The course offers an emphasis on the laws of arrest and search and seizure; the rules of evidence, right to counsel, and the rights and duties of both citizens and officers. The course covers in depth appropriate Case Law and court rulings that dictate criminal procedure on the State and Federal Level. This course is limited to students enrolled in the Basic Law Enforcement Technical Certificate of Credit.

LETA 1028 - Police Traffic Control and Investigation for Basic Law Enforcement (3)

Pre-requisites: LETA 1010, LETA 1024, LETA 1026, LETA 1030, LETA

Co-requisites: None

This course examines enforcement of traffic laws and procedures for traffic accident investigation. Emphasis is placed on Georgia traffic laws, traffic law enforcement, recognition of impaired driving, and traffic accident investigation. Topics include: regulations, impaired driving, and traffic accident investigation. This course is limited to students enrolled in the Basic Law Enforcement Technical Certificate of Credit. (version 201003L)

LETA 1030 - Principles of Law Enforcement for Basic Law Enforcement (3)

Pre-requisites: LETA 1024, LETA 1026, LETA 1032,

Co-requisites: None

This course examines the principles of the organization, administration, and duties of federal, state and local law enforcement agencies. Topics include: history and philosophy of law enforcement, evaluation of administrative practices, problems in American law enforcement agencies, emerging concepts, professionalism, and community crime prevention programs. This course is limited to students enrolled in the Basic Law Enforcement Technical Certificate of Credit.

LETA 1032 - Introduction to Criminal Justice for Basic Law Enforcement (3)

Pre-requisites: Program Admission

Co-requisites: None

Introduces the development and organization of the criminal justice system in the United States. Topics include: the American criminal justice system; constitutional limitations; organization of enforcement, adjudication, and corrections; and career opportunities and requirements. This course is limited to students enrolled in the Basic Law Enforcement Technical Certificate of Credit.

LETA 1034 - Constitutional Law for Criminal Justice for Basic Law Enforcement (3)

Pre-requisites: LETA 1024, LETA 1026, LETA 1032,

Co-requisites: None

This course emphasizes those provisions of the Bill of Rights which pertain to criminal justice. Topics include: characteristics and powers of the three branches of government; principles governing the operation of the U.S. Constitution, the Bill of Rights and the Fourteenth Amendment. This course is limited to students enrolled in the Basic Law Enforcement Technical Certificate of Credit.

MAST 1010 - Legal and Ethical Concerns in the Medical Office (2)

(Replaces MAS 101)

Pre-requisite: Program Admission

Co-requisite: None

Introduces the basic concept of medical assisting and its relationship to the other health fields. Emphasizes medical ethics, legal aspects of medicine, and the medical assistant's role as an agent of the physician. Provides the student with knowledge of medical jurisprudence and the essentials of professional behavior. Topics include: introduction to medical assisting; introduction to medical law; physician/patient/assistant relationship; medical office in litigation; as well as ethics, bioethical issues and HIPAA.

MAST 1030 - Pharmacology in the Medical Office (4)

(Replaces MAS 103)

Pre-requisite: Program Admission, MATH 1012

Co-requisite: None

Introduces medication therapy with emphasis on safety; classification of medications; their actions; side effects; medication and food interactions and adverse reactions. Also introduces basic methods of arithmetic used in the administration of medications. Topics include: introductory pharmacology; dosage calculation; sources and forms of medications; medication classification; and medication effects on the body systems.

MAST 1060 - Medical Office Procedures (4)

(Replaces MAS 106)

Pre-requisite: Program Admission

Co-requisite: None

Emphasizes essential skills required for the medical practice. Topics include: office protocol, time management, appointment scheduling, medical office equipment, medical references, mail services, medical records, and professional communication.

MAST 1080 - Medical Assisting Skills I (4)

(Replaces MAS 108)

Pre-requisite: Program Admission, ALHS 1011, ALHS 1090

Co-requisite: None

Introduces the skills necessary for assisting the physician with a complete history and physical in all types of medical practices. The course includes skills necessary for sterilizing instruments and equipment and setting up sterile trays. The student also explores the theory and practice of electrocardiography. Topics include: infection control and related OSHA guidelines; prepare patients/assist physician with age and gender-specific examinations and diagnostic procedures; vital signs/mensuration; medical office surgical procedures and electrocardiography.

MAST 1090 - Medical Assisting Skills II (4)

(Replaces MAS 109)

Pre-requisite: Program Admission, ALHS 1011, ALHS 1090

Co-requisite: None

Further student knowledge of the more complex activities in a physician's office. Topics include: collection/examination of specimens and CLIA regulations/risk management; urinalysis; venipuncture; hematology and chemistry evaluations; advanced reagent testing (Strep Test, HcG etc); administration of medications; medical office emergency procedures and emergency preparedness; respiratory evaluations; principles of IV administration; rehabilitative therapy procedures; principles of radiology safety and maintenance of medication and immunization records.

MAST 1100 - Medical Insurance Management (2)

(Replaces MAS 110)

Pre-requisite: Program Admission, ALHS 1011, ALHS 1090, BUSN 1100, COMP 1000, ENGL 1010

Co-requisite: None

Emphasizes essential skills required for the medical practice. Topics include: managed care, reimbursement, and coding.

MAST 1110 - Administrative Practice Management (3)

(Replaces MAS 111)

Pre-requisite: Program Admission, ALHS 1011, ALHS 1090, BUSN 1100, COMP 1000, ENGL 1010

Co-requisite: None

Emphasizes essential skills required for the medical practice in the areas of computers and medical transcription. Topics include: medical transcription/electronic health records; application of computer skills; integration of medical terminology; accounting procedures; and application of software.

MAST 1120 - Human Pathological Conditions in the Medical Office (3)

(Replaces MAS 112)

Pre-requisite: Program Admission

Co-requisite: None

Provides fundamental information concerning common diseases and disorders of each body system. For each system, the disease or disorder is highlighted including:

description, etiology, signs and symptoms, diagnostic procedures, treatment, management, prognosis, and prevention. Topics include: introduction to disease and diseases of body systems.

MAST 1170 - Medical Assisting Externship (6)

(Replaces MAS 117)

Pre-requisite: Program Admission

Co-requisite: None

Provides students with an opportunity for in-depth application and reinforcement of principles and techniques in a medical office job setting. This clinical practicum allows the student to become involved in a work setting at a professional level of technical application and requires concentration, practice, and follow-through. Topics include: application of classroom knowledge and skills and functioning in the work environment.

MAST 1180 - Medical Assisting Seminar (3)

(Replaces MAS 118)

Pre-requisite: Program Admission

Co-requisite: None

Seminar focuses on job preparation and maintenance skills and review for the certification examination. Topics include: letters of application, resumes, completing a job application, job interviews, follow-up letter/call, letters of resignation and review of program competencies for employment and certification.

MAST 1510 - Medical Billing and Coding I (2)

(Replaces MAS 151)

Pre-requisite: ALHS 1011, ALHS 1090, ENGL 1010

Co-requisite: None

Provides an introduction to medical billing and coding skills with applications of international coding standards for billing of health care services. Topics include: International Classification of Diseases, code book formats, guidelines and conventions, and coding techniques.

MAST 1520 - Medical Billing and Coding II (3)

(Replaces MAS 152)

Pre-requisite: MAST 1510

Co-requisite: MAST 1530

Continues development of skills and knowledge presented in MAST 1510: Medical Billing and Coding I and provides for patient disease and medical procedure coding for billing purposes by health care facilities. Topics include: medical records coding techniques; coding linkage and compliance; third-party reimbursement issues; and ethics in coding including fraud and abuse. (version 201003)

MAST 1530 - Medical Procedural Coding (2)

(Replaces MAS 153)

Pre-requisite: MAST 1510

Co-requisite: None

Provides the knowledge and skills to apply the coding of procedures for billing purposes using the Physicians Current Procedural Terminology (CPT) manual. Topics

include: format of CPT manual, CPT manual coding guidelines, and coding using the CPT manual.

MATH 0096 - Math I (3)

(Replaces MAT 096)

Pre-requisites: Appropriate arithmetic placement test score.

Co-requisites: None

Teaches the student basic arithmetic skills needed for the study of mathematics related to specific occupational programs. Topics include number theory, whole numbers, fractions, and decimals. Homework assignments reinforce classroom learning.

MATH 0097 - Math II (3)

(Replaces mat 097)

Pre-requisite: Appropriate Placement Test Scores, MATH 0096

Co-requisite: None

Emphasizes in-depth arithmetic skills needed for the study of mathematics and for the study of basic algebra. Topics include whole numbers, fractions, decimals, percents, ratio/proportion, measurement, geometry, and application problems.

MATH 0098 - Elementary Algebra (3)

(Replaces MAT 098)

Pre-requisite: MATH 97 or Appropriate entrance arithmetic score

Co-requisite: None

Emphasizes basic algebra skills. Topics include introduction to real numbers and algebraic expressions, solving linear equations, graphs of linear equations, polynomial operations, and polynomial factoring.

MATH 0099 - Intermediate Algebra (3)

(Replaces MAT 099)

Pre-requisite: Appropriate Placement Test Scores, MATH 0098

Co-requisite: None

Emphasizes intermediate algebra skills. Topics include factoring, inequalities, rational expressions and equations, linear graphs, slope, and applications, systems of equations, radical expressions and equations, and quadratic equations.

MATH 1012 - Foundations of Mathematics (3)

(Replaces MAT 1012)

Pre-requisite: Appropriate Placement Test Scores, MATH 0097

Co-requisite: None

Emphasizes the application of basic mathematical skills used in the solution of occupational and technical problems. Topics include fractions, decimals, percents, ratios and proportions, measurement and conversion, formula manipulation, technical applications, and basic statistics.

