Recent troubling events have occurred on college campuses across the nation. Persons with past criminal backgrounds have moved into college residence halls without the college's knowledge. The laws of most states, including Georgia, do not require law enforcement officials to notify college officials when a convicted criminal (on probation or parole) enrolls. It seems reasonable that the college be informed when an applicant for housing has been arrested and/or convicted of a serious crime. Being arrested and/or convicted does not automatically exclude one from on-campus housing. However, those who have committed crimes which pose a threat to our residents' property or persons do not need to live on campus where they have easy access to college students and their belongings. A panel will review each situation. While crime is low at SGTC, we want to do everything in our power to insure our students' safety. Therefore, all on-campus applicants are required to complete the following. (Note: no student will be assigned a room until this form is submitted and approved)

Many Vaccine Information Statements are available in español and other languages.

See <http://www.immunize.org/vis>.

Meningococcal ACWY vaccine can help protect against meningococcal disease caused by serogroups A, C, W, and Y. A different meningococcal vaccine is available that can help protect against serogroup B. Meningococcal disease can cause meningitis (infection of the lining of the brain and spinal cord) and infections of the blood. Even when it is treated, meningococcal disease kills 10 to 15 infected people out of 100. And of those who survive, about 10 to 20 out of every 100 will suffer disabilities such as hearing loss, brain damage, kidney damage, loss of limbs, nervous system problems, or severe scars from skin grafts. Meningococcal disease is rare and has declined in the United States since the 1990s. However, it is a severe disease with a significant risk of death or lasting disabilities in people who get it.
