

# NEW SIGN-ON METHOD FOR BANNERWEB & BLACKBOARD

From now on, you will be able to log in to all of your SGTC accounts (email, BannerWeb, Blackboard) with the same login information! You will use your email login info (the part that comes before the @ in your student email address: example: [ksmith@student.southgatech.edu](mailto:ksmith@student.southgatech.edu); login will be **ksmith**) and password.

You will probably encounter a screen that looks like this when you click the link to log in to BannerWeb:

Do not worry! There are a number of ways to get past this error message, but in this case (Chrome) you will need to click “Advanced,” then “proceed.” You just need to tell your browser that it’s okay to go past this security measure. “Back to safety” will only take you away from BannerWeb, so **don’t** click that.

The new login screen looks like this:

## SINGLE SIGN ON

Sign in to your account

<input type="text" value="User Name"/>	<input type="password" value="Password"/>	<input type="button" value="Sign In"/>
--	---	--

*Banner Web is not compatible with Microsoft Edge. Please use Internet Explorer, Safari, Firefox or Chrome.*

**Username: The first part of your SGTC email address before the @ sign**

**Password: Your SGTC email password**

*Note: All users must login to Office 365 at least once prior to accessing Single Sign On for the first time.*

New Students and Alumni [login here](#).

Forgot your password? [Recover it here](#).

In order to log in successfully, you need to have logged in to your SGTC student email account at least once before. If you've done that, you just need to enter your user name (first part of your SGTC email address, before the @) and email password in order to access Banner Web. If you have not logged into your Banner Web account this semester, you will be prompted to enter your Student ID and pin (birthdate mmddyy).

After entering this information and clicking "sign in," you should be able to access your account.