MATH 1013 - Algebraic Concepts (3)

(Replaces MAT 1013 or MAT 103)

Pre-requisite: Appropriate Placement Test Scores, MATH 0098

Co-requisite: None

Emphasizes concepts and operations which are applied to the study of algebra.

Topics include basic mathematical concepts, basic algebraic concepts, and intermediate algebraic concepts.

MATH 1015 - Geometry and Trigonometry (3)

(Replaces MAT 1015 or MAT 104)

Pre-requisite: MATH 1013 Algebraic Concepts with a C or better.

Co-requisite: None

Emphasizes basic geometric and trigonometric concepts. Topics include measurement conversion, geometric terminology and measurements, and trigonometric terminology and functions.

MATH 1017 - Trigonometry (3)

(Replaces MAT 1017 or MAT 105)

Pre-requisite: MATH 1013 Algebraic Concepts with a C or better.

Co-requisite: None

Emphasizes trigonometric concepts, logarithms, and exponential functions. Topics include trigonometric concepts, logarithms and exponentials.

MATH 1111 - College Algebra (3)

(Replaces MAT 1111 or MAT 191)

Pre-requisite: Program Admission AND Minimum ASSET score of 42 (or COMPASS equivalent) OR Completion of MATH 0099 - Intermediate Algebra with a minimum exit ASSET Score of 42 (or COMPASS equivalent).

Co-requisite: None

Emphasizes techniques of problem solving using algebraic concepts. Topics include fundamental concepts of algebra, equations and inequalities, functions and graphs, and systems of equations; optional topics include sequences, series, and probability or analytic geometry.

MATH 1112 - College Trigonometry (3)

(Replaces MAT 1112 or MAT 193)

Pre-requisite: Program Admission, MATH 1111

Co-requisite: None

Emphasizes techniques of problem solving using trigonometric concepts. Topics include trigonometric functions, properties of trigonometric functions, vectors and triangles, inverse of trigonometric functions and graphing of trigonometric functions, logarithmic and exponential functions, and complex numbers.

MATH 1113 - Pre-Calculus (3)

(Replaces MAT 1113 or MAT 194)

Pre-requisite: Program Admission AND Math 1111 with C or better.

Co-requisite: None

Prepares students for calculus. The topics discussed include an intensive study of polynomial, rational, exponential, logarithmic, and trigonometric functions and their

graphs. Applications include simple maximum and minimum problems, exponential growth and decay.

MATH 1127 – Introduction to Statistics

Pre-requisite: Appropriate algebra placement test score.

Co-requisite: None

Emphasizes the concepts and methods fundamental to utilizing and interpreting commonly used statistics. Topics include descriptive statistics, basic probability, discrete and continuous distributions, sampling distributions, hypothesis testing chi square tests, and linear regression.

MATH 1131 – Calculus I

Pre-requisite: Regular Admission and MATH 1113 with a C or better OR appropriate math placement test score.

Co-requisite: None

Topics include the study of limits and continuity, derivatives, and integrals of functions of one variable. Applications are incorporated from a variety of disciplines. Algebraic, trigonometric, exponential, and logarithmic functions are studied.

MATH 1132 – Calculus II

Pre-requisite: Regular Admission and MATH 1113 with a C or better OR appropriate math placement test score.

Co-requisite: None

This course includes the study of techniques of integration, application of the definite integral, an introduction to differential equations, improper integrals, sequences, and series.

MCHT 1011 - Introduction to Machine Tool (4)

(Replaces MCH 101)

Pre-requisite: Provisional Admission

Co-requisite: None

Introduces the fundamental concepts and procedures necessary for the safe and efficient use of basic machine tools. Topics include: machine shop safety, terminology, use of hand and bench tools, analysis of measurements, part layout, horizontal and vertical band saw setup and operation, drill press setup and operation, and quality control.

MCHT 1012 - Blueprint For Machine Tool (3)

(Replaces MCH 102 and MCH 114)

Pre-requisite: Provisional Admission

Co-requisite: None

Introduces the fundamental concepts necessary to develop blueprint reading competencies, interpret drawings, and produce sketches for machine tool applications. Topics include interpretation of blueprints, sketching, sectioning, geometric dimensioning and tolerancing, and assembly drawings.

MCHT 1013 - Machine Tool Math (3)

(Replaces MCH 104 and MCH 105)

Pre-requisite: Provisional Admission, MATH 1012

Co-requisite: None

This course develops mathematical competencies as applied to machine tool technology. Emphasis is placed on the use of machining formulas by incorporating algebraic, geometric, and trigonometric functions. Topics include machining algebra and geometry, applied geometry, and applied trigonometry.

MCHT 1020 - Heat Treatment and Surface Grinding

Pre-requisite: Program Admission

Co-requisite: None

Provides instruction in the setup, operations, maintenance, and assembly operations of surface grinders. Introduces the properties of various metals, production methods, and identification of ferrous and non-ferrous metals. Topics include: heat treatment safety, metallurgy principles, heat treatment of metals, surface grinders, surface grinder maintenance, surface grinder setup, surface grinder operations, and safety.

MCHT 1119 - Lathe Operations I (3)

(Replaces MCH 109)

Pre-requisite: Provisional Admission, MCHT 1011 and either MATH 1012, MATH 1111 or MCHT 1013

Co-requisite: None

Provides opportunities for students to develop skill in the setup and operation of metal cutting lathes. Topics include: safety, lathes parts and controls, lathe tooling and tool bit grinding, lathe calculations, lathe setup and operations.

MCHT 1120 - Mill Operations I (3)

(Replaces MCH 115)

Pre-requisite: Provisional Admission, MCHT 1011 and either MATH 1012, MATH 1111 or MCHT 1013

Co-requisite: None

Provides instruction in the setup and use of the milling machine. Topics include: safety, milling machines, milling machine setup, and milling machine operations.

MCHT 1219 - Lathe Operations II (3)

(Replaces MCH 110)

Pre-requisite: Provisional Admission, MCHT 1119

Co-requisite: None

Provides further instruction for students to develop skill in the use of lathes. Topics include: lathes, lathe setup, lathe operations, and safety.

MCHT 1220 - Mill Operations II (3)

(Replaces MCH 116)

Pre-requisite: MCHT 1120

Co-requisite: None

Provides further instruction for students to develop skills in the use of milling machines. Topics include: safety, advanced milling calculation, advanced milling machine setup and operations.

MCHT 1510 - Machine Tool Internship (3)

Pre-requisites: None

Co-requisites: None

This course provides for student work experience in an occupational environment. Topics include work skills and personnel skills development. Students will be under the supervision of the Machine Tool Technology program faculty and/or persons designated to coordinate work experience arrangements.

MEGT 1010 - Manufacturing Processes (3)

Pre-requisites: Program admission

Co-requisites: ENGT 1000 - Introduction to Engineering Technology

This course introduces industrial manufacturing processes that employ processes for material shaping, joining, machining and assembly to the student. Topics include: casting, shaping and molding of metals, ceramics and polymers; particulate processing of metals and ceramics, metal forming, machining, sheet metal working, joining and assembling, surface treatment, and manufacturing design considerations. Emphasis is provided on raw materials, quality, and costs of finished products. The course includes lab exercises that demonstrate the applications of the topics covered in actual manufacturing processes.

MEGT 1321 - Machining and Welding (2)

Pre-requisites: Program admission

Co-requisites: MEGT 1010 - Manufacturing Processes

An introduction to machining and welding technology. This course will include emphasis of use and operation of selected machinery, various machining operations, selected welding processes and precision measuring instruments to be combined with laboratory projects and safety. Topics will include industrial safety and health practices; welding quality; use of cutting and grinding tools; introduction to welding terms and symbols; shielded metal arc welding (SMAW); gas metal arc welding (GMAW); gas tungsten arc welding (GTAW); basic machining operations; and precision measuring instruments.

MGMT 1100 - Principles of Management (3)

(Replaces MSD 100 or MKT 101)

Pre-requisite: Provisional Admission

Co-requisite: None

Develops skills and behaviors necessary for successful supervision of people and their job responsibilities. Emphasis will be placed on real life concepts, personal skill development, applied knowledge and managing human resources. Course content is intended to help managers and supervisors deal with a dramatically changing workplace being affected by technology changes, a more competitive and global market place, corporate restructuring and the changing nature of work and the workforce. Topics include: Understanding the Managers Job and Work Environment; Building an Effective Organizational Culture; Leading, Directing, and the Application of Authority; Planning, Decision-Making, and Problem-Solving; Human Resource Management, Administrative Management, Organizing, and Controlling.

MGMT 1110 - Employment Law (3)

(Replaces MSD 102)

Pre-requisite: Provisional Admission

Co-requisite: None

Develops a working knowledge of the laws of employment necessary for managers. Topics include: Employment Law, the Courts, Alternative Dispute Resolution (ADR), Discrimination Law, Selecting Applicants Under the Law, OSHA and Safety, Affirmative Action, At-Will Doctrine, Right to Privacy, Fair Labor Standards Act (FLSA), Family Medical Leave Act (FMLA), Workers Compensation, Unemployment Compensation, and National Labor Relations Act.

MGMT 1115 - Leadership (3)

(Replaces MSD 103)

Pre-requisite: Provisional Admission

Co-requisite: None

This course familiarizes the student with the principles and techniques of sound leadership practices. Topics include: Characteristics of Effective Leadership Styles, History of Leadership, Leadership Models, The Relationship of Power and Leadership, Team Leadership, The Role of Leadership in Effecting Change.

MGMT 2115 - Human Resource Management (3)

(Replaces MSD 104)

Pre-requisite: Provisional Admission

Co-requisite: None

This course is designed as an overview of the Human Resource Management (HRM) function and of the manager and supervisors role in managing the career cycle from organizational entry to exit. It acquaints the student with the authority, responsibility, functions, and problems of the human resource manager, with an emphasis on developing familiarity with the real world applications required of employers and managers who increasingly are in partnership with HRM generalists and specialists in their organizations. Topics include: strategic human resource management, contemporary issues in HRM: ethics, diversity and globalization; the human resource/supervisor partnership; human resource planning and productivity; job description analysis, development, and design: recruiting, interviewing, and selecting employees; performance management and appraisal systems; employee training and development: disciplinary action and employee rights; employee compensation and benefits; labor relations and employment law; and technology applications in HRM.

MGMT 2120 - Labor Management Relations (3)

(Replaces MSD 105)

Pre-requisite: Provisional Admission

Co-requisite: None

Provides a student with an overview of the relationship of rank and file employees to management in business organizations. The nature of the workplace, the economic foundations of work organizations, and the history of the relationship between management and labor is examined. The course acquaints the student with the principles of developing positive relationships between management and labor within the context of the legal environment governing labor relations. Topics include: the nature of the American workplace; the economic history of business organizations,

the historical roots of labor-management relations; adversarial and cooperative approaches to labor relations; the legal framework of labor relations; employee-employer rights; collective bargaining and union organizing processes; union and nonunion grievance procedures; international labor relations; and the future of labor-management relations in a changing economy. Case studies, readings, and role-plays are used to simulate workplace applications in labor relations.

MKTG 1100 - Principles of Marketing (3)

(Replaces MKT 100)

Pre-requisite: None

Co-requisite: None

This course emphasizes the trends and the dynamic forces that affect the marketing process and the coordination of the marketing functions. Topics include effective communication in a marketing environment, role of marketing, knowledge of marketing principles, marketing strategy, and marketing career paths.

MKTG 1130 - Business Regulations and Compliance (3)

(Replaces MKT 103)

Pre-requisite: None

Co-requisite: None

This course introduces the study of contracts and other legal issues and obligations for businesses. Topics include: creation and evolution of laws, court decision processes, legal business structures, sales contracts, commercial papers, Uniform Commercial Code, and risk-bearing devices.

MKTG 1160 - Professional Selling (3)

(Replaces MKT 106)

Pre-requisite: None

Co-requisite: None

This course introduces professional selling skills and processes. Topics include: professional selling, product/sales knowledge, customer analysis/relations, selling process, sales presentations, and ethics of selling.

MKTG 1190 - Integrated Marketing Communication (3)

(Replaces MKT 108)

Pre-requisite: None

Co-requisite: None

This course introduces the fundamental principles and practices associated with promotion and communication. Topics include: purposes of promotion and IMC, principles of promotion and Integrated Marketing Communication (IMC), budgeting, regulations and controls, media evaluation and target market selection, integrated marketing plans, trends in promotion, and promotion and communication career paths.

MKTG 1210 - Services Marketing (3)

(Replaces MKT 208)

Pre-requisite: None

Co-requisite: None

This course introduces the marketing skills required in a service business. Topics include: foundation of services marketing, managing service delivery/encounters, services marketing strategy, and aligning strategy service design, and standards.

MKTG 1270 - Visual Merchandising (3)

(Replaces MKT 109)

Pre-requisite: None

Co-requisite: None

This course focuses on the components of the visual merchandising of goods and services. Topics include: design and color principles, tools and materials of the trade, lighting and signs, installation of displays, store planning, safety, and related areas of visual merchandising and display.

MKTG 1370 - Consumer Behavior (3)

Pre-requisite: None

Co-requisite: None

This course analyzes consumer behavior and applicable marketing strategies. Topics include: the nature of consumer behavior, influences on consumer behavior, consumer decision-making process, role of research in understanding consumer behavior, and marketing strategies.

MKTG 2000 - International Marketing (3)

(Replaces MKT 210)

Pre-requisite: MKTG 1100

Co-requisite: None

This course introduces opportunities and international strategies employed in the global marketplace. Topics include: the environment of international marketing, analyze international marketing opportunities, international market entries, design an international marketing strategy, and career paths in international marketing.

MKTG 2010 - Small Business Management (3)

(Replaces MKT 123)

Pre-requisite: None

Co-requisite: None

This course introduces competencies required in managing a small business. Topics include: nature of small business management, business management and organizational change, marketing strategies, employee relations, financial planning, and business assessment and growth.

MKTG 2060 - Marketing Channels (3)

Pre-requisite: None

Co-requisite: None

Emphasizes the design and management of marketing channels. Topics include: role of marketing channels, channel design and planning, supply chain management, logistics, and managing marketing channels.

MKTG 2070 - Buying and Merchandising (3)

(Replaces MKT 122)

Pre-requisite: None

Co-requisite: None

Develops buying and merchandising skills required in retail or e-business. Topics include: principles of merchandising, inventory control, merchandise plan, assortment planning, buying merchandise, and pricing strategies.

MKTG 2090 - Marketing Research (3)

Pre-requisite: MKTG 1100

Co-requisite: None

This course conveys marketing research methodology. Topics include: role of marketing research, marketing research process, ethics in marketing research, research design, collection data analysis, reporting, application of marketing research, and marketing research career paths.

MKTG 2210 - Entrepreneurship (6)

(Replaces MKT 110)

Pre-requisite: Provisional Admission

Co-requisite: None

This course provides an overview of the steps in establishing a business. A formal business will be created. Topics include planning, location analysis, financing, developing a business plan, and entrepreneurial ethics and social responsibility. (version 201003L)

MKTG 2270 - Retail Operations Management (3)

(Replaces MKT 125)

Pre-requisite: Provisional Admission

Co-requisite: None

This course emphasizes the planning, staffing, leading, organizing, and controlling management functions in a retail operation. Topics include: the retailing environment, retailing strategy, supply chain management, financial planning, financial strategies, employee relations, and career paths in retailing.

MKTG 2290 - Marketing Internship/Practicum (3)

(Replaces MKT 13)

Pre-requisite: Program Instructor Approval

Co-requisite: None

This course applies and reinforces marketing and employability skills in an actual job placement or practicum experience. Topics include: problem solving, adaptability to the job setting, use of proper interpersonal skills, application of marketing skills, and professional development.

MKTG 2300 - Marketing Management (3)

(Replaces MKT 228)

Pre-requisite: MKTG 1100

Co-requisite: None

This course reiterates the program outcomes for marketing management through the development of a marketing plan. Topics include: the marketing framework, the marketing plan, and preparing a marketing plan for a new product.

MSVT 1000 - Introduction to Motorsports and Race Vehicle Systems (3)

(Replaces MST 100 and MST 101)

Pre-requisite: Program Admission

Co-requisite: None

This course provides an introduction to the Motorsports industry, teams, support industries, tools, precision measurement, shop safety basics, and track and transporter safety and basics. It also provides discussion of and practical work on race vehicle systems such as chassis design, suspension and steering, engines, ignition, cooling, lubrication, clutch, transmissions, drive axles and brakes.

MSVT 1010 - Electrical Systems (4)

(Replaces MST 107)

Pre-requisite: Program Admission

Co-requisite: MSVT 1000

This course introduces the fundamental theory, diagnosis, repair and service of conventional and electronic automotive systems including electrical systems, wiring methods, wiring diagrams, mechanical wiring connections, soldering, and data acquisition.

MSVT 1020 - Motorsports Machine Tool (4)

Pre-requisite: Program Admission

Co-requisite:

This course introduces the fundamental concepts and procedures necessary for the safe and efficient use of basic machine tools. There will be an emphasis on motorsports specific projects.

MSVT 1030 - Motorsports Welding (3)

Pre-requisite: Program Admission

Co-requisite:

This course introduces welding techniques commonly used in motorsports including MIG and TIG welding, plasma cutting, welding of tubing and light gauge metals specific to motorsports.

MSVT 1040 - Gear Box and Final Drives (4)

(Replaces MST 126)

Pre-requisite: None

Co-requisite: MSVT 1000

This course introduces fundamental components, power flow, drive line theory, types of racing transmissions and drive trains, computation of gear ratios, RPM factors, and vehicle speeds related to transmission and gear ratios. The course involves removal

and replacement of transmission and rear gears in race vehicles, disassembly and diagnosis, reassembly and precision measurements involved in the procedures.

MSVT 1050 - Fabrication Techniques (6)

(Replaces MST 132)

Pre-requisite: MSVT 1030

Co-requisite: MSVT 1000

This course introduces basic welding, machining, metal fabrication techniques, and print reading used daily in the racing shop. This course furthers basic fabrication skills including tube bending, advanced welding techniques, and print reading. Students will be assigned a motorsports related fabrication project.

MSVT 1090 - Motorsports Internship I (4)

(Replaces MST 112)

Pre-requisite: MSVT 1000

Co-requisite: None

This course provides students with general on-site experience at a motorsports facility.

MSVT 2005 - Body and Chassis Design and Fabrication (5)

(Replaces MST 127 and MST 129)

Pre-requisite: MSVT 1000

Co-requisite: None

This course provides the student with the opportunity to design and fabricate the structural body and chassis of a racing car. Topics include: machine safety, stationary equipment, bend allowance, fasteners layout, parts fabrication, special fasteners, geometric functions, fabrication equipment safety, chassis design and layout, chassis parts fabrication, and the identification and proper selection of suspension components.

MSVT 2010 - Engine Design, Building and Testing (3)

(Replaces MST 134)

Pre-requisite: MSVT 1000

Co-requisite: None

This course introduces gasoline internal combustion engine design, components and functions. The course includes precision measurement of components, removal and replacement of race vehicle engine assemblies and related components, disassembly and reassembly of racing engines including push rod and over head cam designs, precision measurements, test procedures, engine run stand and dyno testing.

MSVT 2020 - Race Car Preparation and Testing (3)

(Replaces MST 136)

Pre-requisite: MSVT 1000

Co-requisite: None

This course teaches the student the proper vehicle checks prior to a track session. Students will be trained in the proper system checks, transporter preparation, track side tool organization, transporter loading techniques and race track procedures. This course also addresses proper vehicle set up and geometry, vehicle corner weight

scaling, all adjustment parameters, trackside adjustments and components changes, shock dynoing, and spring rating.

MSVT 2090 - Motorsports Internship II (4)

(Replaces MST 114)

Pre-requisite MSVT 1090

Co-requisite: None

This course provides students with advanced skills and specialized on-site experience at a motorsports facility.

MUSC 1101 - Music Appreciation (3)

Pre-requisite Appropriate Degree Level Writing (English) and Reading Placement Test Scores.

Co-requisite: None

Explores the formal elements of musical composition, musical form and style, and the relationship of music to historical periods. The course includes listening and analysis of well-known works of music. This course encourages student interest in musical arts beyond the classroom.

NAST 1100 - Nurse Aide Fundamentals (6)

(Replaces CNA 100 and AHS 104)

Pre-requisites: Program Admission

Co-requisites: None

Introduces student to the role and responsibilities of the Nurse Aide. Emphasis is placed on understanding and developing critical thinking skills, as well as demonstrating knowledge of the location and function of human body systems and common disease processes; responding to and reporting changes in a residents /patients condition, nutrition, vital signs; nutrition and diet therapy; disease processes; vital signs; observing, reporting and documenting changes in a residents condition; emergency concerns; ethics and legal issues and governmental agencies that influence the care of the elderly in long term care settings; mental health and psychosocial well-being of the elderly; use and care of mechanical devices and equipment; communication and interpersonal skills and skills competency based on federal guidelines. Specific topics include: roles and responsibilities of the Nurse Aide; communication and interpersonal skills; topography, structure, and function of the body systems; injury prevention and emergency preparedness; residents rights; basic patient care skills; personal care skills; and restorative care.

PHLT 1030 - Introduction to Venipuncture (3)

(Replaces PHL 103)

Pre-requisites: Program Admission

Co-requisites: None

This course provides an introduction to blood collecting techniques and processing specimens. Emphasis is placed on the knowledge and skills needed to collect all types of blood samples from hospitalized patients. Topics include: venipuncture procedure, safety and quality assurance; isolation techniques, venipuncture problems, and definitions; lab test profiles and patient care areas; other specimen collections and specimen processing; test combinations, skin punctures and POCT; professional ethics and malpractice; and certification and licensure.

PHLT 1050 - Clinical Practice (5)

(Replaces PHL 105)

Pre-requisites: PHLT 1030

Co-requisites: PHLT 1030

Provides work experiences in a clinical setting. Emphasis is placed on enhancing skills in venipuncture techniques. Topics include: introduction to clinical policies and procedures and work ethics; routine collections: adult, pediatric, and newborn; and special procedures.

PHYS 1111 - Introductory Physics I (3)

Pre-requisites: ENGL 1101 Composition and Rhetoric AND MATH 1112 College Trigonometry OR MATH 1113 Precalculus

Co-requisites: PHYS 1111L - Introductory Physics Lab I

The first course of two algebra and trigonometry based courses in the physics sequence. Topics include material from mechanics (kinematics, dynamics, work and energy, momentum and collisions, rotational motion, static equilibrium, elasticity theory, and simple harmonic motion), mechanical waves, theory of heat and heat transfer, and thermodynamics.

PHYS 1111L - Introductory Physics Lab I (1)

Pre-requisites: ENGL 1101 Composition and Rhetoric AND MATH 1112 College Trigonometry OR MATH 1113 Precalculus

Co-requisites: PHYS 1111 - Introductory Physics I

Selected laboratory exercises paralleling the topics in PHYS 1111. The laboratory exercises for this course include units of measurement, Newton's laws, work energy and power, momentum and collisions, one- and two-dimensional motion, circular motion and law of gravity, rotational dynamics and static equilibrium, elasticity theory, harmonic motion, theory of heat and heat transfer, thermodynamics, wave motion, and sound.

PHYS 1112 - Introductory Physics II (3)

Pre-requisites: PHYS 1111 - Introductory Physics I (201003L)

PHYS 1111L - Introductory Physics Lab I

Co-requisites: PHYS 1112L - Introductory Physics Lab

The second of two algebra and trigonometry based courses in the physics sequence. Topics include material from electricity and magnetism (electric charge, electric forces and fields, electric potential energy, electric potential, capacitance, magnetism, electric current, resistance, basic electric circuits, alternating current circuits, and electromagnetic waves), geometric optics (reflection and refraction), and physical optics(interference and diffraction).

PHYS 1112L - Introductory Physics Lab II (1)

Pre-requisites: PHYS 1111 - Introductory Physics I AND PHYS 1111L - Introductory Physics Lab I

Co-requisites: PHYS 1112 - Introductory Physics

Selected laboratory exercises paralleling the topics in PHYS 1112. The laboratory exercises for this course include material from electricity and magnetism, geometric optics, and physical optics.

PNSG 2010 - Introduction to Pharmacology and Clinical Calculations (2)

Pre-requisites: Program Admission

Co-requisites: None

Applies fundamental mathematical concepts and includes basic drug administration. Emphasizes critical thinking skills. Topics include: systems of measurement, calculating drug problems, resource materials usage, fundamental pharmacology, administering medications in a simulated clinical environment, principles of IV therapy techniques, and client education.

PNSG 2030 - Nursing Fundamentals (6)

Pre-requisites: Program Admission

Co-requisites: None

An introduction to the nursing process. Topics include: nursing as a profession; ethics and law; client care which is defined as using the nursing process, using critical thinking, and providing client education and includes principles and skills of nursing practice, documentation, and an introduction to physical assessment; customer/client relationships; standard precautions; basic life support; infection control/bloodborne/airborne pathogens; and basic emergency care/first aid and triage.

PNSG 2035 - Nursing Fundamentals Clinical (2)

Pre-requisites: Program Admission

Co-requisites: None

An introduction to nursing practice in the clinical setting. Topics include but are not limited to: history taking, physical assessment, nursing process, critical thinking, activities of daily living, documentation, client education, and standard precautions.

PNSG 2210 - Medical-Surgical Nursing I (4)

Pre-requisites: Program Admission

Co-requisites: None

Focuses on client care including using the nursing process, performing assessments, using critical thinking, engaging in client education and displaying cultural competence across the life span and with attention to special populations. Topics include: health management and maintenance; prevention of illness; care of the individual as a whole; hygiene and personal care; mobility and biomechanics; fluid and electrolytes; oxygen care; preoperative care; immunology; as well as pathological diseases, disorders and deviations from the normal state of health, client care, treatment, pharmacology, nutrition and standard precautions with regard to the cardiovascular, respiratory, and hematological and immunological systems.

PNSG 2220 - Medical-Surgical Nursing II (4)

Pre-requisites: Program Admission

Co-requisites: None

This second course in a series of four focuses on client care including using the nursing process, performing assessments, using critical thinking, engaging in client education and displaying cultural competence across the life span and with attention to special populations. Topics include: health management and maintenance; prevention of illness; care of the individual as a whole; as well as pathological diseases, disorders and deviations from the normal state of health, client care,

treatment, pharmacology, nutrition and standard precautions with regard to the endocrine, gastrointestinal, and urinary system.

PNSG 2230 - Medical-Surgical Nursing III (4)

Pre-requisites: Program Admission

Co-requisites: None

This third course in a series of four focuses on client care including using the nursing process, performing assessments, using critical thinking, engaging in client education and displaying cultural competence across the life span and with attention to special populations. Topics include: health management and maintenance; prevention of illness; care of the individual as a whole; mental health; as well as pathological diseases, disorders and deviations from the normal state of health, client care, treatment, pharmacology, nutrition and standard precautions with regard to the neurological, sensory, and musculoskeletal systems.

PNSG 2240 - Medical-Surgical Nursing IV (4)

Pre-requisites: Program Admission

Co-requisites: None

This fourth course in a series of four courses focuses on client care including using the nursing process, performing assessments, using critical thinking, engaging in client education and displaying cultural competence across the life span and with attention to special populations. Topics include: health management and maintenance; prevention of illness; care of the individual as a whole, oncology; as well as pathological diseases, disorders and deviations from the normal state of health, client care, treatment, pharmacology, nutrition and standard precautions with regard to the integumentary and reproductive systems.

PNSG 2250 - Maternity Nursing (3)

Pre-requisites: Program Admission

Co-requisites: None

Focuses on health management and maintenance and the prevention of illness, care of the individual as a whole, and deviations from the normal state of health. The definition of client care includes using the nursing process, performing assessments, using critical thinking, providing client education, displaying cultural competence across the life span and with attention to special populations. Topics include: health management and maintenance and prevention of illness, care of the individual as a whole, pathological and nonpathological concerns in obstetric clients and the newborn; client care, treatments, pharmacology, and diet therapy related to obstetric clients and the newborn; and standard precautions.

PNSG 2255 - Maternity Nursing Clinical (1)

Pre-requisites: Program Admission

Co-requisites: None

Focuses on clinical health management and maintenance and the prevention of illness, care of the individual as a whole, and deviations from the normal state of health. The definition of client care includes using the nursing process, performing assessments, using critical thinking, providing client education, displaying cultural competence across the life span and with attention to special populations. Topics include: health management and maintenance and prevention of illness, care of the individual as a whole, pathological and non-pathological concerns in obstetric clients

and the newborn; client care, treatments, pharmacology, and diet therapy related to obstetric clients and the newborn; and standard precautions.

PNSG 2310 - Medical-Surgical Nursing Clinical I (2)

Pre-requisites: Program Admission

Co-requisites: None

This first clinical course, in a series of four medical-surgical clinical courses, focuses on clinical client care including using the nursing process, performing assessments, applying critical thinking, engaging in client education and displaying cultural competence across the life span and with attention to special populations. At the completion of the four part sequence of these medical-surgical clinical courses students will have completed a minimum of 412.5 hours of clinical experience including 300 hours of comprehensive medical-surgical, 37.5 hours of maternal, 37.5 pediatric and 37.5 pediatric experiences. Topics include: health management and maintenance; prevention of illness; care of the individual as a whole; hygiene and personal care; mobility and biomechanics; fluid and electrolytes; oxygen care; perioperative care; immunology; mental health; and oncology. In addition pathological diseases, disorders and deviations from the normal state of health, client care, treatment, pharmacology, nutrition and standard precautions with regard to cardiovascular, hematological, immunological, respiratory, neurological, sensory, musculoskeletal, endocrine, gastrointestinal, urinary, integumentary and reproductive systems.

PNSG 2320 - Medical-Surgical Nursing Clinical II (2)

Pre-requisites: Program Admission

Co-requisites: None

This second clinical course, in a series of four medical-surgical clinical courses, focuses on clinical client care including using the nursing process, performing assessments, applying critical thinking, engaging in client education and displaying cultural competence across the life span and with attention to special populations. At the completion of the four part sequence of these medical-surgical clinical courses students will have completed a minimum of 412.5 hours of clinical experience including 300 hours of comprehensive medical-surgical, 37.5 hours of maternal, 37.5 pediatric and 37.5 pediatric experiences. Topics include: health management and maintenance; prevention of illness; care of the individual as a whole; hygiene and personal care; mobility and biomechanics; fluid and electrolytes; oxygen care; preoperative care; immunology; mental health; and oncology. In addition pathological diseases, disorders and deviations from the normal state of health, client care, treatment, pharmacology, nutrition and standard precautions with regard to cardiovascular, hematological, immunological, respiratory, neurological, sensory, musculoskeletal, endocrine, gastrointestinal, urinary, integumentary and reproductive systems.

PNSG 2330 - Medical-Surgical Nursing Clinical III (2)

Pre-requisites: Program Admission

Co-requisites: None

This third clinical course, in a series of four medical-surgical clinical courses, focuses on clinical client care including using the nursing process, performing assessments, applying critical thinking, engaging in client education and displaying cultural competence across the life span and with attention to special populations. At the

completion of the four part sequence of these medical-surgical clinical courses students will have completed a minimum of 412.5 hours of clinical experience including 300 hours of comprehensive medical-surgical, 37.5 hours of maternal, 37.5 pediatric and 37.5 pediatric experiences. Topics include: health management and maintenance; prevention of illness; care of the individual as a whole; hygiene and personal care; mobility and biomechanics; fluid and electrolytes; oxygen care; preoperative care; immunology; mental health; and oncology. In addition pathological diseases, disorders and deviations from the normal state of health, client care, treatment, pharmacology, nutrition and standard precautions with regard to cardiovascular, hematological, immunological, respiratory, neurological, sensory, musculoskeletal, endocrine, gastrointestinal, urinary, integumentary and reproductive systems.

PNSG 2340 - Medical-Surgical Nursing Clinical IV (2)

Pre-requisites: Program Admission

Co-requisites: None

This fourth clinical course, in a series of four medical-surgical clinical courses, focuses on clinical client care including using the nursing process, performing assessments, applying critical thinking, engaging in client education and displaying cultural competence across the life span and with attention to special populations. At the completion of the four part sequence of these medical-surgical clinical courses students will have completed a minimum of 412.5 hours of clinical experience including 300 hours of comprehensive medical-surgical, 37.5 hours of maternal, 37.5 pediatric and 37.5 pediatric experiences. Topics include: health management and maintenance; prevention of illness; care of the individual as a whole; hygiene and personal care; mobility and biomechanics; fluid and electrolytes; oxygen care; perioperative care; immunology; mental health; and oncology. In addition pathological diseases, disorders and deviations from the normal state of health, client care, treatment, pharmacology, nutrition and standard precautions with regard to cardiovascular, hematological, immunological, respiratory, neurological, sensory, musculoskeletal, endocrine, gastrointestinal, urinary, integumentary and reproductive systems.

PNSG 2410 - Nursing Leadership (1)

Pre-requisites: Program Admission

Co-requisites: None

Builds on the concepts presented in prior nursing courses and develops the skills necessary for successful performance in the job market. Topics include: application of the nursing process, supervisory skills, client education methods, group dynamics and conflict resolution.

PNSG 2415 - Nursing Leadership Clinical (2)

Pre-requisites: Program Admission

Co-requisites: None

Builds on the concepts presented in prior nursing courses and develops the clinical skills necessary for successful performance in the job market, focusing on practical applications. Topics include: application of the nursing process, critical thinking, supervisory skills, client education methods, and group dynamics.

PPOT 1000 - Pulp and Paper Chemistry (3)

Pre-requisite: None

Co-requisite: None

This course provides an introduction and general understanding of chemistry in the pulp and paper industry.

PPOT 1010 - Pulping, Washing, and Chemical Recovery (3)

Pre-requisites: Program Admission

Co-requisites: None

This class provides a historical review of the pulp, paper, and recycles industry. It gives an introduction to raw materials used in the manufacture of pulp and paper products and their characteristics. Includes wood and chip handling, mechanical, sulfate and Kraft pulping, cooking equipment, brown stock washing and chemical recovery.

PPOT 1020 - Pulp Screening, Bleaching and Recycling (3)

Pre-requisite: None

Co-requisite: None

This course provides a description of the pulp screening, bleaching and recycling process.

PPOT 1030 - Pulp and Paper Machine and Finishing Operations (3)

Pre-requisite: None

Co-requisite: None

This course provides a description and understanding of the pulp and paper machine and the finishing operations.

PPOT 1040 - Quality/Operations Management & Pollution Abatement (3)

Pre-requisite: None

Co-requisite: None

This course provides a knowledge and understanding of quality/operations management and pollution abatement.

PSYC 1010 - Basic Psychology (3)

(Replaces PSY 1010 or PSY 101)

Pre-requisite: None

Co-requisite: None

Presents basic concepts within the field of psychology and their application to everyday human behavior, thinking, and emotion. Emphasis is placed on students understanding basic psychological principles and their application within the context of family, work and social interactions. Topics include an overview of psychology as a science, the nervous and sensory systems, learning and memory, motivation and emotion, intelligence, lifespan development, personality, psychological disorders and their treatment, stress and health, and social relations.

PSYC 1101 - Introductory Psychology (3)

(Replaces PSY 1101 or PSY 191)

Pre-requisite: Program Admission

Co-requisite: None

Introduces the major fields of contemporary psychology. Emphasis is on fundamental principles of psychology as a science. Topics include research design, the organization and operation of the nervous system, sensation and perception, learning and memory, motivation and emotion, thinking and intelligence, lifespan development, personality, psychopathology and interventions, stress and health, and social psychology.

RCRT 1106 - Introduction to Railcar Structural Components (2)

(Replaces RRT 106)

Pre-requisites: None

Co-requisites: None

Introduces the structural and load bearing components of all classifications of rail cars.

RCRT 1108 - AAR Rules and Regulations (3)

(Replaces RRT 108)

Pre-requisites: None

Co-requisites: None

Introduces the Association of American Railroads (AAR) guidelines and standards for repair of all classifications of railcars. The student will become familiar with the AAR Field Manual as a guide to the fair and proper handling of all railcar repair matters.

RCRT 1110 - Railcar Air Brake Equipment and Technology (3)

(Replaces RRT 110)

Pre-requisites: None

Co-requisites: None

Introduces students to air brakes parts and components, testing, and repair and replacement of components to meet standards.

RCRT 1112 - Railcar Components Parts Repair (3)

(Replaces RRT 112)

Pre-requisites: None

Co-requisites: None

Introduces students to the repair of couplers, wheels, axles, and trucks and the recognition of worn or defective parts.

RCRT 1114 - Railcar Equipment and Accessories Repair (3)

(Replaces RRT 114)

Pre-requisites: None

Co-requisites: None

Introduces students to general repairs of minor components of all classifications of railcars such as doors, ladders, load restraints and securement and refrigeration equipment.

READ 0096 - Reading I (3)

(Replaces RDG 096)

Pre-requisite: Appropriate reading score

Co-requisite: None

Emphasizes the strengthening of fundamental reading competencies. Topics include vocabulary skills, comprehension skills, and study skills. Emphasizes the strengthening of fundamental reading, competencies. Topics include vocabulary skills, comprehension skills, and study skills.

READ 0097 - Reading II (3)

(Replaces RDG 097)

Pre-requisite: READ 0096 - Reading I OR Appropriate entrance reading score.

Co-requisite: None

Emphasizes vocabulary, comprehension, and critical reading skills development. Topics include vocabulary skills, comprehension skills, critical reading skills, study skills, and content area reading skills.

READ 0098 - Reading III (3)

(Replaces RDG 098)

Pre-requisite: READ 0097 - Reading II or Appropriate entrance reading score.

Co-requisite: None

Provides instruction in vocabulary and comprehension skills with emphasis on critical reading skills. Topics include vocabulary skills, comprehension skills, critical reading skills, study skills, and content area reading skills.

RELM 2010 - Introduction to Recreation and Leisure Management (3)

(Replaces RLM 201 and RLM 240)

Pre-requisites: None

Co-requisites: None

This course will provide the student with an understanding of the sociological, philosophical, economical and historical aspects of recreation and leisure. This course will also provide an introduction to recreation as a profession and investigate contemporary issues in recreation and leisure.

RELM 2020 - Recreation Leadership and Supervision (3)

(Replaces RLM 209)

Pre-requisites: None

Co-requisites: None

This course provides theories and techniques in leadership, group dynamics, and personnel management as they relate to programming and staff supervision in recreation agencies, Emphasis is on personnel management techniques, including job analysis, recruitment and career development.

RELM 2030 - Recreational Facility Management and Design (3)

(Replaces RLM 230)

Pre-requisites: None

Co-requisites: None

This course provides students with learning experiences in the administrative tasks of planning and designing new recreational facilities, and renovating and maintaining existing recreational and leisure facilities.

RELM 2040 - Program Planning in Recreation (3)

(Replaces RLM 213)

Pre-requisites: None

Co-requisites: None

This course provides practical knowledge and experiences in the essential elements and design concepts of program planning. Emphasis is placed on student involvement in planning and directing programs for diverse populations in a variety of settings.

RELM 2042 - Beginning Tennis (2)

(Replaces RLM 242)

Pre-requisites: None

Co-requisites: None

This course provides students with the basic knowledge, techniques, and skills for tennis which prepares them to participate in an activity which promotes a healthy and active lifestyle.

RELM 2043 - Weight Training (2)

(Replaces RLM 243)

Pre-requisites: None

Co-requisites: None

This course provides students with the basic knowledge, techniques and skills for weight training which prepares them to participate in an activity which promotes healthy and active lifestyles.

RELM 2045 - Beginning Golf (2)

(Replaces RLM 245)

Pre-requisites: None

Co-requisites: None

This course provides students with the basic knowledge, techniques and skills which prepares them to participate in an activity which promotes a healthy and active lifestyle.

RELM 2046 - Volleyball (2)

(Replaces RLM 246)

Pre-requisites: None

Co-requisites: None

This course provides students with the basic knowledge, techniques, and skills which prepares them to participate in an activity which promotes a healthy and active lifestyle.

RELM 2050 - Recreation and Leisure Management Internship (8)

(Replaces RLM 247)

Pre-requisites: None

Co-requisites: None

This course will provide the student with practical experience under the supervision of a professional recreation agency. The experience will allow the student to test the practical application of theories of Recreation and Leisure Management under the guidance and supervision of a recreational agency professional.

SOCI 1101 - Introduction to Sociology (3)

(Replaces SOC 1101 or SOC 191)

Pre-requisite: Program Admission

Co-requisite: None

Explores the sociological analysis of society, its culture, and structure. Sociology is presented as a science with emphasis placed on its methodology and theoretical foundations. Topics include basic sociological concepts, socialization, social interaction and culture, social groups and institutions, deviance and social control, social stratification, social change, and marriage and family.

SPCH 1101 - Public Speaking (3)

(Replaces SPC 1101 or SPC 191)

Pre-requisites: Program Admission or ENGL 0098

Co-requisites: None

Introduces the student to the fundamentals of oral communication. Topics include selection and organization of materials, preparation and delivery of individual and group presentations, analysis of ideas presented by others, and professionalism.

UEQT 1100 - Utility Equipment Organization Principles (3)

(Replaces UET 110)

Pre-requisite: None

Co-requisite: None

This course is an introduction to utility equipment. Topics include introduction to utility equipment, utility equipment requirements, mechanical ability requirements, general safety, basic computer knowledge, and positive work ethics.

UEQT 1110 - Utility Equipment Mechanical and Hydraulic Skill Development (3)

(Replaces UET 111)

Pre-requisite: None

Co-requisite: None

This course introduces utility hydraulic and mechanical equipment. Topics include power tools, fasteners, bearings, lubrications, basic hydraulic training, basic electrical training, and safety in the workplace.

UEQT 1120 - Utility Equipment Workplace Skills (3)

(Replaces UET 112)

Pre-requisite: None

Co-requisite: None

This course prepares students to communicate effectively in the utility equipment industry workplace. Topics include effective communication, working together in

teams, managing change, developing a positive image, interviewing skills, and problem solving.

UEQT 1130 - Utility Equipment Occupational Skills (3)

(Replaces UET 113)

Pre-requisite: None

Co-requisite: None

This course introduces occupational skills in utility equipment repair. Topics include hydraulic schematic interpretation, electrical schematic interpretation, unit lubrication, and hydraulic fluids and oils.

UEQT 1140 - Utility Equipment Aerial Device Service (2)

(Replaces UET 114)

Pre-requisite: None

Co-requisite: None

This course provides an understanding of the techniques of disassembling, assembling, and reinstalling utility units. Topics include unit tear down and reinstall, parts identification, and manual usage.

UEQT 1150 - Utility Equipment Component Rebuild (2)

(Replaces UET 115)

Pre-requisite: None

Co-requisite: None

This course provides an understanding of utility equipment component rebuild. Topics include rebuilding of rotation gear boxes, Digger Eskridge gear boxes, Derrick and aerial rotation joints, cylinders, pumps, and control valves.

UEQT 1160 - Utility Equipment Fluid Power Training and Certification (2)

(Replaces UET 116)

Pre-requisite: None

Co-requisite: None

This course prepares students for utility equipment written and hands-on competency exam. Topics include manual review and symbols, hands-on review and written and hands-on exam.

WELD 1000 - Introduction to Welding Technology (3)

(Replaces WLD 100)

Pre-requisite: Provisional Admission

Co-requisite: None

Provides an introduction to welding technology with an emphasis on basic welding laboratory principles and operating procedures. Topics include: industrial safety and health practices, hand tool and power machine use, measurement, laboratory operating procedures, welding power sources, welding career potentials, and introduction to welding codes and standards.

WELD 1010 - Oxyfuel Cutting (3)

(Replaces WLD 101)

Pre-requisite: None

Co-requisite: WELD 1000

Introduces fundamental principles, safety practices, equipment, and techniques necessary for metal heating and oxyfuel cutting. Topics include: metal heating and cutting principles, safety procedures, use of cutting torches and apparatus, metal heating techniques, metal cutting techniques, manual and automatic oxyfuel cutting techniques, and oxyfuel pipe cutting. Practice in the laboratory is provided.

WELD 1020 - Oxyacetylene Welding (2)

(Replaces WLD 102)

Pre-requisite: None

Co-requisite: None

Introduces the fundamental theory, safety practices, equipment, and techniques necessary to perform basic oxyacetylene welding operations. Topics include: welding theory; oxyacetylene welding safety; use of gas cylinders and regulators; use of torches, tips, and apparatus; welding without filler rods; running beads with filler rods; butt, open butt, and lap joints; and brazing and soldering. Practice in the laboratory is provided.

WELD 1030 - Blueprint Reading For Welding Technology (3)

(Replaces WLD 103)

Pre-requisite: None

Co-requisite: WELD 1000

This course introduces the knowledge and skills necessary for reading welding and related blueprints and sketches. An emphasis is placed on identifying types of welds, and the associated abbreviations and symbols.

WELD 1040 - Flat Shielded Metal Arc Welding (4)

(Replaces WLD 104)

Pre-requisite: None

Co-requisite: WELD 1000

This course introduces the major theory, safety practices, and techniques required for shielded metal arc welding (SMAW) in flat positions. Qualification tests, flat position, are used in the evaluation of student progress toward making industrial welds.

WELD 1050 - Horizontal Shielded Metal Arc Welding (4)

(Replaces WLD 105)

Pre-requisite: None

Co-requisite: WELD 1040

Introduces the major theory, safety practices, and techniques required for shielded metal arc welding (SMAW) in the horizontal position. Qualification tests, horizontal position, are used in the evaluation of student progress toward making industrial standard welds. Topics include: horizontal SMAW safety and health practices, selection and applications of electrodes, selection and applications for horizontal SMAW, horizontal SMAW joints, and horizontal SMAW to specification.

WELD 1060 - Vertical Shielded Metal Arc Welding (4)

(Replaces WLD 106)

Pre-requisite: None

Co-requisite: WELD 1040, WELD 1050

Introduces the major theory, safety practices, and techniques required for shielded metal arc welding (SMAW) in the vertical position. Qualification tests, vertical position, are used in the evaluation of student progress toward making industrial standard welds. Topics include: vertical SMAW safety and health practices, selection and applications of electrodes for vertical SMAW, vertical SMAW joints, and vertical SMAW to specification.

WELD 1070 - Overhead Shielded Metal Arc Welding (4)

(Replaces WLD 107)

Pre-requisite: None

Co-requisite: WELD 1060

Introduces the major theory, safety practices, and techniques required for shielded metal arc welding (SMAW) in the overhead position. Qualification tests, overhead position, are used in the evaluation of student progress toward making industrial standard welds. Topics include: overhead SMAW safety and health practices, selection and applications of electrodes for overhead SMAW, overhead SMAW joints, and overhead SMAW to specification.

WELD 1090 - Gas Metal Arc Welding (4)

(Replaces WLD 109)

Pre-requisite: None

Co-requisite: WELD 1000

Provides knowledge of theory, safety practices, equipment and techniques required for successful gas metal arc welding. Qualification tests, all positions, are used in the evaluation of student progress toward machines, and set up; transfer modes; wire selection; shielded gas selection; and GMAW joints in all positions. Provides knowledge of theory, safety practices, equipment and techniques required for successful gas metal arc welding. Qualification tests, all positions, are used in the evaluation of student progress toward making industrial standard welds. Topics include: GMAW safety and health practices; GMAW theory, machines, and set up; transfer modes; wire selection; shielded gas selection; and GMAW joints in all positions.

WELD 1110 - Gas Tungsten Arc Welding (4)

(Replaces WLD 110)

Pre-requisite: None

Co-requisite: WELD 1000

Provides knowledge of theory, safety practices, inert gas, equipment, and techniques required for successful gas tungsten arc welding. Qualification tests, all positions, are used in the evaluating of student progress toward making industrial standard welds. Topics include: GTAW safety and health practices; shielding gases; metal cleaning procedures; GTAW machines and set up; selection of filler rods; GTAW weld positions; and production of GTAW beads, bead patterns, and joints.

WELD 1120 - Preparation for Industrial Qualification (3)

(Replaces WLD 112)

Pre-requisite: None

Co-requisite: WELD 1040, WELD 1070, WELD 1090, WELD 1100

Introduces industrial qualification methods, procedures, and requirements. Students are prepared to meet the qualification criteria of selected national welding codes and standards. Topics include: test methods and procedures, national industrial codes and standards, fillet and groove weld specimens, and preparation for qualifications and job entry. Introduces industrial qualification methods, procedures, and requirements. Students are prepared to meet the qualification criteria of selected national welding codes and standards. Topics include: test methods and procedures, national industrial codes and standards, fillet and groove weld specimens, and preparation for qualifications and job entry.

WELD 1150 - Advanced Gas Tungsten Arc Welding (3)

(Replaces WLD 150)

Pre-requisite: WELD 1000

Co-requisite: None

Provides knowledge of theory, safety practices, inert gas, equipment, and techniques required for successful advanced gas tungsten arc welding (GTAW). Qualification tests, all positions, are used in the evaluation of student progress toward making advanced level industrial standard welds. Topics include: GTAW safety and health practices; shielding gases; metal cleaning procedures; GTAW machines and equipment set up; selection of filler rods; GTAW weld positions; and advanced production of GTAW beads, bead patterns, and joints.

WELD 1151 - Fabrication Processes (3)

(Replaces WLD 151)

Pre-requisite: WELD 1000

Co-requisite: None

Presents practices common in the welding and metal fabrication industry. Topics include: metal fabrication safety and health practices and metal fabrication procedures.

WELD 1152 - Pipe Welding (3)

(Replaces WLD 152)

Pre-requisite: Program Admission

Co-requisite: None

Provides the opportunity to apply skills to pipe welding operations. Topics include: pipe welding safety and health practices, pipe welding nomenclature, pipe layout and preparation, pipe joint assembly, horizontal welds on pipe (2G), vertical welds on pipe (5G), and welds on 45 degree angle pipe (6G).

WELD 1153 - Flux Cored Arc Welding (4)

(Replaces WLD 153)

Pre-requisite: WELD 1000

Co-requisite: None

Provides knowledge of theory, safety practices, equipment, and techniques required for successful flux cored arc welding (FCAW). Qualification tests, all positions, are

used in the evaluation of student progress toward making industrial standards welds. Topics include: FCAW safety and health practices, FCAW theory, machine set up and operation, shielded gas selection, and FCAW joints in all positions.

WELD 1154 - Plasma Cutting (3)

(Replaces WLD 154)

Pre-requisite: WELD 1000

Co-requisite: None

Provides knowledge of theory, safety practices, equipment, and techniques required for plasma cutting. Topics include: safety practices; plasma torch and theory; plasma machine set up and operation; and plasma cutting techniques.

WELD 1156 - Ornamental Iron Works (3)

(Replaces WLD 156)

Pre-requisite: WELD 1010, WELD 1030, WELD 1040, WELD 1090

Co-requisite: None

Provides an introduction to ornamental ironworks with emphasis on safety practices, equipment and ornamental ironwork techniques. Topics include: introduction to ornamental ironworks and safety practices; use of scroll machine, and use of bar twister.

WELD 1330 - Metal Welding and Cutting Techniques (2)

(Replaces WLD 133)

Pre-requisite: Provisional Admission

Co-requisite: None

This course provides instruction in the fundamentals of metal welding and cutting techniques. Instruction is provided in safety and health practices, metal fabrication preparation, and metal fabrication procedures.

WELD 1500 - Welding and Joining Technology Practicum/Internship (3)

(Replaces WLD 160)

Pre-requisite: None

Co-requisite: None

Provides additional skills application in an industrial setting through a cooperative agreement among industry, the Welding Joining Technology program, and the student to furnish employment in a variety of welding occupations. Emphasizes student opportunities to practice welding skills in a hands on situation and to work in an industrial environment under the supervision of a master welding technician. Supplements and complements the courses taught in the Welding and Joining Technology program. Topics include: application of welding and joining skills, appropriate employability skills, problem solving, adaptability to job equipment and technology, progressive productivity, and acceptable job performance.

WELD 2040 - Underwater Welding and Cutting (5)

(Replaces WLD 204)

Pre-requisites: None

Co-requisites: None

The Underwater Welding and Cutting course provides technical knowledge of theory, safe practices, commercial diving techniques and equipment usage for successful underwater welding and cutting.

FACULTY CREDENTIALS

Annita Carter Barron, Business Administrative Technology

M.S.A., B.S., Georgia Southwestern State University; 21 years occupational experience; MOUS Certified in Microsoft Word, Excel, PowerPoint, and Access.

John Kevin Beaver, Motorsports Vehicle Technology

Attended Georgia Southwestern State University, general core courses; 16 years occupational experience.

Sara Ann Benson, Accounting

M.S.A., B.S., Georgia Southwestern State University; 20 years occupational experience.

Karen Bloodworth, Marketing Management

M.S., BBA, GA Southwestern State University; AA Middle GA College; 36 years occupational experience.

Brenda H. Boone, Accounting

B.B.A., Albany State University; 28 years occupational experience.

Matthew Burks, Agricultural Technology

A.A.S., South Georgia Technical College; 11 years occupational experience.

Brenda Butler-Gilliam, Welding and Joining Technology

Attended Hobart College of Welding Technology, 25 years occupational experience; Certifications: AWS Certified Welding Inspector, AWS Certified Welding Educator, API Certified Tank Inspector, P & G Certified Pressure Vessel Inspector, Level Two Ultrasonic Inspector, Certified Pipe Welder, Certified Structural Welder.

Jennifer Childs, Practical Nursing

B.S.N., Georgia Southern University; 9 years teaching experience; 8 years occupational experience; License: Georgia Board of Nursing, Registered Professional Nurse (RN).

Charles Christmas, Aviation Maintenance Technology

B. A. Eckerd College; 16 Years occupational experience; License: Airframe & Powerplant (A&P).

Glynn Cobb, Air Conditioning Technology

A.A.S. degree, Georgia Southwestern State University; Diploma, Advanced Air Conditioning Technology, South Georgia Technical College; 14 years occupational experience; EPA Certification.

Mark Collier, Environmental Horticulture

M.P.A. Georgia College; B.S., University of Georgia; 16 years occupational experience; GA Certified Landscape Professional

Michael Collins, Electronics Technology

A.A.S Degree, Georgia Southwestern State University; Diploma, South Georgia Technical College; Undergraduate studies, Georgia Southwestern State University; 13 years occupational experience.

Robert Cook, Commercial Truck Driving

CLD, South Georgia Technical College; 18 years occupational experience.

Jaye Cripe, Early Childhood Care and Education

M. Ed., Georgia Southwestern State University; B.S.Ed., University of Georgia; Certifications(s): Americus Red Cross CPR and First Aid Instruction.

Mary L. Cross, Marketing Management

M.S., Troy State University; B.S. Albany State University; 6 years occupational experience; Certification(s): Education Certification, Customer Services.

Johnny Davis, Culinary Arts

A.S, Culinary Institute of America; 12 years occupational experience.

Richard Davis, Heavy Equipment Dealers Service Technology

A.A.S., Georgia Southwestern State University; Diploma, South Georgia Technical College, Undergraduate studies, Valdosta State University; 12 years occupational experience; Certification(s): ASE Master Truck Technician, Caterpillar General Diesel Engines, Hydraulics, Power Trains, Electrical Systems, Machine Diagnostics I & II, 1.1 & 1.2 Liter Fuel Systems/Adjustments; Cummins PACE, CBT, and INSITE; Kenworth Electrical/Electronic Systems.

Brandon Dean, Automotive Technology

A.A.S., Georgia Southwestern State University; Diploma, South Georgia Technical College; 6 years occupational experience; IMACA Certified; Ford factory trained.

Heather Denham, Medical Assisting

A.S.N., Darton College; B.B.A., Georgia Southern; B.S.N., Georgia Southwestern State University; 7 years occupational experience.

Phil Deese, Industrial Systems Technology

Attended Georgia Southwestern State University—courses in Automated Manufacturing; attended Macomb College—courses in Fluid Power Technology; attended South Georgia Technical College—courses in AC, DC, and Industrial Systems; 32 years occupational experience.

Walter Dennard, Barbering

Diploma, Southeastern Beauty and Barbering School; 16 years occupational experience; Master Barber License.

Jonathan Donnelly, Agricultural Technology

A.A.S., South Georgia Technical College; 4 years occupational experience.

Mike Enfinger, Industrial Electrical Technology

A.A.S. Georgia Southwestern State University; Diploma, South Georgia Technical College; 25 years occupational experience; State Heating and Air License; Georgia State Construction Conditioned Air License; ACCA Refrigerant Transition and Recovery Certification, Registered Proctor for the Air Conditioning Contractors of America for the Refrigerant Transition and Recovery Certification; NATE Testing Organization Proctor; Various Rockwell Automation training certificates.

Ted Eschmann, Welding and Joining Technology

Diploma, South Georgia Technical College; 9 Years occupational experience.

Paul Farr, General Education and Law

J.D., Mercer University; B.A., LaGrange College; M.A., Georgia Southwestern State University; 13 years occupational experience.

Cathy Freeman, Practical Nursing

B.S.N., A.D.N. Georgia Southwestern State University; M.S.N. in progress, Valdosta State University; 36 years occupational experience; License: Georgia Board of Nursing, Registered Professional Nurse (RN)

James Frey, Recreation and Leisure Management

B.S., Troy University; 10 years occupational experience.

Vicki O. Gilbert, Medical Assisting

B.S.N., Georgia Southwestern State University; 30 years occupational experience; License: Georgia Board of Nursing, Registered Professional Nurse (RN).

Shelly B. Godwin, General Education (English)

M.Ed., B.A., Georgia Southwestern State University.

Randall E. Greene, Computer Information Systems

M.S.A., B.B.A. Georgia Southwestern State University; Certification(s): A+; Network+; MCP; Enterprise Networking Professional, Florida State University; 17 years occupational experience.

Stephen Griffin, Aviation Maintenance Technology

A.D., Hinds Community College; 13 years occupational experience; License: Airframe & Powerplant (A&P).

James Halford, Industrial Electrical Technology

Diploma, South Georgia Technical College; 10 years occupational experience; State of Georgia Electrical Contractor License, non-restricted; OutReach Certification, Supervisory Management; OSHA 500; OSHA Construction.

Kyle Hartsfield, Heavy Equipment Dealers Service Technology

A.D., South Georgia Technical College; 6 years occupational experience.

Victoria Herron, Aviation Maintenance Technology

Diplomas, South GA Technical College; 10 years occupational experience; License: Airframe & Powerplant (A&P).

Matthew K. Hunt, Emergency Medical Technology

B.S.Ed., Valdosta State University; Critical Care Paramedic Program, University of Maryland at Baltimore; Diploma, Valdosta Technical College; Certificate, Moultrie Technical College; 20 years occupational experience. Certifications: EMT Intermediate, ACLS, CPR, BTLs, PBTLS, American Heart Association First Aid Instructor, Farmedic-Agricultural Rescue.

Andrea C. Ingram, Computer Information Systems

M.S.A., B.S. Georgia Southwestern State University; Certification(s): A+, MCP, MCSE+I, CCNA, CCIA; 8 years occupational experience.

Teresa Jolly, Business Administrative Technology

M.Ed., B.B.A., Georgia Southwestern University; A.A. South Georgia College; 12 years occupational experience. MOUS certified in Word (Expert) and Excel (Expert).

Craig Kelly, Diesel Equipment Technology

Diploma, South Georgia Technical College; 9 years occupational experience.

David Mayo, Electronics Technology

A.A.S., Darton College; Diploma, South Georgia Technical College; 15 years occupational experience; Certifications: Electronics Technicians Association, Senior Level Certification in Wireless Communications and Fiber Optics Installer Certification; USAF Training Certificates in Communications Test Equipment, Analog Electronics, and Digital Electronics.

Teresa McCook, Criminal Justice Technology

M.P.A., Columbus State University; B.S. Columbus State University; 4 years occupational experience; Certification(s): P.O.S.T. Basic Law Enforcement, P.O.S.T. Probation Officer, P.O.S.T. Communication Officer; P.O.S.T. General Instructor; GA Department of Corrections Basic Probation Officer Training; Georgia D.A.R.E. Officer; Georgia Resource School Officer; P.O.S.T. Certified Peace Officer; Americus Red Cross First Aid and CPR Instructor.

Dorothea McKenzie, Cosmetology

Diploma, South Georgia Technical College; Master Cosmetologist License; Instructor Trainee Diploma, South Georgia Technical College; 26 years occupational experience; Certification in Salon Safety, Diseases, and Salon Services.

Kim Miller, General Education (Mathematics)

M.Ed., M.S.A. B.S.Ed., Georgia Southwestern State University; 8 years occupational experience.

Brett Murray, Law Enforcement Academy

M.P.A., B.S., Columbus State University; 19 years occupational experience; POST Certified Peace Officer; POST Certified Instructor; Georgia Chiefs Association Command College, FBI National Academy.

Raven Payne, General Education (English)

M.S., Troy University; B.A., Spelman College; 3 years occupational experience.

Lisa Penton, Early Childhood Care and Education

M.S.Ed., Columbus State University; B.S., Georgia Southwestern State University; 9 years occupational experience.

Gil David Pittman, Machine Tool Technology

Diploma, South Georgia Technical College; 16 years occupational experience.

David Michael Reaves, Aircraft Structural Technology

Diploma, South Georgia Technical College; Diploma, Middle Georgia Technical College; 2 years occupational experience.

Starlyn Sampson, Auto Collision Repair Technology

Diploma, South Georgia Technical College; 17 years occupational experience. Certifications: Factory Ford Training Refinishing, Plastics and Plastic Welding Repair, Paint and Color Adjustment, CCC Pathways 4.1 Computerized Estimating and Appraisal, Computerized Unibody Frame Straightening, DuPont Chromasystem Refinishing.

Michele Seay, General Education (Psychology)

M.S., Troy State University; B.A. Albany State University; 3 years occupational experience.

Diana Skipper, Medical Assisting

A.D.N. Georgia Southwestern State University; 30 years occupational experience.
 Certification(s): HIV Facilitator; First Aid and CPR; Advance Cardiac Life Support;
 License: Georgia GBoard of Nursing Registered Professional Nurse (RN).

Sharon Smith, Computer Information Systems

B.S., Georgia Southwestern State University; 3 years occupational experience.

Katrice Taylor, General Education (English)

M.P.A., B.A., Valdosta State University; 7 years occupational experience.

Larry Trussell, Business & Industry Services Specialist

34 years occupational experience. Certification(s): Master Instructor Avionics
 Instrument Systems; Industrial Quality College; On The Job Trainer (OJT); NSC
 Defensive Driver Instructor; Graduate, AFNCO Academy; Master Sergeant, Retired,
 United States Air Force.

Ludwig Watzlowick, Culinary Arts

A.A.T., Albany Technical College; Diploma, Albany Technical College; Diploma,
 Meadows College; 8 years occupational experience.

Lora Wiseman, Drafting Technology

Diploma, South Georgia Technical College; Attended classes, Georgia Southwestern
 State University; 13 years occupational experience.

Willie Yarbrough, Construction Trades

Diploma, South Georgia Technical College, 20 years occupational experience.
 License(s): Associated General Contractors (A.G.C.)

South Georgia Technical College also utilizes part-time adjunct faculty to provide instruction in some of its courses. The individuals that serve in the capacity of adjunct faculty are fully qualified to teach the course(s) assigned to them.

FACULTY & STAFF DIRECTORY

Phone #'s (229) area code

PRESIDENT'S OFFICE

Sparky Reeves, President	931-2150
Tami Blount, Administrative Assistant	931-2150
Su Ann Bird, Vice President for Institutional Advancement	931-2110
Valerie Winheim, Marketing Coordinator	931-4739
Eulish Kinchens, Resource Development Assistant	931-2248
James Frey, Athletic Director/Women's Head Basketball Coach	931-2039
Kezia Conyers, Assistant Women's Basketball Coach/Intramurals	931-2545
Douglas Byrd, Men's Head Basketball Coach	931-2025
Chris Ballauer, Assistant Men's Basketball Coach	931-2596
Terri Battle, Athletic/Campus Life Assistant	931-2719
Wray Skipper, Information Technology Director	931-2354
Tom Jones, Technology Specialist	931-2178
Gary Prince, Technology Support Specialist	931-2214

ACADEMIC AFFAIRS

Dr. John Watford, Vice President for Academic Affairs	931-2004
Teresa O'Bryant, Administrative Assistant	931-2004
David Kuipers, Assistant Vice President for Academic Affairs	931-2017
Raymond Holt, Dean for Academic Affairs	931-2809
Vanessa Wall, Dean of Homeland Security	931-2713
David Finley, Academic Dean	931-2068
Andrea Oates, Academic Dean	931-2705
Melissa Grantham, Administrative Assistant	931-2716
Jerry Stovall, Director of Library and Media Services	931-2562
Michelle Sealy, Director of Tech Prep & Secondary Programs	931-5161
Vickie Austin, College Connections Specialist	931-2866

ECONOMIC DEVELOPMENT & ADULT EDUCATION

Wally Summers, Vice President	931-2040
Tami Blount, Administrative Assistant	931-2040
Larry Trussell, Business & Industry Services Specialist	931-2499
Jan Hobgood, Assistant Vice President for Adult Education	931-2565
Kim Fuller, Transition Specialist	931-2571
Connie Wise, Chief GED Examiner	931-4998
Kenia Wills, Adult Literacy Data Entry Specialist	931-7323
Lisa Jordan, Adult Literacy Administrative Assistant	931-2565
Alfred Harris, Business & Industry Services Technician	931-5032

STUDENT AFFAIRS

Karen Werling, Vice President of Student Affairs	931-2902
Dr. Deborah Jones, Assistant Vice President of Student Navigation	931-2251
Julie Partain, Registrar	931-2249
Whitney Crisp, Director of Admissions	931-2299
Audra Cook, Registrar Assistant	931-2252
Charlene Williams, Administrative Assistant	931-2622
Terrie Smith, Administrative Assistant	931-2760
Candie Walters, Student Affairs Assistant	931-2273
John Wilder, Student Affairs Coordinator	931-4258

LaKenya Johnson, Special Services Coordinator	931-2595
Sammy Stone, Director of Campus Safety & Dorms	931-2130
Campus Safety-Office	931-2599
Campus Safety-Cell Phone	938-2992

ADMINISTRATIVE SERVICES

Janice W. Davis, Vice President of Administrative Services	931-2132
Lea Coe, Assistant Vice President of Administrative Services	931-2352
Mark Brooks, Director of Administrative Services	931-2318
Gail Clary, Purchasing Technician	931-2318
Tawanna Wright, Administrative Services Administrative Assistant	931-2132
Robin Bell, Accounts Payable	931-2652
Karen Lewis, Payroll/Personnel	931-2633
Gloria Bell, Accounts Receivable	931-2381
Gwen Hall, Accounts Payable	931-2449
Sandy Larson, Human Resources Director	931-2450
Carrie Wilder, Director of Financial Aid	931-2351
Amanda Barrett, Financial Aid Specialist	931-2693
DeAndra Robinson, Financial Aid Specialist	931-2755
Yolanda Tyson, Financial Aid Assistant	931-2319
Sandhya Muljibhai, Workforce Investment Act Coordinator	931-2553
Minnie Williamson, WIA Assistant	931-2172
Phillip Brown, Receiving/Central Supply	931-2856
Paul Fitzgerald, Bookstore Manager	931-2677

AUXILIARY SERVICES

Don Smith, Special Assistant to the President	931-2731
Cynthia Carter, Career Services Director	931-2057
Linda Edge, Administrative Assistant	931-4251
